

Change to Company Secretary & CFO

Melbourne, Australia, 2nd July, 2018: Australian metal additive manufacturing company, Titomic Limited (ASX: TTT) ("*Titomic*" or "*the Company*") today advises of the Company's decision to internally manage its financial operations moving forward as the Company's fixed-term contract with outsourced financial services provider The CFO Solution has concluded.

Current Joint-Company Secretary & CFO, Mr. Peter Vaughan, has left The CFO Solution to continue as Titomic's full-time Company Secretary & CFO and Mr. Hains will step down from his role as Joint-Company Secretary & CFO with immediate effect.

The Company wishes to thank Mr. Hains and The CFO Solution staff for their dedication and support of Titomic through the IPO process and ongoing management of Company's financial services.

About Titomic:

Titomic (ASX:TTT) is headquartered in Melbourne, Australia. The company overcomes limitations of previous additive manufacturing (3D printing) for metals to manufacture complex parts without shape or size constraints. Titomic offers design and manufacturing methods to enable speed-to-market, superior products at lower production costs and using less resources for a more sustainable future.

Titomic additive manufacturing machines that can customise build size to customer requirements offer additive manufacturing advantages at industrial scale. Multiple robots can be utilised to build larger parts, competing with traditional manufacturing solutions for industries such as aerospace and defence, sporting goods, medical, automotive, industrial equipment, construction and marine.

Other benefits of the Titomic Kinetic Fusion technology include:

- Joining dissimilar metals and composites for engineered properties in a structure
- Stronger structures without welding, folding or bending
- Reduced time to market; no tooling, industry-leading production speeds

Clients will be offered a licence to manufacture via the Titomic Kinetic Fusion technology. Titomic's revenue model will also provide clients with R&D prototyping services, Titomic equipment sales, powder and consumables supply, equipment service and maintenance.
