## **About Infigen Energy**

Infigen is a business actively participating in the Australian energy market. It is a developer, owner and operator of generation assets delivering energy solutions to Australian businesses and large retailers.

Infigen has 557 MW of installed generation capacity across New South Wales, South Australia and Western Australia with a further 113 MW under construction in New South Wales. It sells the electricity and Large-scale Generation Certificates (LGCs) through a combination of medium and long term contracts and through the spot market.

Infigen is looking to diversify and expand its customer base and will grow its generation portfolio in response to strong price and investment signals. In the short term it is targeting expansion in New South Wales and entry into the Victorian and Queensland regions of the National Electricity Market. Infigen will seek to do this through sales of electricity and LGCs and construction of assets within its development pipeline in those regions.

Infigen trades on the Australian Securities Exchange under the code IFN.
