# Annual General Meeting Mt Monger Resources Ltd

Lachlan Reynolds, Managing Director

28<sup>th</sup> November 2022

# Disclaimers

This document has been prepared by Mt Monger Resources Limited ACN 645 885 463 and/or its affiliates (together, “Mt Monger Resources”) for the exclusive use of the party to whom Mt Monger Resources delivers this document (the “Recipient”). The information contained in this document has been prepared in good faith by Mt Monger Resources. However, no representation or warranty, either express or implied, is made as to the accuracy, completeness, adequacy or reliability of the information contained in this document. This document contains only a synopsis of more detailed information in relation to the matters described herein and accordingly no reliance may be placed for any purpose whatsoever on the sufficiency or completeness of such information as presented herein. This document should not be regarded by the Recipient as a substitute for the exercise of its own judgment and the Recipient should conduct its own due diligence in respect of the contents of this document. To the maximum extent permitted by law Mt Monger Resources, its directors, officers, employees, advisers, and agents disclaim any or all liability for any loss or damage which may be suffered by any person as a result of the use of, or reliance upon, anything contained within or omitted from this document.

This document has been prepared solely for informational purposes. This document does not constitute a prospectus and is not to be construed as a solicitation or an offer to buy or sell any securities, or related financial instruments, in any jurisdiction. The Recipient should not construe the contents of this document as legal, tax, accounting or investment advice or a recommendation. The Recipient should consult its own legal counsel, tax and financial advisors concerning any matter described herein. This document does not purport to be all-inclusive or to contain all of the information that the Recipient may require. No investment, divestment or other financial decisions or actions should be based solely on the information in this document. The distribution of this document may be restricted by law in certain jurisdictions. The Recipient and any other persons who come into possession of the document must inform themselves about, and observe, any such restrictions.

## **Cautionary Statement Regarding Values & Forward-Looking Information**

The figures, valuations, forecasts, estimates, opinions and projections contained herein involve elements of subjective judgment and analysis and assumption. Mt Monger Resources does not accept any liability in relation to any such matters, or to inform the Recipient of any matter arising or coming to the company's notice after the date of this document which may affect any matter referred to herein. Any opinions expressed in this material are subject to change without notice, including as a result of using different assumptions and criteria. This document may contain forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as “seek”, “anticipate”, “believe”, “plan”, “expect”, and “intend” and statements than an event or result “may”, “will”, “should”, “could”, or “might” occur or be achieved and other similar expressions. Forward-looking information is subject to business, legal and economic risks and uncertainties and other factors that could cause actual results to differ materially from those contained in forward-looking statements. Such factors include, among other things, risks relating to property interests, the global economic climate, commodity prices, sovereign and legal risks, and environmental risks. Forward-looking statements are based upon estimates and opinions at the date the statements are made. Mt Monger Resources undertakes no obligation to update these forward-looking statements for events or circumstances that occur subsequent to such dates or to update or keep current any of the information contained herein. The Recipient should not place undue reliance upon forward-looking statements. Any estimates or projections as to events that may occur in the future (including projections of revenue, expense, net income and performance) are based upon the best judgment of Mt Monger Resources from information available as of the date of this document. There is no guarantee that any of these estimates or projections will be achieved. Actual results will vary from the projections and such variations may be material. Nothing contained herein is, or shall be relied upon as, a promise or representation as to the past or future. Mt Monger Resources, its affiliates, directors, employees and/or agents expressly disclaim any and all liability relating or resulting from the use of all or any part of this document or any of the information contained herein.

## **Competent Person's Statement**

The information in this report that relates to Exploration Results is based on and fairly represents information compiled by Mr Lachlan Reynolds. Mr Reynolds is the Managing Director of Mt Monger Resources Limited and is a member of both the Australasian Institute of Mining and Metallurgy and the Australasian Institute of Geoscientists. Mr Reynolds has sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration, and to the activities undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Reynolds consents to the inclusion in this report of the matters based on information in the form and context in which they appear.

## **Previous Disclosure**

The information in this presentation is based on the Mt Monger Resources Limited Prospectus and subsequent market announcements, available from the Mt Monger Resources website [www.mtmongerresources.com.au](http://www.mtmongerresources.com.au) and the ASX website [www.asx.com.au](http://www.asx.com.au). The Company confirms that it is not aware of any new information or data that materially affects the information included in the Prospectus or the original market announcements and that all material assumptions and technical parameters underpinning the Prospectus and relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are represented have not been materially modified from the original market announcement.

Mt Monger Resources

# Our Value Statements:

*Safety*

*Inclusiveness*

*Transparency*

*Community*

*Delivery*

*Integrity*

*Responsibility*

*Sustainability*

*Innovation*

We acknowledge the Traditional Owners of the land on which Mt Monger Resources operates and pay our respects to Elders past, present and emerging.

# Investment Opportunity:

- **Exploring two district-scale rare earth element (REE) projects**
- Highly prospective Goldfields-Esperance regions of WA
- Early exploration successes and ongoing drilling programs
- Regular news flow across project portfolio
- Evaluation and acquisition of new projects
- Experienced Board, management and technical team
- Share price leveraged to exploration success

# Corporate Snapshot

## Capital Structure

Share Price (25/11/2022)	\$0.105
Shares on Issue (MTM)*	45.5 M
Listed Options (MTMO)*	14.3 M
Unlisted Options	10.3 M
Market Capitalisation (undiluted)	\$4.8 M
Cash (on 30/09/2022)	\$0.6 M
Debt	Nil

## Major Shareholders

Board and Management	20.0 %
Citicorp Nominees P/L	7.4 %
CCGF Holding P/L	2.8 %
Top 20	47.0 %

\* The Company is seeking to raise approximately \$1.95 million (before costs), through a fully underwritten non-renounceable pro-rata offer to Eligible Shareholders on the basis of 3 new Shares for every 7 Shares held on the Record Date, at an issue price of \$0.10 (10 cents) per new Share, together with 1 free-attaching Quoted Option for every 1 new Share subscribed for.

## Management Team

### *Non-Executive Chairman - John Hannaford BCom, CA, FFin*

- 25 years experience in resources and financial sectors
- Highly experienced in executive and non-executive roles, corporate advisory, directorships, IPOs, RTO and funding

### *Managing Director - Lachlan Reynolds, BSc (Hons), MAusIMM, MAIG*

- Geologist with more than 30 years involvement in mineral exploration, project feasibility and mining across multiple commodities
- Experienced executive and senior manager for a number of ASX listed companies

### *Non-Executive Director - David Izzard BBus, CPA, MBA, MSc, GACID*

- 20 years experience in the resources and finance industry
- Highly experienced director, extensive skills in all aspects of financial, commercial and corporate activities

### *CFO & Company Secretary – Simon Adams, BBus, MAcc*

- Over 25 years of experience with listed (ASX and NASDAQ) and private companies in Australia
- Experience in the areas of corporate and financial management, corporate compliance and business development

### *Exploration Manager – Antony Zebisch BSc, Grad Dip Mining, MBA, MAusIMM*

- Geologist with 18 years of experience in exploration and mining
- Extensive experience operating in Western Australia

# High Quality Projects

## Expanding exploration portfolio in strategic areas

Highly prospective project areas in the Goldfields – Esperance region of Western Australia:

**East Laverton:** ~3,500km<sup>2</sup> greenfield exploration project targeting REE, nickel and gold deposits.

**Ravensthorpe:** Early mover in emerging battery metal province with lithium, REE, nickel-cobalt and graphite prospects in 1,500km<sup>2</sup> tenement package.

**Mt Monger:** Existing shallow gold resources and numerous target areas requiring further follow up in an active gold producing area.

**Albion:** Drill tested high-grade historical gold workings and Option has been terminated.

*Mt Monger Resources Project areas*

# The Right Commodities

## Battery and Critical Metals

- Critical components of advanced technologies, EVs & renewables
- Demand for these metals growing as technologies develop and expand
- Diversity of supply now a priority for governments and corporations
- Forecast supply constraints resulting in outlook toward increasing prices

**MTM has project areas with strong potential for globally-significant clay hosted rare earth elements and battery metal deposits**

**Battery demand surges in all regions driven by battery electric cars**

Notes: STEPS = Stated Policies Scenario; APS = Announced Pledges Scenario; LDV = light-duty vehicle.

# East Laverton Project – REE, Gold & Nickel

- Prolific mineral region with major operating mines around Laverton, 360km northeast of Kalgoorlie
- Total area of ~3,500km<sup>2</sup> comprising 12 granted ELs and 1 ELA with grant anticipated imminently
- Greenfield exploration targets for REE, gold, nickel, base metals, & lithium
- Sparsely explored because of the lack of outcrop and the traditional interpretation of unmineralised granites
- Geological and magnetic interpretation indicates prospective greenstone inliers
- **Soil sampling and recent drilling has demonstrated potential for widespread REE mineralisation**

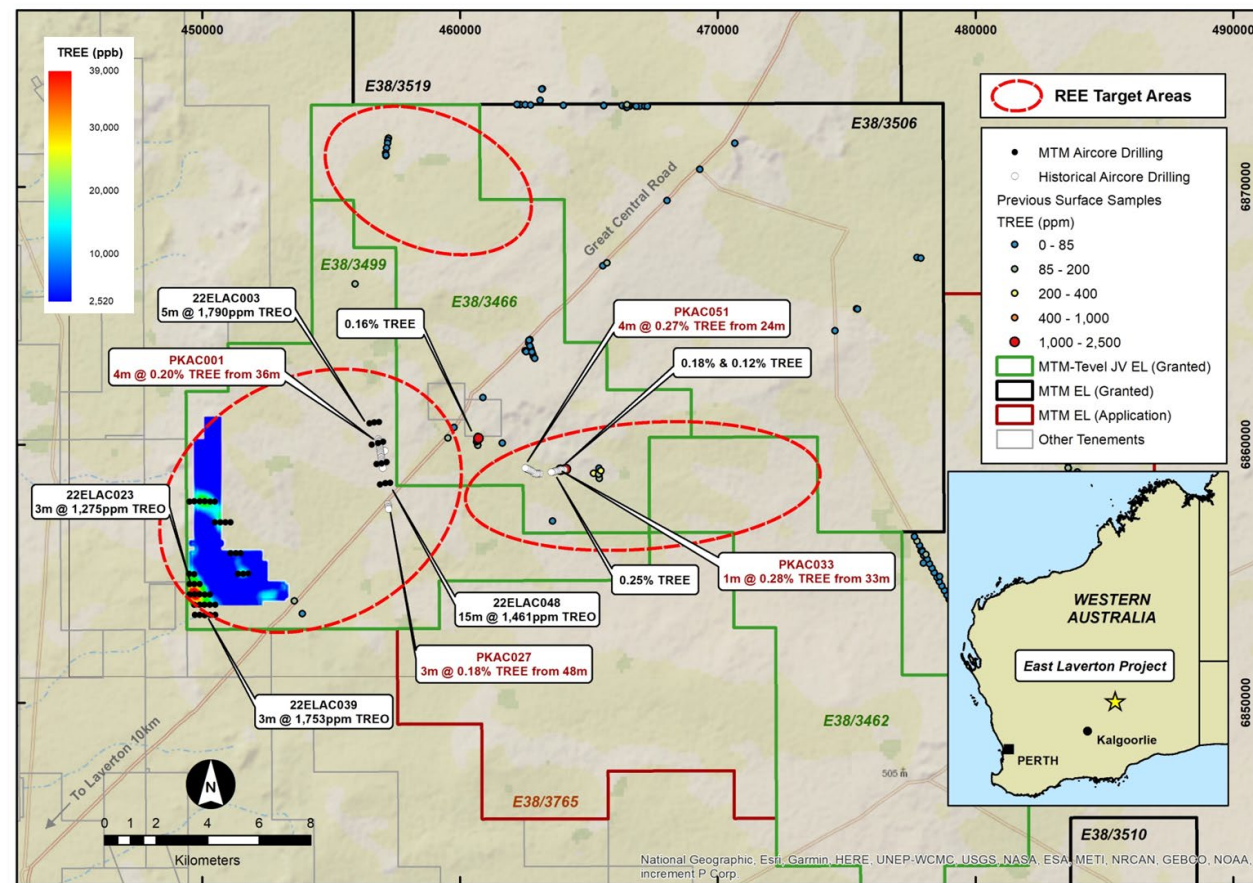

*East Laverton Project tenement status and prospect areas*

# East Laverton – Pt Kidman Prospect – REE

## District scale anomalous clay-hosted REE mineralisation

- Historical drill holes at Pt Kidman intersected light REE hosted in clays suggesting potential for ionic REE mineralisation
- REE's are dominated by cerium (Ce), lanthanum (La), neodymium (Nd), praseodymium (Pr) and samarium (Sm) which combined are 94% of total REE
- Areas of anomalism associated with magnetic highs and with thorium radiometric anomaly
- Numerous discrete targets to be investigated
- Soil sampling completed late 2021, new REE targets identified
- 1,048m aircore drilling completed May 2022
- Further drilling planned to test regional potential, heritage clearance in progress

*Summary of REE exploration results from the Pt Kidman Prospect showing areas of potential REE mineralisation based on available geochemical, geophysical and drilling data.*

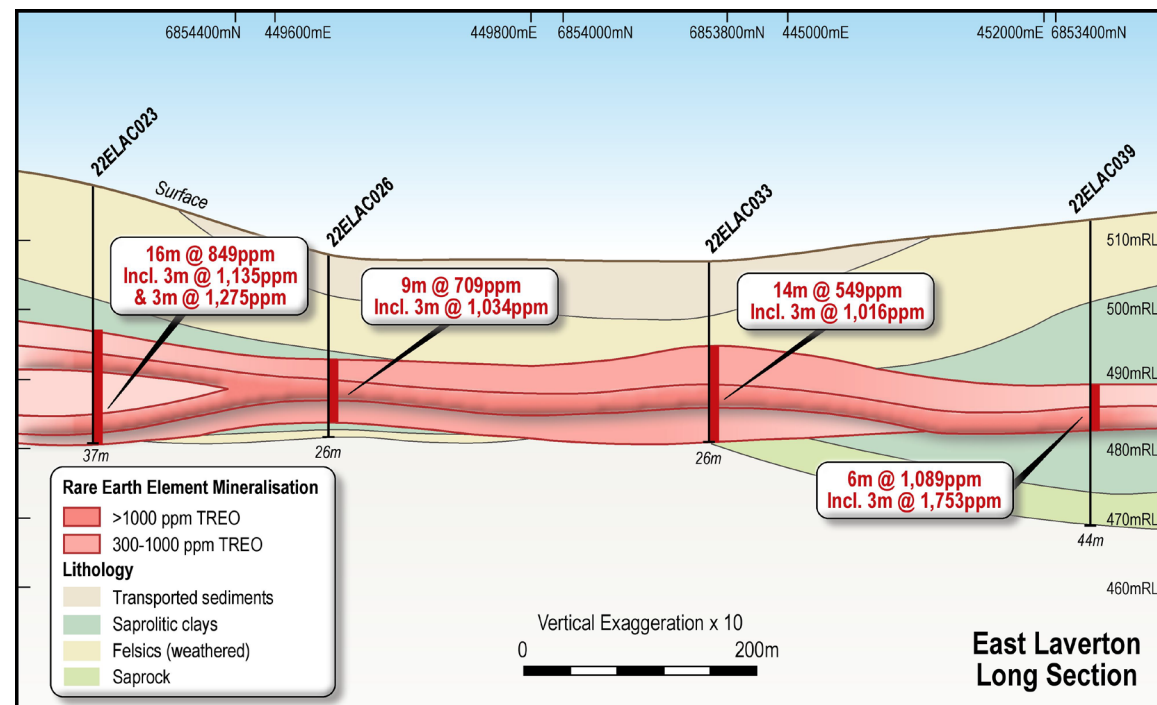

# East Laverton – Pt Kidman Prospect – REE

## Broad, shallow zones of REE mineralisation in aircore drilling

*Cross section diagram on 6858500mN showing aircore drilling, interpreted geology and REE mineralisation.*

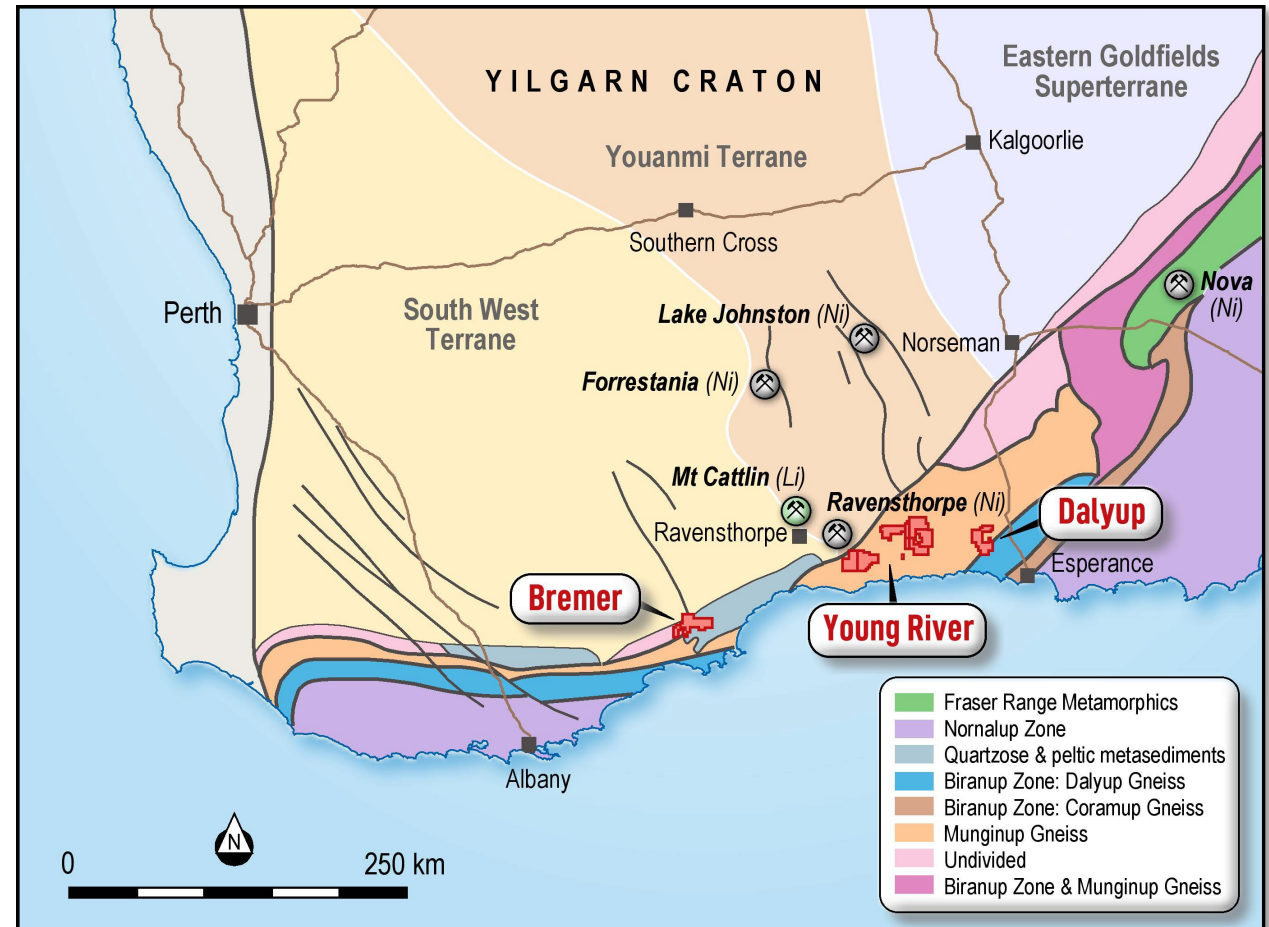

*Long section diagram on approximately 449800mE showing aircore drilling, interpreted geology and REE mineralisation.*

# Ravensthorpe Project – REE, Li, Ni-Cu-Co-PGE, Gr

## Battery Metal exploration in southern WA

- Located within the Albany-Fraser Orogen, ~400km south of Kalgoorlie
- Prospective for battery and critical minerals; active mining area for lithium and nickel-cobalt
- Poorly explored but host to numerous gold, nickel-cobalt, base metals and graphite deposits and new development projects
- MTM exploration licences cover more than 1,500km<sup>2</sup>
- Emerging ionic clay-hosted REE province
- Excellent access to infrastructure, labour and mining services

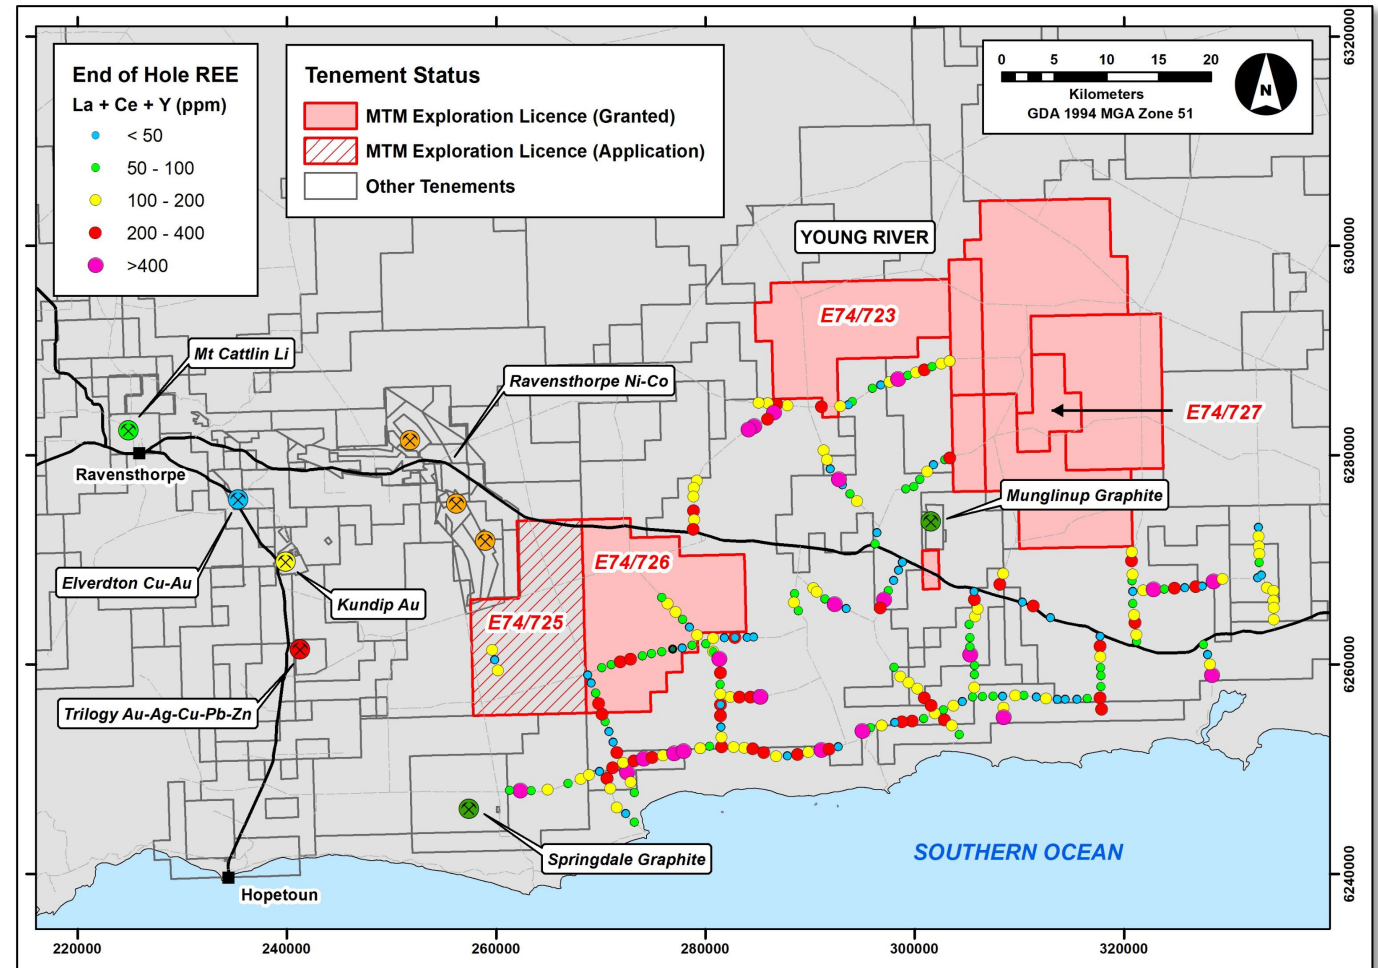

*Schematic geological map of SW Western Australia showing Mt Monger Resources Project areas in the Ravensthorpe area*

# Ravensthorpe – Rare Earth Elements

## Emerging province for ionic clay-hosted style of REE mineralisation

- Historical shallow drilling identified anomalous REE, including areas on MTM tenements
- Recent drilling by Meeka Metals Ltd has confirmed prospectivity
- Clay-hosted ionic REE style of mineralisation is widespread
- Flat-lying, near-surface deposits amenable to cost effective mining and processing methods
- Soil sampling and aircore drilling to extend known mineralised areas is planned

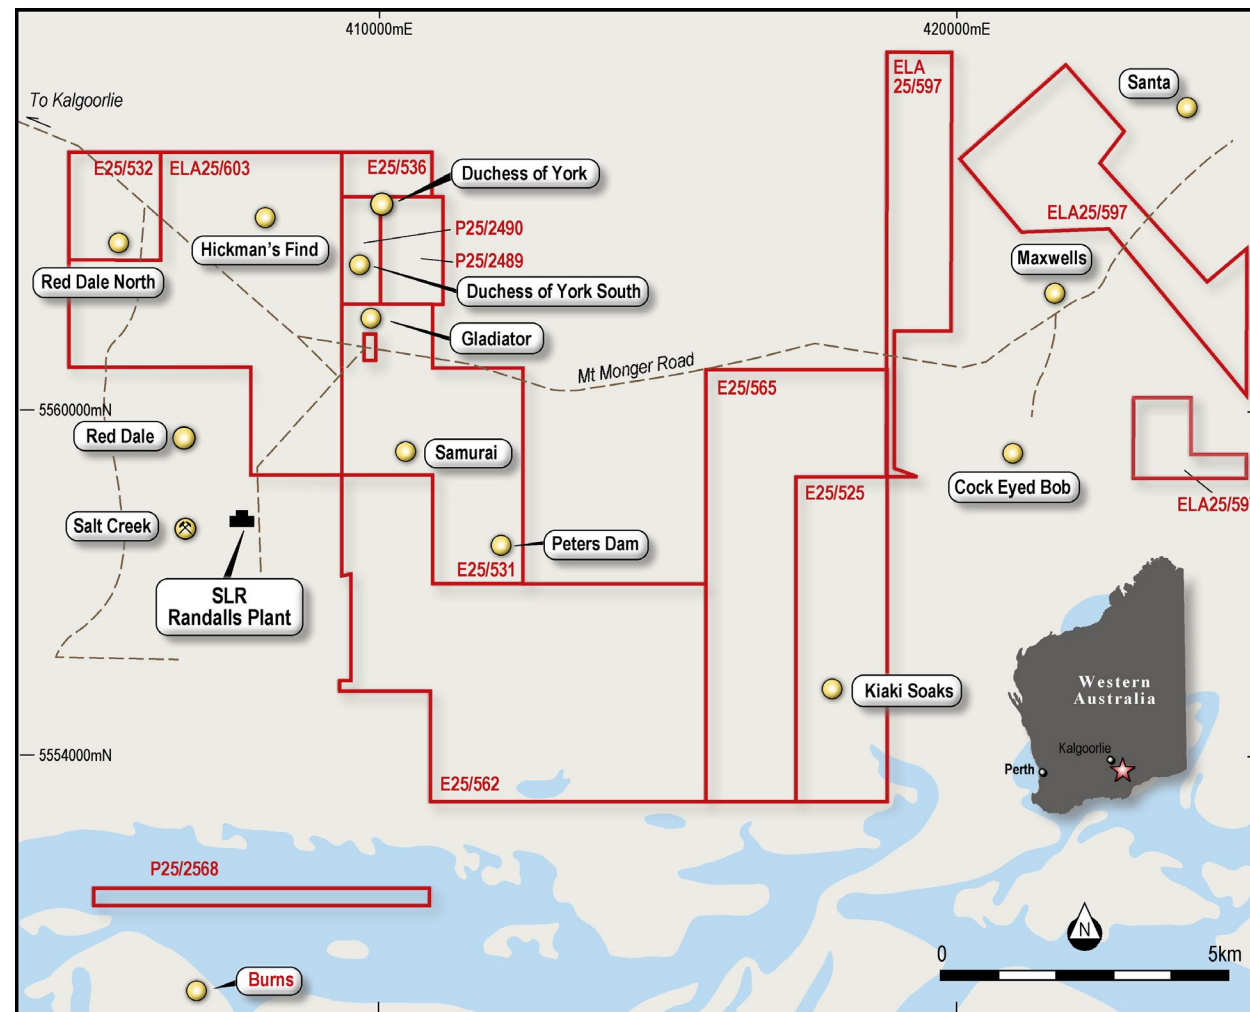

*Ravensthorpe Project tenements showing historical REE results from shallow roadside aircore drilling*

# Mt Monger Project

- Only 70km southeast from Kalgoorlie
- Excellent access and infrastructure
- Prolific gold producing region, adjacent to Silver Lake's Randalls mill & nearby mining operations
- Existing shallow resources, open at depth and along strike
- Highly prospective targets with gold hits from shallow drilling
- Several phases of RC percussion drilling completed and gold mineralisation has been intersected at several prospect areas
- Extensive geochemical sampling has defined extensive gold anomalies that require follow up

*Mt Monger Project tenement status and prospect areas*

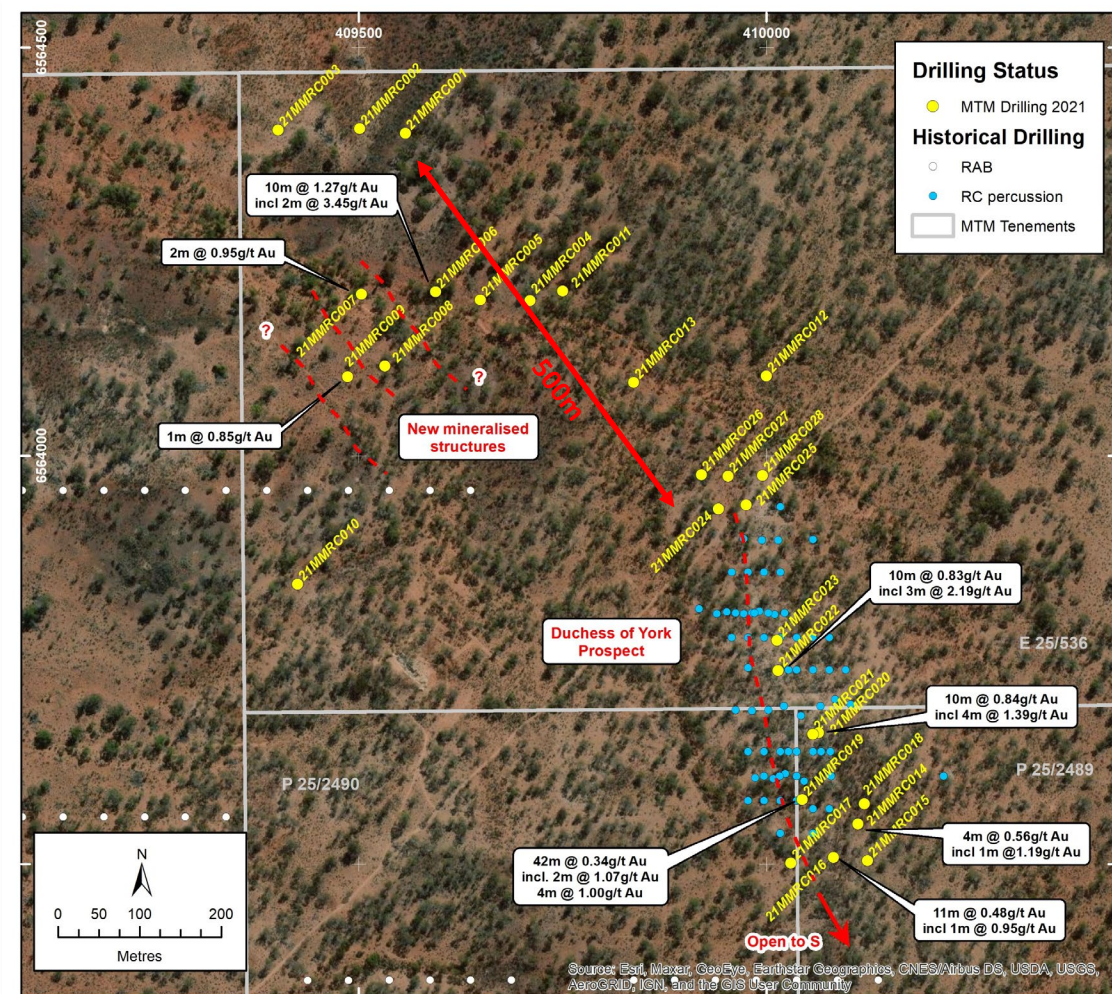

# Duchess of York Prospect

- RC percussion drilling completed Aug 2021 and April 2022
- Significant gold mineralisation intersected at Duchess of York, Red Dale North and others
- Shallow gold intersections identified along strike associated with newly discovered structures
- Mineralisation remains open along strike and at depth

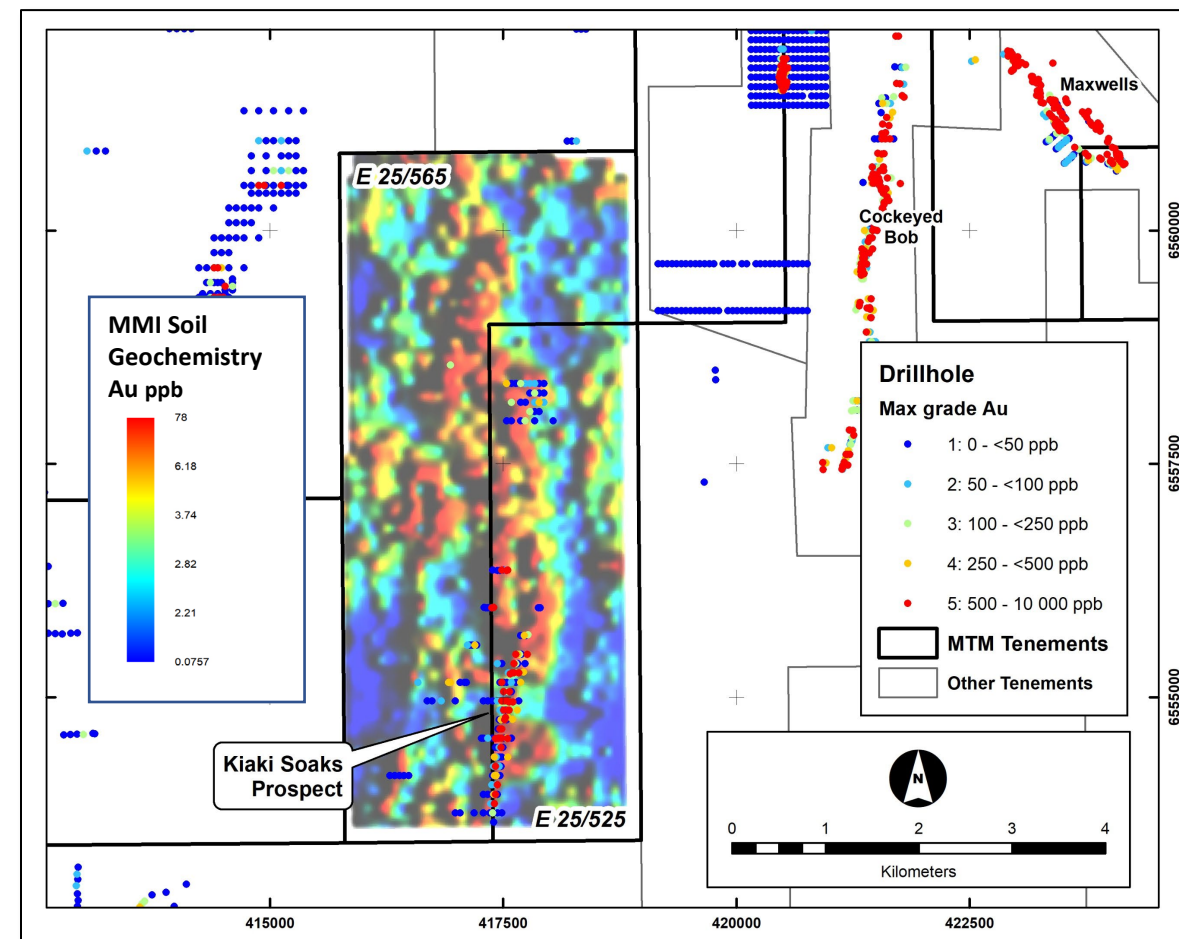

*Duchess of York drilling summary plan*

# Kiaki Soaks Prospect

- Extensive MMI soil geochemical survey completed Sep 2021
- Gold geochemical soil anomalies occur over significant areas with coherence over in excess of 2km to 3km strike length
- New prospective structures identified and extensions to known mineralised zones defined
- Historical drilling confirms potential of these structures to host significant gold mineralisation
- Further drilling planned to test anomalies at Kiaki Soaks, Duchess of York and other prospect areas
- Soil sampling to be progressively expanded into other tenement areas

*Kiaki Soaks Prospect gridded Au soil geochemistry and historical drilling*

# 2022 Work Program & Newsflow

- Emphasis on drilling for discovery
- Priority drilling targets at all project areas
- Company funded for 2023 exploration programs
- Continued quest for quality project acquisitions to increase discovery opportunities

Project	Q4 2022	Q1 2023	Q2 2023	Q3 2023
East Laverton	Heritage	AC Drilling Soil Sampling	AC/RC Drilling	
Ravensthorpe	POW/Clearances	Auger/Soil Sampling		AC Drilling
Mt Monger			RC/DD Drilling	

AC – Aircore, RC – Reverse Circulation percussion, DD – Diamond  
 Programs subject to statutory approvals, heritage clearances and dependent on results or prior results

# MTM Investment Case

**Strategic landholding in both established mining and emerging critical mineral provinces**

**Results highlight potential for REE discovery in two district-scale opportunities**

**Highly prospective project areas offer multi-commodity exploration opportunities (REE, Li, Au, Ni)**

**Active exploration programs & regular news flow across project portfolio**

**Ongoing evaluation of potential acquisition opportunities**

**Experienced Board and management team with a focus on adding shareholder value**

**Share price leveraged to exploration success**

*Albion Project RC percussion drilling*
