## Director Resignation

QX Resources Limited (ASX: QXR, 'QXR') advises of the resignation of Mr Benjamin Jarvis, effective from today, due to the increased commitments required for his other business opportunities.

The Company would like to thank Mr Jarvis for his invaluable contributions, guidance and support to QXR over the last four years and wishes him well in his future endeavours.

**Authorised by the Company Secretary of QX Resources Limited.**

### **About QX Resources:**

QX Resources (ASX:QXR) is focused on exploration and development of battery minerals, with hard rock lithium assets in a prime location of Western Australia (WA), lithium brine project in the USA, copper/moly/gold assets in Queensland and a strategic investment in nickel sulphides in Sweden. The aim is to connect end users (battery, cathode and car makers) with QXR, an experienced explorer/developer of battery minerals, with an expanding mineral exploration project portfolio and solid financial support.

**Lithium hard rock portfolio:** QXR's lithium strategy is centred around WA's prolific Pilbara province, where it has four projects in strategic proximity to some of Australia's largest lithium deposits and mines. Across the Pilbara, QXR's regional lithium tenement package (both granted or under application) spans more than 350 km<sup>2</sup>.

**Lithium brine:** QXR has entered an Option to Purchase Agreement to earn-in to 75% the Liberty Lithium Brine Project, a large recently consolidated lithium brine project in California, USA.

**Copper-Gold-Moly portfolio:** QXR is also developing Central Queensland copper-gold-moly projects on a 70% basis with Zamia Resources Pty Ltd (30%), together with some 100% owned prospects.

**Nickel sulphides:** QXR has a significant 39% shareholding in unlisted public Australian company Bayrock Resources Limited, which has a portfolio of highly prospective battery minerals assets in Sweden, primarily in nickel, cobalt and copper. QXR is assisting Bayrock with project development and financing initiatives
