## ASX Announcement

### Netwealth preferred platform for ANZ Private

Netwealth is pleased to announce that we have been notified by ANZ that we are the preferred vendor to provide our award-winning Platform as a Service (PaaS) and Administration services to ANZ Private.

The platform will support ANZ Private's strategy of using the bank's strong Australian foundations, and market-leading service proposition and insights, to better meet the complex investment needs of their private bank clients and their bankers and advisors.

The Netwealth Platform will provide ANZ Private with a multi-asset, multi-currency investment offering including discretionary managed portfolios, domestic and international equities and bonds, domestic managed funds, term deposits, and foreign currency.

ANZ Private expects to make the platform available to existing clients with investments held with ANZ Private, predominately in discretionary portfolios along with introducing further capabilities to clients offered by the new platform commencing around July 2019.

Netwealth will continue to work with ANZ on what future product and asset classes ANZ Private is looking to offer its clients
