DRILLING COMMENCES AT MT BERGHAUS

HIGHLIGHTS

- Mantle's Maiden drill program commences at Mt Berghaus, with a planned total of 122 aircore holes
- Significant intersections with gold mineralisation to be followed up with reverse circulation drilling

Mantle Minerals Limited (ASX:MTL) ("the Company") is pleased to announce that drilling has commenced at the Mt Berghaus tenements.

Figure 1: Drill Rig at Mt Berghaus

This drilling program aims to define areas of interest for follow up reverse circulation (RC) drilling. Significant areas of interest would ideally have intersections with gold mineralisation and coincident arsenic anomalies, providing excellent targets for future RC drilling.

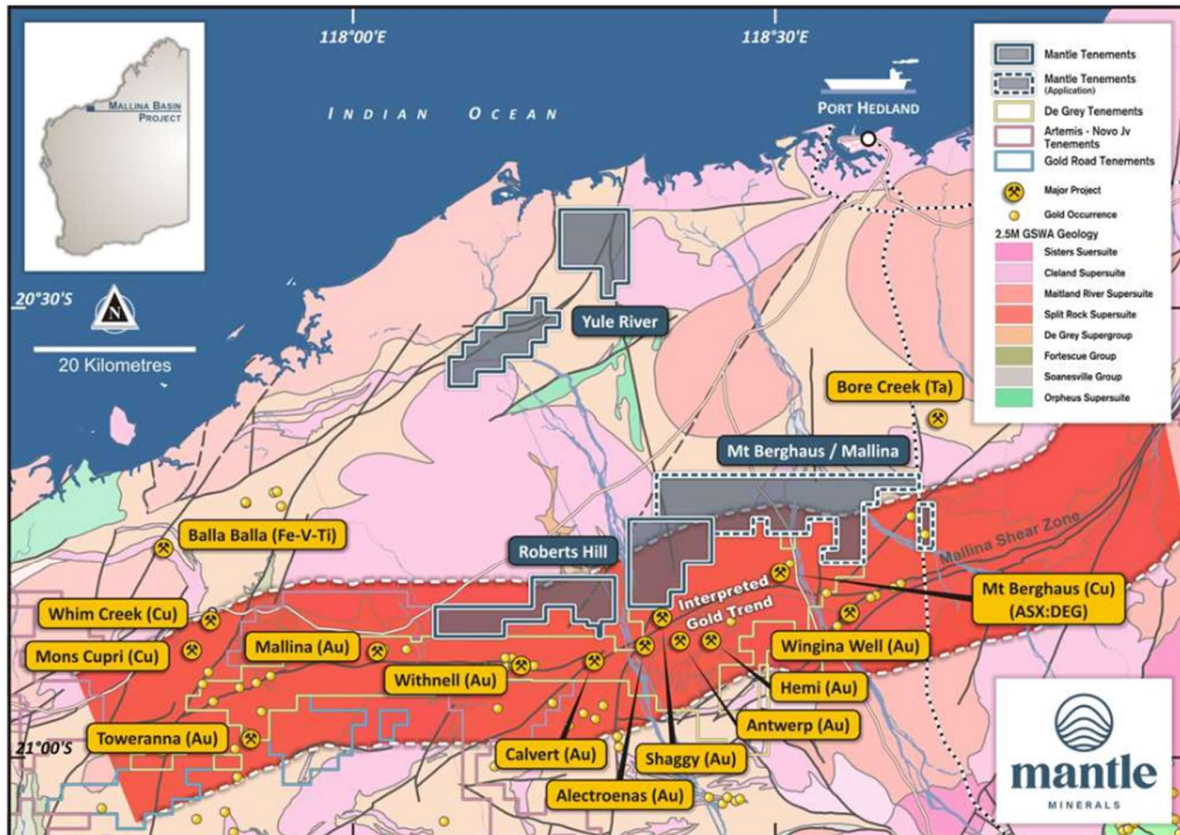

Figure 2: Project location map and proximity to the interpreted gold trend

This announcement has been authorized for release by the Mantle Minerals Limited Board of Directors.
