## EXPLANATORY STATEMENT

---

This Explanatory Statement has been prepared to provide information which the Directors believe to be material to Shareholders in deciding whether or not to pass the Resolutions.

### 1. BACKGROUND

As announced on 8 August 2023, the Company has entered into a convertible note subscription agreement with Obsidian Global GP, LLC (a US-based entity) (**Obsidian**) for the establishment of a facility of up to US\$3,400,000, pursuant to which the Company may draw down on the facility through the issue of convertible notes (**Convertible Notes**) (**Convertible Note Agreement**).

Pursuant to the Convertible Note Agreement, the Company agreed to issue, and Obsidian agrees to subscribe for, up to 3,400,000 Convertible Notes (each with a face value equal to US\$1.08 in the Company for an aggregate of up to US\$3,400,000 in three tranches described below:

- (a) the Company issued, and Obsidian purchased 850,000 Convertible Notes for a subscription sum of US\$850,000 (**First Purchase Convertible Notes**) on 14 August 2023 (**First Purchase Date**);
- (b) subject to shareholder approval and the satisfaction of other standard conditions precedent, the Company has agreed to issue, and Obsidian has agreed to subscribe for up to a further 850,000 Convertible Notes for a subscription sum of US\$850,000 (**Second Purchase Convertible Notes**); and
- (c) subject to shareholder approval and agreement between the parties and the satisfaction of other standard conditions precedent, the Company has agreed to issue, and Obsidian has agreed to subscribe for up to a further 1,700,000 Convertible Notes for a subscription sum of up to US\$1,700,000 (**Third Purchase Convertible Notes**).

In addition, the Company paid Obsidian a facility fee of US\$170,000 (comprising 5% of the aggregate facility limit) in cash (**Facility Fee**).

A summary of the key terms of the Convertible Notes and the Convertible Note Agreement is set out in Schedule 1 and Schedule 2 respectively.

The Company confirms that Obsidian is not an existing shareholder of the Company. The Company confirms that Obsidian is not a related party of the Company.

Prior to entering into the Convertible Note Agreement, the Company considered other available fund raising options, such as a placement, to meet the Company's funding requirements. The Company was of the view that the other options available were not on the same commercial terms and were therefore not in the best interests of Shareholders or the Company. The Convertible Notes are to be issued in accordance with the terms of the Convertible Note Agreement, which were negotiated between the parties.

The Company confirms that it sought legal advice regarding the suitability of the terms of the Convertible Notes and was advised that the Convertible Notes were market-standard and do not contain any of the features noted in section 5.9 of ASX Guidance Note 21.

The issue of the Second Purchase Convertible Notes and Third Purchase Convertible Notes are subject to shareholder approval under Listing Rule 7.1. The Company seeks the required shareholder approvals at this Meeting (refer to Resolution 1 and Resolution 2 respectively).

As stated above, the First Purchase Convertible Notes were issued on 14 August 2023 using the Company's available Listing Rule 7.1 placement capacity. The Company is seeking shareholder approval for the ratification of this issue under Resolution 3.

The Company notes that the conversion price for the Convertible Notes is variable in certain situations as set out in Schedule 1 and that there is not a floor price for the variable conversion price. Accordingly, the Company notes to Shareholders that the ultimate conversion of the Convertible Note may be highly dilutive to Shareholders.

The Company notes there is an obligation to draw down under the Convertible Note Agreement in connection with the Second Purchase Convertible Notes which is subject to satisfaction of conditions precedent and in connection with the Third Purchase Convertible Notes which is subject to mutual agreement between the parties.

## **2. RESOLUTION 1 – APPROVAL TO ISSUE SECOND PURCHASE CONVERTIBLE NOTES TO OBSIDIAN GLOBAL GP, LLC**

### **2.1 General**

Under the Convertible Note Agreement, the Company has agreed to issue a further 850,000 Convertible Notes to raise up to US\$850,000 subject to shareholder approval and other standard conditions further set out in Schedule 1.

Broadly speaking, and subject to a number of exceptions, Listing Rule 7.1 limits the amount of equity securities that a listed company can issue without the approval of its shareholders over any 12 month period to 15% of the fully paid ordinary securities it had on issue at the start of that period.

Under Listing Rule 7.1A, an eligible entity can seek approval from its members, by way of a special resolution passed at its annual general meeting, to increase this 15% limit by an extra 10% to 25%.

The Company obtained approval to increase its limit to 25% at the annual general meeting held on 24 November 2022.

The proposed issue of the Second Purchase Convertible Notes does not fall within any of the exceptions set out in Listing Rule 7.2 and exceeds the 15% limit in Listing Rule 7.1. It therefore requires the approval of Shareholders under Listing Rule 7.1.

### **2.2 Technical information required by Listing Rule 14.1A**

If Resolution 1 is passed, the Company will be able to proceed with the issue of the Second Purchase Convertible Notes and the Company will have access to a further US\$850,000 in funding. In addition, the issue of the Second Purchase Convertible Notes will be excluded from the calculation of the number of equity securities that the Company can issue without Shareholder approval under Listing Rule 7.1.

If Resolution 1 is not passed, the Company will not be able to proceed with the issue of the Second Purchase Convertible Notes. If the Company is unable to proceed with the issue of the Second Purchase Convertible Notes, then the Company will not receive the US\$850,000 from Obsidian with respect to the issue of the Second Purchase Convertible Notes and the Company will not be able to accelerate exploration activities across the Company's highly prospective portfolio of copper assets in the Americas. In addition, the Company may need to raise additional capital for working capital purposes using its 10% placement capacity.

Resolution 1 seeks Shareholder approval for the purposes of Listing Rule 7.1 for the issue of the Second Purchase Convertible Notes.

## **2.3 Technical information required by Listing Rule 7.3**

Pursuant to and in accordance with Listing Rule 7.3, the following information is provided in relation to Resolution 1:

- (a) the Second Purchase Convertible Notes will be issued to Obsidian;
- (b) the maximum number of Second Purchase Convertible Notes to be issued under the Convertible Note Agreement is 850,000. If converted under the Convertible Note Agreement, the Second Purchase Convertible Notes will result in the issue of fully paid ordinary shares in the capital of the Company. If converted at the Fixed Conversion Price of \$0.02, the number of Shares to be issued will be 70,778,720. In certain situations, the conversion price may vary and therefore the number of Shares may vary as set out in accordance with the working examples included in Schedule 3;
- (c) given there is no floor price for the conversion under the terms of the Second Purchase Convertible Notes any issue of Shares on conversion of the Second Purchase Convertible Notes may be highly dilutive to existing shareholders as set out in accordance with the working examples included in Section 2.4 below;
- (d) the Second Purchase Convertible Notes will be issued no later than 3 months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the Listing Rules) and it is intended that the issue of all the Second Purchase Convertible Notes will occur on the same date;
- (e) the face value of the Second Purchase Convertible Notes will be US\$1.08 each, whilst the effective subscription price of each Second Purchase Convertible Note will be US\$1.00. The Company will not receive any other consideration for the issue of the Second Purchase Convertible Notes;
- (f) the purpose of the issue of the Second Purchase Convertible Notes is to raise funds for accelerating exploration activities across the Company's highly prospective portfolio of copper assets in the Americas and for general working capital;
- (g) the Second Purchase Convertible Notes are being issued to Obsidian under the Convertible Note Agreement. A summary of the material terms of the Convertible Note Agreement and the Second Purchase Convertible Notes is set out in Schedule 1 and Schedule 2 respectively; and

- (h) the Second Purchase Convertible Notes are not being issued under, or to fund, a reverse takeover.

## 2.4 Dilution upon conversion of the Second Purchase Convertible Notes

2. There are currently 935,984,071 Shares on issue as at the date of this Notice and this table assumes no Options are exercised, no convertible securities converted or additional Shares issued, other than the maximum number of Shares which may be issued pursuant to Resolution 1 (based on the assumed issue prices set out in the table).
3. Using a USD to AUD exchange rate of 0.6485 (RBA exchange rate as at 31 August 2023). The Company notes that the above workings are an example only and the actual issue price may differ. This will result in the maximum number of Shares to be issued and the dilution percentage to also differ.

## 3. RESOLUTION 2 – APPROVAL TO ISSUE THIRD PURCHASE CONVERTIBLE NOTES TO OBSIDIAN GLOBAL GP, LLC

### 3.1 General

Under the Convertible Note Agreement, the Company has agreed to issue up to a further 1,700,000 Convertible Notes to raise up to US\$1,700,000 subject to shareholder approval and other standard conditions further set out in Schedule 1.

As summarised in Section 2.1 above, Listing Rule 7.1 limits the amount of equity securities that a listed company can issue without the approval of its shareholders over any 12 month period to 15% of the fully paid ordinary shares it had on issue at the start of that period.

Under Listing Rule 7.1A, an eligible entity can seek approval from its members, by way of a special resolution passed at its annual general meeting, to increase this 15% limit by an extra 10% to 25%.

The Company obtained approval to increase its limit to 25% at the annual general meeting held on 24 November 2022.

The proposed issue of the Third Purchase Convertible Notes does not fall within any of the exceptions set out in Listing Rule 7.2 and exceeds the 15% limit in Listing Rule 7.1. It therefore requires the approval of Shareholders under Listing Rule 7.1.

### **3.2 Technical information required by Listing Rule 14.1A**

If Resolution 2 is passed, the Company will be able to proceed with the issue of the Third Purchase Convertible Notes and the Company will have access to a further US\$1,700,000 in funding. In addition, the issue of the Third Purchase Convertible Notes will be excluded from the calculation of the number of equity securities that the Company can issue without Shareholder approval under Listing Rule 7.1.

If Resolution 2 is not passed, the Company will not be able to proceed with the issue of the Third Purchase Convertible Notes. If the Company is unable to proceed with the issue of the Third Purchase Convertible Notes, then the Company will not receive the US\$1,700,000 from Obsidian with respect to the issue of the Third Purchase Convertible Notes and the Company will not be able to accelerate exploration activities across the Company's highly prospective portfolio of copper assets in the Americas. In addition, the Company may need to raise additional capital for working capital purposes using its 10% placement capacity.

Resolution 2 seeks Shareholder approval for the purposes of Listing Rule 7.1 for the issue of the Second Purchase Convertible Notes.

### **3.3 Technical information required by Listing Rule 7.3**

Pursuant to and in accordance with Listing Rule 7.3, the following information is provided in relation to Resolution 2:

- (a) the Third Purchase Convertible Notes will be issued to Obsidian;
- (b) the maximum number of Third Purchase Convertible Notes to be issued under the Convertible Note Agreement is 1,700,000. If converted under the Convertible Note Agreement, the Third Purchase Convertible Notes will result in the issue of fully paid ordinary shares in the capital of the Company. If converted at the Fixed Conversion Price of \$0.02, the number of Shares to be issued will be 141,557,440. In certain situations, the conversion price may vary and therefore the number of Shares may vary as set out in accordance with the working examples included in Schedule 3;
- (c) given there is no floor price for conversion under the terms of the Third Purchase Convertible Notes any issue of Shares on conversion of the Third Purchase Convertible Notes may be highly dilutive to existing shareholders as set out in accordance with the working examples included in Section 3.4 below;
- (d) the Third Purchase Convertible Notes will be issued no later than 3 months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the Listing Rules) and it is intended that issue of all the Third Purchase Convertible Notes will occur on the same date;
- (e) the face value of the Third Purchase Convertible Notes will be US\$1.08 each, whilst the effective subscription price of each Third Purchase

Convertible Note will be US\$1.00. The Company will not receive any other consideration for the issue of the Third Purchase Convertible Notes;

- (f) the purpose of the issue of the Third Purchase Convertible Notes is to raise funds for accelerating exploration activities across the Company's highly prospective portfolio of copper assets in the Americas and for general working capital;
- (g) the Third Purchase Convertible Notes are being issued to Obsidian under the Convertible Note Agreement. A summary of the material terms of the Convertible Note Agreement and the Third Purchase Convertible Notes is set out in Schedule 1; and
- (h) the Third Purchase Convertible Notes are not being issued under, or to fund, a reverse takeover.

### 3.4 Dilution upon conversion of the Third Purchase Convertible Notes

Set out below is a worked example of the number of Shares that may be issued under Resolution 1 based on an assumed conversion prices of \$0.02, \$0.015, \$0.01125 and \$0.0075 per Share, being the Fixed Conversion Price, closing price of Shares on 31 August 2023 (**Closing Price**), 25% decrease and 50% decrease to the Closing Price.

2. There are currently 935,984,071 Shares on issue as at the date of this Notice and this table assumes no Options are exercised, no convertible securities converted or additional Shares issued, other than the maximum number of Shares which may be issued pursuant to Resolution 1 (based on the assumed issue prices set out in the table).
3. Using a USD to AUD exchange rate of 0.6485 (RBA exchange rate as at 31 August 2023). The Company notes that the above workings are an example only and the actual issue price may differ. This will result in the maximum number of Shares to be issued and the dilution percentage to also differ.

## 4. RESOLUTION 3 – RATIFICATION OF PRIOR ISSUE OF FIRST PURCHASE CONVERTIBLE NOTES TO OBSIDIAN GLOBAL GP, LLC

### 4.1 General

On 14 August 2023 the Company issued 850,000 Convertible Notes to raise US\$850,000 (**First Purchase Convertible Notes**) in connection with drawing down on the facility under the Convertible Note Agreement.

The First Purchase Convertible Notes were issued in accordance with the Company's capacity under Listing Rule 7.1 and did not breach Listing Rule 7.1 at the time of the issue.

As summarised in Section 2.1 above, Listing Rule 7.1 limits the amount of equity securities that a listed company can issue without the approval of its shareholders over any 12 month period to 15% of the fully paid ordinary shares it had on issue at the start of that period.

Under Listing Rule 7.1A, an eligible entity can seek approval from its members, by way of a special resolution passed at its annual general meeting, to increase this 15% limit by an extra 10% to 25%.

The Company obtained approval to increase its limit to 25% at the annual general meeting held on 24 November 2022.

The issue of the First Purchase Convertible Notes does not fit within any of the exceptions set out in Listing Rule 7.2 and, as it has not yet been approved by Shareholders, it effectively uses up part of the 15% limit in Listing Rule 7.1, reducing the Company's capacity to issue further equity securities without Shareholder approval under Listing Rule 7.1 for the 12 month period following the date of issue of the First Purchase Convertible Notes.

Listing Rule 7.4 allows the shareholders of a listed company to approve an issue of equity securities after it has been made or agreed to be made. If they do, the issue is taken to have been approved under Listing Rule 7.1 and so does not reduce the company's capacity to issue further equity securities without shareholder approval under that rule.

The Company wishes to retain as much flexibility as possible to issue additional equity securities in the future without having to obtain Shareholder approval for such issues under Listing Rule 7.1. Accordingly, the Company is seeking Shareholder ratification pursuant to Listing Rule 7.4 for the issue of the First Purchase Convertible Notes.

Resolution 3 seeks Shareholder ratification pursuant to Listing Rule 7.4 for the issue of the First Purchase Convertible Notes.

#### **4.2 Technical information required by Listing Rule 14.1A**

If Resolution 3 is passed, the First Purchase Convertible Notes will be excluded in calculating the Company's combined 25% limit in Listing Rules 7.1 and 7.1A, effectively increasing the number of equity securities the Company can issue without Shareholder approval over the 12 month period following the date of issue of the First Purchase Convertible Notes.

If Resolution 3 is not passed, the First Purchase Convertible Notes will be included in calculating the Company's combined 25% limit in Listing Rules 7.1 and 7.1A, effectively decreasing the number of equity securities that the Company can issue without Shareholder approval over the 12 month period following the date of issue of the First Purchase Convertible Notes.

#### **4.3 Technical information required by Listing Rule 7.5**

Pursuant to and in accordance with Listing Rule 7.5, the following information is provided in relation to Resolution 3:

- (i) 850,000 First Purchase Convertible Notes were issued to Obsidian under the Convertible Note Agreement;
- (ii) if converted the conversion of the First Purchase Convertible Notes may result in the issue of a maximum of 132,000,000 Shares without shareholder approval (given the maximum share number attached to the First Purchase Convertible Notes as included in the Convertible Note Agreement). At the time of issue of the First Purchase Convertible Notes, the Company had capacity under Listing Rule 7.1 to issue the maximum number of shares to be issued on conversion of the First Purchase Convertible;
- (iii) the First Purchase Convertible Notes were issued on 14 August 2023 on the terms and conditions set out in Schedule 1;
- (iv) the face value of each First Purchase Convertible Note is US\$1.08, whilst the effective subscription price of each First Purchase Convertible Note is US\$1.00. The Company has not and will not receive any other consideration for the issue of the First Purchase Convertible Notes;
- (v) the purpose of the issue of the First Purchase Convertible Notes was to raise funds for accelerating exploration activities across the Company's highly prospective portfolio of copper assets in the Americas and for general working capital; and
- (vi) the First Purchase Convertible Notes were issued to Obsidian under the Convertible Note Agreement. A summary of the material terms of the Convertible Note Agreement and the First Purchase Convertible Notes is set out in Schedule 1.
