NOTES RELATING TO VOTING

The notes relating to voting and the explanatory notes form part of this Notice of Meeting.

1 Entitlement to vote

In accordance with Regulation 7.11.37 of the *Corporations Regulations 2001* (Cth), it has been determined that persons who are registered holders of shares in the Company as at 4.00pm (Perth time) on 10 December 2022 will be entitled to attend and vote at the Meeting as a shareholder. Share transfers registered after that time will be disregarded in determining entitlements to attend and vote at the Meeting.

If more than one joint holder of shares is present to vote at the Meeting (whether personally, by proxy or by attorney or by representative) and tenders a vote, only the vote of the joint holder whose name appears first on the register will be counted.

Holders of options or other convertible securities issued by the Company who are not shareholders but who wish to vote as shareholders at the Meeting are required to lodge valid exercise notices with the Company no later than one week before the Meeting to allow sufficient time for the shares to be issued by the Company.

On a poll, shareholders have one vote for every fully paid ordinary share held (subject to the restrictions on voting referred to below).

2 Voting exclusions

Resolutions 1, 2 and 3

The Company will disregard any votes cast in favour of resolutions 1, 2 and 3 by or on behalf of Iluka WA Investments Pty Ltd or its associates (regardless of the capacity in which the vote is cast, but subject to the matters in the second paragraph below).

In the case of resolution 3, subject to the matters in the paragraph below, the Company will also disregard any votes cast by a person who is expected to participate in, or who will obtain a material benefit as a result of, the proposed issue (except a benefit solely by reason of being a holder of Shares).

However, despite the above, votes will not be disregarded if they are cast:

- as proxy or attorney for a person entitled to vote on the resolution, in accordance with a direction given to the proxy or attorney to vote on the resolution in that way;
- by the Chairman of the Meeting as a proxy or attorney for a person entitled to vote on the resolution, pursuant to an express authorisation in the Proxy Form to exercise the proxy as the Chairman decides; or
- by a holder acting solely in a nominee, trustee, custodial or other fiduciary capacity on behalf of a beneficiary provided the following conditions are met:
 - the beneficiary provides written confirmation to the holder that the beneficiary is not excluded from voting, and is not an associate of a person excluded from voting, on the resolution; and
 - the holder votes on the resolution in accordance with the directions given by the beneficiary to the holder to vote in that way.

Resolutions 4, 5 and 6 – Approval of issue of performance rights to Executive Directors

Corporations Act Chapter 2E requirements

Under section 224 of the Corporations Act, Mr Curtis, Mr Hartwig, Mr Cai or their associates may not vote on Resolutions 4, 5 or 6 unless the vote is cast as a proxy appointed by writing that specifies how the proxy is to vote on the Resolution.

Additional voting exclusions also apply under the Corporations Act and ASX Listing Rules. The Company will disregard any votes cast on Resolutions 4, 5 and 6:

- in favour of the resolutions by or on behalf of Nicholas Curtis, Shane Hartwig or Bin Cai, or any of their associates (regardless of the capacity in which the vote is cast, but subject to the matters in the next paragraph below); and
- as a proxy by a person who is a member of the Company's key management personnel (**KMP**) on the date of the Meeting and their closely related parties.

However, despite the above, votes will not be disregarded if they are cast:

- as proxy or attorney for a person entitled to vote on the resolutions, in accordance with a direction given to the proxy or attorney to vote on the resolution in that way;
- by the Chairman of the Meeting as a proxy for a person entitled to vote on the resolutions, pursuant to an express authorisation in the Proxy Form to exercise the proxy as the Chairman decides; or
- by a holder acting solely in a nominee, trustee, custodial or other fiduciary capacity on behalf of a beneficiary provided the following conditions are met:
 - the beneficiary provides written confirmation to the holder that the beneficiary is not excluded from voting, and is not an associate of a person excluded from voting, on the resolutions; and
 - the holder votes on the resolutions in accordance with the directions given by the beneficiary to the holder to vote in that way.

Resolution 7, 8 and 9 – Grant of share options to Non-Executive Directors

Corporations Act Chapter 2E requirements

Under section 224 of the Corporations Act, the Non-Executive Directors or their associates may not vote on Resolutions 7, 8 or 9 unless the vote is cast as a proxy appointed by writing that specifies how the proxy is to vote on the Resolution.

ASX Listing Rule 10.14 and Corporations Act proxy-voting requirements

Additional voting exclusions also apply under the Corporations Act and ASX Listing Rules. The Company will disregard any votes cast on resolutions 7, 8 and 9:

- in favour of the resolutions by or on behalf of each of the participating Non-Executive Directors (being the only directors entitled to participate in the Directors Options Plan) and any of their associates (regardless of the capacity in which the vote is cast, but subject to the matters in the next paragraph below); and
- as a proxy by a person who is a member of the Company's KMP on the date of the Meeting and their closely related parties.

However, despite the above, votes will not be disregarded if they are cast:

- as proxy or attorney for a person entitled to vote on the resolutions, in accordance with a direction given to the proxy or attorney to vote on the resolution in that way;
- by the Chairman of the Meeting as a proxy for a person entitled to vote on the resolutions, pursuant to an express authorisation in the Proxy Form to exercise the proxy as the Chairman decides; or
- by a holder acting solely in a nominee, trustee, custodial or other fiduciary capacity on behalf of a beneficiary provided the following conditions are met:
 - the beneficiary provides written confirmation to the holder that the beneficiary is not excluded from voting, and is not an associate of a person excluded from voting, on the resolutions; and
 - the holder votes on the resolutions in accordance with the directions given by the beneficiary to the holder to vote in that way.

3 How to vote

Shareholders may appoint a proxy by submitting a Proxy Form to the share registry. Please note that the Proxy Form needs to be received by no later than 10:00am (Perth time) on 10 December 2022.

Even if you plan to attend the Meeting, you are still encouraged to submit a directed proxy in advance of the Meeting so that your votes can still be counted if, for any reason, you cannot attend.

Appointing a proxy

A shareholder entitled to attend and vote has a right to appoint a proxy to attend and vote instead of the shareholder. A proxy need not be a shareholder and can be either an individual or a body corporate. A shareholder can appoint a proxy by completing and returning a signed Proxy Form (see section 4 of these notes relating to voting, and the Proxy Form).

A shareholder that is entitled to cast two or more votes may appoint two proxies and may specify the proportion or number of votes each proxy is appointed to exercise. If no proportion or number is specified, each proxy may exercise half of the shareholder's votes.

If you wish to direct how your proxy should vote, please mark the appropriate boxes on the Proxy Form. If you do not direct your proxy how to vote on a particular item of business, you are authorising your proxy to vote as they decide, subject to any applicable voting exclusions.

Proxy voting restrictions apply to members of the Company's KMP (which includes each of the Directors). Refer to the voting exclusions set out in section 2 above.

If you intend to appoint the Chairman of the Meeting as your proxy, you can direct the Chairman how to vote by marking the boxes for the relevant resolution (for example, if you wish to vote "for", "against" or to "abstain" from voting). However, if you do not mark a box next to Resolutions 1 - 9, then by signing and submitting the Proxy Form, you will be expressly authorising the Chairman to vote as they see fit in respect of Resolutions 1 - 9 even though Resolutions 4 - 9 are connected with the remuneration of the Company's KMP.

All resolutions will be decided by poll. On a poll, if:

- a shareholder has appointed a proxy (other than the Chairman of the Meeting) and the appointment of the proxy specifies the way the proxy is to vote on the resolution; and
- that shareholder's proxy is either not recorded as attending the Meeting or does not vote on the resolution,

the Chairman of the Meeting will, before voting on the resolution closes, be taken to have been appointed as the proxy for the shareholder for the purposes of voting on that resolution and must vote in accordance with the written direction of that shareholder.

Please note that for proxies without voting instructions that are exercisable by the Chairman of the Meeting, the Chairman intends to vote all available proxies in favour of each resolution.

The appointment must comply with the requirements of section 250D of the *Corporations Act 2001* (Cth) (**Corporations Act**). The representative should bring to the Meeting evidence of his or her appointment, including any authority under which it has been signed, unless it has previously been given to the Company.

6 Voting by attorney

A shareholder entitled to attend and vote may appoint an attorney to act on his or her behalf at the Meeting. An attorney may, but need not be, a shareholder of the Company.

EXPLANATORY NOTES

These explanatory notes have been prepared to help shareholders understand the items of business at the forthcoming Meeting.

BACKGROUND

Strategic partnership with Iluka and funding package

On 26 October 2022, the Company announced that it had entered into a strategic partnership with Iluka Resources Limited (**Iluka**) in the form of a rare earths concentrate supply agreement with Iluka Rare Earths Pty Ltd (a wholly owned subsidiary of Iluka) covering the initial 8+ year mine life (30.5k tonnes of contained TREO) from Browns Range (**Iluka Supply Agreement**) along with a subscription and option agreement (**Subscription and Option Agreement**), under which Iluka WA Investments Pty Ltd (a wholly owned subsidiary of Iluka) (**Iluka Investments**) may acquire up to 19.9% of the ordinary shares in the Company (**Shares**) following:

- an initial placement by the Company to Iluka Investments to raise \$5.0 million through the issue of 125.0 million Shares at \$0.04 per Share (**Iluka Tranche 1 Placement**);
- an issue by the Company to Iluka Investments of a \$15.0 million convertible note with a 7.0% coupon and maturity date of 31 December 2024 convertible into approximately 365.6 million Shares (including assumed capitalised interest) at a conversion price of \$0.048 per Share, subject to conditions and various adjustment events (**Iluka Convertible Note**);¹ and
- a conditional future placement by the Company to Iluka Investments to raise up to \$13.8 million through the issue of 230.0 million Shares at the lower price per Share of:
 - the subscription price of any equity raising to raise additional equity funding required for the total pre-production costs of the Browns Range project, such funding being additional to the moneys committed pursuant to the SPP (as defined below) and Subscription and Option Agreement (**Additional Browns Range Equity Fundraising**); and
 - \$0.052 per Share (being a 30% premium to the Iluka Tranche 1 Placement price of \$0.04 per Share), or, if Resolution 3 is passed, then \$0.06 per Share (being a 50% premium to that price),
 (**Iluka Tranche 2A Placement**); and
- a conditional issue by the Company to Iluka Investments of a call option over up to approximately 653.3 million Shares² (which may only be exercised if the Iluka Tranche 2B Put Option (as defined below) has not been exercised) with an exercise price per Share of the lower of:
 - the subscription price applicable to any Additional Browns Range Equity Fundraising; and
 - \$0.06 per Share (being a 50% premium to the Iluka Tranche 1 Placement price per Share),
 to raise up to \$39.2 million (**Iluka Tranche 2B Call Option**); and
- a conditional issue by Iluka Investments to the Company of a put option which may be exercised by the Company to issue up to approximately 653.3 million Shares³ (which may only be exercised if the Iluka Tranche 2B Call Option has not been exercised) to Iluka Investments at the same price as would have otherwise been determined under the Iluka Tranche 2B Call Option to raise up to \$39.2 million (**Iluka Tranche 2B Put Option**).

¹ A single convertible note was issued by the Company to Iluka Investments.

² Subject to a cap of such number of Shares as would result in Iluka Investments acquiring voting power in the Company of 19.9% at the time of issue.

³ Subject to a cap of such number of Shares as would result in Iluka Investments acquiring voting power in the Company of 19.9% at the time of issue.

The issue of the Iluka Tranche 2B Put Option to the Company, and the issue of the Iluka Tranche 2B Call Option to Iluka Investments, are subject to shareholders passing Resolution 3. Exercise of the Iluka Tranche 2B Call Option will be unconditional immediately from the time of issue.

As set out in this notice, completion of the Iluka Tranche 2A Placement and the ability to exercise the Iluka Tranche 2B Put Option remains subject to various other conditions⁴

The terms of the Iluka Convertible Note are set out in a convertible note deed poll executed by the Company on 28 October 2022 (**Convertible Note Deed Poll**).

As part of a broader funding package including the investments by Iluka described above, the Company also announced its intention to undertake a non-underwritten share purchase plan to raise up to approximately \$5.0 million by offering each eligible shareholder in Australia and New Zealand the opportunity to subscribe for up to \$30,000 worth of new Shares at \$0.04 per Share (**SPP**) (which may be increased or subject to scale back). This will give shareholders the opportunity to acquire new Shares at the same price as Iluka Investments under the Iluka Tranche 1 Placement.

The total funding package (which includes the Iluka Tranche 1 Placement, Iluka Convertible Note, Iluka Tranche 2A Placement, Iluka Tranche 2B Call Option / Put Option and SPP) is expected to raise up to \$78.0 million, which will enable Northern Minerals to complete the DFS for a mine and commercial-scale beneficiation plant at Browns Range, provide ongoing working capital and contribute to the future equity component of the capex and commissioning costs associated with the Browns Range Project.

Following the issue of Shares under the Iluka Tranche 1 Placement, SPP (assuming full take-up), Iluka Tranche 2A Placement and Iluka Tranche 2B Call Option / Put Option (as applicable) and assuming conversion of the Iluka Convertible Note, Iluka Investments would theoretically have voting power of approximately 21.6% in the Company (assuming no other issuances by the Company between the date of this announcement and those issuances). In practice, however, Iluka Investment's voting power in the Company will not exceed 19.9%. In this regard, it is noted that the Subscription and Option Agreement provides that the number of new Shares to be issued to Iluka upon completion of the Iluka Tranche 2B Call Option / Put Option is to be the lesser of (a) 653.3 million Shares and (b) such number of Shares as would result in Iluka Investments acquiring voting power in the Company of 19.9% at the time of issue. In addition, the Iluka Convertible Note provides that, to the extent that Iluka Investments would obtain voting power of greater than 19.9% through the issue of Shares upon conversion of the Iluka Convertible Note, Iluka Investments may require the Company to issue such number of Shares up to the 19.9% threshold and to pay cash for the balance of the Shares that would otherwise have been issued upon conversion of the Iluka Convertible Note.

For further details on the arrangements with Iluka please refer to the ASX announcement and investor presentation released by the Company on 26 October 2022.

Issue of performance rights and options to Directors

Shareholders are being asked to approve grants of performance rights (**Performance Rights**) and options (**Director Options**) to the Company's Directors (together, **Director Equity**). It is proposed that Mr Nicholas Curtis, the Company's Executive Chairman, Mr Shane Hartwig (subject to his formal appointment as Director) and Mr Bin Cai, in his role as an Executive Director, receive a grant of Performance Rights to incentivise them in their roles as an Executive Directors, including in relation to the design and implementation of the Company's strategy and to contribute to the Company's growth and creation of value for shareholders.

Further it is proposed that the Company's Non-Executive Directors, being Mr Ming Lu, Mr Liangbing Yu and Mr Adam Handley, receive a grant of Director Options to acquire fully paid shares in the Company to better align their interests with Shareholders.

⁴ See Schedule 1 for further details.

Share consolidation

The ASX announcement by the Company dated 26 October 2022 contemplates that, subject to the passing of Resolution 10, every 25 Shares will be consolidated into one Share (**Share Consolidation**). The Share Consolidation is proposed to occur on 19 December 2022 (**Record Date**).

Subject to receipt of Shareholder approval, it is expected that the Share Consolidation will occur after the issue of the Director Equity and Shares under the Iluka Tranche 1 Placement and SPP but prior to the issue of any Shares under the Iluka Convertible Note, Iluka Tranche 2A Placement and Iluka Tranche 2B Call Option / Put Option. However, the Share issuance and subscription price figures set out in this notice of meeting are all on a pre-Share Consolidation basis. As such should the Share Consolidation take place:

- the Director Equity will be adjusted to ensure the directors are in the same economic position immediately before and after the Share Consolidation;
- Shares issued under the Iluka Tranche 1 Placement and SPP will be consolidated along with the other Shares on issue at the time of the Share Consolidation; and
- the number of Shares to be issued under the Iluka Convertible Note (if any), Iluka Tranche 2A Placement (if any) and Iluka Tranche 2B Call Option / Put Option (if any) will be divided by 25 to reflect the Share Consolidation and the relevant subscription price per Share for those Shares will be multiplied by 25.

Further information regarding the proposed Share Consolidation and its effect on securityholders is set out in the explanatory notes to Resolution 10 below.

RESOLUTION 1 – RATIFICATION OF ILUKA TRANCHE 1 PLACEMENT

General

Resolution 1 seeks shareholder approval to ratify the issue of 125.0 million Shares to Iluka Investments under the Iluka Tranche 1 Placement. These Shares were issued by the Company to Iluka on 28 October 2022 at an issue price of \$0.04 per Share.

The Company issued the Shares in the Iluka Tranche 1 Placement without prior Shareholder approval pursuant to its 15% placement capacity under Listing Rule 7.1.

Overview of legal requirements in relation to Resolution 1

Listing Rule 7.1 provides that a listed company must not without Shareholder approval, subject to certain exceptions, issue during any 12 month period any equity securities, including securities with rights of conversion to equity, if the number of those securities exceeds 15% of the total number of equity securities on issue at the commencement of that 12 month period (**Placement Capacity**).

An issue of equity securities which has been approved by Shareholders under Listing Rule 7.1 does not count toward a company's Placement Capacity. Listing Rule 7.4 provides that an issue under Listing Rule 7.1 is treated as having been made with approval for the purposes of Listing Rule 7.1 if such issue did not breach Listing Rule 7.1 and holders of the ordinary securities subsequently approve it.

Reason for seeking approval under Resolution 1

The Company now seeks shareholder approval under Listing Rule 7.4 to ratify the issue of the Shares under the Iluka Tranche 1 Placement, in order to reinstate the Company's Placement Capacity. The Company wishes to maintain as much flexibility to issue Shares as possible, in preparation for any future equity fundraisings.

If Resolution 1 is passed, the Shares issued under the Iluka Tranche 1 Placement will not count towards the Company's Placement Capacity, effectively increasing the number of equity securities it can issue without shareholder approval, which will provide the Company flexibility to issue equity securities in the future.

If Resolution 1 is not passed, the Shares issued under the Iluka Tranche 1 Placement will be included in calculating the Company's Placement Capacity, effectively decreasing the number of equity securities it can

issue over the 12 month period following the date of the issue (unless those securities are otherwise approved by shareholders or fall within an exception in Listing Rule 7.2).

Specific information required by Listing Rule 7.5

The following information is provided in accordance with Listing Rule 7.5 in relation to the Iluka Tranche 1 Placement.

Recipient	Iluka Investments
Number of securities issued	125.0 million Shares
Type of securities	Fully paid ordinary shares in the Company
Date of issue	28 October 2022
Issue price	\$0.04 per Share

Summary of relevant agreement	Please refer to Schedule 1 for a summary of the material terms of the Subscription and Option Agreement.
Voting exclusions	Voting restrictions apply in relation to Resolution 1 (see item 2 of the notes relating to voting).

Directors' recommendation

The Directors unanimously recommend shareholders vote in favour of Resolution 1.

RESOLUTION 2 – RATIFICATION OF PREVIOUS ISSUE OF THE ILUKA CONVERTIBLE NOTE

General

Resolution 2 seeks shareholder approval to ratify the issue of the Iluka Convertible Note by the Company to Iluka Investments on 28 October 2022.

The Company issued the Iluka Convertible Note without prior Shareholder approval pursuant to its 15% placement capacity under Listing Rule 7.1.

Overview of legal requirements in relation to Resolution 2

As outlined in the explanatory notes to Resolution 1, Listing Rule 7.1 provides that a listed company must not without Shareholder approval, subject to certain exceptions, issue during any 12 month period any equity

securities, including securities with rights of conversion to equity (ie convertible securities), if the number of those securities exceeds its Placement Capacity.

If the equity securities are convertible securities, Listing Rule 7.1B.1(e) provides that in working out the number of equity securities that an entity may issue or agree to issue under Listing Rule 7.1, each convertible security is counted as the maximum number of fully paid ordinary securities into which it can be converted, unless ASX determines otherwise.

An issue of equity securities which has been approved by Shareholders under Listing Rule 7.1 does not count toward a company's Placement Capacity. Listing Rule 7.4 provides that an issue under Listing Rule 7.1 is treated as having been made with approval for the purposes of Listing Rule 7.1 if such issue did not breach Listing Rule 7.1 and holders of the ordinary securities subsequently approve it.

The conversion of convertible securities into equity securities will fall within Listing Rule 7.2 Exception 9 and therefore no further approval under Listing Rule 7.1 is required when the issue of the fully paid ordinary securities to Iluka Investments on conversion of the Iluka Convertible Note occurs.

Reason for seeking approval under Resolution 2

The Company now seeks shareholder approval under Listing Rule 7.4 to ratify the issue of the Iluka Convertible Note, in order to reinstate the Company's Placement Capacity. The Company wishes to maintain as much flexibility to issue Shares as possible, in preparation for any future equity fundraisings.

If Resolution 2 is passed, the Iluka Convertible Note will not count towards the Company's Placement Capacity, effectively increasing the number of equity securities it can issue without shareholder approval, which will provide the Company flexibility to issue equity securities in the future.

If Resolution 2 is not passed, the Iluka Convertible Notes will be included in calculating the Company's Placement Capacity, effectively decreasing the number of equity securities it can issue over the 12 month period following the date of the issue (unless those securities are otherwise approved by shareholders or fall within an exception in Listing Rule 7.2).

RESOLUTION 3 – APPROVAL OF THE ILUKA TRANCHE 2B CALL OPTION

General

Resolution 3 seeks shareholder approval for the issue of a call option to Iluka Investments over up to approximately 653.33 million Shares⁵ with a maximum exercise price of \$0.06 per Share.

Overview of legal requirements in relation to Resolution 3

Listing Rule 7.1 provides that a listed company must not without Shareholder approval, subject to certain exceptions, issue or agree to issue during any 12 month period any equity securities, if the number of those securities exceeds its Placement Capacity. An issue of, or agreement to issue, equity securities which has been approved by Shareholders under Listing Rule 7.1 does not count toward a company's Placement Capacity.

Reason for seeking approval under Resolution 3

The Iluka Tranche 2B Call Option does not fall within any of the exceptions to Listing Rule 7.1 and exceeds the Company's Placement Capacity. It therefore requires the approval of the Company's shareholders under Listing Rule 7.1.

Resolution 3 seeks the required shareholder approval to issue the Iluka Tranche 2B Call Option under and for the purposes of Listing Rule 7.1.

If Resolution 3 is passed, the Company will be able to issue the Iluka Tranche 2B Call Option pursuant to the terms of the Subscription and Option Agreement. In addition, the Shares that are the subject of the Iluka Tranche

⁵ Subject to a cap of such number of Shares as would result in Iluka Investments acquiring voting power in the Company of 19.9% at the time of issue.

2B Call Option will be excluded from the calculation of the number of equity securities that the Company can issue without shareholder approval under Listing Rule 7.1.

If Resolution 3 is not passed:

- the Company will be unable to issue the Iluka Tranche 2B Call Option; and
- the Company will not be issued the Iluka Tranche 2B Put Option.

If the Company is unable to proceed with the Iluka Tranche 2B Call Option / Put Option then the Company may consider and seek to enter into an agreement with Iluka Investments (or a related body corporate) under which the Company would use its refreshed placement capacity (at the applicable time, including shortly after the Extraordinary General Meeting if Resolution 1 and Resolution 2 are passed) to agree to issue to Iluka the number of Shares over which the Iluka Tranche 2B Call Option / Put Option relate, on the similar terms and conditions (including as to price) that apply to the Tranche 2A Placement. However, no final decisions have been made in this regard.

RESOLUTIONS 4, 5 AND 6 – APPROVAL OF ISSUE OF PERFORMANCE RIGHTS TO EXECUTIVE DIRECTORS (NICHOLAS CURTIS, SHANE HARTWIG AND BIN CAI)

In accordance with Listing Rule 10.14 and section 208 of Chapter 2E of the Corporations Act, the Company is seeking the approval of shareholders for a grant of Performance Rights to the Executive Chairman, Nicholas Curtis and Executive Director Bin Cai as their financial year 2023 (**FY23**) equity incentive offer, as well as for the allocation of any shares on vesting of those Performance Rights.

As announced to the ASX on 19 October 2022, it is intended that Shane Hartwig will be appointed as a Director of the Company effective 1 December 2022. If he is appointed a Director at or prior to the Meeting, Mr Hartwig will be a Director of the Company when the proposed grant of Performance Rights is made. Accordingly, Shareholders are being asked, pursuant to Listing Rule 10.14 and section 208 of Chapter 2E of the Corporations Act, to approve a grant of Performance Rights to Shane Hartwig as his FY23 equity incentive offer, as well as for the allocation of any shares on vesting of those Performance Rights.

Under Listing Rule 10.14, shareholder approval is required for the issue of securities to a director under an employee incentive scheme.

In addition, Chapter 2E of the Corporations Act regulates the provision of financial benefits by a public company to its related parties. Section 208 of the Corporations Act permits a public company to give a financial benefit to a related party of that public company if shareholders of the public company have approved the giving of that financial benefit to the related party.

Section 228 of the Corporations Act provides that a “related party” includes any person who is a Director. Approval of the grant of Performance Rights is being sought under section 208 of the Corporations Act given that Mr Curtis, Mr Cai and Mr Hartwig (subject to his formal appointment as a Director) are or will be at the time of grant related parties of the Company for the purposes of Chapter 2E of the Corporations Act as a Director of the Company.

The Board considers that participation by the Executive Directors in the FY23 equity incentive offer is a critical mechanism by which to incentivise performance in line with shareholder interests. The Board has formed the view that the grant of Performance Rights to the Executive Directors is reasonable given the executive directors' experience, circumstances and responsibilities with regards to leading and managing a team to design and implement the strategy to deliver significant work programs including (but not limited to) updating the Company's 2015 Feasibility Study into a Bankable Feasibility Study and achieving final investment decision (**FID**) and production milestones associated with the Browns Range Project.

Notwithstanding the view that the grant of Performance Rights to the Executive Directors is reasonable, the Board considers it prudent and desirable from the perspectives of transparency, oversight and accountability to obtain Shareholder approval for the purposes of Chapter 2E of the Corporations Act.

Subject to shareholder approval, the Performance Rights will be granted under the Northern Minerals Limited Equity Incentive Plan (**Plan**) Rules (**Plan Rules**) and terms of offer.

If shareholder approval is obtained, the Board intends to issue the Performance Rights shortly after the Meeting and prior to the record date for the Share Consolidation (currently proposed to be 21 December 2022), and in any event within 12 months of the Meeting. If the Performance Rights cannot be granted before the record date of the Share Consolidation, then the number of the Performance Rights to be granted and the applicable vesting conditions will be adjusted to reflect the Share Consolidation.

Performance Rights will be issued at no cost to the Executive Director and no amount is payable on vesting of the Performance Rights. Performance Rights do not carry any dividend or voting rights prior to vesting.

Each Performance Right entitles the holder to one fully paid ordinary share in the Company, subject to the satisfaction of the performance conditions described below (and any adjustments the Board considers appropriate under the Plan Rules if, for example, any bonus issues, rights issues or other capital reconstructions or corporate actions occur after the Performance Right is granted). Without limiting the forgoing, in the case of adjustments, if Shares are issued pro rata to the Company's shareholders generally by way of a bonus issue (other than an issue in lieu of dividends or by way of a dividend reinvestment) involving capitalisation of reserves or distributable profits, Performance Rights will be adjusted in the manner allowed or required by the ASX Listing Rules.

Shares allocated on vesting of Performance Rights will rank equally with ordinary shares in the Company. The Board retains a discretion to make a cash equivalent payment in lieu of an allocation of Shares.

The Company uses Performance Rights because they create share price alignment between the Executive Directors and shareholders but do not provide the Executive Directors with the full benefits of share ownership (such as dividend and voting rights) unless and until the Performance Rights vest. If shareholders do not approve the grant of Performance Rights at the Meeting, the Board may consider alternative arrangements for appropriately remunerating the executive directors, including cash incentives.

The terms of the Performance Rights do not entitle the holder to participate in new issues of securities before the Performance Rights vest.

Resolution 4 – Nicholas Curtis

- **Fourth Tranche:** 17.5 million Performance Rights subject to the Company commencing first production of Xenotime concentrate and delivery pursuant to the terms of the Iluka Supply Agreement between the Company and Iluka Rare Earths Pty Ltd on or before 31 December 2026.

The Performance Rights will vest upon notification from the Company to the holder of the Performance Rights. Following vesting, the Company will allocate Shares to the holder of Performance Rights. Any Rights that do not vest by the relevant sunset date for the relevant tranche will lapse.

The target VWAP specified in the First, Second and Third Tranches above will be reduced by the amount of any dividend or return of capital paid per share paid prior to the relevant sunset date for that tranche.

**Valuation of
Performance Rights**

The indicative fair value of the grant of Performance Rights has been calculated by an external adviser to be \$2,280,250 comprising Tranche 1 (\$589,750), Tranche 2 (\$477,750), Tranche 3 (\$477,750) and Tranche 4 (\$735,000).

The Company notes that as outlined in paragraph 19 of Australian Accounting Standards Board 2, the only vesting conditions that have been taken into account when undertaking the valuation of the Performance Rights are those vesting conditions associated with market conditions i.e. in this case share price appreciation vesting conditions. To determine the value of Tranche 1, Tranche 2 and the portion of Tranche 3 that is subject to market conditions, the external adviser used the Hoadley Trading Investment Tools (**Hoadley**) Barrier 1 valuation model.

The non-market vesting conditions have not been considered in the valuation of the Performance Rights and accordingly the valuations of those Tranches of Performance Rights that include a non-market condition (part of Tranche 3 and Tranche 4) do not take into consideration the risks associated with the achievement of the two non-market vesting conditions. In determining the value of the Tranche 3 Performance Rights only the market condition has been considered, with the value of the Performance Right not taking into account the risks associated with the Company achieving FID on its Browns Range Project.

In determining the value of Tranche 4 Performance Rights, the external adviser used the Hoadley ESO2 binomial valuation.

Set out below are the assumptions used in assessing the fair value of the Performance Rights.

Financial benefit – details and reasons

For the purposes of the Shareholder approval being sought under section 208 of the Corporations Act, the Company provides the following information.

The reasons for proposing to give this financial benefit are:

- the Company wishes to appropriately incentivise Mr Curtis, Mr Cai and Mr Hartwig to drive future performance, and to do so in a manner that maximises the alignment between the interests of Mr Curtis, Mr Cai and Mr Hartwig and Shareholders, whilst minimising the use of the Company's cash resources;
- the Performance Rights provide a retention incentive and an incentive to facilitate growth that cannot easily be replicated by a cash-only based remuneration package;
- the total quantum of the remuneration package, including the number of Performance Rights to be granted, is considered to be reasonable; and

- the Company believes the expense associated with the Performance Rights is limited, is commensurate with market practice and is balanced by the incentive it provides to drive future performance and align interests.

On this basis the Company believes the giving of the financial benefit, being the grant of Performance Rights, is in the best interests of the Company and its shareholders.

Directors' recommendation

The Directors (with Nicholas Curtis and Mr Cai abstaining) unanimously recommend that shareholders vote in favour of Resolutions 4, 5 and 6. Shane Hartwig is not a Director of the Company at the time this Notice of Meeting is approved by the Board.

Mr Curtis and Mr Cai are abstaining from providing a recommendation on how to vote on Resolutions 4, 5 and 6 (including for the purposes of section 219 of the Corporations Act) on the grounds of good governance given that the resolution relates to remuneration entitlements in which they have an interest.

As disclosed in the ASX Appendix 3Y released on 23 December 2021, an entity in which Mr Curtis is a shareholder holds 106,600 ordinary shares in the Company and Mr Curtis has options granted by two shareholders to acquire an aggregate of 200 million ordinary shares at an exercise price of \$0.10.

At the date of this Notice, Mr Cai has an existing interest in 5.6 million ordinary shares in the Company and Mr Hartwig does not have any existing interest in the Company.

None of the other Directors have an interest in the outcome of Resolutions 4, 5 or 6.

RESOLUTIONS 7, 8, 9 – APPROVAL OF ISSUE OF SHARE OPTIONS TO DIRECTORS

In accordance with ASX Listing Rule 10.14 and section 208 of Chapter 2E of the Corporations Act, the Company is seeking the approval of shareholders for a grant of vested share options (**Director Options**) to Ming Lu, Liangbing Yu and Adam Handley, each being a Non-Executive Director of the Company, as well as for the issue of any shares on exercise of those Director Options, pursuant to the Non-Executive Director Share Options Plan.

Under ASX Listing Rule 10.14, shareholder approval is required for the issue of securities to a director under an employee incentive scheme.

In addition, Chapter 2E of the Corporations Act regulates the provision of financial benefits by a public company to its related parties. Section 208 of the Corporations Act permits a public company to give a financial benefit to a related party of that public company if shareholders of the public company have approved the giving of that financial benefit to the related party.

Section 228 of the Corporations Act provides that a “related party” includes any person who is a Director. Approval of the grant of Director Options is being sought under section 208 of the Corporations Act given that Ming Lu, Liangbing Yu and Adam Handley are related parties of the Company for the purposes of Chapter 2E of the Corporations Act as a Director of the Company.

Subject to shareholder approval, the Director Options will be granted under the Northern Minerals Limited Equity Incentive Plan Rules and terms of offer.

If shareholder approval is obtained, the Board intends to issue the Director Options shortly after the Meeting, and prior to the record date for the Share Consolidation (currently proposed to be 21 December 2022), and in any event no later than 12 months from the date of the Meeting. If the Options cannot be granted before the record date of the Share Consolidation, then the number of the Options to be granted and the applicable exercise price will be adjusted to reflect the Share Consolidation.

Background

Granting Director Options to the Non-Executive Directors will support Non-Executive Directors in building their shareholding in the Company and continue to enhance the alignment of interests between Non-Executive Directors and shareholders generally.

The Company notes that governance bodies are supportive of non-executive directors holding a meaningful shareholding in the companies on which they serve, and the proposed grant of Director Options will help facilitate this for the company's Non-Executive Directors (particularly those who are new to the Board).

The Board confirms that the Director Options granted to Non-Executive Directors under the Plan will not be subject to performance conditions which could result in potential forfeiture. This is in line with best practice governance standards which recommend that non-executive directors generally should not receive equity with performance hurdles attached as it may lead to bias in their decision-making and compromise their objectivity.

Considering the factors described above, the Board has formed the view that the grant of Directors Options to Ming Lu, Liangbing Yu and Adam Handley is reasonable in the circumstances. Notwithstanding this view, the Board considers it prudent and desirable from the perspectives of transparency, oversight and accountability to obtain Shareholder approval for the purposes of Chapter 2E of the Corporations Act.

Summary of terms

Director Options will be issued at no cost to the Non-Executive Directors. Director Options do not carry any dividend or voting rights prior to vesting and exercise.

Each Director Option entitles the holder to one fully paid ordinary share in the Company, subject to the satisfaction of the conditions described below and payment of the exercise price (and any adjustments the Board considers appropriate under the Plan Rules if, for example, any bonus issues, rights issues or other capital reconstructions or corporate actions occur after the Director Options are granted). Without limiting the foregoing, in the case of adjustments:

- if Shares are issued pro rata to the Company's shareholders generally by way of a rights issue, Director Options will be adjusted in accordance with ASX Listing Rule 6.22.2 (or any replacement rule); and
- if Shares are issued pro rata to the Company's shareholders generally by way of a bonus issue (other than an issue in lieu of dividends or by way of a dividend reinvestment) involving capitalisation of reserves or distributable profits, Director Options will be adjusted in the manner allowed or required by the ASX Listing Rules.

Shares allocated on exercise of Director Options will rank equally with ordinary shares in the Company. The Board retains a discretion to make a cash equivalent payment in lieu of an allocation of shares.

If shareholders do not approve the grant of Director Options at the Meeting, the Board will consider alternative arrangements for appropriately remunerating the Non-Executive Directors, including by way of a cash for additional services beyond the ordinary scope of their general duties.

The terms of the Director Options do not entitle the holder to participate in new issues of securities before the Director Options are exercised.

Additional information provided in accordance with ASX Listing Rule 10.15

- Except as provided for in Resolutions 4, 5 and 6 above, this is the first time the Company is seeking shareholder approval under ASX Listing Rule 10.14 for an issue of Director Options to a Director under the Plan.
- Mr Lu, Mr Yu and Mr Handley are the only Directors who are entitled to participate in, and receive a grant of Director Options, under the Plan.
- The Non-Executive Director base Board fee is \$65,000 per annum (inclusive of superannuation) and \$5,000 per annum for representation on each Board committee. The total current total remuneration package for each Non-Executive Director is as follows:
 - Mr Lu: \$75,000 per annum (inclusive of superannuation)
 - Mr Yu: \$65,000 per annum (inclusive of superannuation)
 - Mr Handley: \$75,000 per annum (inclusive of superannuation)
- No loans are being provided to Mr Lu, Mr Yu and Mr Handley in relation to the acquisition of Director Options or Shares allocated on exercise of those Director Options.

- For the purposes of ASX Listing Rule 10.15.2, the category in ASX Listing Rules 10.14.1-10.14.3 that Mr Lu, Mr Yu and Mr Handley fall into is ASX Listing Rule 10.14.1 (that is, Directors of the Company).

Voting restrictions apply in relation to Resolutions 7, 8 and 9 (see item 2 of the notes relating to voting).

Financial benefit – details and reasons

For the purposes of the Shareholder approval being sought under section 208 of the Corporations Act, the company provides the following information.

The reasons for proposing to give this financial benefit are:

- the Company wishes to encourage Non-Executive Director shareholding in the Company to align Non-Executive Director interests with shareholders, whilst minimising the use of the Company's cash resources;
- the number of Options to be granted is considered to be reasonable; and
- the Company believes the expense associated with the Director Options is limited.

On this basis the Company believes the giving of the financial benefit, being the grant of Director Options, is in the best interests of the Company and its shareholders.

Directors' Recommendation

Each Non-Executive Director abstains from providing a recommendation in respect of the Resolutions 7, 8 and 9 (including for the purposes of section 219 of the Corporations Act) on the grounds of good governance given that the resolutions relate to remuneration entitlements in which the Non-Executive Directors have an interest, and therefore also an interest in the outcome of the resolutions.

At the date of this Notice, Mr Lu, Mr Yu and Mr Handley do not have any existing interest in the Company

Mr Curtis and Mr Cai do not have an interest in the outcome of Resolutions 7, 8 and 9.

RESOLUTION 10 – APPROVAL OF SHARE CONSOLIDATION

General

Resolution 10 seeks shareholder approval to consolidate the Company's issued capital by consolidating every 25 existing ordinary shares into one new ordinary share pursuant to the Share Consolidation.

If approved, the record date for determining which holdings of ordinary shares will be affected by the Consolidation will be 22 December 2022 (**Record Date**).

Overview of legal requirements in relation to Resolution 10

Section 254H of the Corporations Act provides that a company may convert its shares into larger or smaller numbers of shares, by resolution passed at a general meeting, with the conversion to take effect from the day the resolution is passed, or such later date specified in the resolution.

Listing Rule 7.21 and 7.22 requires shareholders to approve the rounding up of fractional entitlements arising from adjustments to convertible securities and options otherwise made in accordance with Listing Rule 7.21 or 7.22, respectively. However, it is proposed in this case that fractional entitlements will be rounded down.

Reason for seeking approval under Resolution 10

As at the date of this notice, the Company has 4,989,844,699 Shares on issue. This is a large number of shares relative to companies of similar size and market capitalisation. Having such a large number of shares on issue creates some disadvantages for the Company and its shareholders, including:

- potential negative perceptions associated with a low share price;
- additional share price volatility because the minimum share price movement permitted by the ASX represents a relatively higher proportion of the Company's Share price compared to companies of similar size with fewer shares on issue;
- precluding investment from particular investors who may be subject to a mandate or restrictions on investing in companies below a certain share price threshold; and
- administrative costs associated with managing a large volume of shares.

The purpose of the Share Consolidation is to reduce the number of Shares on issue which is expected to result in a more appropriate and effective capital structure for the Company and a higher Share price which will be more appealing to a wider range of investors.

Effect of Share Consolidation on Shares

As mentioned above, as at the date of this notice, the Company has 4,989,844,699 Shares on issue.

On 26 October 2022, the Company announced its intention to issue a further 125 million Shares to raise up to \$5.0 million under the SPP (which may be increased or subject to scale back). It is anticipated that the SPP will close and the new Shares will be issued prior to the Share Consolidation occurring.

On 26 October 2022, the Company also announced its agreement to issue further Shares to Iluka pursuant to the Iluka Convertible Note, Iluka Tranche 2A Placement, Iluka Tranche 2B Call Option and Iluka Tranche 2B Put Option, however it is not anticipated that the issue of these Shares will occur prior to Consolidation occurring.

Assuming the SPP is successful and fully subscribed for, the Company will have 5,114,844,699 Shares on issue on the Record Date. If Resolution 10 is passed, the number of Shares on issue is expected to be reduced to approximately 204,593,787 on the Record Date (subject to rounding).

As the Share Consolidation will apply equally to all shareholders as at the Record Date, the Share Consolidation will have no material effect on the percentage interest of each Shareholder's shareholding in the Company. This is because, except for the rounding of fractions, each Shareholder's individual shareholding in the Company and the total number of Shares will be reduced by the same ratio.

While the Share Consolidation will have no effect on the underlying value of the Company, upon the Share Consolidation, the Company's Shares should trade at a higher price, reflecting the fact that one Share immediately after the Share Consolidation reflects the underlying value of 25 Shares immediately before the Share Consolidation.

The price of the Shares is and will remain subject to influence by other market factors both before and after Share Consolidation.

Effect of Share Consolidation on Legacy Options (other than the Iluka Tranche 2B Call Option / Put Option)

As at the date of this notice, the Company has 230,581,634 options on issue (**Legacy Options**).¹⁰ Each Option is convertible into one Share in the Company in accordance with its terms.

The terms of the Options provide that on a share consolidation the number of options issued to a Legacy Option holder and the corresponding exercise price will be adjusted in compliance with the ASX Listing Rules to ensure that Legacy Option holders remain in the same economic position following the share consolidation.

The following table identifies the Legacy Options on issue as at the date of this notice and how they will be affected post Share Consolidation (subject to roundings).

	Pre Share Consolidation Legacy Options on issue		Post Share Consolidation Legacy Options on issue	
	Number	Exercise price	Number	Exercise price
Legacy Options expiring 22 February 2024	153,061,226	\$0.074	6,122,449	\$1.85
Legacy Options expiring 2 March 2024	26,500,000	\$0.045	1,060,000	\$1.125
Legacy Options expiring 27 July 2024	51,020,408	\$0.074	2,040,816	\$1.85

Effect of Share Consolidation on Legacy Performance Rights

As at the date of this notice, the Company has 21,116,665 performance rights on issue under its 2021 performance rights plan rules (**Legacy Performance Rights**). Each Legacy Performance Right vests and is convertible into one Share in the Company in accordance with its terms.

The terms of the 2021 performance rights plan rules require the number of Legacy Performance Rights, the number of Shares subject to the Legacy Performance Rights and/or the exercise price of those Legacy Performance Rights to be adjusted in the manner required by the ASX Listing Rules (which will ensure Legacy Performance Rights holders remain in the same economic position following the Share Consolidation).

¹⁰ The Options do not include the Iluka Tranche 2B Call Option or the Iluka Tranche 2B Put Option, which are referred to in this notice of meeting, and which will only be issued if Resolution 3 is passed.

The Board has resolved that if Resolution 10 is passed the number of Legacy Performance Rights on issue will be consolidated in the same ratio as Shares.

The following table identifies the Legacy Performance Rights on issue as at the date of this notice and how they will be affected post Share Consolidation (subject to roundings).

Pre Share Consolidation Legacy Performance Rights on issue	Post Share Consolidation Legacy Performance Rights on issue
21,116,665	844,666

Effect of Share Consolidation on Performance Rights and Director Options granted to Directors

If Resolutions 4, 5, 6, 7, 8 and 9 pass, the Company will have 125,000,000 Performance Rights and 30,000,000 Director Options granted to Directors on issue (alongside the Legacy Performance Rights and Legacy Options) at the Record Date.

The terms of the Plan Rules require the Performance Rights and Director Options to be adjusted in the manner required by the ASX Listing Rules upon the happening of the Share Consolidation. Accordingly, if Resolution 10 is passed, the number of Performance Rights and Director Options will be consolidated in the same ratio as the Share Consolidation and the exercise price of the Director Options will be multiplied by the inverse ratio (alongside the adjustments to the Legacy Performance Rights and Legacy Options set out above).

The following tables identify the number of Performance Rights and Director Options expected to be on issue as at the Record Date and how they will be affected post Share Consolidation (assuming Resolutions 4, 5, 6, 7, 8 and 9 are all passed) (subject to roundings).

Pre Share Consolidation Performance Rights on issue	Post Share Consolidation Performance Rights on issue
125,000,000	5,000,000

Pre Share Consolidation Director Options		Post Share Consolidation Director Options	
Number	Exercise price	Number	Exercise price
30,000,000	\$0.06	1,200,000	\$1.50

Effect of Share Consolidation on other convertible securities

As at the date of this notice, the Iluka Convertible Note is the only convertible security the Company has on issue other than the Options and the Legacy Performance Rights. The Iluka Convertible Note is convertible into up to approximately 365.6 million Shares (including assumed capitalised interest) at \$0.048 per Share subject to the terms of the Convertible Note Deed Poll (including the terms which provide for adjustments in certain circumstances).

Upon a consolidation of the Company's share capital, the Convertible Note Deed Poll requires the conversion price to be adjusted in the inverse proportion to the ratio applied to effect the Share Consolidation.

If Resolution 10 is passed, the Iluka Convertible Note will therefore become convertible into up to approximately 14.6 million Shares at \$1.20 per Share (subject to any other adjustments under the terms of the Convertible Note Deed Poll) and otherwise remain subject to the terms of the Convertible Note Deed Poll. This will ensure Iluka Investments remains in the same economic position under the Iluka Convertible Note as it was prior to the Share Consolidation, except for the rounding of fractions.

Effect on Iluka Tranche 2A Placement

As at the date of this notice, the Company has agreed to issue 230.0 million Shares to Iluka pursuant to the terms and conditions of the Iluka Tranche 2A Placement set out in the Subscription and Option Agreement. Subject to the terms and conditions of the Subscription and Option Agreement, Iluka Investments has agreed to subscribe for the Iluka Tranche 2A Placement Shares at the lower of:

- the subscription price applicable to any Additional Browns Range Equity Fundraising; and
- if Resolution 3 is:
 - passed, \$0.06 per Share; and
 - not passed, \$0.052 per Share.

If Resolution 10 is passed, the terms of the Iluka Tranche 2A Placement will require Iluka Investments (subject to the terms of the Subscription and Option Agreement) to instead subscribe for 9.2 million Shares under the Tranche 2A Placement at the lower price of:

- the subscription price applied to any Additional Browns Range Equity Fundraising (which will reflect the prevailing market price of Shares at the time, which will take into account the Share Consolidation); and
- if Resolution 3 is:
 - passed, \$1.50 per Share; and
 - not passed, \$1.30 per Share.

This will ensure Iluka Investments remains in the same economic position in respect of the Iluka Tranche 2A Placement as it was prior to the Share Consolidation, except for the rounding of fractions.

Effect on Iluka Tranche 2B Call Option / Put Option

As at the date of this notice, the Company has agreed to issue a call option over up to approximately 653.3 million Shares¹¹ to Iluka Investments subject to shareholders passing Resolution 3. Subject to the terms and conditions of the Subscription and Option Agreement, Iluka Investments or the Company may exercise either the Iluka Tranche 2B Call Option or Iluka Tranche 2B Put Option (respectively) to effect the issue of up to approximately 653.3 million Shares to Iluka Investments at the lower of:

- the subscription price applicable to any Additional Browns Range Equity Fundraising; and
- \$0.06 per Share.

If Resolution 10 is passed, the terms of the Iluka Tranche 2B Call Option / Put Option arrangement will instead permit Iluka Investments or the Company to exercise either the Iluka Tranche 2B Call Option or Iluka Tranche 2B Put Option (respectively) to effect the issue of up to approximately 26.13 million Shares to Iluka Investments at the lower price of:

¹¹ Subject to a cap of such number of Shares as would result in Iluka Investments acquiring voting power in the Company of 19.9% at the time of issue.

- the subscription price applied to any Additional Browns Range Equity Fundraising (which will reflect the prevailing market price of Shares at the time, which will take into account the Share Consolidation); and
- \$1.50 per Share.

This will ensure the Company and Iluka Investments remain in the same economic position in respect of the Iluka Tranche 2B Call Option / Put Option as they were prior to the Share Consolidation, except for the rounding of fractions.

Treatment of fractions

Where the consolidation of Shares, options or performance rights results in an entitlement to a fraction of a Share, option or performance right, the Company will round that fraction down to the nearest whole number.

Proposed timetable for Share Consolidation

If Resolution 10 is passed, it is expected the Share Consolidation will take effect according to the following indicative timetable.

Event	Date
Shareholders pass resolution to approve the Share Consolidation	12 December 2022
Effective date of the Share Consolidation	19 December 2022
Last day for trading in pre Share Consolidation securities	20 December 2022

Any changes to the timetable will be announced to ASX.

Directors' recommendation

The Directors unanimously recommend shareholders vote in favour of Resolution 10.

¹² Following the issue of Shares under the Iluka Tranche 1 Placement, SPP (assuming full take-up), Iluka Tranche 2A Placement and Iluka Tranche 2B Call Option / Put Option (as applicable) and assuming conversion of the Iluka Convertible Note, Iluka Investments would theoretically have voting power of approximately 21.6% in the Company (assuming no other issuances by the Company between the date of this announcement and those issuances). In practice, however, Iluka Investment's voting power in the Company will not exceed 19.9%. In this regard, it is noted that the Subscription and Option Agreement provides that the number of new Shares to be issued to Iluka upon completion of the Iluka Tranche 2B Call Option / Put Option is to be the lesser of (a) approximately 653.3 million Shares and (b) such number of Shares as would result in Iluka Investments acquiring voting power in the Company of 19.9% at the time of issue. In addition, the Iluka Convertible Note provides that, to the extent that Iluka would obtain voting power of greater than 19.9% through the issue of Shares upon conversion of the Iluka Convertible Note, Iluka Investments may require the Company to issue such number of Shares up to the 19.9% threshold and to pay cash for the balance of the Shares that would otherwise have been issued upon conversion of the Iluka Convertible Note.

¹³ The number of Shares issued and price per Share are subject to adjustment to achieve the same economic outcome following any share split or consolidation undertaken by the Company (including the Share Consolidation as contemplated by Resolution 10).

If the conditions precedent become incapable of satisfaction or the parties agree that any of the conditions precedent cannot be satisfied, Iluka Investments may terminate the Subscription and Option Agreement prior to the relevant cut-off date.

Further, the Iluka Tranche 2B Call Option / Put Option arrangements will terminate automatically if shareholders do not approve Resolution 3.

If the Company considers that all relevant conditions precedent (other than the DFS Due Diligence Condition) to completion of the Iluka Tranche 2A Placement have been satisfied or waived, the Company may provide notice to Iluka Investments. Subject to information request and dispute resolution processes as set out in the Subscription and Option Agreement, if Iluka Investments notifies that the Company that the DFS Due Diligence Condition has not been, or will not be satisfied, and will not be waived (or otherwise fails to provide such notice) within a certain period, then the Company may terminate the Subscription and Option Agreement, provided that all the other relevant conditions precedent remain satisfied or waived.

6.
