## **Launch of MFG Core Series**

Magellan Asset Management Limited ("Magellan") is pleased to announce the launch of the MFG Core Series which commence trading on Chi-X today from 12.00pm.

The MFG Core Series is a series of investment strategies, initially comprising:

- the MFG Core International Fund (Ticker: MCSG);
- the MFG Core ESG Fund (Ticker: MCSE); and
- the MFG Core Infrastructure Fund (Ticker: MCSI)

that leverage Magellan's investment philosophy and proprietary research to offer investors lower cost more diversified portfolios of high quality companies.

Brett Cairns, CEO, said: "The MFG Core Series has been under development for several years and extends the successful approach that has been applied by our institutional Core Infrastructure Fund and mandates for the past 10 years. This approach actively constructs diversified portfolios of high-quality companies leveraging Magellan's research, and manages them using a proprietary process.

The MFG Core Series funds have a management fee of 0.50% p.a. We believe the series provides an attractive lower cost investment alternative for those wishing to gain an exposure to Magellan's research and investment expertise but are not necessarily seeking our full actively managed portfolio services."

Vihari Ross, Head of MFG Core Series and Portfolio Manager of MFG Core International Fund said, "We are excited to be able to deliver investment strategies that leverage Magellan's DNA whilst addressing the growing appetite in the marketplace for lower cost products."

The MFG Core Series are available for investment either through the Chi-X securities exchange through a stockbroker or online broking account, or by application directly with Management Asset Management Limited in its capacity as the responsible entity of each fund.
