ABOUT MDL

Mineral Deposits Limited (ASX: MDL) is an established, ASX-listed, integrated mining company with a 50% equity interest in TiZir Limited ('TiZir') in partnership with ERAMET of France.

The TiZir joint venture comprises two integrated, operating assets – the Grande Côte mineral sands operation ('GCO') in Senegal, West Africa and the TiZir Titanium & Iron ilmenite upgrading facility ('TTI') in Tyssedal, Norway.

GCO is a large-scale, cost competitive mineral sands operation located in Senegal that is fully integrated from mine-to-ship, using owned or controlled infrastructure. GCO commenced mining activities in March 2014 and, over an expected mine life of at least 25 years, will primarily produce high quality zircon and ilmenite. A majority of GCO's ilmenite is sold to TTI. GCO also produces small amounts of rutile and leucoxene.

TTI upgrades GCO ilmenite to produce high quality titanium feedstocks, primarily sold to pigment producers, and a high-purity pig iron, a valuable co-product, which is sold to ductile iron foundries. TTI benefits from access to cheap and clean power, and excellent logistics, in particular, year-round shipping capacity and customer proximity.

Chairman's letter

6 March 2017

Fellow Shareholder

On behalf of Mineral Deposits Limited (**MDL or Company**), I am pleased to invite you to participate in the retail component of a fully underwritten 3 for 4 accelerated non-renounceable entitlement offer of new MDL ordinary shares (**New Shares**) at an issue price of A\$0.42 per New Share (**Retail Entitlement Offer**).

On Thursday, 2 March 2017, the Directors of your Company announced their intention to raise approximately A\$39.2 million through an institutional placement (raising approximately A\$6.5 million) (**Placement**) and an accelerated non-renounceable entitlement offer (raising approximately A\$32.7 million) (**Entitlement Offer**) (the Placement and the Entitlement Offer collectively, **Capital Raising**). The Placement and the institutional accelerated component of the Entitlement Offer (**Institutional Entitlement Offer**) was successfully completed on Friday, 3 March 2017. The Capital Raising is fully underwritten by Morgans Corporate Limited (**Underwriter**).

The issue price of A\$0.42 per New Share represents a 12.5% discount to the last traded price of MDL Shares before the Capital Raising was announced (being A\$0.48 on Wednesday, 1 March 2017).

This invitation relates to the Retail Entitlement Offer, which is expected to raise up to approximately A\$24.2million. The Retail Entitlement Offer offers Eligible Retail Shareholders the same opportunity offered to those investors who participated in the Institutional Entitlement Offer. Eligible Retail Shareholders who accept their Entitlement in full will have the opportunity to apply for Additional New Shares in excess of their Entitlement (subject to scale back at the sole discretion of your Company) under a 'top up' facility (**Top Up Offer**).

The proceeds of the Capital Raising will be used primarily to repay ERAMET, MDL's partner in the TiZir joint venture (**TiZir**), for funds previously advanced to your Company to enable MDL to meet its joint venture commitments. The total amount outstanding to ERAMET at 31 December 2016 was US\$13.8 million. Of this amount, US\$7.5 million was payable by MDL on or before 31 December 2016, with the remaining balance payable on or before 31 March 2017. Assuming the debt outstanding to ERAMET is not repaid before 31 March 2017, the maximum balance payable, including accrued interest, is expected to be US\$14.1m. However, your Company intends to extinguish the total debt balance following settlement of the Capital Raising.

Proceeds raised from the Capital Raising over and above the amount due to ERAMET (and Capital Raising transaction costs) are intended to be made available to TiZir, if required, to fulfil your Company's obligations with respect to the TiZir Committed Facility (**Committed Facility**), including up to US\$6.2m which may be required in March 2017 to fund TiZir's senior secured corporate bond obligations. The Committed Facility, which is fully underwritten by ERAMET, was put in place by ERAMET and MDL following discussions with TiZir bondholders in December 2015 and has been made available to TiZir primarily for the payment of interest up until maturity of the TiZir bond. Any remaining proceeds from the Capital Raising will be used for the general working capital commitments of TiZir and MDL.

Your Company made some significant advances in 2016, particularly in the areas of optimising operations, safety and cost efficiencies. As a result, we have a strong operating platform to take advantage of what we see as the improving outlook for our commodities in 2017. This Capital Raising will help underwrite the Company's position, alleviate the risk of dilution of our joint venture interest and ensure MDL shareholders will benefit from any future value accretion that is generated by your Company.

This Retail Offer Document contains important information about the Retail Entitlement Offer, such as:

- details of the Retail Entitlement Offer, including key dates;
- MDL's Investor Presentation and ASX Announcements in relation to the Capital Raising; and
- actions to be taken by Eligible Retail Shareholders.

A personalised Entitlement and Acceptance Form accompanies this Retail Offer Document. This form details your entitlement. If you want to participate in the Retail Entitlement Offer this form must be completed in accordance with the instructions contained in the form before the offer closes. Unless extended, the **Retail Entitlement Offer closes at 5.00pm (Melbourne time) on Monday, 20 March 2017**.

My fellow board members and I intend to take up our full Entitlement. In compliance with the ASX Listing Rules, we will not be applying for any additional New Shares under the Top Up Offer applicable to the Retail Entitlement Offer.

Entitlements are non-renounceable and will not be tradeable on ASX or otherwise transferable. Shareholders who do not take up some or all of their entitlements will not receive any value in respect of those Entitlements they do not take up.

You should consult your stockbroker, accountant or other independent professional adviser to evaluate whether or not to participate in the Retail Entitlement Offer. You should also refer to the *Appendix 1 – Key Risks* section of MDL's Investor Presentation in relation to the Capital Raising which was released to ASX on Thursday, 2 March 2017 and is included in this Retail Offer Document.

I encourage you to carefully read this Retail Offer Document and consider this investment opportunity. Should you require further assistance, please contact the MDL Shareholder Information Line on 1300 850 505 (within Australia) or +61 3 9415 5000 (outside Australia) between 8:30am and 5:00pm (Melbourne time) Monday to Friday during the Offer Period for further information.

On behalf of the Board of MDL, I thank you for your ongoing support.

Yours sincerely

Nic Limb
Chairman

1. Details of the Entitlement Offer

1.1 The Entitlement Offer

The Company is conducting a fully underwritten 3 for 4 pro rata accelerated non-renounceable entitlement offer to Shareholders as at the Record Date in Australia and New Zealand at the Issue Price of A\$0.42 per New Share.

Institutional Entitlement Offer

On Monday, 6 March 2017, the Company announced that it had successfully completed the Institutional Entitlement Offer, raising approximately A\$8.5 million. Settlement of the Institutional Entitlement Offer is expected to occur on Friday, 10 March 2017. Shares to be issued under the Institutional Entitlement Offer are expected to be allotted and commence trading on Monday, 13 March 2017.

Retail Entitlement Offer

Each Eligible Retail Shareholder is entitled to apply for 3 New Shares for every 4 Existing Shares held on the Record Date. The Retail Entitlement Offer is non-renounceable. This means that Shareholders who do not take up their Entitlements by 5.00pm (Melbourne time) on the Closing Date of Monday, 20 March 2017 will not receive any payment or value for those Entitlements, and their proportionate equity interest in the Company will be diluted.

The number of New Shares to which you are entitled is shown on the accompanying Entitlement and Acceptance Form. If you have more than one registered holding of shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have separate Entitlements for each separate holding.

Fractional entitlements to New Shares have been rounded up to the nearest whole number of New Shares.

New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally with Existing Shares on issue, including in respect of entitlement to dividends. If you take no action you will not be allocated any New Shares and your Entitlement will lapse.

To qualify for the Retail Entitlement Offer, a Shareholder must:

- (a) be registered as a Shareholder at 7.00pm (Melbourne time) on the Record Date;
- (b) have an address in Australia or New Zealand as recorded on the Company's share register as at the Record Date;
- (c) not have received an offer (other than as nominee) under the Institutional Entitlement Offer (and have not been treated as an ineligible institutional Shareholder under the Institutional Entitlement Offer);
- (d) not be in the United States and not be acting for the account or benefit of a person in the United States (to the extent such a person holds securities in MDL for the account or benefit of such persons in the United States); and
- (e) be eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer without any requirement for a prospectus, disclosure document, or any lodgement, filing, registration or qualification,

(Eligible Retail Shareholder).

Retail Shareholders who are not Eligible Retail Shareholders are 'Ineligible Retail Shareholders'. MDL reserves the right in its sole and absolute discretion to determine whether a Shareholder is an Eligible Retail Shareholder or an Ineligible Retail Shareholder.

By returning a completed personalised Entitlement and Acceptance Form or making a payment by BPAY®, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Retail Shareholder. Nominees, trustees or custodians are therefore requested to obtain independent professional advice as to how to proceed.

MDL may (in its absolute discretion) extend the Retail Entitlement Offer to any institutional Shareholder that was eligible to participate in the Institutional Entitlement Offer but was not invited to participate in the Institutional Entitlement Offer or to other retail Shareholders (subject in each case to compliance with relevant laws).

By receiving this Retail Offer Document, you will be taken to have acknowledged and agreed that determination of eligibility of investors for the purposes of the institutional or retail components of the Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of MDL and each of MDL and the Underwriter and its affiliates disclaim any duty or liability (including for negligence) in respect of that determination and the exercise or otherwise of that discretion, to the maximum extent permitted by law.

1.2 Purpose of the Entitlement Offer

The proceeds of the Entitlement Offer will be used to:

- repay outstanding debt to ERAMET (a maximum of US\$14.1 million subject to timing of repayment);
- provide funding to TiZir, if required, to fulfil the Company's obligations with respect to the TiZir Committed Facility, including up to US\$6.2 million which may be required in March 2017 to fund TiZir's senior secured corporate bond obligations;
- meet the costs of the Entitlement Offer; and
- fund the general working capital commitments of TiZir and MDL, should any balance remain.

Further details regarding the use of funds are set out in the Investor Presentation.

1.3 Top Up Offer

Eligible Retail Shareholders who take up their Entitlements in full are also able to participate in a further offer of Additional New Shares, being the New Shares that have been initially offered to Eligible Retail Shareholders under the Retail Entitlement Offer and have not been taken up by them.

In addition:

- (a) the Top Up Offer is only made to Eligible Retail Shareholders who have fully taken up their Entitlements;
- (b) the Top Up Offer is not capped but no Eligible Retail Shareholder may receive any New Shares which would result in the relevant Shareholder having Voting Power in the Company in excess of 20% of the total issued share capital of the Company;
- (c) there is no guarantee that any Application for Additional New Shares under the Top Up Offer will be successful and the Directors reserve the right to issue any shortfall by way of the Top Up Offer or by other means;
- (d) the Top Up Offer has the same Closing Date;
- (e) the Issue Price of Additional New Shares under the Top Up Offer is the same as the Issue Price, which is A\$0.42 per Additional New Share; and
- (f) the Company will not issue Additional New Shares under the Top Up Offer where to do so would be likely to result in a breach of its constitution, the Corporations Act or the ASX Listing Rules.

1.4 Underwriting

The Entitlement Offer is underwritten by Morgans Corporate Limited subject to the terms and conditions of the Underwriting Agreement dated 2 March 2017. Please refer to Section 8 of this Retail Offer Document for further details.

It is important to note that the Underwriter will be acting for and providing services to the Company in relation to the Entitlement Offer and will not be acting for or providing services to Shareholders. The Underwriter has been engaged solely as an independent contractor and is acting solely in a contractual relationship on an arm's-length basis with the Company. The engagement of the Underwriter by the Company is not intended to create any agency or other relationship between the Underwriter and Shareholders.

1.5 Issue of New Shares

New Shares under the Retail Entitlement Offer are expected to be issued on or around Monday, 27 March 2017 (subject to variation at the absolute discretion of the Company). Fractional entitlements to New Shares will be rounded up to the nearest whole number of New Shares.

The Company reserves the right (in its absolute discretion) to reduce the number of New Shares allocated to Eligible Retail Shareholders, or persons claiming to be Eligible Retail Shareholders, if their claims prove to be overstated or otherwise incorrect or if they fail to provide information to substantiate their claims.

1.6 ASX quotation

The Company has applied for official quotation of New Shares issued under this Retail Offer Document. If permission for quotation is not granted by ASX, the New Shares will not be issued and Application Monies will be refunded (without interest) as soon as practicable.

1.7 Application Monies

Until New Shares are issued, the Company will hold the Application Monies in one or more bank accounts in Australia. The account(s) will be established and kept solely for the purpose of depositing Application Monies and retaining those funds for as long as required.

Any interest accrued on Application Monies will not be paid to the relevant Eligible Retail Shareholder, including if the Retail Entitlement Offer is cancelled or withdrawn.

1.8 Market prices for Shares on ASX

The lowest and highest market prices of Shares on ASX during the three months immediately preceding the announcement of the Entitlement Offer on Thursday, 2 March 2017 were A\$0.40 and A\$0.58 respectively. The Issue Price of A\$0.42 per New Share represents a 12.5% discount to the closing price of the Company's Shares on ASX on Wednesday, 1 March 2017, which was the last day Shares traded on the ASX before the announcement of the Entitlement Offer and a 7.0% discount to TERP, the theoretical ex-rights price.

1.9 Foreign Shareholders

The New Shares being offered under this Retail Offer Document are being offered to Eligible Retail Shareholders who must have registered addresses in Australia or New Zealand.

The Retail Entitlement Offer will not be offered to Non Eligible Foreign Shareholders. The Company has determined that it is not economically viable for it to make offers to Non Eligible Foreign Shareholders due to the cost of meeting compliance requirements with securities laws in each applicable jurisdiction in which Non Eligible Foreign Shareholders have their registered address. The Company reserves the right in its absolute discretion to make an offer under the Retail Entitlement Offer to a Shareholder with an address in the Company's share register outside Australia or New Zealand if the Company is satisfied that it is not precluded from lawfully offering or issuing New Shares to that Shareholder either unconditionally or after compliance with conditions which the Board in its sole and absolute discretion regards as acceptable.

This Retail Offer Document does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. No action has been taken to register the New Shares or otherwise permit an offering of New Shares in any jurisdiction outside of Australia or New Zealand.

The distribution of this Retail Offer Document outside Australia or New Zealand may be restricted by law. If you come into possession of this Retail Offer Document, you should observe any such restrictions. Any failure to comply with such restrictions may contravene applicable securities laws.

The Retail Entitlement Offer is not available to Shareholders that are in the United States or who are acting for the account or benefit of persons in the United States. Neither the Entitlements nor the New Shares offered and sold in the Entitlement Offer have been, nor will be registered under the US Securities Act, or under the securities laws of any state or other jurisdiction of the United States. Accordingly, entitlements may not be issued to or exercised by, and the New Shares may not be offered or sold, directly or indirectly, to persons in the United States, except pursuant to an exemption from, or in a transaction not subject to the registration requirements of the US Securities Act and any other applicable securities laws. The Entitlements and the New Shares offered and sold in the Entitlement Offer may only be offered and sold to persons that are not in the United States and are not acting for the account or benefit of persons in the United States, in each case, in 'offshore transactions' in reliance on Regulation S under the US Securities Act.

1.10 Nominees and custodians

Due to legal restrictions, nominees and custodians may not send copies of this Retail Offer Document or any material relating to the Retail Entitlement Offer or accept the Retail Entitlement Offer in relation to any person in the United States, or any person who is acting for the account or benefit of a person in the United States, or to any person in any other jurisdiction outside Australia or New Zealand except to beneficial Shareholders who are institutional or professional investors in certain foreign countries to the extent contemplated in the Investor Presentation under the *Appendix 2 – Foreign selling restrictions* section or as the Company may otherwise permit on compliance with applicable law.

1.11 Taxation implications

Taxation is only one of the matters that must be considered when making a decision in relation to New Shares and any Additional New Shares.

Shareholders should be aware that there may be taxation implications of participating in the Retail Entitlement Offer and applying for New Shares. The taxation consequences of participating in the Retail Entitlement Offer and/or acquiring New Shares may vary depending on the individual circumstances of each Shareholder.

The Company does not consider it appropriate to give Shareholders advice regarding the taxation consequences of subscribing for New Shares (and Additional Shares) under the Retail Entitlement Offer, or the disposal of any New Shares (and Additional Shares) allotted and issued. The Company does not accept any responsibility in this regard, and Eligible Retail Shareholders should consult their own professional taxation advisers to obtain advice in relation to the taxation laws and regulations applicable to their personal circumstances.

1.12 Risks

There are a number of risks associated with an investment in the Company which may affect its financial performance, financial position, cash flows, distributions, growth prospects and Share price. The key risk factors are set out in the *Appendix 1 – Key Risks* section of the Investor Presentation included in this Retail Offer Document.

1.13 Regular reporting and disclosure

The Company is a disclosing entity for the purposes of the Corporations Act and accordingly is subject to regular reporting and disclosure obligations under the Corporations Act and ASX Listing Rules. These obligations require the Company to notify ASX of information about specific events and matters as they arise for the purposes of ASX making that information available to the market. In particular, the Company has an obligation (subject to certain limited exceptions) to notify ASX once it is, or becomes, aware of information concerning the Company which a reasonable person would expect to have a material effect on the price or value of the Company's securities. Announcements made by the Company are available from the Company's website www.mineraldeposits.com.au or ASX's website www.asx.com.au.

Additionally, the Company is also required to prepare and lodge with ASIC yearly and half-yearly financial statements accompanied by a directors' statement and report, and an audit or review report. These reports are released to ASX and published on the Company and ASX websites.

1.14 Rights and liabilities attaching to New Shares

Applicants should therefore take this into consideration when making payment. It is the responsibility of the Applicant to ensure that funds submitted through BPAY® are received by this time.

The reference number is used to identify your holding. If you have multiple holdings you will also have multiple reference numbers. You must use the reference number shown on each Entitlement and Acceptance Form to pay for each holding separately. If you pay by BPAY® and do not pay for your full Entitlement, your remaining Entitlements will lapse.

If you make your payment by BPAY® you do not need to return the Entitlement and Acceptance Form.

Your completed Entitlement and Acceptance Form or BPAY® acceptance, once received by the Share Registry, cannot be withdrawn. No cooling-off regime applies to applications for New Shares or Additional New Shares.

2.3 Applying for additional shares under Top Up Offer

To do this, complete the '*Number of Additional New Shares applied for*' section provided in the Entitlement and Acceptance Form.

If you are applying by BPAY® to take up your Entitlement in full and wish to apply for Additional New Shares under the Top Up Offer, make a payment for more than your Entitlement. The Excess Amount will be taken to be an application for Additional New Shares under the Top Up Offer.

Applications for Additional New Shares under the Top Up Offer may be considered if and to the extent that not all Shareholders take up their full Entitlement. Applications for Additional New Shares are not capped but no Eligible Retail Shareholder may receive any New Shares which would result in the relevant Shareholder having Voting Power in the Company in excess of 20% of the total issued share capital of the Company. The Directors reserve the right to issue any shortfall by way of the Top Up Offer or by other means. There is no guarantee that any Applications under the Top Up Offer will be successful.

2.4 Declining all or part of your Entitlement

If you decide not to take up all or part of your Entitlement, the Entitlement which is unexercised will lapse and may be taken up by other Eligible Retail Shareholders under the Top Up Offer or the Underwriter (or persons they nominate). Your Entitlement to participate in the Retail Entitlement Offer is non-renounceable and cannot be traded on the ASX or any other financial market, nor can it be privately transferred. If you decide not to participate in the Retail Entitlement Offer, you do not need to fill out or return the accompanying Entitlement and Acceptance Form or do anything else in relation to the offer. Although you will continue to own the same number of Shares, your percentage shareholding in the Company will be diluted.

ASX ANNOUNCEMENT

FULLY UNDERWRITTEN PLACEMENT AND ACCELERATED NON-RENOUNCEABLE ENTITLEMENT OFFER TO RAISE APPROXIMATELY A\$39.2 MILLION

Mineral Deposits Limited (ASX: MDL) (**MDL or Company**) is pleased to announce an institutional placement (**Placement**) and a pro rata accelerated non-renounceable entitlement offer (**Entitlement Offer**), to raise approximately A\$39.2 million (the Placement and the Entitlement Offer collectively, the **Capital Raising**).

The Capital Raising has the following components:

- Placement – institutional investors will have the opportunity to subscribe for new ordinary shares in the Company (**New Shares**) at A\$0.42 per New Share, to raise approximately A\$6.5 million. These New Shares will not be entitled to participate in the Entitlement Offer.
- Entitlement Offer – eligible shareholders are invited to subscribe for 3 New Shares for every 4 existing shares held as at 7.00pm (Melbourne time) on Monday, 6 March 2017, at an offer price of A\$0.42 per New Share, to raise approximately A\$32.7 million. Fractional entitlements to New Shares will be rounded up to the nearest whole number of New Shares.

The Entitlement Offer has two components:

- an accelerated institutional entitlement offer, where eligible institutional shareholders will be invited to participate in the Entitlement Offer, which is being conducted today, 2 March 2017 and tomorrow, 3 March 2017 (**Institutional Entitlement Offer**); and
- a retail entitlement offer, where eligible retail shareholders in Australia and New Zealand (and other jurisdictions (if any) determined by MDL) will be invited to participate in the Entitlement Offer, at the same issue price and offer ratio as the Institutional Entitlement Offer (**Retail Entitlement Offer**). Eligible retail shareholders may also apply for additional New Shares in excess of their entitlement in a 'top up' facility (**Top Up Offer**). Applications in the retail Top Up Offer will be scaled back to the extent that applications exceed the retail shortfall. The Retail Entitlement Offer opens on Thursday, 9 March 2017 and closes on Monday, 20 March 2017.

The Entitlement Offer is non-renounceable and entitlements will not be tradeable on the ASX or otherwise transferable. Shareholders who do not take up their entitlement in full will not receive any value in respect of those entitlements they do not take up.

The issue price of A\$0.42 per New Share under the Capital Raising represents a discount of:

- 12.5% to the last traded price of MDL shares before the Capital Raising was announced (being A\$0.48 on Wednesday, 1 March 2017);
- 7.0% to the theoretical ex-rights price (**TERP**) based on the last traded price of MDL shares before the Capital Raising was announced (being A\$0.45).

New Shares issued under the Capital Raising will rank equally with existing ordinary shares on issue.

The Capital Raising is fully underwritten by Morgans Corporate Limited, with Tamesis Partners LLP acting as co-managers.

The proceeds of the Capital Raising will be used primarily to repay ERAMET, MDL's partner in the TiZir joint venture (**TiZir**), for funds previously advanced to the Company to enable MDL to meet its joint venture commitments. The total amount outstanding to ERAMET at 31 December 2016 was US\$13.8 million. Of this amount, US\$7.5 million was payable by MDL on or before 31 December 2016, with the remaining balance payable on or before 31 March 2017. Assuming the debt outstanding to ERAMET is not repaid before 31 March 2017, the maximum balance payable, including accrued interest, is expected to be US\$14.1 million. However, the Company intends to extinguish the total debt balance following settlement of the Capital Raising.

Proceeds raised from the Capital Raising over and above the amount due to ERAMET (and Capital Raising transaction costs) are intended to be made available to TiZir, if required, to fulfil the Company's obligations with respect to the TiZir Committed Facility (**Committed Facility**), including up to US\$6.2 million which may be required in March 2017 to fund TiZir's senior secured corporate bond obligations. The Committed Facility, which is fully underwritten by ERAMET, was put in place by ERAMET and MDL following discussions with TiZir bondholders in December 2015 and has been made available to TiZir primarily for the payment of interest up until maturity of the TiZir bond (see MDL ASX Releases: 27 November 2015 and 11 December 2015). Any remaining proceeds from the Capital Raising will be used for the general working capital commitments of TiZir and MDL.

MDL Chairman Nic Limb commented, "Your Company made some significant advances in 2016, particularly in the areas of optimising operations, safety and cost efficiencies. As a result, we have a strong operating platform to take advantage of what we see as the improving outlook for our commodities in 2017. This capital raising will help underwrite the Company's position, alleviate the risk of dilution of our joint venture interest and ensure MDL shareholders will benefit from any future value accretion that is generated by your Company."

Further details about the Capital Raising are contained in the Investor Presentation announcement released to the ASX today, 2 March 2017.

ABOUT MDL

Mineral Deposits Limited (ASX: MDL) is an established, ASX-listed, integrated mining company with a 50% equity interest in TiZir Limited ('TiZir') in partnership with ERAMET of France.

The TiZir joint venture comprises two integrated, operating assets – the Grande Côte mineral sands operation ('GCO') in Senegal, West Africa and the TiZir Titanium & Iron ilmenite upgrading facility ('TTI') in Tyssedal, Norway.

GCO is a large-scale, cost competitive mineral sands operation located in Senegal that is fully integrated from mine-to-ship, using owned or controlled infrastructure. GCO commenced mining activities in March 2014 and, over an expected mine life of at least 25 years, will primarily produce high quality zircon and ilmenite. A majority of GCO's ilmenite is sold to TTI. GCO also produces small amounts of rutile and leucoxene.

TTI upgrades GCO ilmenite to produce high quality titanium feedstocks, primarily sold to pigment producers, and a high-purity pig iron, a valuable co-product, which is sold to ductile iron foundries. TTI benefits from access to cheap and clean power, and excellent logistics, in particular, year-round shipping capacity and customer proximity.

ABOUT MDL

Mineral Deposits Limited (ASX: MDL) is an established, ASX-listed, integrated mining company with a 50% equity interest in TiZir Limited ('TiZir') in partnership with ERAMET of France.

The TiZir joint venture comprises two integrated, operating assets – the Grande Côte mineral sands operation ('GCO') in Senegal, West Africa and the TiZir Titanium & Iron ilmenite upgrading facility ('TTI') in Tyssedal, Norway.

GCO is a large-scale, cost competitive mineral sands operation located in Senegal that is fully integrated from mine-to-ship, using owned or controlled infrastructure. GCO commenced mining activities in March 2014 and, over an expected mine life of at least 25 years, will primarily produce high quality zircon and ilmenite. A majority of GCO's ilmenite is sold to TTI. GCO also produces small amounts of rutile and leucoxene.

TTI upgrades GCO ilmenite to produce high quality titanium feedstocks, primarily sold to pigment producers, and a high-purity pig iron, a valuable co-product, which is sold to ductile iron foundries. TTI benefits from access to cheap and clean power, and excellent logistics, in particular, year-round shipping capacity and customer proximity.

APPENDIX 1 – KEY RISKS

MINE ► INTEGRATE ► TRANSFORM

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

KEY RISKS

THERE ARE INHERENT RISKS ASSOCIATED WITH INVESTING IN A MINING COMPANY

Introduction

New Shares offered under the Placement and Entitlement Offer are considered speculative because of the inherent risks associated with a mining company. In addition, there are risks inherent in investing in the share market in general.

The Directors have considered and identified in this Appendix 1 – Key Risks, the critical areas of risk associated with investing in the Shares of MDL. The risks identified by the Directors are not exhaustive. Accordingly, potential investors should read this Appendix in full and obtain professional advice if they require further information on material risks when deciding whether to subscribe for New Shares in MDL.

This investment is regarded as speculative. Neither the Company nor any of its directors or any other party associated with the preparation of this presentation guarantees that any specific objectives of the Company will be achieved or that any particular performance of the Company or of its Shares, including those offered under the Placement and Entitlement Offer, will be achieved.

Risks associated with the Company's business/assets

MDL faces a range of risks in its business activities, including financing, strategic, operational, environmental, compliance, financial reporting, sustainability and other market risks. Where considered appropriate, these risks are insured against as well as being integrated into risk management practices. There are a number of risks, both specific and general in nature, to MDL, TiZir and the entities within TiZir which may, either individually or in combination, affect the future operational and financial performance of the Company.

The summary of Key Risks set out below is not, and should not be considered to be, an exhaustive list of all the risks relevant to the Company and its 50% equity investment in TiZir. MDL, however, considers that these risks represent key Company risks, particularly risks to an investment in the Company. Additional risks and uncertainties that the Company is unaware of, or that the Company considers to be immaterial, may also become key risks and material. The risk factors outlined below omit how each is managed and may be mitigated and should be read in connection with the forward-looking statements and the disclaimers in this presentation.

(a) Current and future funding arrangements

TiZir's operations involve capital investment and financial risk. Continuance of mining and mineral processing activities as well as the Company's realisation of the value of its investment in TiZir depends on TiZir's ability to obtain funding as and when required, whether through internal positive cash flows, debt financing, equity funding or other financing means. No assurance can be given that any financing arrangements will be available or available on terms acceptable to TiZir. If such alternatives are not available, MDL may be required to provide funding to TiZir or to deliver all or a portion of its assets to TiZir's lenders as satisfaction of any outstanding amounts due.

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

KEY RISKS (CONT'D)

THERE ARE INHERENT RISKS ASSOCIATED WITH INVESTING IN A MINING COMPANY

Risks associated with the Company's business/assets (cont'd)

(b) MDL cash flow risks

If TiZir is unable to meet its financial obligations either through cash flow generation or its ability to secure finance, it may need to seek financial support from its shareholders (including MDL).

In addition to these general cash flow risks, certain specific risks outlined in this Appendix 1 – Key Risks have the potential to generate a cash flow shortfall at the TiZir level that may require funding from third party financiers or its shareholders (including MDL). There can be no assurances that MDL will not be required to contribute further funding to the TiZir Joint Venture to assist with meeting any cash flow shortfalls associated with these specific risks. Additionally, there is no guarantee that MDL will have sufficient capital to meet its ongoing joint venture obligations nor is there a guarantee that the Capital Raising will result in MDL having sufficient funding to cover any potential cash flow risks. The Company may need to raise additional funds, which would have a consequential impact on the share capital structure of the Company.

From December 2015 and up to the date of the release of this presentation, ERAMET has made funding available to MDL such that MDL is able to continue to meet its obligations to the joint venture. Notwithstanding current arrangements, the availability of future funding from ERAMET to MDL is not assured and, if available, increases the risk that MDL's investment in the TiZir Joint Venture could be diluted should it not be in a position to repay any financing made available under the terms of the TiZir shareholders' agreement.

(c) General market risks in relation to products

Commodity price risk

The prices for titanium feedstocks and zircon fluctuate widely and are affected by numerous factors beyond the control of MDL including, but not limited to, supply/demand balances, strategies of major producers, worldwide inflation and deflation, interest and currency exchange rates, price and availability of substitutes, actions taken by governments and global economic and political developments. Future production from MDL's mining and processing assets is primarily dependent upon the prices for titanium feedstocks and zircon being adequate to make these operations economic. There is no assurance that, even as commercial quantities of titanium feedstocks and zircon are produced, a profitable market will exist for them.

Demand fluctuations

MDL is reliant on demand for its joint venture products. Changes in demand due to economic downturn or customers sourcing alternative suppliers, amongst other factors, could adversely impact financial performance.

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

KEY RISKS (CONT'D)

THERE ARE INHERENT RISKS ASSOCIATED WITH INVESTING IN A MINING COMPANY

Risks associated with the Company's business/assets (cont'd)

(d) Uncertainty of resource and reserve estimates

Mineral resource and reserve estimates are estimates only and no assurance can be given that: anticipated tonnages and grades will be achieved; the indicated level of recovery will be realised; or reserves can be mined or processed profitably. Assumptions informing reserve estimates may change over time resulting in revisions to their economic viability and a consequent need to restate.

(e) Operational risks

The operations of both TTI and GCO are reliant on critical equipment, such as the furnace and pre-reduction kiln at TTI as well as the mineral sands dredge, wet concentrator plant, mineral separation plant and power plant at GCO. Equipment may incur downtime as a result of unanticipated failures or other events, such as fire, loss of power supply and the unavailability of spare parts. Any downtime, delays or difficulties in mining, processing and production, even whether covered in whole or in part by insurance, may adversely impact product delivery and production optimisation, thereby impacting on the financial performance of the Company.

The operations in which MDL is invested are also vulnerable to a wide range of difficulties and interruptions, including:

- natural events such as storm, flood, drought, fire, and the possible effects of climate change;
- restricted access to key transport networks (reliable roads, rail, ports), power generation and transmission, and water supplies;
- limitations or interruptions in transport, power or water infrastructure;
- extended failure or damage to critical information technology infrastructure or systems;
- a loss of control process that could lead to a release of hazardous materials; and
- supply chain failures.

Such events and their consequences, even whether covered in whole or in part by insurance, may be detrimental to the Company's activities and profitability.

Production at TTI is currently in ramp up phase following an operational incident that occurred in August 2016 and the subsequent completion of furnace repairs and relining between August 2016 and early January 2017. While a full and final insurance settlement was received by TTI in December 2016 in relation to this incident, there are inherent operational risks related to ramp up, which may result in the ramp up of production not proceeding in a manner or in accordance with the expected timeframe. Such risks may have an adverse impact on the financial position of TiZir and MDL. Further, no assurances can be given that an incident of a similar nature will not reoccur in the future.

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

KEY RISKS (CONT'D)

THERE ARE INHERENT RISKS ASSOCIATED WITH INVESTING IN A MINING COMPANY

Risks associated with the Company's business/assets (cont'd)

(f) Asset realisation risks

The Company's capacity to realise the value of its investment in TiZir is dependent on GCO and TTI operating successfully and generating forecast cash flow.

In the event that ERAMET provides funding to TiZir on behalf of MDL to assist TiZir in meeting its obligations, there is an increase in the risk that MDL's investment in the joint venture could be diluted should the Company not be in a position to repay any financing made available under the terms of the TiZir shareholders' agreement.

Dilution of the Company's investment in TiZir may have the following impacts including, but not limited to: loss of ability to influence TiZir's management and operations, potential delays in the timing and quantum of the Company's investment returns, and loss of equal voting rights on the strategic direction of the joint venture.

(g) Dependence on key personnel

MDL and TiZir and their business activities (including operations) are reliant on key personnel (either employed or engaged), the loss of whom may have a material adverse impact on operational and financial performance of both entities. Failure to recruit and retain qualified, high-performing personnel at MDL or at TiZir's operations may impact on Company performance.

(h) Employment and labour relations

MDL and TiZir and their employees may be affected by changes in labour laws and regulations which may be introduced by governments in jurisdictions of operation. Such changes may adversely affect business activities. MDL and TiZir may experience difficulties in employing and retaining suitably qualified personnel, particularly given the location of current operations. Malaria and other infectious diseases represent a threat and an ongoing healthcare challenge to maintaining a skilled workforce in West Africa. Pandemics may also impact on operations and the ability to maintain sufficient numbers of a skilled workforce. Labour disputes, resulting in strike action or work stoppages, may result in decreased production and increased costs. Labour agreement renegotiations may also result in elevated operating costs.

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

KEY RISKS (CONT'D)

THERE ARE INHERENT RISKS ASSOCIATED WITH INVESTING IN A MINING COMPANY

Risks associated with the Company's business/assets (cont'd)

(i) Inadequate insurance coverage

MDL is exposed to a number of business risks and insurance may not be sought, obtainable or adequate for all risks. In addition, insurance coverage may not be sufficient to cover business interruption losses or liability. The manifestation of an inadequately insured risk could adversely impact the Company's business.

Some key MDL assets, in particular GCO in Senegal, West Africa, are located in countries where political risks are potentially higher than in more developed regions. The MDL board has considered the benefits and cost of political risk insurance and has determined that, at this time, the Company will not maintain political risk insurance on the equity component of its investment in TiZir or its interest in Senegal or any of its other assets or interests.

In respect of MDL operational risks, insurance policies are entered into by TiZir, GCO and TTI rather than MDL.

(j) Input costs, inflation and foreign exchange rates

Changes to input costs, inflation and foreign exchange rates could increase TiZir's operating and capital costs. While in some cases such cost increases may be controlled or offset by increased selling prices, there is no assurance that this will eventuate. Operating margins and necessary capital costs may be adversely impacted by a failure to contain unanticipated cost increases.

(k) Repatriation of earnings

There is no assurance that Senegal, Norway or any other foreign country wherein MDL has interests will not impose restrictions on the repatriation of earnings to foreign entities.

(l) Licences and permits

TiZir's exploration, mining and processing activities are dependent upon the granting, maintenance and renewal of appropriate licences, concessions, leases, permits and regulatory consents which may be withdrawn, not granted or made subject to limitations or new conditions. Risks regarding licences and permits that may impact on TiZir may have a material adverse impact on MDL.

Risks associated with the Company's business/assets (cont'd)

(m) Health, safety, security, environment and community

MDL and TiZir's sustainable development policies and activities, covering health, safety, security, environment and community issues, are subject to government laws, regulations and standards as well as stakeholder expectations. These regulatory frameworks and expectations may change over time and may have a material adverse effect on the Company's operations and reputation.

Failure to comply with applicable health, safety, security, environment and community laws, regulations and permitting requirements may result in enforcement actions including fines, penalties, compensation claims, corrective measures requiring capital expenditure, or the ceasing of operations, amongst others.

Environmental hazards may exist on MDL and/or TiZir properties which are currently unknown and which could have been caused by previous owners or operators. It is possible that MDL and/or TiZir would be required to remedy such hazards or that such hazards may affect the Company's future operations.

(n) Closure, reclamation and rehabilitation costs

While currently expected closure, reclamation and rehabilitation works necessary to return operating sites to local communities are budgeted for, changes over time to legislation, standards and techniques or the introduction of new legislation, standards and techniques may result in unanticipated or higher than expected costs. Over time, events may arise or changes may occur that vary the life of an operation and, consequently, the timing of expenditure with respect to closure, reclamation and rehabilitation of operating sites may also change.

THERE ARE INHERENT RISKS ASSOCIATED WITH INVESTING IN A MINING COMPANY

Risks associated with the Company's business/assets (cont'd)

(o) Political and foreign operations risks

The operations of TiZir are currently conducted in Senegal and Norway and, as such, are exposed to various levels of political, economic and other natural and man-made risks and uncertainties over which MDL has limited or no control.

These risks and uncertainties may include, but are not limited to: economic, social or political instability; terrorism; hostage taking; military repression; labour unrest; community disputes; the risks of war or other forms of civil unrest; expropriation and nationalisation; renegotiation, nullification or adoption of new laws or regulations concerning existing concessions, licences, permits and/or contracts; high rates of inflation; changes in taxation policies; restrictions on foreign exchange and repatriation; validity of export rights and payment of duties; changing political conditions; currency controls; customs regulations policies; changes or adoption of new laws affecting foreign ownership; government participation or control of working conditions; changes to regulations associated with greenhouse gas emissions and the introduction of carbon pricing mechanisms; and governmental regulations that favour or require the awarding of contracts to local contractors or require foreign contractors to employ citizens of, or purchase supplies from, a particular jurisdiction.

Failure to comply strictly with applicable laws, regulations and local practices relating to mineral rights applications and tenure could result in the loss, reduction or expropriation of entitlements. The occurrence of these various factors and uncertainties cannot be accurately predicted and, even whether covered in whole or in part by insurance, could have an adverse effect on the operations of TiZir or profitability of MDL.

(p) Joint venture risks

Through a joint venture arrangement with ERAMET SA, MDL owns 50% of TiZir which owns 90% of GCO and 100% of TTI. The joint venture is governed by a shareholders' agreement. A breakdown in the joint venture relationship or a contravention of the TiZir shareholders' agreement could have a material adverse effect on the Company's investment in the joint venture. Additionally, the joint venture structure impacts on the Company's capacity to manage, mitigate or avoid TiZir's risks independently.

(q) Litigation risks

MDL may be the subject of complaints or litigation by customers, suppliers, employees or officers, shareholders, government agencies, regulatory authorities or other third parties. Changes in laws and regulations can heighten litigation risk. Litigation and other proceedings may be taken against MDL that could divert management's attention from the business and materially adversely affect the business or financial performance or condition of MDL. If such proceedings were brought against MDL, considerable time and cost may be incurred to defend those proceedings (even if successful), with the potential for damages and costs awarded against MDL if unsuccessful.

KEY RISKS (CONT'D)

THERE ARE INHERENT RISKS ASSOCIATED WITH INVESTING IN A MINING COMPANY

Risks associated with the Company's business/assets (cont'd)

- (r) Constraints on company growth
MDL's ability to grow its existing capacity and extend the life of TiZir's operations is dependent on a number of factors which may or may not materialise as expected or planned. Additionally, MDL competes with other companies for future business opportunities.
- (s) Strategic investments, acquisitions or divestitures
No assurance can be given that MDL's current or possible future investments, acquisitions or divestitures can or will be completed successfully or favourably. MDL may be liable for past acts as well as anticipated and unanticipated liabilities procured through the Company's acquisition or investment activities.

Risks associated with the Entitlement Offer

- (a) Market risk
The market price of MDL's Shares may fluctuate due to various factors including those outlined above. The above factors are not an exhaustive list of risks faced by MDL or by investors in MDL. The above factors, and others not specifically referred to in this presentation, may in the future materially affect the financial performance of MDL and the value of the New Shares. The market for mining industry securities has historically experienced significant fluctuations in price and trading volumes which may be unrelated to the performance of individual companies.

The market price of New Shares could trade on ASX at a price below their issue price. New Shares offered under the Placement and Entitlement Offer carry no guarantee in respect of profitability, dividends, return of capital or liquidity on the ASX. No assurances can be given that the New Shares will trade at or above the issue price under the Placement and Entitlement Offer. Neither MDL, its directors nor any other person guarantees the market performance of the New Shares.
- (b) Dilution risk
If existing shareholders do not take up all or part of the New Shares offered to them under the Entitlement Offer, then their percentage shareholding in MDL will be diluted (in addition to the dilutionary impact resulting from the issue of New Shares under the Placement).
- (c) Dividends
The payment of dividends by MDL is determined by the board of MDL from time to time at its absolute discretion, dependent on the profitability, gearing position (if applicable) and cash flow needs of MDL's business. There is no guarantee that any dividend will be paid by MDL.

KEY RISKS (CONT'D)

THERE ARE INHERENT RISKS ASSOCIATED WITH INVESTING IN A MINING COMPANY

Risks associated with the Entitlement Offer (cont'd)

- (d) Taxation implications
Any future changes in taxation laws, including changes in the interpretation or application of those laws by the court or taxation authorities, may affect the taxation treatment of an investment in MDL's Shares, or the holdings and disposal of those Shares. As tax considerations may differ between shareholders, prospective investors and existing shareholders are encouraged to obtain professional tax advice in connection with an investment in New Shares.
- (e) Underwriting risk
The Placement and Entitlement Offer is fully underwritten by Morgans Corporate Limited. The underwriting agreement is subject to customary termination events. If the underwriting agreement were to be terminated, the funds raised under the Placement and Entitlement Offer may be significantly less than the amount disclosed in this presentation. Any shortfall of funds expected to be raised from the Placement and Entitlement Offer could delay or suspend MDL's business strategy and could have a material adverse effect on MDL's activities and its ability to meet its contractual obligations (including any ongoing TiZir Joint Venture obligations).

General risks

- (a) General economic climate
Factors such as inflation, currency fluctuations, interest rates, legislative changes, political decisions and industrial disruption have an impact on operating costs. The Company's future income, asset values and share price can be affected by these factors and, in particular, by the market price for any products or services that the Company may acquire or sell.
- (b) Government policy changes
Any material adverse changes in government policies or legislation of any countries in which the Company may operate may affect the viability and profitability of MDL.
- (c) Foreign currency and exchange rate fluctuations
Revenue, expenditure, interest, dividends and loan receipts of the Company may be domiciled in currencies other than Australian dollars and, as such, expose the Company to foreign exchange movements, which may have a positive or negative influence on the Australian dollar. The Company will appropriately monitor and assess such risks and may from time to time implement measures, such as foreign exchange currency hedging, to assist managing these risks. However, the implementation of such measures may not eliminate all such risks and the measures themselves may expose the Company to related risks.

General risks (cont'd)

(d) Taxation

Future changes in Australian taxation laws, including changes in interpretation or application of laws by the courts or taxation authorities in Australia, may affect taxation treatment of an investment in MDL Shares, or the holding and disposal of those Shares. Further changes in tax law or changes in the way tax law is expected to be interpreted in the various jurisdictions in which MDL, TiZir, GCO and/or TTI operates, may impact the future tax liabilities of MDL.

(e) Speculative nature of investment

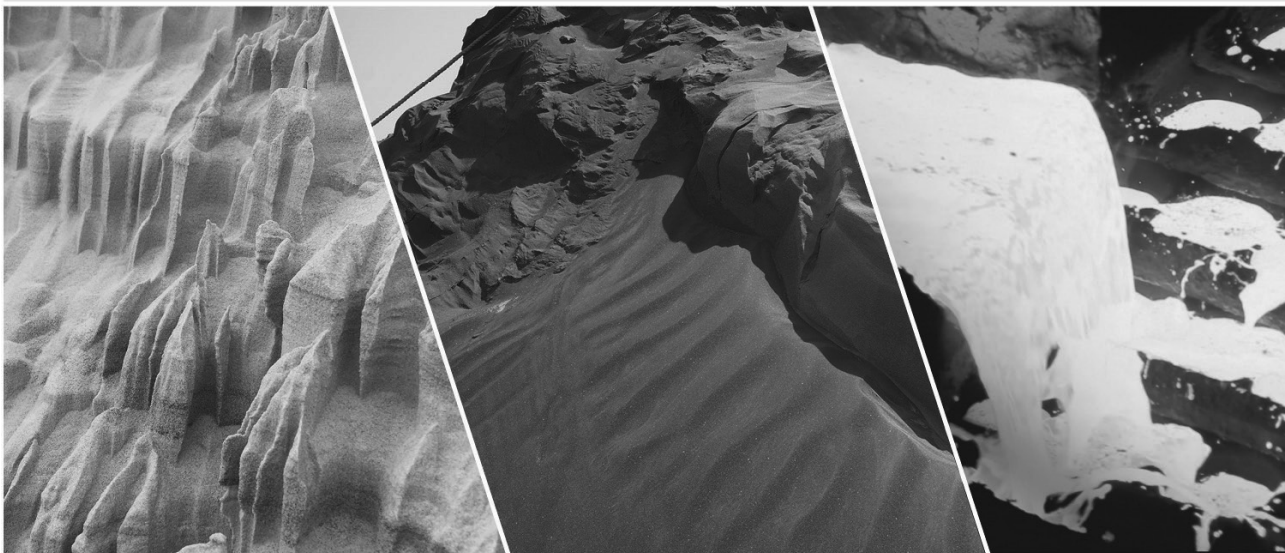

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares offered under the Placement and Entitlement Offer.

Therefore, the New Shares to be issued pursuant to the Placement and Entitlement Offer carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Shares offered under the Placement and Entitlement Offer.

Dear Sir/Madam,

Non-renounceable Entitlement Offer – Letter to ineligible retail shareholders

On 2 March 2017, Mineral Deposits Limited ACN 064 377 420 (**Company** or **MDL**) announced a fully underwritten pro rata accelerated non-renounceable entitlement offer of fully paid ordinary shares to existing shareholders at A\$0.42 per new share to raise up to approximately A\$32.7 million (**Entitlement Offer**) and a placement to institutional investors at A\$0.42 per new share to raise up to approximately A\$6.5 million. The Entitlement Offer comprises an institutional component and a retail component (**Retail Entitlement Offer**) with a top up facility.

The Entitlement Offer is fully underwritten by Morgans Corporate Limited.

Terms of the Entitlement Offer

The Entitlement Offer gives Eligible Retail Shareholders (as defined below) the opportunity to participate on the basis of 3 new fully paid ordinary shares for every 4 existing fully paid ordinary shares held at 7:00 pm (Melbourne time) on 6 March 2017 at an offer price of A\$0.42 per new share (**New Shares**).

Eligibility

The Retail Entitlement Offer is being made to MDL's shareholders with a registered address in Australia or New Zealand and only those Eligible Retail Shareholders will be offered New Shares.

'Eligible Retail Shareholders' are those holders of existing shares who:

1. are registered as holders of existing shares as at 7.00pm (Melbourne time) on 6 March 2017;
2. have a registered address on the Company's Share register in Australia or New Zealand;
3. are not in the United States and are not 'U.S. persons' or acting for the account or benefit of 'U.S. Persons' (to the extent such a person holds securities in MDL for the account or benefit of such persons in the United States);
4. were not invited to participate under the Institutional Entitlement Offer (other than as nominee); and
5. are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer without any requirement for a prospectus, disclosure document, or any lodgement, filing, registration or qualification.

This letter is to inform you that the Company has determined that you are not an Eligible Retail Shareholder and you are therefore ineligible to participate in the Retail Entitlement Offer. The Company considers it generally unreasonable on this occasion to extend the Retail Entitlement Offer to shareholders in your jurisdiction having regard to the small number of affected shareholders and the costs of complying with legal and regulatory requirements.

You are not required to do anything in response to this letter.

Thank you for your continued support of MDL and I trust you understand the Company's position on this matter.

Yours sincerely

Nic Limb
Chairman
