- Highly encrypted for security conscious end users.

➔ **World-leading portfolio of complementary premium solutions and technologies**

➔ **Trusted by some of the world's most discerning security conscious customers** – commercial, industrial, military and government sectors

➔ **Strong competitive position** underpinned by Ava's IP, OEM and distribution relationships, and wealth of data for machine learning

➔ **Flexible commercial models** with growing recurring revenues

SENSING BEYOND SECURITY

Building on success in existing deployments in multiple infrastructure types

USE OF SOLUTIONS FOR SENSING APPLICATIONS

- Identifying and responding to a threat at the perimeter, or within a facility.
- Managing personnel access to restricted areas.
- Securing critical assets and buildings.

AVA RISK GROUP'S SOLUTIONS

DETECT

- Borders, Perimeters, Critical Infrastructure.
- Data investigation on patterns of intrusion.
- Data generation and analytics using existing fibre networks targeting telecommunications sector.

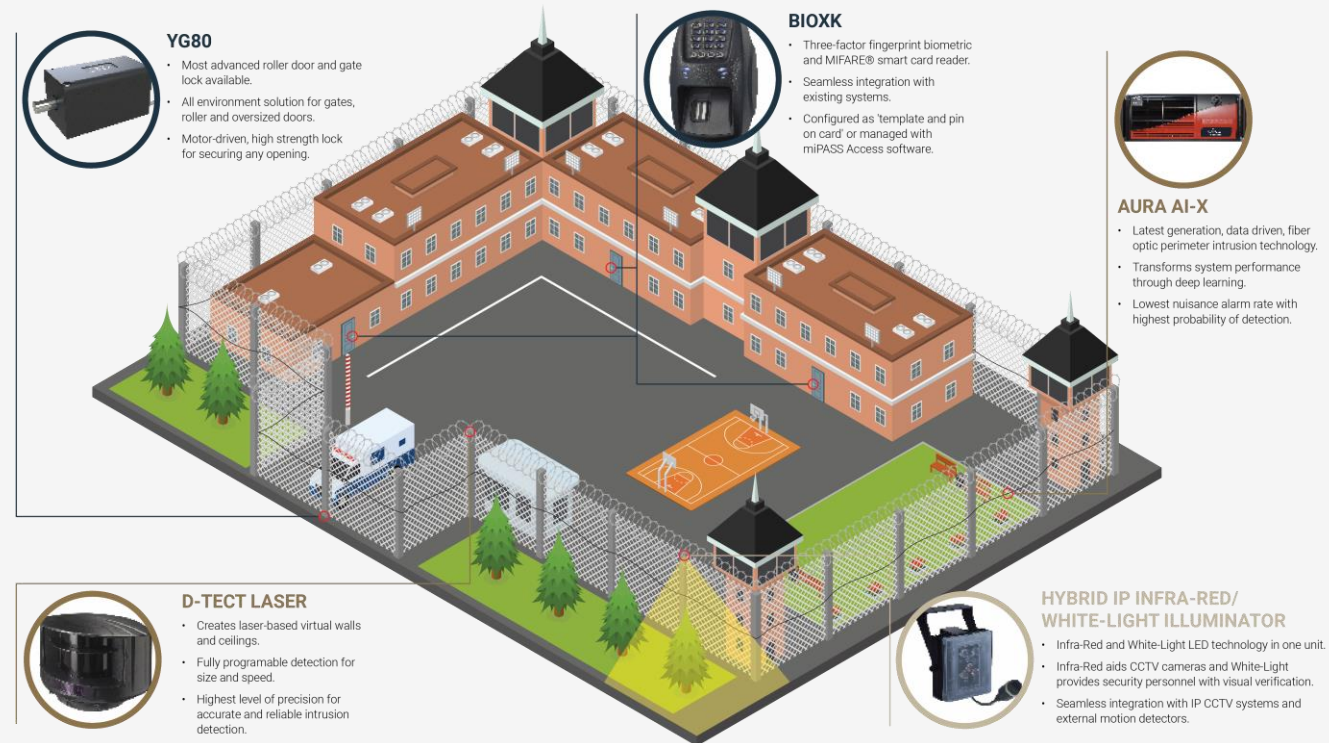

ILLUMINATE

- Supports Detect's smaller physical sites, targeted customer designs, illuminate CCTV images, identifying activity.

ACCESS

- Protect key infrastructure assets and strengthen vulnerable access points.

GO TO MARKET AND REVENUE MODEL

PROVEN GO-TO-MARKET STRATEGIES WITH GLOBAL REACH

Products:
Project based revenue in Detect supporting system integrator solutions to end users. Key distributor relationships driving product sales in the Access and Illuminate segments.

Services:
Support for the installation and commissioning of Detect systems.

Recurring Subscriptions:
Multi-year support agreements providing access to machine learning algorithms and data libraries to improve Detect system performance.

Established go to market through extensive global partner network:
Mix of system integrators and direct distribution partners allows us to provide our solutions worldwide and in remote and challenging locations.

DRIVING GROWTH IN FY25 AND BEYOND

Building on our market verticals and geographies with sophisticated global partners

Proven technology

- Aura Ai-X
- Cobalt YD30 series development
- LoRa Connect wireless system
- Growing recurring revenue via subscription

Enhanced commercial capability with high profile, quality partners

- Telstra
- UGL
- Siemens
- dormakaba
- Other key partners

Grow annual recurring revenue:

- Currently \$2m ARR under contract
- Sell subscription contract with every sale of Aura Ai-X

Detect Sales Opportunity Pipeline (A\$m)

- Total Pipeline with expected close dates in FY25 is currently **\$99m** (excludes expected telco sector orders)
- Opportunities across key geographies – APAC, Americas, Europe and Middle East.
- 12 opportunities > \$1m (\$38m of the pipeline)
- Pipeline excludes **Access / Illuminate**, expected to deliver revenue of \$12m - \$15m in FY25.

CASE STUDY: TELSTRA OPPORTUNITIES

Securing mobile tower access

Opportunities:

- Protection of data cabling via surface and subsea sensing
 - Intrusion events on major communication Towers
 - Access to critical assets
 - Pit lid intrusion / lifting, cable tampering, digging
-
- ✓ Technology demonstrated the superior ability of Aura Ai-X DAS technology in detecting events and providing appropriate classification and reporting.
 - ✓ Illuminate products demonstrated an excellent capability in point and small site detection and sensing of interference.
 - ✓ Protects the assets, the public and the network performance

CASE STUDY: EUROPE BORDER

Ava Risk Group successfully completed installation and support for a key Border between Poland – Russia and Poland – Belarus.

- **Monitoring of a 200km+ Border perimeter fence, buried with extremely challenging environmental conditions**
 - New Aura AiX reduced alarms substantially, nuisance alarms down to under 2 per day
 - Replaced incumbent due to too many alarms and lacking functionality The fence is currently operating at 96% probability of detection (POD) and 4% nuisance alarm rates (NAR)
 - Customer upgrading other borders now (replacing the failed incumbent competitor) with further orders expected

Outcome: Aura AiX was rigorously tested by the client and their third parties to pass with a tremendous alarm improvements due to the Deep learning AI.

CASE STUDY: TRANSPORT INFRASTRUCTURE

- Sydney Metro – western line **fully automated**
- Over 40kms of fencing protected with Ava's Aura Ai-X DAS sensors installed with new deep learning modules activated
- **Growth opportunities** in unprotected sites already contracted
- **Independent third-party trial** for 3 months, completed in 48 hours due to superior performance of Aura Ai-X. Low alarms very high detection was the key
- Infrastructure protection is the second material driver of growth in the Detect segment. We continue to work with multiple system integrators in Australia and globally based on Aura Ai-X results

- **Revenue growth** driven by pipeline conversion in Detect and expansion in adjacent markets.
- **Leverage the existing drivers of growth** across all business segments:
 - Adjacencies such as telecommunications in Detect
 - Grow recurring revenue via annual upgrade path in the Detect segment to improve system performance
 - OEM / Distribution channels to support the Access and Illuminate segments
 - Improved gross margin due to growth in higher margin Detect segment.
- Operating cost base stabilised in H2 FY24 and demonstrates leverage of revenue growth in H2 to improve EBITDA performance.

FY24 PERFORMANCE SUMMARY

Mal Maginnis / Neville Joyce

FY24 PERFORMANCE HIGHLIGHTS

- Continued investment in our core technologies and commercial capability to drive growth:
 - Aura Ai-X** – market leading fibre optic sensing technology demonstrating enormous versatility in its application.
 - Certification of **Cobalt series** locks which has accelerated growth in the Access segment via key distribution channels.
 - Development of **LoRa** wireless solution to integrate up to 500 devices forming a unified control and security network.
- Group revenue / Other Income of \$30.2m**, up 6% on previous year. As expected, H2 revenue grew by 16% on H1.
- Positive EBITDA in H2** demonstrating the scalable cost base. Full year EBITDA loss of \$0.9m reflecting investment in commercial capability and technology during FY2024.
- The Group successfully **raised \$4.3m via institutional placement and share purchase plan** to support delivery of projects and provide working capital
- Cash balance of \$5.1m on 30 June 2024**, leaving the Group well funded for growth.

FY24 PERFORMANCE HIGHLIGHTS

FY24 sales order intake up 14%, sales order backlog of \$8.5m to support FY25 revenue

- **Growth in sales order intake to \$35.3m**, up 14% on the prior year.
 - **Detect** up 12% driven by strong demand for Aura Ai-X, the Company's latest generation data-driven detection system.
 - **Access** up 48% primarily driven by orders from dormakaba for the Cobalt series locks.
 - **Illuminate** flat order intake as focus on refreshing LoRa technology. First orders from US correctional facilities highlighting the opportunity for Illuminate to complement the Detect segment's fibre optic sensing solutions.
- Progress building sophisticated partner relationships globally with key customers and distributors including Telstra, UGL, Siemens, dormakaba

GROUP FINANCIAL SUMMARY

\$Am	H1 FY24	H2 FY24	FY24	FY23	Var

Profit / (loss) after tax	(2.3)	(2.9)	(5.2)	(1.1)	(4.1)

- Revenue growth driven by stronger H2 in Detect which has resulted in positive EBITDA in H2.
- Lower gross margin at a consolidated level due to change in revenue mix – growth in lower margin Access revenue in FY24.
- EBITDA loss attributable to upfront impact of technology and commercial capability investments in H1. Cost base has stabilised in H2 highlighted by improved EBITDA as revenue has grown.
- Impairment of Goodwill in the Illuminate segment a result of lower than previously forecast revenue performance in FY24.

1. EBITDA is profit / (loss) after tax adjusted for depreciation and amortisation, impairment of goodwill, finance expense and foreign exchange movements per Consolidated Statement of Comprehensive Income.

REVENUE PROFILE BY SEGMENT AND TYPE

Revenue by segment (A\$m)

Detect:

- Slightly lower revenue due to slow Q1. Detect revenue growth of 32% in H2 compared to H1.
- Strong sales order intake resulting in sales order backlog for FY25.
- **Average gross margin stable at 66% - 70%.**

Access:

- Revenue growth of 38% underpinned by dormakaba orders following successful product certifications.
- **Average gross margin 50% - 55%.**

Illuminate:

- Revenue growth of 5%.
- **Average gross margin 45% - 50%.**

- Movement in cash per cash flow statement.
- Increase in receivables driven by timing of Detect shipments in Q4, particularly UGL which will be invoiced in H1 FY25 as implementation milestones are finalised.
- Reduction in Intangibles driven by impairment charge against Goodwill in the Illuminate segment (\$1.5m). This is partly offset by continued technology investment during FY24.
- Borrowings relate to working capital facilities and Covid-19 support loans in the Illuminate segment.

- Net proceeds of \$4.1m via an Institutional Placement and Share Purchase Plan conducted during H2.
- Slight increase in working capital driven by timing of Q4 Detect shipments expected to be collected in H1 FY25.
- Development expenditure driven largely by investment in Aura Ai-X platform, Cobalt series locks in Access and LoRa system development in Illuminate.
- Dividends paid is the dividend payment during FY2024 (\$0.4m) and reclassification of unclaimed dividends relating to prior declared dividends (\$0.2m).

OUTLOOK

Mal Maginnis

STRONG GROWTH CATALYSTS IN EACH SEGMENT

DETECT

- Aura AI-X the solution of choice for the protection of critical infrastructure worldwide, providing Ava with both capital and recurring revenue income streams. Sold 100+ units since release – Australia, US, Poland, Chile.
- Expand solutions to adjacent applications and customers.

ACCESS

- Growing demand for the Cobalt 2 locks via dormakaba's distribution network.
- Major channel network growth using the quality of our distribution partners.

ILLUMINATE

- Cross sell combined Illuminate and Detect solutions.
- Expand product sales in North America and Asia Pacific via established channels.

COMPELLING CASE FOR INVESTMENT

Leading technology with scalable model and organisational capability to support growth plans

TRACK RECORD OF GROWTH AND RESULTS

- FY24 sales order intake up 14%
- High gross margins – circa 60% - 65%
- Trusted by blue chip and government customers

STRONG COMPETITIVE ADVANTAGES

- Defensible competitive position and investments in innovation including AI and deep learning
- Experienced leadership team
- Customer-centric focus with customised, flexible, and scalable solutions

HIGHLY SCALABLE MODEL

- Blue chip customer base and long-term recurring revenue potential
- Efficient, scalable go-to-market strategies which include key distributor partners
- Target revenue range of \$57.1m to \$71.6m by FY26 with operating leverage

GLOBAL OPPORTUNITY

- Well-placed to become a global leader in smart digitisation for security and asset protection, thousands of products installed in +70 countries
- Emerging global partnerships with large multinationals
- Existing global revenue base
