Mr Graeme Kaufman, Paradigm Chairman:

“We appreciate the support of these offshore institutions for helping facilitate this transaction as our share register continues to globalize. We are pleased that after 6 years and founding the Company with the idea to treat to OA with PPS, Paul has been able to realise a small portion of liquidity to secure the financial future of his family. He has created tremendous shareholder wealth for a large number of our shareholders and we look forward to that continuing as we move towards some very large catalysts for the company over the next 2-3 years”.
