

Invitation to Linus Virtual Conference

Melbourne, Australia – 4 March 2025: Linus Technologies Limited (ASX:LNU) ('Linus' or 'the Company') – the only cloud-based solution that unlocks the value of video archives with immersive, deeply personalized viewer experiences via its Linus Media Solutions portfolio – is pleased to invite Shareholders and Investors to a virtual conference, hosted by CEO, Ben Taverner and Chairman, Gerard Bongiorno. The presentation will be held at 9am (AEDT) on Thursday 6th March 2025.

The company has continued to drive value for existing customers and to execute on its 'go to market' strategy in the sports and broadcast industries. Those attending the conference will be presented with why Linus Media Solutions is positioned to disrupt these markets with the world's only personalised data-driven video assembly service, attracting interest from significant investors, partners, and customers.

Topics will include:

- Introduction to new CEO, Ben Taverner
- Review of Linus of near term pipeline and expansion plans
- Update on partnerships with Brightcove, Magnifi, Prime Focus, Stats Perform and Fujitsu

There will also be a Q&A session at the end of the presentation, where Ben will answer questions submitted by registered conference participants. Investors are invited to submit questions in advance to ir@linus.com.

Event: Linus Technologies - Market Update
Presenting: Ben Taverner, CEO
When: Thursday 6 March 2025, 9am AEDT
Where: Zoom Webinar, details provided upon registration at the following link

https://linus.zoom.us/webinar/register/WN_jPaPcORUTlyYdSm0pSlivw

After registering, you will receive a confirmation email containing information about joining the webinar.

A recording of the session will also be made available for those unable to attend.

This announcement has been authorised for release to ASX by the Linus Board of Directors.

About Linus Technologies Limited:

Linus' purpose is to unlock the value of the world's video, creating immersive, deeply personalized viewing experiences. For the first time, we make it possible to find, curate, and utilize the valuable moments across vast libraries of video, enabling viewers to create an infinite amount of personalised video compilations on-the-fly, providing the most relevant content to each viewer.

Our patented Video Virtualisation Engine™ (VVE) turns big, bulky video files into lightweight, searchable data that is enriched with AI and ML, making it easy and efficient for users to find and share what matters to them. Creators and owners of video can drive greater viewing, and monetisation of their video assets.
