# Navigating Through the Pandemic

**Well  
Placed  
to manage  
through the  
pandemic**

## January & February 2020

GPT maintained the strong momentum from 2019

- + Guidance for FFO per security (FFOPs) & Distribution per security (DPS) growth of 3.5%
- + High quality diversified portfolio with capital allocation focused on growing our logistics portfolio and development pipeline expected to enhance returns and growth
- + Strong capital position and liquidity to fund growth initiatives

## From March 2020

The operating environment became significantly more challenging

- + Guidance was withdrawn for FFOPs and DPS growth
- + Health and safety of our people, our customers and our communities was paramount  
Increased safety measures to specifically address COVID-19
- + Amended distribution policy to align with free cash flow, targeting a payout ratio of 95 to 105 per cent
- + Prudent capital management and strong liquidity position further reinforced with deferral of development projects and non-essential capital expenditure
- + Implemented initiatives to reduce on-going operating costs
- + Engaged with industry bodies and the Government on the commercial tenancy 'Code of Conduct' and proactively engaged with tenants to begin negotiations

While we are dealing with the COVID-19 pandemic we are simultaneously preparing for the recovery and focused on the future

- + Our high quality diversified portfolio, integrated management platform and optimal capital structure positions us well for the future
- + Remain focused on growing our logistics portfolio
- + Pipeline of attractive development opportunities when market conditions improve

# Office Return to Workplace

- + Office assets remained open throughout the period, with some shared facilities within our assets closed in accordance with government directives
- + A range of measures have been employed across the business and asset operations to support our tenants in returning to the office, including:
  - Increased cleaning frequency
  - Air-conditioning systems maximising fresh air volumes
  - Monitoring and management of lift capacities
  - Wayfinding and introduction of social distancing signage
- + Working with customers to conclude temporary rental relief arrangements related to COVID-19

# Office Leasing & Market Update

## Office Leasing

### 1H 2020 Leasing:

- + Signed leases totalling 37,800sqm concluded with an additional 19,600sqm of Heads of Agreement (HoA)
- + Renewals concluded with McMillan Shakespeare, ShineWing and Salesforce

### 2H 2020 Leasing:

- + Conversion of 1H 2020 heads of agreement to signed leases of 15,600sqm
- + Heads of agreement of 27,100sqm in July 2020

## Key Overview

- + Retail Segment FFO contribution of \$79.2 million for 6 months to June 2020 impacted by:
  - + Lower property income due to rental assistance and provisions offset by savings in property expenses
  - + Reduction in fees from property income and deferment of development projects
- + Valuation decline of 10.5% for 6 months to June 2020, and a WACR of 5.04%

# COVID-19 Update

## Portfolio Update

As at  
31 July 2020

### Traffic and Stores Open

Outside of retail assets in Victoria, managed portfolio demonstrating signs of recovery:

- + 95% of stores now open and trading
- + Customer visitation returning with traffic at 85% of 2019 levels

### Retailer Assistance

- + Across managed portfolio, completed 26% of expected deals with retailers required by Code of Conduct
- + In majority of cases preferred position by retailers is not to defer rent beyond Dec 2020

### Marketing and Communications

- + Focused on signage and messaging to encourage shopper adherence to government restrictions
- + Targeted shopper communications via online platforms
- + Supporting retailers with marketing initiatives (such as Retailer Runner) to assist driving sales

## Victoria Update

As at  
31 July 2020

- + Victoria based assets have 62% stores open with traffic numbers at 73% of 2019 levels (excluding Melbourne Central)
- + Melbourne Central impacted given reliance on CBD workers, tourists and students, with traffic averaging 15-20% of its normal levels and only 37% of the stores open
- + Finalisation of discussions with retailers regarding rental assistance may take longer given uncertainty of impacts from recent restrictions
- + Focus on providing safe environments promoting adherence to government guidelines

# Portfolio Performance

## Retail Sales and Traffic

- + Heavily impacted from mid March through to May with government restrictions introduced
- + Recovery evident from May in line with relaxation of restrictions

### MAT at 30 June 2020:

- + Centre Sales down 10% and Total Specialty Sales down 11%

### Categories that have performed well despite conditions:

- + Supermarkets up 1.2%; Discount Department Stores up 0.3%
- + Technology, Food Retail and General Retail, on average down 2.7%

### Categories impacted by government restrictions include:

- + Cinemas, Dining and Retail Services, average decline of 16.9%

Data: Based on weighted portfolio

## Market Share (Physical vs Online)

- + Government restrictions led to significant store closures and a corresponding shift to online retail purchasing
- + Omni-channel retailers benefited most from this shift
- + The result was a loss in market share across the portfolio, with sales diverting to online and smaller local centres out-performing as shoppers sought to limit travel movements
- + Since late April, there has been a rebound as shoppers begin to return to established shopping behaviours

Funds from Operations (FFO) is reported in the Segment Note disclosures which are included in the financial report of The GPT Group for the 6 months ended 30 June 2020. FFO is a financial measure that represents The GPT Group's underlying and recurring earnings from its operations. This is determined by adjusting statutory net profit after tax under Australian Accounting Standards for certain items which are non-cash, unrealised or capital in nature. FFO has been determined based on guidelines established by the Property Council of Australia. A reconciliation of FFO to Statutory Profit is included in this presentation. Key statistics for the Retail and Office divisions include GPT Group's weighted interest in the GPT Wholesale Shopping Centre Fund (GWSCF) and the GPT Wholesale Office Fund (GWOFF) respectively.

# Lease Expiry Profile

Lease Expiry Profile  
(by Income)

Note: Office income, includes Signed Leases.

# Office – Sydney CBD

- Sydney CBD vacancy increased during the past six months to 7.5%, with negative net absorption driven by reduced demand and increased sublease space. Minimal new supply has been brought to market, and a small amount of office space has been withdrawn.
- In the past 12 months net face rents grew 4.6%, with growth skewed towards the second half of 2019. Incentives have increased, offsetting the growth in face rent and resulting in effective rents moderating by 2.5% over the past 12 months.
- Average prime yields have remained stable since December 2019, with limited transactional activity.

**Sydney CBD: Upper and Lower Prime Yields**

Source: JLL Research Q2 2020, GPT Research.

Note: The effective rent is calculated by deducting from the face rental the amortised present value of incentives over an assumed 10 year lease term. Vacancy is inclusive of sublease vacancy and uses JLL's 'dynamic' vacancy calculation, whereby any space being marketed for lease is included in the vacant space count.

1. Change during the past 12 months.

# Office – Melbourne CBD

- Melbourne's vacancy rate increased to 7.7%. This was driven by new supply resulting in backfill space, together with negative net absorption. Sublease space has also increased.
- During 1H 2020, ~160,000 sqm reached completion with ~96% pre-committed. Looking forward, there is ~170,000 sqm to be completed in 2H 2020 with 91% pre-commitment.
- Net face rents grew 6.4% in the past 12 months, moderating at the end of the period to \$623/sqm. Incentives have increased, resulting in a lower net effective rent growth of 3.3%.
- Average prime yields softened by 6 bps in the past six months. Transactional activity has been limited.

1. Change during the past 12 months.

# Office – Brisbane CBD

- Brisbane's CBD vacancy rate softened in the past six months to 12.8%. Net absorption was negative over the first half.
- There was limited supply delivered in the half. For the remainder of 2020, only one building is due for completion providing ~13,000 sqm with 35% pre-commitment.
- Net effective rent growth was steady in the past 12 months, increasing 4.4%, but has moderated in the past six months. Incentives have also remained flat.
- Average prime yields have remained unchanged over the past six months.

1. Change during the past 12 months.

# Office – Parramatta

- The Parramatta office market experienced an increase in the total vacancy rate to 9.7%. This was primarily driven by the expected relocation of CBA to the Sydney Fringe.
- In the past six months, 44,000 sqm was delivered at 3 Parramatta Square and is leased to NAB. Net absorption was moderately negative at 6,000 sqm.
- Net face rents have continued to grow strongly by 12.7% in the past 12 months driven by new supply re-basing net face rent. However incentives have increased and have offset the growth in face rent, resulting in negative effective rent growth of 3.5%.
- Average prime yields have compressed 6 bps in the past six months.
