DIRECTORS' REPORT

The directors of New Frontier Minerals Limited (formerly Castillo Copper Limited) and its subsidiaries ("New Frontier Minerals", "NFM", the "Company" or the "Group") submit the financial report of the Group for the half-year ended 31 December 2024. In order to comply with the provisions of the Corporations Act 2001, the directors report as follows:

Directors

The names of directors who held office during or since the end of the half-year and until the date of this report are as below. Directors were in office for this entire period unless otherwise stated.

Gerrard (Ged) Hall	Non-Executive Chairman
Joel Logan	Non-Executive Director
Eduardo Robaina	Non-Executive Director

Results

The loss after tax for the half-year ended 31 December 2024 was \$903,731 (31 December 2023 loss of \$1,197,257).

Review of Operations

During this reporting period, the Company prioritised its portfolio optimisation strategy by completing the divestment of the Cangai Copper Mine Project to Infinity Mining Limited ("Infinity Mining") (ASX: IMI) and securing the highly promising Harts Range Project in the Northern Territory.

Key exploration progress was made at the Big One Deposit, where surface sampling confirmed high-grade copper assays of up to 12%, highlighting substantial resource expansion potential.

The acquisition of the transformational Harts Range Project in the Northern Territory unlocked access to a highly prospective niobium, uranium, and heavy rare earths region. Rock chip assays returned exceptional grades, and further reconnaissance identified promising targets for future exploration.

The corporate rebranding to New Frontier Minerals Limited underscored the company's renewed focus on critical mineral exploration worldwide.

Financially, the Company reported outflows of approximately \$251,000, with total cash and liquid investments reaching \$1.425 million.

The Big One Deposit, part of the NWQ Copper Project

The surface sampling campaign at the Big One Deposit, part of the NWQ Copper Project, commenced in mid-August 2024. New Frontier Minerals appointed Global Ore Discovery to lead this initiative, aligning with the Company's strategic plan to expand its resource base. The campaign focused on reconciling geochemical and geophysical data to identify high-priority drill-test targets.

Key goals included building on the existing JORC 2012 compliant inferred resource of 2.1Mt @ 1.1% Cu (21,886t contained copper metal) and exploring the potential for extended mineralisation beyond the current orebody. Insights from a 2020 induced polarisation (IP) survey highlighted an untested bedrock conductor north of the line of lode—larger than the high-grade anomaly previously drilled—and incremental copper mineralisation along north-trending fault structures. Additionally, a mineralised gossan located approximately 200m north of the line of lode showed promising copper potential. Results from the surface sampling will guide future drilling efforts to grow the known resource.

Cangai Mineral Resource Estimate

New Frontier Minerals successfully divested the Cangai Copper Mine, transferring three exploration tenements (EL8625, EL8635, and EL8601) located in northern New South Wales. The sale, formalised on 28 November 2024 following Infinity Mining shareholder approval, provided New Frontier Minerals with 40 million shares and 20 million options (five-year term, \$0.07 exercise price) as consideration. This positions the Company to benefit from future value creation as Infinity Mining commences exploration at Cangai.

This transaction marked the second non-core asset sale within 12 months, following the earlier divestment of the Broken Hill West Project. Proceeds from these sales have been redeployed to advance the priority Harts Range Project in the Northern Territory. Strategically, New Frontier Minerals plans to secure a partner to develop the NWQ Copper Project, focusing on the Big One Deposit, while intending to divest the remaining non-core assets—the Broken Hill East and Mkushi Projects—at an optimal time.

Harts Range Project Acquisition

New Frontier Minerals acquired an 85% interest in the Harts Range Project through a binding agreement with Audax Holdings Pty Ltd. Situated 140 km north-east of Alice Springs, the project spans two granted tenements over an area of 110 km². Historical assays from 29 rock chip samples across five prospects revealed high-grade results, including up to 23.2% niobium (Nb), 12.7% uranium (U), and 12.7% Total Rare Earth Elements (TREE), with notable grades of 2.85% dysprosium (Dy), 0.32% terbium (Tb), and 14.9% tantalum (Ta).

A preliminary field visit in October 2024 confirmed these historical results and identified extensive pegmatite occurrences, showcasing the project's significant potential for hosting critical minerals. This acquisition strengthens New Frontier Minerals' focus on advancing projects with high-value resource potential.

Growing the Harts Range Portfolio

New Frontier Minerals expanded its exploration footprint with an additional tenure application east of the primary project area. The Harts Range East Project increased the total tenure to 135 km². Early assessments have highlighted its alignment with the mineralisation trends of the main tenements, with exploration planning set to commence following the grant of the tenure.

Strategic Plans for Remaining Copper Assets

The Board aims to secure a strategic partner to advance the NWQ Copper Project in Queensland, with particular focus on the Big One Deposit. The Company is also considering the divestment of its two other non-core assets – the Broken Hill East Project in New South Wales and the Mkushi Copper Project in Zambia – at the most opportune time.

CORPORATE ACTIVITY

Name Change to New Frontier Minerals

The Company (formerly named Castillo Copper Limited), as approved by its shareholders at the Annual General Meeting held on 28 November 2024, officially changed its name to New Frontier Minerals Limited. The change became effective on 4 December 2024 for its ASX listing.

For the London Stock Exchange (“LSE”), the Company confirmed the effective date of its name change, along with updates to its LSE ticker and ISIN, on 20 December 2024. Accordingly, the Company began trading under its new name, ticker (LSE: NFM), and ISIN (AU0000368748) from the pre-market session on that date.

Additionally, the Company announced the launch of its new website, which is now accessible at <https://newfrontierminerals.com/>.

The rebranding reflects New Frontier Minerals’ strategic direction to align its identity with its evolving focus on critical mineral assets and exploration initiatives.

Events subsequent to period end

The following significant events occurred after 31 December 2024:

- On 10 March 2025, the Company announced it had entered into a Share Purchase Agreement (SPA) with Impact Minerals Ltd (ASX: IPT) for the sale of 100% of the shares in its subsidiary BHA No 1 Pty Ltd, which holds the Company’s two remaining tenements in Broken Hill, NSW.
- Consideration for the sale comprises \$275,000 worth of IPT shares calculated on the basis of the 14 day VWAP of \$0.0073 per share as at 7 March 2025.

Auditor’s Independence Declaration

Section 307C of the Corporations Act 2001 requires our auditors, HLB Mann Judd, to provide the directors of the Company with an Independence Declaration in relation to the review of the half-year financial report. This Independence Declaration is set out on page 4 and forms part of this directors’ report for the half-year ended 31 December 2024.

This report is signed in accordance with a resolution of the Board of Directors.

Notes to the Condensed Consolidated Financial Statements

NOTE 1: STATEMENT OF MATERIAL ACCOUNTING POLICIES**Corporate Information**

This general purpose financial report of New Frontier Minerals Limited (formerly Castillo Copper Limited) and its subsidiaries (“the Group”) for the half-year ended 31 December 2024 was authorised for issue in accordance with a resolution of the directors on 12 March 2025.

New Frontier Minerals Limited is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange and the London Stock Exchange. At the Company’s 2024 Annual General Meeting, shareholders approved the Company’s change of name from Castillo Copper Limited to New Frontier Minerals Limited.

The nature of the operations and principal activities of the Group are described in the Directors’ Report.

Basis of Preparation

This financial report for the half-year ended 31 December 2024 has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. The Group is a for profit entity for financial reporting **purposes** under Australian Accounting Standards. Compliance with AASB 134 ensures compliance with IAS 34 *Interim Financial Reporting*.

These half-year financial statements do not include all notes of the type normally included within the annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Group as the full financial statements.

It is recommended that the half-year financial statements be read in conjunction with the annual financial statements for the year ended 30 June 2024 and considered together with any public announcements made by New Frontier Minerals Limited during the half-year ended 31 December 2024 in accordance with the continuous disclosure obligations of the ASX listing rules.

For the purpose of preparing the half-year report, the half-year has been treated as a discrete reporting period. The accounting policies and methods of computation adopted are consistent with those of the previous financial year. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

The consolidated financial statements have been prepared on the basis of historical cost.

Notes to the Condensed Consolidated Financial Statements

for the half-year ended 31 December 2024

NOTE 1: STATEMENT OF MATERIAL ACCOUNTING POLICIES (CONTINUED)**New and amending Accounting Standards and Interpretations**

In the half-year ended 31 December 2024, the Directors have reviewed all the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group's operations and effective for annual reporting periods beginning on or after 1 July 2024. As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Group and, therefore, no material change is necessary to Group accounting policies. The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the half-year ended 31 December 2024. As a result of this review the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group's business and, therefore, no change necessary to the Group accounting policies.

Going Concern

This report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The Group incurred a net loss for the period ended 31 December 2024 of \$892,806 and a net cash outflow from operating activities of \$743,306. At 31 December 2024, the Group had a net asset position of \$11,108,613 and working capital of \$1,679,933. The cash and cash equivalents balance at 31 December 2024 was \$881,036 and other liquid investments of \$544,000.

Notwithstanding this position and results, the Directors believe that the Company will be able to continue as a going concern and as a result the financial statements have been prepared on a going concern basis. The interim financial report has been prepared on the assumption that the Group is a going concern for the following reasons:

- the ability of the Group to scale back parts of its operations and reduce costs if required;
- the Board is of the opinion that the Group has, or shall have access to, sufficient funds to meet the planned corporate activities and working capital requirements; and
- as the Group is an ASX-listed entity, the Group has the ability to raise additional funds, if required.

In the event that the Group is unable to achieve the actions noted above, there is a material uncertainty that may cast significant doubt as to the Group's ability to continue as a going concern, and it may be required to realise its assets at amounts different to those currently recognised, settle liabilities other than in the ordinary course of business and make provisions for other costs which may arise as a result of cessation or curtailment of normal business operations.

The directors have reviewed the Group's financial position and are of the opinion that the use of the going concern basis of accounting is appropriate.

Sale of exploration assets	-	(94,831)
Closing balance	9,350,623	8,493,010

The ultimate recoupment of costs carried forward as exploration and evaluation expenditure is dependent on the successful development and commercial exploitation or sale of the respective areas of interest.

¹ At each reporting date, the Group undertakes an assessment of the carrying amount of its exploration and evaluation assets. During the period, the Group identified indicators of impairment on exploration and evaluation assets under AASB 6 *Exploration and Evaluation of Mineral Resources*. As disclosed in Note 13, subsequent to the balance date, the Broken Hill tenements are to be sold for consideration of \$275,000. As a result, the carrying value of these tenements at balance date were impaired to this amount, resulting in an impairment charge of \$967,797.

NOTE 6: ISSUED CAPITAL (CONTINUED)**Share Options**

At 31 December 2024 there were 8,000,000 (30 June 2024: 11,000,000) unlisted options on issue with an exercise price of \$0.08 and an expiry date on 31 January 2025 and no listed options.

The following share-based payment arrangements for options were in place during the period:

Number	Grant date	Expiry date	Exercise price \$	Vesting date
8,000,000	1 February 2022	31 January 2025	\$0.08	1 February 2022

These options expired unexercised on 31 January 2025.

During the half-year 166,439,781 options expired, with various exercise prices and expiry dates.

No options were exercised during the period.

Performance Rights

In the 2024 Annual General Meeting held, shareholder approval was granted for the issue of 14,000,000 performance rights to the directors and company secretary with vesting conditions to achieve and maintain a 20 days VWAP of \$0.020 or more on or before the expiry date.

The following share-based payment arrangements for performance rights were in place during the period:

Number	Grant date	Expiry date	Exercise price \$	Fair value at grant date	Vesting date
14,000,000	29 November 2024	19 January 2030	\$Nil	\$0.0116	19 January 2025

No performance rights were exercised during the period.

The fair value of the equity-settled performance rights granted on 20 January 2025 was estimated as at the date of grant using the Trinomial calculation model taking into account the terms and conditions upon which they were granted, as follows:

Expected volatility (%)	100
Risk-free interest rate (%)	3.98
Expected life of rights (years)	5
Hurdle price (cents)	2
Grant date share price (cents)	0.012

The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of rights granted were incorporated into the measurement of fair value.

NOTE 6: ISSUED CAPITAL (CONTINUED)

Performance Shares

At 31 December 2024 there were 46,875,000 Class A performance shares and 46,875,000 Class B performance shares on issue in relation to the Zambian tenements held by Zed Copper Pty Ltd.

46,875,000 Class A performance shares

Conditions precedent – converting to an equal number of NFM shares on delineation of a JORC resource of 200,000 tonnes of contained copper at a minimum grade of 0.5% within 5 years of execution of the Share Sale Agreement.

46,875,000 Class B performance shares

Conditions precedent – converting to an equal number NFM shares on completion of a preliminary feasibility study demonstrating an internal rate of return greater than 25% within 5 years of execution of the Share Sale Agreement.

NOTE 7: DISCONTINUED OPERATION

On 30 December 2024 the sale of the Company's Cangai Copper Mine Project in NSW, to Infinity Mining Limited (ASX: IMI) as announced on 3 October 2024 was completed. As consideration for the sale, the Group received 40,000,000 shares in IMI with a value of \$600,000, along with 20 million unlisted options with an exercise price of 7 cents and an expiry date of 30 November 2029 valued at \$160,000. As the capitalised exploration expenditure has been fully impaired, a gain on sale of exploration assets of \$760,000 has been recognised in the statement of profit or loss and other comprehensive income. As the project was considered to be a separate segment, it has been treated as a discontinued operation.

Financial Performance of Discontinued Operation:

	31 December 2024 \$	31 December 2023 \$
Net gain on disposal of exploration assets	760,000	-
Exploration expenditure as incurred	(25,659)	-
Impairment of exploration expenditure	-	(185,891)
Profit/(Loss) for the half-year	734,341	(185,891)

NOTE 8: COMMITMENTS

To maintain current contractual rights concerning its mineral projects, the Group has certain commitments to meet work program requirements but has no minimum expenditure requirements.

Notes to the Condensed Consolidated Financial Statements

INDEPENDENT AUDITOR'S REVIEW REPORT

To the Members of New Frontier Minerals Limited (formerly Castillo Copper Limited)

Report on the Condensed Half-Year Financial Report*Conclusion*

We have reviewed the half-year financial report of New Frontier Minerals Limited ("the Company") and its controlled entities ("the Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2024, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, selected explanatory notes, and the directors' declaration, for the Group comprising the Company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of New Frontier Minerals Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibility is further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the "Code") that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
