1.2 Important Notes

This Prospectus is dated 16 April 2025 and was lodged with the ASIC on that date. The ASIC, ASX and their respective officers take no responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

No New Options may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

The Offer is only available to Share Placement Participants. **Share Placement Participants** are persons or entities that subscribed for and were issued Shares under the placement announced to ASX on 26 November 2024, together with the lead manager (Peak Asset Management) and the Company's advisor (Viaticus Capital) and their respective nominees to the November 2024 Placement. Applications for New Options offered pursuant to this Prospectus can only be submitted on an original Application Form which accompanies this Prospectus.

This Prospectus is a transaction specific prospectus for an offer of options to acquire continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.

1.3 Website

A copy of this Prospectus can be downloaded from the website of the Company at www.whitehawk.com. If you are accessing the electronic version of this Prospectus for the purpose of making an investment in the Company, you must be an Australian resident and must only access this Prospectus from within Australia.

The Corporations Act prohibits any person passing onto another person an Application Form unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. Any person may obtain a hard copy of this Prospectus free of charge by contacting the Company.

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

1.4 Risk Factors

Potential investors should be aware that subscribing for New Options in the Company involves a number of risks. The key risk factors of which investors should be aware are set out in Section 5 of this Prospectus. These risks together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of

the New Options in the future. Accordingly, an investment in the Company should be considered highly speculative. Investors should consider consulting their professional advisers before deciding whether to apply for New Options pursuant to this Prospectus.

1.5 Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Options.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

1.6 Overseas Investors

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and therefore persons into whose possession this document comes should seek advice on and observe any such restrictions. Any failure to comply with these restrictions constitutes a violation of those laws. This Prospectus does not constitute an offer of New Options in any jurisdiction where, or to any person to whom, it would be unlawful to issue in this Prospectus.

1.7 Target Market Determination

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of New Options issued under this Prospectus. The Company will only distribute this Prospectus to those investors who fall within the target market determination (**TMD**) as set out on the Company's website (www.whitehawk.com).

By making an application under the Offer, you warrant that you have understood the TMD and that you fall within the target market set out in the TMD.

1.8 Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as ‘may’, ‘could’, ‘believes’, ‘estimates’, ‘targets’, ‘expects’, or ‘intends’ and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of our Company, the Directors and our management.

We cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

We have no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this prospectus, except where required by law.

These forward looking statements are subject to various risk factors that could cause our actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 5 of this Prospectus.

1.9 Disclaimer

No person is authorised to give any information or to make any representation in connection with the Offer described in this Prospectus which is not contained in this Prospectus. Any information not so contained may not be relied upon as having been authorised by the Company or any other person in connection with the Offer. You should rely only on information in this Prospectus.

2. DETAILS OF THE OFFER

2.1 Background

As announced on 26 November 2024, the Company received firm commitments to raise up to \$1,700,000 (before costs) pursuant to a placement of 170,000,000 Shares to professional and sophisticated investors at an issue price of \$0.01 per Share, together with one free-attaching Option for every three Shares subscribed for and issued, exercisable at \$0.02 on or before the date that is three years from the date of issue (**November 2024 Placement**).

The November 2024 Placement comprised:

- (a) 116,500,000 Shares issued to unrelated professional and sophisticated investors on 2 December 2024;
- (b) a further 53,500,000 Shares issued to professional and sophisticated investors on 4 April 2025;
- (c) up to 56,666,668 New Options being issued under this Prospectus which will be issued to the Share Placement Participants on a one-for-three basis; and
- (d) 6,000,000 Shares and 13,666,667 New Options to Peak Asset Management and Viaticus Capital for services provided to the Company relating to the November 2024 Placement.

2.2 The Offer

Pursuant to this Prospectus, the Company invites Share Placement Participants identified by the Directors to apply for up to 1 New Option for every 3 Shares issued to those Share Placement Participants in the November 2024 Placement. In addition, Peak Asset Management and Viaticus Capital (or their respective nominees) will be invited to apply for up to 12,000,000 New Options (to Peak Asset Management) and 1,666,667 New Options (to Viaticus Capital) respectively. There is no cost associated with applying for these New Options as they are being issued free on the basis of participation in the November 2024 Placement, either as an investor or advisor.

The full terms and conditions of the New Options to be offered under this Prospectus are set out in Section 4.1. Subject to the Company being able to satisfy ASX of the requirements for quotation as per Chapter 2 of the Listing Rules, the New Options will form a new class of quoted securities of the Company.

2.3 Objective

The Company will not raise any immediate funds from the issue of the New Options. If all of the New Options are exercised and new Shares issued, the Company would raise approximately \$1.41 million.

The primary purpose of this Prospectus is to ensure that the New Options are freely tradable if and when they are quoted on ASX, together with any new Shares issued on exercise of the New Options.

The New Options are not currently in a class of quoted securities. However, the Company will apply for quotation of the New Options (including Options on issue in the same class of the New Options) within 7 days following the date of this Prospectus and the issue of New Options under the Offer is conditional upon ASX granting Official Quotation to Options the New Options and Options on issue in the same class as the New Options.

2.4 Application for New Options

A personalised Application Form for Share Placement Participants accompanies this Prospectus. The Application Form has been pre-completed with the applicable number of New Options each Share Placement Participant is eligible to receive.

Applications for New Options must be made by investors at the direction of the Company and must be made using the Application Form accompanying this Prospectus.

No payment is required for the New Options. Please follow the instructions on the Application Form.

Completed Application Forms must be emailed or delivered to the Company as follows:

If the Directors decide to issue New Options under the Offer, the issue of New Options under the Offer will take place as soon as practicable after the Closing Date.

The Directors will determine the recipients of all the New Options. The Directors reserve the right to reject any application or to allocate any Applicant fewer New Options than the number applied for.

Holding statements for New Options issued under this Prospectus will be mailed to the investors under the Offer.

2.7 ASX listing

The Company will apply for Official Quotation of the New Options.

2.8 ASX listing

Application for Official Quotation of the New Options offered pursuant to this Prospectus will be made within 7 days of the date of this Prospectus. If ASX does not grant Official Quotation of the New Options offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any New Options.

The fact that ASX may grant Official Quotation to the New Options is not to be taken in any way as an indication of the merits of the Company or the New Options now offered for subscription.

2.9 Overseas shareholders

The Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

The distribution of this Prospectus in jurisdictions outside Australia or New Zealand may be restricted by law and persons who come into possession of this Prospectus should observe any of these restrictions, including those outlined below. In particular, this Prospectus may not be distributed in the United States or elsewhere outside Australia. Any failure to comply with such restrictions may constitute a violation of applicable securities laws. The return of a completed Application Form will be taken by the Company to constitute a representation and warranty by you that you have complied with these restrictions.

2.10 New Zealand

The New Options are not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the transitional provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021 (New Zealand).

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

(c) **Expiry Date**

Each Option will expire at 5:00 pm (WST) on the date that is three years from the date of issue (**Expiry Date**). An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(d) **Exercise Period**

The Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(g) **Timing of issue of Shares on exercise**

Within five Business Days after the Exercise Date, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.

There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.

(l) **Change in exercise price**

An Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option can be exercised.

(m) **Transferability**

The Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

4.2 Shares

The following is a summary of the more significant rights and liabilities attaching to Shares that may be issued subject to exercise of the New Options. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) **General meeting and notices**

Each member is entitled to receive notice of, and to attend and vote at, general meetings of the Company and to receive all notices, accounts and other documents required to be sent to members under the Constitution, the Corporations Act or the Listing Rules.

(b) **Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at a general meeting of the Company:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) **Dividend rights**

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

5. RISK FACTORS

5.1 Introduction

The New Options offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for New Options pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the New Options.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

5.2 Company specific

(a) Technology Risk

WhiteHawk's market involves rapidly evolving products and technological change. The Company cannot guarantee that it will be able to engage in research and development at the requisite levels. The Company cannot assure investors that it will successfully identify new technological opportunities and continue to have the needed financial resources to develop new products in a timely or cost-effective manner. At the same time, products, services and technologies developed by others may render the Company's products and services obsolete or noncompetitive.

(b) Research and Development and Technical Risk

WhiteHawk's products and services are the subject of continuous research and development and necessarily need to be substantially developed further in order to gain and maintain competitive and technological advantage, and in order to meaningfully improve the products' and services' usability, scalability and accuracy. There are no guarantees that the Company will be able to undertake such research and development successfully. Failure to successfully undertake such research and development, anticipate technical problems, or estimate research and development costs or timeframes accurately will adversely affect the Company's results and viability.

(c) Intellectual Property Rights

A substantial part of the Company's commercial success will depend on its ability to establish and protect WhiteHawk's intellectual property to maintain trade secret protection and operate without infringing the proprietary rights of third parties.

Further, the commercial value of the Company's intellectual property assets is dependent on any relevant legal protections. These legal mechanisms, however, do not guarantee that the intellectual property will be protected or that the Company's competitive position will be maintained. No assurance can be given that employees or third parties will not breach confidentiality agreements, infringe or misappropriate the Company's intellectual property or commercially sensitive information, or that competitors will not be able to produce non-infringing competitive products. Competition in retaining and sustaining protection of technologies and the complex nature of technologies can lead to expensive and lengthy disputes for which there can be no guaranteed outcome. There can be no assurance that any intellectual property which the Company (or entities it deals with) may have an interest in now or in the future will afford the Company commercially significant protection of technologies, or that any of the projects that may arise from technologies will have commercial applications.

It is possible that third parties may assert intellectual property infringement, unfair competition or like claims against the Company under copyright, trade secret, patent, or other laws. While the Company is not aware of any claims of this nature in relation to any of the intellectual property rights in which it has or will acquire an interest, such claims, if made, may harm, directly or indirectly, the Company's business. If the Company is forced to defend claims of intellectual property infringement, whether they are with or without merit or are determined in the Company's favour, the costs of such litigation will be potentially significant and may divert management's attention from normal commercial operations.

Additionally, securing rights to (or developing) technologies complementing WhiteHawk's existing intellectual property will also play an important part in the commercial success of the Company. There is no guarantee that such rights can be secured or such technologies can be developed.

(d) **Data loss, theft or corruption**

WhiteHawk stores data in its own systems and networks and also with a variety of third party service providers. Corruption, theft or loss of the data as a result of misuse, exploitation or hacking of any of these systems or networks could lead to corruption, theft or loss of the data which could have a material adverse effect on the Company's business, financial condition and results. Further, if WhiteHawk's systems, networks or technology are subject to any type of 'cyber' crime, its technology may be perceived as unsecure which may lead to a decrease in the number of customers.

(e) **Reliance on Key Personnel Risk**

The Company depends on the expertise, experience and efforts of its executive officers and other key employees. A failure to attract and retain executive, business development, technical and other key personnel could reduce the Company's revenues and operational effectiveness. There is a continuing demand for relevant qualified personnel, and the Company believes that its future growth and success will depend upon its ability to attract, train and retain such personnel. Competition for personnel in the Company's industry is intense, and there is a limited number of persons with knowledge of, and experience in, this industry. An inability to attract or maintain a sufficient number of requisite personnel could have a material adverse effect on the Company's performance or on the Company's ability to capitalise on market opportunities.

(f) **Foreign exchange**

The Company will be operating in a variety of jurisdictions and as such, expects to generate revenue and incur costs and expenses in more than one currency. Consequently, movements in currency exchange rates may adversely or beneficially affect the Company's results or operations and cash flows. Any depreciation of currencies in foreign jurisdictions in which the Company operates may result in lower than anticipated revenue, profit and earnings of the Company.

(g) **Climate**

There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:

- (i) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its business viability. While the Company will endeavour to manage these risks and limit any consequential impacts,

there can be no guarantee that the Company will not be impacted by these occurrences; and

- (ii) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

5.3 Industry specific

(a) User experience risk

The Company's business model is based on recurring revenue arising from customers. A poor user experience may not necessarily be anticipated and may affect growth of customer numbers and repeat purchases or ongoing contracts with the Company for use of its software services. Factors which may contribute to poor customer experience include:

- (i) ease of setting up and commencing use of the products offered;
- (ii) simplicity and reliability of customer usage; and
- (iii) quality of services provided.

Poor user experiences may result in the loss of customers, adverse publicity, litigation, regulatory enquiries and customers reducing the use of the Company's products. If any of these occur, it may adversely impact the Company's revenues.

(b) Scalability

Scalability is the key to any company that is looking at a potential global market. While the Company believes that the WhiteHawk Exchange, other products, software and its service architecture have been built for scalability, there are no guarantees that its products will be able to meet future demand and requirements of consumers.

(c) Information technology risk

With any technical project there are risks with the chosen technology, vendors and employees and in execution. Whilst WhiteHawk has employed and engaged subject-matter experts, employs experienced persons, standard security technologies and approaches there are risks that delivery will fail to meet expectations or deadlines, that technologies become obsolete, natural disasters occur, the Company is the subject of a fraud or malicious attack or platforms are compromised resulting in a negative impact on the Company's performance.

(d) Reliance on third party providers

The Company intends to develop its products so that they can be utilised with a number of operating systems, internet platforms and other hardware devices. While the Company will therefore depend on its products being able to operate on a range of systems, platforms and devices, it is unable to control third party developers of such systems. Any changes to external platforms, systems or devices that give preference to competing products or adversely impact on the functionality of the Company's products may render consumers less likely to use the Company's products, which may have a detrimental impact on the Company's financial performance. Likewise, the Company's products are predicated on consumers being able to access the internet and cellular networks. If third party providers raise the cost of these networks or restrict the ability of consumers to access these networks via the Company's products, this is likely to detrimentally affect the Company's financial performance.

(e) **Brand risks**

WhiteHawk has established its trademarks. The Company believes that to have global branding is critical for the long term success of its business. Negative commentary or a complaint regardless of accuracy via social media, media in general and or word of mouth may have a damaging impact on the ability of the Company to reach its potential, and may not necessarily be based on accurate data or real experience.

(f) **Future capital requirements**

There is no certainty regarding the ability of the Company to raise sufficient funds to meet its needs into the future. The Company's future capital requirements depend on a number of factors including the Company's ability to generate income from its operations. The Company may need to raise additional capital from equity or debt sources due to unforeseen circumstances. There can be no assurance that the Company will be able to raise such capital on favourable terms or at all. If adequate funds are not available on acceptable terms the Company may not be able to develop its business and this may have an adverse impact on the Company's operations.

(g) **Regulatory compliance**

The Company is required to comply with the laws governing privacy, taxation and consumer trade practices in each jurisdiction in which it operates. The Company may be subject to other laws in jurisdictions in which it plans to operate and the applicable laws may change from time to time.

These laws and applicable regulations give rise to risks and compliance costs for the Company. Non-compliance with such regulations, changes in the interpretation of current regulations, loss or failure to secure renewal of an accreditation, or the introduction of new laws or regulations may lead to fines imposed on the Company by the relevant regulatory authority or Governmental body, revocation of permits or licenses, or damage to the Company's reputation and may have a material adverse effect on the Company's costs, business model and competitive environment and therefore could materially adversely affect the Company's future financial performance and position.

(h) **Doing business outside of Australia**

The Company currently has all of its operations in the USA. For operational reasons the company may also establish operations in other jurisdictions.

Wherever the Company sets up operations the Company is exposed to a range of multi-jurisdictional risks such as risks relating to currency exchange rates, labour practices, environmental matters, difficulty in enforcing contracts, changes to or uncertainty in the relevant legal and regulatory regime (including in relation to taxation and foreign investment and practices of government and regulatory authorities) and other issues in foreign jurisdictions in which the Company operates. Businesses that operate across multiple jurisdictions face additional complexities from the unique business requirements in each jurisdiction.

Management experience will help to mitigate, but will not remove, this risk.

(i) **Insurance**

The Company seeks to maintain appropriate policies of insurance consistent with those customarily carried by organisations in their industry sector. Any increase in the cost of the insurance policies of the Company or the industry in which they operate could adversely affect the Company's business, financial condition and operational results. The Company's insurance coverage may also be inadequate to cover losses it sustains. Uninsured loss or a loss in excess of the Company's insured limits could adversely affect the Company's business, financial condition and operational results.

(j) **Contractual disputes**

The Company's business model is dependent in part on contractual agreements with third parties that have an interaction with the Company's target market. The Company is aware that there are associated risks when dealing with third parties including but not limited to insolvency, fraud and management failure. Should a third party contract fail, there is the potential for negative financial and brand damage for the Company.

(k) **Credit risks**

The Company will be exposed to credit risks relating to delayed or non-payments from its customers. A failure by the Company to adequately assess and manage credit risk may result in credit losses potentially resulting in a material adverse effect on the Company's business, operating and financial performance, including decreased operating cash flows.

5.4 General risks

(a) **General economic conditions**

Economic conditions, both domestic and global, may affect the performance of the Company. Factors such as fluctuations in currencies, commodity prices, inflation, interest rates, supply and demand and industrial disruption may have an impact on operating costs and share market prices. The Company's future possible revenues and Share price can be affected by these factors, all of which are beyond the control of the Company or its Directors.

(b) **Equity market conditions**

Securities listed on the stock market can experience extreme price and volume fluctuations that are often unrelated to the operating performances of such companies. The market price of Shares may fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general.

General factors that may affect the market price of Shares include economic conditions in both Australia and internationally (particularly Australian, US and Chinese economic conditions), investor sentiment, local and international share market conditions, changes in interest rates and the rate of inflation, variations in commodity prices, the global security situation and the possibility of terrorist disturbances, changes to government regulation, policy or legislation, changes which may occur to the taxation of companies as a result of changes in Australian and foreign taxation laws, changes to the system of dividend imputation in Australia, and changes in exchange rates.

(c) **Change in government policy and legislation**

Any material adverse changes in relevant government policies or legislation of Australia may affect the viability and profitability of the Company, and consequent returns to investors. The activities of the Company are subject to various federal, state and local laws governing prospecting, development, production, taxes, labour standards and occupational health and safety, and other matters.

5.5 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Options offered under this Prospectus.

Therefore, the New Options to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Options.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Options pursuant to this Prospectus.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

If you have received this Prospectus as an electronic Prospectus, please ensure that you have received the entire Prospectus accompanied by the Application Form.
