Question	Response	Where to find information
What are the key risks of a further investment in the Company?	<p>Each Offer should be considered highly speculative. Before deciding whether to apply for New Securities under each Offer, you should carefully consider the risk factors set out Section 8 of this Prospectus, the information contained in other sections of this Prospectus, and the Company's announcements referred to in Section 9.1.</p> <p>Key risks include:</p> <ul style="list-style-type: none"> • The Company is exposed to market fluctuations and economic conditions. • Dilution risk as a result of the Offers and any further capital raisings the Company may undertake in the future. • The Company will need to raise additional funds in the future to continue its exploration activities and/or develop its projects in the event exploration is successful. • The realisation of exploration outcomes at each of the Company's projects are unknown. • If the Company achieves exploration success leading to mineral production, the Company's financial performance will be sensitive to the relevant commodity price. 	Section 8
Is each Offer underwritten?	None of the Offers are underwritten.	Section 5.12
Is there a broker and lead manager to the Offers?	<p>There is no broker to the Offers.</p> <p>Shaw and Partners will act as Lead Manager to the Offers. A summary of the material terms and conditions of the mandate agreement between the Company and Shaw and Partners, including details of the fees proposed to be paid to the Lead Manager under that agreement, is contained in Section 9.3.</p>	Sections 5.13 and 9.3
What is the effect of the Offers on share capital and cash reserves?	<p>The effect of the Offers on the Company's share capital and cash reserves is to:</p> <ul style="list-style-type: none"> • Increase the number of Shares and Options on issue to 2,176,231,082 Shares and 1,618,415,552 Options assuming Full Subscription. • Increase cash reserves by approximately \$1,100,000 before the expenses of the Offers, assuming Full Subscription. 	Section 6.2
What is the effect of the Offers on control of the Company	The Entitlement Offer is for one (1) New Share for every one (1) Share held by Eligible Shareholders on the Record Date. Therefore, the maximum dilution at Full Subscription that will be experienced by any Shareholder is approximately 50% of its existing Shareholding.	Sections 6.5 and 6.7

Question	Response	Where to find information
	It is a term of each of the Additional New Shares Offer and the Shortfall Offer that no person will be permitted by the Company to subscribe for and be issued New Shares under the Additional New Shares Offer or the Shortfall Offer if doing so will cause the person (or any associate of that person) to be in breach of the law (including Section 606 of the Corporations Act) or ASX Listing Rules. Accordingly no Shareholder will be entitled to acquire Voting Power in the Company above 20% pursuant to the Offers.	
Can I sell my Entitlements?	No. The Entitlement Offer is non-renounceable meaning your Entitlement is not transferable and there will be no trading of rights on ASX.	Sections 5.1 and 5.4
How can I accept my Entitlement?	All Eligible Shareholders are entitled to subscribe for New Shares under the Offer. If you wish to take up your Entitlement and/or apply for Additional New Shares under the Additional New Shares Offer you must follow the instructions set out in the Entitlement and Acceptance Form that accompanies this Prospectus.	Sections 5.4 and 5.5
How can I obtain further advice?	Contact the Company Secretary on +61 410 594 349 or by email at scott@javelinminerals.com.au . Alternatively, consult with your broker or other professional advisers.	Section 5.17

4. IMPORTANT NOTES

This Prospectus is dated 12 December 2023 and was lodged with ASIC on that date. ASIC and its officers take no responsibility for the contents of this Prospectus. No person or entity is authorised to give any information or make any representation in connection with the Offers which is not contained in this Prospectus. Any information or representation not contained in this Prospectus must not be relied on as having been authorised by the Company in connection with the Offer or this Prospectus.

No New Securities will be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

It is important that you read this Prospectus in its entirety and, if in any doubt about whether to apply for New Shares, seek professional advice. An investment in the New Securities the subject of this Prospectus should be considered speculative. None of the Company, the Directors or any other person gives any guarantee as to the success of the Company, the repayment of capital, the payment of dividends, the future value of the New Securities or the price at which the New Securities will trade on the ASX.

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act). It has been prepared in accordance with section 713 of the Corporations Act and it does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom they may consult.

Shareholders Outside Australia

No New Securities will be issued to Shareholders with a registered address outside Australia, New Zealand, the United Kingdom or the Netherlands. No action has been taken by the Company to register or qualify the New Securities or otherwise permit a public offering of the New Securities the subject of this Prospectus in any jurisdiction outside of Australia and New Zealand.

Forward Looking Statements

This Prospectus contains forward looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects' or 'intends' and other similar words that involve risks and uncertainties.

These statements relate to intentions and future acts and events. They are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company's management, which could cause these future acts, events and circumstances to differ from the way or manner in which they are expressly or implicitly portrayed in this Prospectus. Some of these risk factors are set out in Section 8.

The Company does not intend to update or review forward looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward looking statements contained in this Prospectus will actually occur, and potential investors are cautioned not to place undue reliance on these forward looking statements.

Electronic Prospectus

This Prospectus will be issued in paper form and as an electronic prospectus that may be accessed on the internet at the Company's website at www.javelinminerals.com.

Pursuant to Regulatory Guide 107 ASIC has exempted compliance with certain provisions of the Corporations Act to allow distribution of an electronic prospectus on the basis of a paper prospectus lodged with ASIC and the issue or transfer of shares in response to an electronic application form, subject to compliance with certain provisions. If you have received or accessed this Prospectus as an electronic Prospectus for the purpose of making an investment in the Company please ensure that you have received the entire Prospectus accompanied by the Application Form. If you have not, please contact the Share Registry (see the Corporate Directory in Section 1 for the Company's contact details) and the Share Registry will send you, at no cost to you, either a hard copy or a further electronic copy of this Prospectus or both during the period of the Offer.

By making an Application, you declare that you were given access to this Prospectus, together with an Application Form. The Corporations Act prohibits any person passing an Application Form on to another person unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered. In such a case, the Application Monies received will be dealt with in accordance with section 722 of the Corporations Act.

Website

No document or information on the Company's website is incorporated by reference into this Prospectus.

Definitions

Throughout this Prospectus abbreviations and defined terms are used. Defined terms are generally identifiable by the use of an upper case first letter and the definitions of those terms are contained in the Glossary in Section 10.

5. DETAILS OF THE OFFERS

5.1 The Entitlement Offer

The Entitlement Offer is being made as a non-renounceable pro rata entitlement offer of one (1) New Share for every one (1) Share held by Shareholders registered at the Record Date at an issue price of \$0.001 per New Share together with one (1) attaching New Option for every one (1) New Share subscribed for under this Prospectus. The New Options will be exercisable at \$0.002 on or before 31 December 2028.

Based on the capital structure of the Company at the date of this Prospectus, a maximum of 1,088,115,541 New Shares and 1,088,115,541 New Options will be issued pursuant to the Entitlement Offer to raise up to approximately \$1,100,000.

All of the New Shares to be issued pursuant to this Prospectus and Shares issued upon exercise of the New Options will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 7 for further information regarding the rights and liabilities attaching to the New Shares and the New Options.

The Entitlement Offer is non-renounceable. Accordingly, an Eligible Shareholder may not sell or transfer part or all of their Entitlement.

The purpose of the Offers and the intended use of funds raised under the Offers are set out in 6.1.

5.2 Minimum Subscription

There is no minimum subscription to the Entitlement Offer.

5.3 Additional New Shares

Eligible Shareholders (except Directors and other Related Parties and parties who at the Record Date have a Voting Power in 20% or more of the total issued Shares) can apply for Additional New Shares in excess of their Entitlement (regardless of the size of their present holding) under the Additional New Shares Offer.

It is a term of the Additional New Shares Offer that no person will be permitted by the Company to be issued Additional New Shares under the Additional New Shares Offer if doing so will cause the person (or any associate of that person) to be in breach of the law (including Section 606 of the Corporations Act) or the ASX Listing Rules.

This issue price for each Additional New Share offered under the Additional New Shares Offer is \$0.001 per Additional New Share together with one (1) New Option for every one (1) Additional New Share subscribed for, being the same terms that New Shares are being offered under the Entitlement Offer. The Additional New Shares and attaching New Options offered under the Additional New Shares Offer have the same rights and liabilities respectively as the New Shares and the New Options under the Entitlement Offer, which are described in Section 7.

The Company encourages all Eligible Shareholders with an Unmarketable Parcel to apply for both their Entitlement and for Additional New Shares so as to bring their holding to at least a Marketable Parcel.

It is possible that there will be few or no Additional New Shares available for issue, depending on the extent of take up of Entitlements by Shareholders. There is also no guarantee they will be allocated to all or any of the eligible applicants who have applied for them. Additional New Shares will be allocated first to enable Eligible Shareholders to hold a Marketable Parcel and thereafter at the discretion of the Directors in consultation with the Lead Manager.

It is an express term of the Additional New Shares Offer that applicants for Additional New Shares will be bound to accept a lesser number of Additional New Shares than the number applied for, if a lesser number is allocated to them. If a lesser number of Additional New Shares is allocated to them than applied for, excess application money will be refunded without interest.

5.4 Actions Eligible Shareholders May Take

The number of New Shares and attaching New Options to which Eligible Shareholders are entitled (your Entitlement) is shown on the personalised Entitlement and Acceptance Form accompanying this Prospectus.

If you are an Eligible Shareholder you may do any of the following:

- (a) take up your full Entitlement;
- (b) take up your full Entitlement and apply for Additional New Shares;
- (c) partially take up your Entitlement and allow the balance to lapse; or
- (d) decline to take up your Entitlement by taking no action.

The Entitlement Offer is a pro rata offer to Eligible Shareholders. Eligible Shareholders who do not take up their Entitlements in full will not receive any amounts in respect of the Entitlements that they do not take up, and will have a reduced (ie. diluted) percentage shareholding in the Company after implementation of the Offers. However the number of Shares held at the Record Date and the rights attached to those Shares will not be affected.

Eligible Shareholders who take up their Entitlement in full will not reduce (ie. dilute) their percentage shareholding in the Company after implementation of the Offers.

Entitlements cannot be traded on ASX or any other exchange, nor can they otherwise be transferred.

5.5 Payment

If you are an Eligible Shareholder and wish to accept the Entitlement Offer and:

- (a) take up all of your Entitlement;
- (b) take up all of your Entitlement and apply for Additional New Shares; or
- (c) take up part of your Entitlement,

you have two payment methods that follow below (Payment Method 1 – Pay by BPAY® or Payment Method 2 – Pay by Electronic Funds Transfer).

Payment Method 1 – Pay via BPAY®

To follow this Payment Method 1 you should pay the Application Money in accordance with the instructions set out on the personalised Entitlement and Acceptance Form, which includes the biller code and your customer reference number. The Application Money is equal to \$0.001 per New Share multiplied by the number of New Shares you wish to subscribe for. If you are not taking up all of your Entitlement or you are applying for Additional New Shares you will need to calculate this amount yourself.

If you have multiple holdings you will also have multiple customer reference numbers. You must use the reference number shown on each Entitlement and Acceptance Form to pay for each holding separately.

You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions.

Please note that should you choose to pay via BPAY®:

- (a) you do not need to submit the personalised Entitlement and Acceptance Form but are taken to make the statements on that form; and
- (b) you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Money and applied for Additional New Shares to the extent of any remaining Application Money.

You need to ensure that your BPAY® payment is received by the Share Registry by no later than 5:00pm AWST on the Closing Date.

Applicants should be aware that their own financial institution may implement earlier cut-off times with regards to electronic payment and should take this into consideration when making payment. It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00pm AWST on the Closing Date.

Payment Method 2 – Pay by Electronic Funds Transfer

To follow this Payment Method 2 please pay the Application Money in accordance with the instructions set out on the personalised Entitlement and Acceptance Form accompanying this Prospectus. The Application Money is equal to \$0.001 per New Share multiplied by the number of New Shares you wish to subscribe for. If you are not taking up all of your Entitlement or you are applying for Additional New Shares you will need to calculate this amount yourself.

5.6 Eligible Shareholders

The Entitlement Offer and Additional New Shares Offer are only open to Eligible Shareholders. Eligible Shareholders are those Shareholders who:

- (a) were registered as a holder of Shares at 5:00pm on the Record Date; and
- (b) have a registered address in Australia, New Zealand, the United Kingdom or the Netherlands.

The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owner of Shares. Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Entitlement Offer is compatible with applicable foreign laws. The Company is not able to advise on foreign laws.

The distribution of this Prospectus in jurisdictions outside Australia and New Zealand may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. A failure to comply with these restrictions may violate those applicable laws. This Prospectus does not, and is not intended to, constitute an offer or invitation to subscribe in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus. If you are a resident in a country other than Australia and New Zealand you should consult your professional advisers as to whether any governmental or other consents are required or whether any other formalities need to be considered and followed. No action has been taken by the Company to register or qualify the New Securities or otherwise permit a public offering of the New Securities the subject of this Prospectus in any jurisdiction outside of Australia and New Zealand.

This Prospectus has not been registered, filed with or approved by any New Zealand regulatory authority under the Financial Markets Conduct Act 2013 (**FMC Act**). The New Shares are not being offered or sold in New Zealand (or allotted with a view to being offered for sale in New Zealand) other than to a person who:

- is an investment business within the meaning of clause 37 of Schedule 1 of the FMC Act;
- meets the investment activity criteria specified in clause 38 of Schedule 1 of the FMC Act;
- is large within the meaning of clause 39 of Schedule 1 of the FMC Act;
- is a government agency within the meaning of clause 40 of Schedule 1 of the FMC Act; or
- is an eligible investor within the meaning of clause 41 of Schedule 1 of the FMC Act.

5.7 Shareholders Outside Australia

The Entitlement Offer is not being made to Shareholders with a registered address outside Australia, New Zealand, the United Kingdom or the Netherlands.

The Company is of the view that it is unreasonable to make the Entitlement Offer to Ineligible Overseas Shareholders having regard to:

- (a) the number of Ineligible Shareholders;
- (b) the number and value of the New Securities that would be offered to Ineligible Shareholders; and
- (c) the cost of complying with the legal requirements and requirements of regulatory authorities in other overseas jurisdictions.

5.8 Implications on Acceptance

Paying any Application Money via BPAY® or Electronic Funds Transfer will be taken to constitute a representation by you that you:

- (a) agree to be bound by the terms of the Offers;
- (b) declare that all details and statements in the Entitlement and Acceptance Form are complete and accurate;
- (c) are over 18 years of age and have full legal capacity and power to perform all your rights and obligations under the Entitlement and Acceptance Form;
- (d) have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (e) acknowledge that information contained in, or accompanying, the Prospectus is not investment or financial product advice or a recommendation that New Securities are suitable for you given your investment objectives, financial situation or particular needs;
- (f) acknowledge that the application may not be varied or withdrawn except as required by law; and

- (g) authorise the Company and its respective officers or agents, to do anything on your behalf necessary for the New Securities to be issued to you, including to act on instructions of the Share Registry upon using the contact details set out in the Entitlement and Acceptance Form.

5.9 Shortfall Offer

The Shortfall Offer is a separate offer made pursuant to this Prospectus.

Any Entitlement not taken up by an Eligible Shareholder before the Closing Date will form Additional New Shares being offered by this Prospectus under the Additional New Shares Offer. Any Additional New Shares not allocated pursuant to the Additional New Shares Offer will form the Shortfall Shares being offered by this Prospectus under the Shortfall Offer. The Company reserves the right to place the Shortfall Shares within three months of the Closing Date.

This issue price for each Shortfall Share offered under the Shortfall Offer is \$0.001 per Shortfall Share together with one (1) attaching New Option for every one (1) Shortfall Share subscribed for, being the same terms that New Securities are being offered under the Entitlement Offer. The Shortfall Shares and New Options offered under the Shortfall Offer have the same rights and liabilities respectively as the New Shares and the New Options, which are described in Section 7.

It is possible that there will be few or no Shortfall Shares available for issue, depending on the extent of take up of Entitlements and the allocation of Additional New Shares to Eligible Shareholders. There is no guarantee that applicants under the Shortfall Offer will receive any or all of the Shortfall Shares they apply for.

It is an express term of the Shortfall Offer that applicants for Shortfall Shares will be bound to accept a lesser number of Shortfall Shares than the number applied for, if a lesser number is allocated to them. If a lesser number of Shortfall Shares is allocated to them than applied for, excess application money will be refunded without interest.

The allocation of Shortfall Shares under the Shortfall Offer will be determined by the Lead Manager and the Lead Manager reserves their right to reject any application under the Shortfall Offer or to issue fewer Shortfall Shares than the number applied for. Some factors that may influence allocations include but are not limited to:

- The number of Shortfall Shares applied for;
- The Company's desire for an informed and active trading market following completion of the Offers;
- The Company's desire to establish a spread of investors, including institutional investors;
- The overall level of demand under the Offers;
- The size and type of funds under management of particular applicants; and
- The likelihood that particular applicants will be long-term strategic Shareholders.

It is a term of the Shortfall Offer that no person will be permitted by the Company to subscribe for and be issued Shortfall Shares under the Shortfall Offer if doing so will cause the person (or any associate of that person) to be in breach of the law (including Section 606 of the Corporations Act) or the ASX Listing Rules.

5.10 Issue of New Securities

New Securities issued pursuant to the Entitlement Offer and the Additional New Shares Offer will be issued in accordance with the Listing Rules and the timetable set out in Section 3.

Securities under the Shortfall Offer may be issued on a progressive basis and in any event by no later than the date that is three (3) months from the Closing Date.

Prior to the issue of the New Securities or payments of refunds pursuant to this Prospectus, all Application Money shall be held by the Company on trust for the applicants for New Shares. The Company will retain any interest earned on the Application Money irrespective of whether the allotment and issue of New Securities takes place and each applicant for New Shares waives the right to claim interest.

Following allotment, statements of holdings will be dispatched to applicants under the Entitlement Offer and successful applicants under the Additional New Shares Offer in accordance with the Listing Rules and the timetable set out in Section 3. It is your responsibility to determine your allocation and holding of Shares prior to trading in the New Securities. If you sell New Securities before receiving your holding statement you do so at your own risk.

For Securities issued under the Shortfall Offer, holding statements will be issued as soon as practicable after their issue.

5.11 ASX Listing

The Company will apply to the ASX for Quotation of the New Securities offered under this Prospectus within 7 days of the date of this Prospectus. If the ASX does not grant permission for Quotation of the New Shares within three months after the date of this Prospectus, or such longer period as is varied by ASIC, the Company will not issue or allot any New Shares offered for subscription under this Prospectus and will repay all Application Money received as soon as practicable thereafter without interest. The Quotation of the New Options will be subject to compliance with the Requirements of the ASX Listing Rules in relation to such Quotation.

The ASX takes no responsibility for the contents of this Prospectus. The fact that the ASX may grant Quotation of the New Securities is not to be taken in any way as an indication of the merits of the Company or the New Securities.

5.12 Underwriting

The Offers are not underwritten.

5.13 Broker and Lead Manager

There is no broker to the Offers.

The Company has appointed Shaw and Partners as Lead Manager to the Offers. The Lead Manager will receive a fee of 6% of the Shortfall Shares (if any) placed under the Offers. Further information in relation to the terms of appointment of the Lead Manager is contained in Section 9.3.

5.14 Governing Law

The Prospectus and the contracts that arise from acceptance of applications for New Securities offered under this Prospectus are governed by the laws applicable in Western Australia and each applicant for New Securities submits to the non-exclusive jurisdiction of the courts of Western Australia.

5.15 Taxation

The Directors do not consider it appropriate to give Shareholders advice regarding the taxation consequences or subscribing for New Securities (including any Additional New Shares or Shortfall Shares) under this Prospectus.

Taxation implications will vary depending upon the individual circumstances of individual Eligible Shareholders. Eligible Shareholders are strongly recommended to obtain their own professional advice (including taxation advice) before deciding whether to accept the Entitlement Offer or apply for Additional New Shares under the Additional New Shares Offer. You are urged to obtain independent financial advice about such consequences from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisers accept no liability or responsibility with respect to the taxation consequences of the Entitlement Offer, or the acquisition or disposal of New Securities in connection with the Entitlement Offer.

5.16 No Cooling off Rights

Cooling off rights do not apply to an investment in New Shares. You cannot, in most circumstances, withdraw your Application once it has been accepted.

5.17 Queries

This Prospectus provides important information and should be read in its entirety. If you have any questions about what action to take after reading this Prospectus, please contact your stockbroker, financial planner, accountant, lawyer or independent financial adviser. Any questions concerning the Offers should be directed to the Company Secretary, Mr Scott Mison, on +61 410 594 349 or email scott@javelinminerals.com.au.

6. PURPOSE AND EFFECT OF THE OFFERS

6.1 Purpose of the Offers

The purpose of the Offers is to raise up to approximately \$1,100,000 (before costs). The proposed use of funds raised under the Offers, is set out below. Please refer to Section 9.7 for further details relating to the estimated expenses of the Offers.

Source of Funds	A\$m	Use of Funds	A\$m
Proceeds of the Offers (before costs)	\$1,100,000	Maintenance and exploration of exploration projects	\$699,976
		Working Capital	\$333,605
		Expenses of the Offers ¹	\$66,419
Total Source of Funds	\$1,100,000	Total Use of Funds	\$1,100,000

1. Refer to Section 9.7 for further details relating to the estimated expenses of the Offer.

The table above is a statement of the Directors' current intentions as at the date of this Prospectus. In the event that circumstances change, events intervene or other opportunities arise, the Directors reserve the right to vary the proposed use of funds to maximise benefits to Shareholders. Working capital includes but is not limited to corporate administration and operating costs and may be applied to Directors' fees, consulting fees, ASX fees, share registry fees, legal, tax and audit fees, insurance, travel costs and outstanding creditors. Further working capital may be applied to evaluating new project opportunities that may complement the existing projects of the Company.

In the event that there is a Shortfall which is not fully subscribed for under the Shortfall Offer, the Company will not receive the Full Subscription of approximately \$1,100,000, in which case the Company will apportion the total funds raised on a pro rata basis except for the fixed costs of the Offers.

6.2 Financial Effect of the Offers

The principal effect of the Offers, assuming all New Securities offered under the Prospectus are issued (assuming Full Subscription), will be to:

- (a) increase the Company's cash reserves by approximately \$1,100,000 (before deducting the expenses of the Offers);
- (b) increase the number of Shares on issue from 1,088,115,541 as at the date of this Prospectus to 2,176,231,082 Shares; and
- (c) increase the number of Options on issue from 530,300,011 as at the date of this Prospectus to 1,618,415,552 Options following completion of the Offers.

The audited Consolidated Statement of Financial Position as at 30 June 2023 and the Pro-Forma Unaudited Consolidated Statement of Financial Position as at 30 June 2023 shown below have been prepared on the basis of the accounting policies normally adopted by the Company and reflect the changes to its financial position. The Pro-Forma Unaudited Consolidated Statement of Financial Position (which has not been audited or reviewed by an auditor) has been prepared on the assumption that all New Securities offered under this Prospectus are issued and that no existing Options are exercised prior to the Record Date.

The Pro-Forma Unaudited Consolidated Statement of Financial Position has been prepared to provide Shareholders with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

The Pro-Forma Unaudited Consolidated Statement of Financial Position is provided for illustrative purposes only and is not represented as being indicative of the Company's view of the future financial position of the Company and will not necessarily reflect the actual position and balances as at the date on which New Securities are issued under this Prospectus.

The pro forma statement of financial position has been prepared assuming:

- (a) Material change since 30 June 2023, being:
 - (i) movement in cash as at 30 November 2023; and
 - (ii) placement of 141,800,000 Shares in September 2023 and attaching Options in November 2023.
- (b) An Entitlement Offer comprised of:
 - (i) at Full Subscription, the issue of 1,088,115,541 New Shares and New Options to raise up to approximately \$1,100,000; and
 - (ii) the estimated expenses of the Entitlement Offer being approximately \$66,419.

The pro forma statement of financial position has been prepared to provide investors with information on the assets and liabilities of the Company and pro forma assets and liabilities of the Company. The historical and pro forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by the Australia Accounting Standards applicable to annual financial statements.

6.3 Financial Forecasts and Cashflow Projections

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and consider that they do not have a reasonable basis to forecast future earnings for the Company. Given the high risk nature of mineral exploration and the speculative nature of mineral exploration there are significant uncertainties associated with the future revenue earning potential of the Company and the timing and sustainability of the cash flow. On the basis of these inherent uncertainties, the Directors believe that reliable forecasts cannot be prepared and accordingly have not included forecasts in this Prospectus.

6.4 Effect on Capital Structure

The effect of the Offers on the capital structure of the Company (assuming Full Subscription under the Offers) is set out below.

Shares

	Full Subscription
Shares currently on issue	1,088,115,541
New Shares to be issued pursuant to the Offers	1,088,115,541

Total Options on completion of the Offers	1,618,415,552

6.5 Details of Substantial Holder

Based on information available to the Company as at the date of this Prospectus, the only shareholder who (together with associates) has Voting Power in 5% or more of the Shares on issue is set out below:

Substantial Holder	Shares held before Offer	Voting Power (%) before Offer	Entitlement under Offer
Pareto Nominees Pty Ltd	57,369,823	5.27%	57,369,823

In the event that all Entitlements are accepted, whilst there will be an increase in the number of Shares held by the substantial holder, there will be no change in the percentage Shareholding of the substantial holder on completion of the Entitlement Offer as the Entitlement Offer is a pro rata offer to all Eligible Shareholders. The substantial holder has committed to participate in full in the Entitlement Offer, therefore his interest in the Company will be not be diluted.

If no Shareholders other than Pareto Nominees Pty Ltd take up their Entitlement, the maximum Voting Power that the substantial shareholder could have after the Offers is 20%.

6.6 Potential Dilution

If Eligible Shareholders take up their Entitlements in full the maximum number of New Shares which will be issued pursuant to the Offers is 1,088,115,541. This equates to 50% of all the issued Shares of the Company following completion of the Offer.

The potential effect the Offers might have on the dilution of Shareholders will depend on the extent to which Eligible Shareholders take up their Entitlements.

Shareholders should note that if they do not participate in the Offers and the Offers are fully subscribed, their holdings could be diluted by 50% (as compared to their holdings and the number of Shares on issue at the date of the Prospectus). Examples of how the dilution may impact Shareholders are set out in the table below:

Holder	Holding as at Record Date	% at Record Date	Entitlement	Holdings if Entitlement not taken up	% post Offers (50% Subscription)	% post Offers (Full Subscription)
Shareholder 1	50,000,000	4.60%	50,000,000	50,000,000	3.07%	2.30%
Shareholder 2	35,000,000	3.22%	35,000,000	35,000,000	2.15%	1.61%
Shareholder 3	20,000,000	1.84%	20,000,000	20,000,000	1.23%	0.92%
Shareholder 4	10,000,000	0.92%	10,000,000	10,000,000	0.61%	0.46%
Shareholder 5	5,000,000	0.46%	5,000,000	5,000,000	0.31%	0.23%
Shareholder 6	1,000,000	0.092%	1,000,000	1,000,000	0.06%	0.046%

Notes

The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are taken by other Eligible Shareholders and/or investors. If not all New Shares are issued under the Entitlement Offer, the Additional New Shares Offer or the Shortfall Offer, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

6.7 Effect on Control on the Company

The potential effect the Offers will have on the control of the Company, and the consequences of that effect, will depend on a number of factors, including investor demand and the extent to which Eligible Shareholders take up their Entitlements under the Entitlement Offer and Additional New Shares under the Additional New Shares Offer. Having regard to the composition of the Company's share register, the information contained in the substantial shareholder notices released to ASX and the terms of the Entitlement Offer, the potential effects that the Entitlement Offer will have on the control of the Company and the consequences of that effect, are summarised below:

- (a) If all Eligible Shareholders take up their Entitlements under the Entitlement Offer, then the Entitlement Offer will have no effect on the control of the Company.

- (b) If some Eligible Shareholders do not take up all of their Entitlements under the Entitlement Offer, this could result in a dilution of those Eligible Shareholders' interests and the interests of Eligible Shareholders who accept their Entitlements increasing.
- (c) The proportional interests of Shareholders with registered addresses outside Australia, New Zealand, the United Kingdom or the Netherlands will be diluted because such Shareholders are not entitled to participate in the Entitlement Offer.
- (d) Shareholders who have accepted their Entitlement in full and that apply for Additional New Shares under the Additional New Shares Offer may increase their interests beyond their Entitlement. This could result in the dilution of holdings of those who failed to accept their Entitlements in full and those who failed to apply for Additional New Shares.

The Company will not issue Additional New Shares or Shortfall Shares to any Related Party or any of their associates, or to any person where doing so will result in their Voting Power in the Company increasing above 20%.

7. RIGHTS AND LIABILITIES ATTACHING TO NEW SECURITIES

7.1 Rights attaching to New Shares

The following is a summary of the more significant rights and liabilities attaching to New Shares to be issued pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

The rights attaching to New Shares arise from a combination of the Company's Constitution, the Corporations Act, the Listing Rules and general law. A copy of the Constitution is available for inspection at the Company's registered office during normal business hours.

(a) Voting

Subject to any rights or restrictions for the time being attached to a class or classes of shares, at general meetings of Shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one (1) vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one (1) vote for each Share held.

(b) Dividends

Subject to the rights of persons (if any) holding any shares with special rights to dividend, the Directors may declare a final dividend in accordance with the Corporations Act and may authorise the payment or crediting by the Company to the Shareholders of such a dividend.

The Directors may from time to time authorise the payment or crediting by the Company to the Shareholders of such interim dividends as appear to the Directors to be justified. The Directors may, before declaring any dividend, set aside any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the Company's profits may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Directors may in their absolute discretion establish on such terms and conditions as they think fit:

- (i) plans (to be called a "dividend reinvestment plan" or an "interest reinvestment plan" as the case may be) for cash dividends paid by the Company in respect of shares issued by the Company and interest paid by the Company on unsecured notes or debenture stock issued by the Company to be reinvested by way of subscription for shares in the Company; and
- (ii) a plan (to be called a "dividend election plan") permitting holders of shares to the extent that their shares are fully paid up, to have the option to elect to forego their right to share in any dividends (whether interim or otherwise) payable in respect of such shares and to receive instead an issue of shares credited as fully paid up to the extent as determined by the Directors.

(c) **Winding up**

If the Company is wound up, the liquidator may, with the sanction of a special resolution, divide among the Shareholders in kind the whole or any part of the Company's property, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of shareholders.

(d) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(e) **Transfer of Shares**

Generally, Shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of, or failure to observe the provisions of, a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(f) **Future increase in capital**

The issue of any new Shares is under the Directors' control. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they think fit.

(g) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders, vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by special resolution passed at a separate meeting of the holders of the shares of that class.

(h) **Alteration to the Constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at a general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

7.2 Terms and Conditions of New Options

Each New Option to be issued pursuant to this Prospectus entitles the holder to subscribe for Shares on the following terms and conditions:

(a) **Entitlement**

Each New Option entitles the holder to subscribe for one Share upon exercise of the New Option.

(b) **Exercise Price**

The exercise price of the New Option is \$0.002 (**Exercise Price**).

(c) **Expiry Date**

Each New Option has an expiry date of 5:00pm AWST on 31 December 2028 (**Expiry Date**).

(d) **Exercise Period**

The New Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The New Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the New Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each New Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each New Option being exercised in cleared funds (**Exercise Date**).

(g) **Timing of issue of Shares on exercise**

Within 5 Business Days after the later of the following:

A. the Exercise Date; and
B. when excluded information in respect to the Company (as defined in section 708A(7) of the Corporations Act) (if any) ceases to be excluded information, but in any case no later than 5 Business Days after the Exercise Date, the Company will:

- A. allot and issue the number of Shares required under these terms and conditions in respect of the number of New Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- B. if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- C. if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the New Options.

If a notice delivered under clause (ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 5 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the New Options rank equally with the then issued shares of the Company.

(i) **Quotation of Shares issued on exercise**

If admitted to the official list of ASX at the time, application will be made by the Company to ASX for quotation of the Shares issued upon the exercise of the New Options.

(j) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(k) **Participation in new issues**

There are no participation rights or entitlements inherent in the New Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the New Options without exercising the New Options.

(l) **Change in exercise price**

A New Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the New Option can be exercised.

(m) **Transferability**

The New Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

8. RISK FACTORS

8.1 Introduction

You should be aware that subscribing for New Shares the subject of this Prospectus involves a number of risks to the business, assets and operations of the Company that potentially influence the operating and financial performance of the Company.

You should read this Prospectus in its entirety and, in particular, consider the key risk factors affecting the Company set out below before deciding whether to apply for New Shares under this Prospectus.

You are urged to consider those risks carefully and, if necessary, to also consult your professional advisers with any questions before deciding whether to invest in the Company.

Some risks can be mitigated by the use of appropriate safeguards and appropriate systems and controls by the Company, however some are unpredictable and outside the control of the Company and the extent to which they can be mitigated or managed is very limited or not possible.

Set out below is a non-exhaustive list of key and specific risks to which the Company is exposed to and that may have a direct influence on the Company and its activities or assets, therefore affecting the value of an investment in the Company.

KEY RISKS SPECIFIC TO THE COMPANY

8.2 Potential for significant dilution

The Company will issue up to approximately 1,088,115,541 New Shares assuming Full Subscription, upon completion of the Offers (subject to rounding and assuming no existing Options are exercised or prior to the Record Date). The capital structure upon completion of the Offers is set out in Section 6.4.

The issue of the New Shares will dilute the interests of existing Shareholders. There is also a risk that Shareholders will be further diluted as a result of future capital raisings required in order to fund working capital and development requirements of the Company.

It is not possible to predict what the value of the Company or a Share will be following the completion of the Offers being implemented and the Directors do not make any representation as to such matters.

The last trading price of Shares on ASX prior to the date of this Prospectus is not a reliable indicator as to the potential trading price of Shares after implementation of the Offers.

Dilution will only occur if existing shareholders do not accept their entitlement in full (or partially in proportion to the overall level of acceptance under the Offers).

8.3 Additional requirements for capital

The Company's capital requirements depend on numerous factors. Depending on the success of the Company's exploration programs and the Company's ability to generate funds from disposal of non-core projects, the Company expects that it will require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations. There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

8.4 Exploration success

The future profitability of the Company and the value of its Securities are directly related to the results of exploration. The exploration tenements held by the Company are at various stages of exploration and potential investors should understand that mineral exploration and development are high-risk undertakings. There can be no assurance that exploration of these tenements, or any other tenements that may be acquired in the future, will result in discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited. The Company's future exploration activities may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the Company's control.

The Company's success will also depend upon the Company having access to sufficient development capital including from prospective joint venture partners, being able to maintain title to its tenements and obtaining all required approvals for its activities. In the event that exploration programs prove to be unsuccessful, this could lead to diminution in the value of the Company's tenements, a reduction in the cash reserves of the Company and possible relinquishment of tenements. The Company's exploration costs are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may be materially different to these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

8.5 Resource estimates

The Company has made estimates of its resources based on relevant reporting codes, where required, and judgments based on knowledge, skills and industry experience. However, mineral resources are estimates only and no assurance can be given that the anticipated tonnages and grades will be achieved, that the indicated level of recovery will be realised. Resource estimates are inherently prone to variability and there is no guarantee they will prove to be accurate. They involve expressions of judgement with regard to the presence and quality of mineralisation and the ability to extract and process the mineralisation economically. These judgments are based on a variety of matters such as drilling results, past experience, knowledge and industry practice. Estimates which were valid when originally calculated may alter significantly when new information or techniques become available. This may result in alterations to development and mining plans which may, in turn, adversely affect the Company's operations and reduce the estimated amount of mineral resources available for production and expansion plans. Further, operating factors relating to the mineral resources, such as the need for the orderly development or the processing of new or different minerals, may cause mining operations to be unprofitable in any particular accounting period.

8.6 Operating risks

The operations of the Company may be affected by various factors, including operational and technical difficulties encountered in mining and maintaining mining productivity rates; difficulties in commissioning and operating plant and equipment; unforeseen increases in capital or operating costs; mechanical failure or plant breakdown; unanticipated metallurgical problems which may affect extraction costs; adverse weather conditions (e.g. significant rainfall); delays in construction of tails dam wall lifts; industrial and environmental accidents; industrial disputes; and unexpected shortages or increases in the costs of consumables, labour and contractors, spare parts and plant and equipment. This may have an adverse effect on the operations and production ability of the Company by increasing costs or delaying activities.

8.7 Geotechnical risk

Geotechnical risks arise from the movement of the ground during and following mining activity. This may result in temporary or permanent access to a mine being cut off. The loss of access may have a significant impact on the economics of the ore body or delay the delivery of ore to the processing plant. Additionally, significant additional costs may result from designing and constructing alternative access drives which will also impact the economics of the mining operation, potentially making the mine uneconomic.

Assessment of the extent and magnitude of ground movements that could take place or that have taken place within the mine and surrounding area will be evaluated by the Company.

8.8 Key personnel

The Company's success depends to a significant extent upon its key management personnel, as well as other management and technical personnel including subcontractors.

The Company's inability to recruit additional appropriately skilled and qualified personnel to replace these key personnel could have an adverse effect on the Company. There can be no guarantee that personnel with the appropriate skills will be available within the Company's required timeframes.

8.9 Litigation

The Company may be subject to litigation and other claims with its suppliers. Such claims are usually dealt with and resolved in the normal course, but should any claims not be resolved any dispute or litigation in relation to this or any other matter in which the Company may in the future become involved could result in significant disruption, potential liability and additional expenditure.

8.10 Insurance and uninsured risks

The Company's operations are subject to a number of risks and hazards, including adverse environmental conditions, industrial accidents, labour disputes, unusual or unexpected geological conditions, ground or slope failures, changes in the regulatory environment and natural phenomena such as inclement weather conditions, floods and earthquakes. Such occurrences could result in damage to mineral properties or production facilities, personal injury or death, environmental damage to properties of the Company or potentially others, delays in mining, monetary losses and possible legal liability. Although the Company maintains insurance to protect against certain risks in such amounts as it considers to be reasonable, its insurance will not cover all the potential risks associated with its operations and insurance coverage may not continue to be available or may not be adequate to cover any resulting liability. The occurrence of an event that is not covered, or fully covered, by insurance could have a material adverse effect on the business, financial condition and results of the Company.

8.11 Climate change

There are a number of climate-related factors that may affect the Company's business and/or its assets, including its tenements. Climate change or prolonged periods of adverse weather and climatic conditions (including rising sea levels, floods, hail, drought, water, scarcity, temperature extremes, frosts, earthquakes and pestilences) may have an adverse effect on the Company's ability to access and utilise its tenements and/or on the Company's ability to transport or sell mineral commodities. Changes in policy, technological innovation and/or consumer or investor preferences could adversely impact the Company's business strategy or the value of its assets (including its tenements), or may result in less favourable pricing for mineral commodities, particularly in the event of a transition (which may occur in unpredictable ways) to a lower-carbon economy. This may have a material adverse effect on the business, results of operations, financial condition and prospects of the Company.

INDUSTRY RISKS

8.12 Environmental

The Company's operations and proposed activities in Australia are subject to state and federal laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.

The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations will become more onerous making the Company's operations more expensive.

Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programs or mining activities.

8.13 Tenure risks and native title

Interest in tenements in Australia is governed by the respective state legislation and is evidenced by the granting of licences or leases. Each licence or lease is for a specific term and carries with its annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, the Company could lose title to or its interest in tenements if licence conditions are not met or if insufficient funds are available to meet expenditure commitments.

It is also possible that, in relation to tenements which the Company has an interest in or will in the future acquire such an interest, there may be areas over which legitimate common law native title rights of Aboriginal Australians exist. If native title rights do exist, the ability of the Company to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and mining phases of operations may be adversely affected. The Directors will closely monitor the potential effect of native title claims involving tenements in which the Company has or may have an interest.

8.14 Exploration Costs

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainty, and accordingly, the actual costs may materially differ from the estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely impact the Company's viability.

8.15 Share price fluctuations

The New Shares are to be quoted on ASX, where the price may rise or fall relative to the price at which New Shares are offered under the Offers. The New Shares issued or sold under this Prospectus carry no guarantee in respect of profitability, dividends, return of capital, or the price at which they may trade on ASX. The value of the New Shares will be determined by the share market and will be subject to a range of factors, many or all of which may be beyond the control of the Company and the management team.

8.16 Liquidity risk

There can be no guarantee that there will continue to be an active market for Shares or that the price of Shares will increase. Equity capital market conditions in Australia for mining and exploration companies are currently in a parlous state. There may be relatively few buyers or sellers of shares on ASX at any given time. This may affect the volatility of the market price of Shares. It may also affect the prevailing market price at which Shareholders are able to sell shares held by them. This may result in Shareholders receiving a market price for their Shares that is less or more than the price paid for the Shares.

8.17 Economic factors

Changes in economic and business conditions or government policies in Australia or internationally may affect the fundamentals of the Company's target markets or its cost structure and profitability. Adverse changes in the level of inflation, interest rates, exchange rates, government policy (including fiscal, monetary and regulatory policies), consumer spending, and employment rates, are outside the control of the Company and the management team and may have an adverse effect on the financial performance and/or financial position of the Company.

8.18 Changes in laws and government policy

Changes to government regulations, law (including taxation and royalties) and policies, both domestically and internationally, under which the Company operates may adversely impact the Company's activities, planned projects and the financial performance of the Company.

8.19 Taxation

There may be tax implications arising from applications for New Shares, the receipt of dividends (both franked and unfranked) (if any) from the Company, the participation in any on-market Share buy-back and on the disposal of New Shares.

8.20 Global credit and investment markets

Global credit, commodity and investment markets volatility may impact the price at which the Shares trade regardless of operating performance, and affect the Company's ability to raise additional equity and/or debt to achieve its objectives, if required.

8.21 Counterparty risk

There is a risk that contracts and other arrangements within which the Company is party to and obtains a benefit from, will not be performed by the relevant counterparties if those counterparties become insolvent or are otherwise unable to perform their obligations.

8.22 Force majeure

The Company, now or in the future, may be adversely affected by risks outside the control of the Company including epidemics (such as the novel coronavirus), labour unrest, machinery or equipment breakdown or damage, transportation disruptions, civil disorder, war, subversive activities or sabotage, extreme weather conditions, fires, floods, explosions or other catastrophes or quarantine restrictions.

8.23 Commodity Price Volatility and Exchange Rate Risks

Any revenue the Company may derive through the sale of any other minerals it may discover exposes the potential income of the Company to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for precious and base metals, technological advancements, forward selling activities and other macro-economic factors such as inflation expectations, interest rates and general global economic conditions.

Furthermore, international prices of various commodities are denominated in United States dollars whereas the income and expenditure of the Company are and will be taken into account in Australian. This exposes the Company to the fluctuations and volatility of the rate of exchange between each of the United States dollar and the Australian dollar as determined in international markets.

If the price of commodities declines this could have an adverse effect on the Company's exploration, development and possible production activities, and its ability to fund these activities, which may no longer be profitable.

GENERAL INVESTMENT RISKS

8.24 General Economic Conditions

General economic conditions, introduction of tax reform, new legislation, the general level of activity within the resources industry, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and possible production activities, as well as on its ability to fund those activities.

8.25 Share Market Conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (a) general economic outlook;
- (b) the introduction of tax reform or other new legislation (such as royalties);
- (c) interest rates and inflation rates;
- (d) currency fluctuations;
- (e) changes in investor sentiment toward particular market sectors in Australia and/or overseas (such as the exploration industry or copper and/or nickel sectors within that industry);
- (f) the demand for, and supply of, capital; and
- (g) terrorism or other hostilities.

The market price of the New Securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular, which influences are beyond the Company's control and which are unrelated to the Company's performance. Neither the Company nor the Directors warrant the future performance of the Company, the Securities including the New Securities and subsequently any return on an investment in the Company. Shareholders who sell their Shares or Options may not receive the entire amount of their original investment.

8.26 Volatility in Global Credit and Investment Markets

Global credit, commodity and investment markets may experience uncertainty and volatility. The factors which may lead to this situation are outside the control of the Company and may impact the price at which the New Securities trade regardless of operating performance and affect the Company's ability to raise additional equity and/or debt to achieve its objectives, if required.

8.27 Government and Legal Risk

The introduction of new legislation or amendments to existing legislation by governments (including introduction of tax reform), developments in existing common law or the respective interpretation of the legal requirements in any of the legal jurisdictions which govern the Company's operations or contractual obligations, could impact adversely on the assets, operations and ultimately the financial performance of the Company, or the Securities including the New Securities. The same adverse impact is possible by the introduction of new government policy or amendments to existing government policy, including such matters as access to lands and infrastructure, compliance with environmental regulations, taxation and royalties.

8.28 Unforeseen Expenditure Risk

Expenditure may need to be incurred that has not been considered in this Prospectus. Although the Company is not aware of any such additional expenditure requirements, if such expenditure is subsequently incurred this may adversely affect the expenditure proposals and activities of the Company, as the Company may be required to reduce the scope of its operations and scale back its exploration programmes. This could have a material adverse effect on the Company's activities and the value of the Securities including the New Securities.

8.29 Regulatory Approvals

The Company's exploration activities are subject to extensive laws and regulations relating to numerous matters including resource licence consent, conditions including environmental compliance and rehabilitation, taxation, employee relations, health and worker safety, waste disposal, protection of the environment, protection of endangered and protected species and other matters. The Company requires permits from regulatory authorities to authorise the Company's operations. These permits relate to exploration, development, production and rehabilitation activities.

Obtaining the necessary permits can be a time consuming process and there is a risk that the Company will not obtain these permits on acceptable terms, in a timely manner or at all. The costs and delays associated with obtaining the necessary permits and complying with these permits and applicable laws and regulations could materially delay or restrict the Company from proceeding with the development of a project or the operation or development of a mine. Any failure to comply with applicable laws and regulations, even if inadvertent, could result in material fines, penalties or other liabilities. In extreme cases, failure could result in the suspension of the Company's activities or forfeiture of one or more of the Company's tenements or projects.

9. ADDITIONAL INFORMATION

9.1 Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company’s securities.

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on the Company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the annual financial report of the Company for the financial year ended 30 June 2023, being the most recent annual report lodged by the Company with ASIC before the issue of this Prospectus; and
 - (ii) any continuous disclosure documents given by the Company to ASX in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act after the lodgement of the annual financial report referred to in paragraph (i) above and before the lodgement of this Prospectus with ASIC.

Copies of all documents lodged with ASIC in relation to the Company can be inspected at the registered office of the Company or an ASIC office during normal office hours, free of charge.

The Company has lodged the following announcements with ASX since the lodgement of the Company's annual financial report for the financial year ended 30 June 2023 and before the lodgement of this Prospectus with ASIC:

9.8 Litigation

As at the date of this Prospectus, the Company is not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company.

9.9 Privacy Statement

If you complete an Entitlement and Acceptance Form you will be providing personal information to the Company. The Company collects, holds and will use that information to assess your application, and, if your application is successful, to service your needs as a Security holder and to facilitate distribution payments and corporate communications to you as a Security holder.

The information may also be used from time to time and disclosed to persons inspecting the Share register, including bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Share Registry.

You can access, correct and update the personal information that we hold about you. If you wish to do so, please contact the Share Registry whose contact details are set out in the Corporate Directory in Section 1.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules.

You should note that if you do not provide the information required on the Entitlement and Acceptance Form the Company may not be able to accept or process your application.

9.10 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company participates in the Clearing House Electronic Sub-register System (**CHES**). CHES is operated by ASX Settlement Pty Ltd, a wholly owned subsidiary of the ASX, in accordance with the Listing Rules and the ASX Settlement Operating Rules. The Company operates an electronic issuer-sponsored sub-register and an electronic CHES sub-register. The two sub-registers together make up the Company's principal register of Securities.

The Company will not issue certificates to Security holders. Instead Security holders will receive a statement of their holdings in the Company, including their holding of New Shares. If an investor is broker sponsored, ASX Settlement Pty Ltd will send a CHESS statement. This statement will also advise investors of either their Holder Identification Number (HIN) in the case of a holding on the CHESS sub-register or a Security Holder Reference Number (SRN) in the case of a holding on the issuer sponsored sub-register.

A statement will be routinely sent to Security holders at the end of any calendar month during which their holding changes. A Security holder may request a statement at any other time however a charge may be incurred for additional statements.
