### About Firebrick (ASX:FRE)

Firebrick is a pharmaceutical company founded with the mission to commercialise a nasal spray treatment for the common cold based around the potential of povidone-iodine as a broad-spectrum antimicrobial agent. The Company owns numerous granted and pending patents, including a core patent family that covers the use of intranasal povidone-iodine for the treatment and prevention of the common cold and a second patent family covering the prevention of pandemic viral diseases, including COVID-19. The Company also has a third patent family covering the Nasodine formulation, which has been granted in Australia. Firebrick is completing a second Phase 3 trial for Nasodine, to confirm its efficacy as a treatment for the common cold and support international approvals.
