In May 2016, when Updater's monthly market penetration was below 5%, the Company announced the ambitious performance milestone of surpassing 15% Estimated Market Penetration of Monthly Moves Processed by year-end 2017. As a result of achieving this milestone, the Company now has the scale necessary to successfully deliver on the next stages of its evolution: developing and selling Business Products, and reinventing the Mover experience.

"Surpassing 15% of all moves in the US is a major accomplishment for Updater and a great testament to the hard work of our team," said David Greenberg, CEO of Updater. "Updater is the pioneering relocation technology, or 'relo-tech', company in the US, and our platform has emerged as the industry leader. As we continue to scale, we expect Updater's platform to become the industry standard across all phases of consumer relocation, and therefore mission critical for Businesses seeking to communicate with Movers."
