# Letter from the Chair and CEO

Dear Shareholders,

On behalf of your Board of Directors, we are pleased to present LiveTiles' Annual Report for the financial year ended 30 June 2018 (FY18).

## FY18 highlights

It has been another year of strong growth for LiveTiles, with annualised recurring revenue (ARR) reaching \$15 million as at 30 June 2018, a 275% increase on FY17. The number of paying customers grew to 536, with significant growth in enterprise customers contributing to the 170 increase of customers during the period. In addition to the substantial growth in customer numbers, LiveTiles grew average ARR per customer by over 154% in FY18, driven by new enterprise customers and increasing penetration of our existing customer base under our 'land and expand' growth strategy. The number of LiveTiles transacting partners grew to 94 as at 30 June 2018, delivering an increase of 40% on FY17 and further strengthening our valuable reseller sales channel.

## Investing for continued growth

In FY18, we continued to invest in driving robust customer and revenue growth, bolstering our direct sales channel with the addition of full-time sales staff and signing a strategic agreement with US-based sales and marketing consulting company, N3. N3 is the leading outsourced sales and marketing execution vendor for Microsoft's Azure and Dynamics platforms, meaning it has deep expertise in the Microsoft ecosystem. Already, N3's dedicated 60-person team has generated over \$15 million of sales opportunities since late May 2018. N3's team is highly scalable and the partnership further strengthens LiveTiles' relationship and alignment with Microsoft.

## Innovative artificial intelligence products launched

We remain focussed on innovation, launching two artificial intelligence (AI) products — LiveTiles Bots and LiveTiles Intelligence during the year. Already since launching, LiveTiles Bots has surpassed early expectations, with strong early adoption delivering a range of new mid-market to Fortune 500 customers, demonstrating the wide and growing acceptance by global enterprises for AI-driven solutions, and the appeal of our simple 'build your own bot' product. LiveTiles is perfectly positioned to capitalise on the growing AI market, which is expected to increase over 20 times between 2015 and 2024 to US\$3 trillion.<sup>1</sup>

## Hyperfish acquisition adds complementary capabilities

On 8 June 2018, LiveTiles completed the acquisition of next generation employee profile and directory management software company Hyperfish, combining our highly complementary products and two of the fastest growing software companies in the Microsoft ecosystem. Founded in 2015 by Brian Cook (co-founder of global software company Nintex) and Chris Johnson (ex-Microsoft executive), Hyperfish has secured 35 customers and grown ARR to \$0.4 million since launching in early 2017. Joining forces with another Microsoft strategic partner, the acquisition further enhances our deep and collaborative relationship with Microsoft, provides strong opportunities for cross-selling to over 500 customers and adds additional AI capabilities to LiveTiles' offering that will be jointly promoted to Microsoft customers.

1. Transparency Market Research

### Unique global relationship and close alignment with Microsoft

Our relationship with Microsoft continues to strengthen, as the integration of LiveTiles' products with Microsoft's two fastest growing products — Office 365 (38% YoY growth)<sup>2</sup> and Azure (89% YoY growth)<sup>2</sup> — increases and improves the use of Microsoft's platforms and software by its customers. In July 2018, LiveTiles was showcased at Microsoft's global Inspire conference in a keynote presentation given by Gavriella Schuster, Corporate Vice President of Microsoft's One Commercial Partner Channel and Programs. Over 20,000 people attended the Inspire event. The co-promotional marketing opportunities continue to grow LiveTiles' product and brand awareness, with LiveTiles perfectly aligned with Microsoft's 'AI-first' vision.

### Recent wins provide strong commercial validation

In a significant win, LiveTiles was awarded the Microsoft US Partner Award for Modern Workplace Transformation in recognition of LiveTiles' leadership in customer impact, solution development, deployment and the exceptional use of Microsoft's advanced features. We were further honoured at the third annual AIConics Awards in London, winning Best Application of AI in the Enterprise, as judged by a panel of independent experts.

### Share placement and share purchase plan successfully raise \$27 million

In August 2018, LiveTiles successfully raised \$25 million via a share placement to new and existing domestic and international institutional investors. The raise was completed at \$0.59 per share and was increased from \$20 million to \$25 million in size, due to strong demand. A share purchase plan was also launched in August 2018 to existing, eligible shareholders to raise an additional \$2 million.

The funds raised will be used to further grow our marketing, sales and customer success teams, together with ongoing development of the Microsoft and partner channels in support of continued strong growth.

### Recent Board appointment

Subsequent to year end, we were pleased to welcome our newest non-executive director, Mr David Lemphers to the Board, effective 1 September 2018. David is an early-stage technology expert and brings his deep expertise as a software engineer, plus experience founding multiple AI and machine learning-based technology companies, to the Board. David's existing knowledge of Microsoft, where previously he was responsible for its design and development of self-learning computer systems, is an invaluable addition to the team and we're looking forward to working closely with him to leverage his expertise to inform product development and our sales and marketing strategy.

### Outlook

The Board and management team expects to deliver another year of strong growth in FY19, driven by the on-going investment in direct sales and marketing, our strategic relationship with N3, our growing partner channel and ongoing co-marketing initiatives and close partnership with Microsoft.

On behalf of the Board, we would like to express our gratitude to the ongoing support from our shareholders, customers and partners and our dedicated staff for their commitment and hard work. We remain focussed on delivering strong growth in FY19 and building long term value for our shareholders.

The Group's cash balance as at 30 June 2018 was \$17,848,223 (2017: \$3,500,473).

## Highlights

Annualised Recurring Revenue<sup>1</sup> (ARR) grew by 275% in the 2018 financial year to \$15.0m (2017: \$4.0m), with \$11.0m of ARR added in the 2018 financial year. ARR growth was driven by the Company's growing sales and marketing footprint, development of the Company's partner channel, ongoing product innovation and strengthening brand awareness.

### Annualised recurring revenue continued to grow rapidly in the 2018 financial year

Customer numbers continued to increase strongly, with 536 paying customers as at 30 June 2018 (2017: 366), of which 170 were added in the last 12 months, representing an annual increase of 46%.

1. Annualised recurring revenue (ARR) represents committed, recurring revenue on an annualised basis

### Annualised recurring revenue by region at 30 June 2018

### Annualised recurring revenue by industry at 30 June 2018

Average ARR per customer grew throughout the 2018 financial year, driven by strong enterprise customer growth and increased penetration of existing customers as part of the Company's 'land & expand' growth strategy. Average ARR per customer increased by 154% in the 2018 financial year.

### Average annualised recurring revenue per customer up 154% in the 2018 financial year

#### Partner channel

In addition to the Company's direct sales channel, LiveTiles sells its software through partners to help scale and broaden the Company's reach. The number of transacting partners grew to 94 as at 30 June 2018 (up 40% since 30 June 2017).

#### Microsoft relationship

LiveTiles' strategic relationship with Microsoft continues to strengthen, with multiple co-marketing initiatives contributing to ARR and pipeline growth. During the 2018 financial year, LiveTiles announced a joint initiative with Microsoft to promote the Company's recently launched artificial intelligence offering to Microsoft customers in the United States.

The strategic partnership with Microsoft and ongoing joint promotional activities provide a strong endorsement of LiveTiles and its products.

In July 2018, LiveTiles was awarded the 2018 Microsoft US Partner Award for Modern Workplace Transformation at Microsoft Inspire (a major global conference for Microsoft partners). The award recognises LiveTiles for its leadership in customer impact, solution innovation, deployment and the exceptional use of advanced Microsoft features, highlighting the value placed on the Company's digital workplace and AI solutions, which are simple to build and deploy.

### Strategic partnership with N3

During the financial year, LiveTiles entered a strategic partnership with N3, comprising:

- A sales and marketing execution agreement, for the promotion of LiveTiles' products by N3's sales and marketing resources; and
- A licensing agreement for the use of LiveTiles' SaaS products.

N3 is the leading outsourced sales and marketing execution vendor for Microsoft's Azure and Dynamics platforms. Based in Atlanta USA, N3 serves a global client base, which in addition to Microsoft, includes SAP, IBM and Cisco.

In the June 2018 quarter, a dedicated N3 team of 60 sales and marketing personnel were onboarded and trained.

N3's expert understanding of Microsoft's and LiveTiles' products combined with its sophisticated sales and marketing platform is expected to provide a strong contribution to LiveTiles' customer and revenue growth in the 2019 financial year.

### Acquisition of Hyperfish

On 8 June 2018, LiveTiles completed its acquisition of Hyperfish, Inc, a recognised leader in next generation employee profile and directory management software based in Seattle.

The acquisition of Hyperfish will enable LiveTiles to achieve its strategic product vision more quickly, by combining the highly complementary products of two of the fastest growing software companies in the Microsoft ecosystem.

The addition of Hyperfish's artificial intelligence (AI) capabilities to LiveTiles' broadens the Company's AI-powered solution that will be jointly promoted to Microsoft customers and is expected to further enhance the Company's collaborative partnership with Microsoft.

The amount payable for the acquisition of Hyperfish comprised upfront consideration of 8.6 million LiveTiles shares (issued on 8 June 2018) and up to 12.6 million LiveTiles shares subject to the satisfaction of performance targets as at 31 December 2018 and 30 June 2019 (refer to the Company's ASX announcement dated 25 May 2018 for further details).

### New Artificial Intelligence products

LiveTiles has continued to innovate and expand its product line, including the recent launch of two new artificial intelligence products - LiveTiles Bots and LiveTiles Intelligence.

**LiveTiles Bots:** allows non-programmers to build their own chatbots using a simple, visual process to define a chatbot's functionality and personality to meet a user's specific needs. The chatbots developed are able to perform a wide range of tasks, such as finding people and content, scheduling meetings, logging IT support tickets, reporting an employee's annual leave balance, running and distributing sales reports, and completing expense reports.

**LiveTiles Intelligence:** provides powerful analytics and highly visual insights on user interactions with an enterprise's digital workplace site and makes intelligent suggestions to drive improved user interaction and engagement. Over time, LiveTiles Intelligence will learn what drives higher levels of interaction on a digital workplace site, and will be able to incorporate these learnings to fully automate the re-design of a page.

### Significant events since the end of the financial year

On 9 August 2018 LiveTiles announced that it had raised \$25,000,000 via a share placement to sophisticated and professional investors. Under the placement, \$25,000,000 was raised (before costs) via the issue of 42,372,882 fully paid ordinary shares at \$0.59 per share.

In conjunction with the share placement, LiveTiles launched a share purchase plan, providing existing eligible shareholders an opportunity to increase their holding by up to \$15,000. The share purchase plan is capped at \$2,000,000 and the offer period closes on 10 September 2018.

There have been no other significant events affecting the Group since the end of the financial year.

### **Environmental regulation and performance**

The Directors are not aware of any significant environmental issues affecting the Group or its compliance with relevant environmental agencies or regulatory authorities.

### **Dividends**

No dividends were paid or declared since the start of the financial year. No recommendation for payment of dividends has been made.

### **Share options**

During the financial year, 4,500,000 options over ordinary shares were exercised at \$0.10 per share.

As at the date of this report and as at the reporting date, there were no options on issue (2017: 4,500,000).

### **Indemnification and insurance of officers and directors**

Under the Company's constitution, to the extent permitted by law and subject to the provisions of the *Corporations Act 2001*, the Company indemnifies every Director, executive officer and secretary of the Company against any liability incurred by that person as an officer of the Company. The Company has insured its Directors, executive officers and the Company Secretary for the 2018 financial year.

Under the Company's directors' and officers' liability insurance policy, the Company cannot release to any third party or otherwise publish details of the nature of the liabilities insured by the policy or the amount of the premium. Accordingly, the Company relies on section 300(9) of the *Corporations Act 2001* to exempt it from the requirements to disclose the nature of the liability insured against and the premium amount of the policy.

### **Indemnification of auditors**

The Company's auditor, BDO East Coast Partnership, has not been indemnified under any circumstance.

### **Non-audit services**

The Company's auditor, BDO East Coast Partnership, has not provided any non-audit services to the Group during the year ended 30 June 2018 (2017: nil).

### **Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 29.

### **Corporate governance statement**

The Directors of the Group support and adhere to the principles of corporate governance, recognising the need for the highest standard of corporate behaviour and accountability. Please refer to the corporate governance statement current as of 27 August 2018 as located on the Company's website: [www.livetiles.nyc/investors](http://www.livetiles.nyc/investors).

# Remuneration Report

## 1. Introduction

This Remuneration Report for the year ended 30 June 2018 outlines the remuneration arrangements of LiveTiles Limited and its controlled entities in accordance with the requirements of the *Corporations Act 2001 (Cth), as amended (the Act)* and its regulations. This information has been audited as required by the Act.

This Remuneration Report details the remuneration arrangements for key management personnel (KMP) who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly, including any director (whether executive or otherwise) of the parent company.

The following individuals were classified as KMP of the Group during the financial year ended 30 June 2018. Unless otherwise indicated, the individuals were KMP for the entire financial year.

### Non-Executive Directors

<b>Karl Redenbach</b>	Chief Executive Officer
<b>Peter Nguyen-Brown</b>	Chief eXperience Officer
<b>Matthew Brown</b>	Chief Financial Officer

### Non-Executive Directors

<b>Cassandra Kelly</b>	Non-Executive Chair (appointed as a director on 5 September 2017 and appointed Chair on 22 November 2017)
<b>Andrew McKeon</b>	Non-Executive Director
<b>Andrew Gray</b>	Non-Executive Chair (resigned 22 November 2017)
<b>Michael Hill</b>	Non-Executive Director (resigned 5 September 2017)

There were no other changes to KMP after the reporting date and before the date the financial report was authorised for issue.

## 2. Remuneration governance

The Remuneration Committee is responsible for reviewing and recommending to the Board remuneration arrangements for the executive directors and executives reporting to the CEO. The Remuneration Committee also reviews and recommends to the Board the remuneration arrangements for the non-executive directors of the Board, including fees, travel and other benefits.

The Remuneration Committee consists of Cassandra Kelly (Chair), Andrew McKeon and Karl Redenbach. Non-committee members, including members of management, may attend all or part of the Remuneration Committee meetings by invitation of the chair.

Further information on the Remuneration Committee's role, responsibilities and membership can be seen in the Remuneration Committee's charter (schedule 4 of the Corporate Governance Statement) on the Company's website at [www.livetiles.nyc/investors](http://www.livetiles.nyc/investors).

### 3. Executive remuneration arrangements

**Remuneration principles:** The Group's approach to executive remuneration is based on the following objectives:

- Ensuring the Company's remuneration structures are equitable and aligned with long-term interests of the Company and its shareholders;
- Attracting and retaining skilled executives; and
- Structuring short and long-term incentives that are challenging and linked to the creation of sustainable shareholder returns.

**Remuneration structure:** The following table outlines how the Group's executive remuneration structure aligns remuneration with performance.

Component	Description	Purpose	Link to performance	Who participates?
<b>Fixed remuneration</b>	Base salary package including statutory superannuation contributions where applicable.	To provide competitive fixed remuneration determined with reference to role, experience and market.	Individual performance is considered during the annual remuneration review.	All executives.
<b>Short term incentives (STI)</b>	Paid in cash.	Rewards executives for their contribution to achievement of Group outcomes.	Discretionary bonus linked to specific financial and non-financial targets.	Executives and other key employees who have an impact on the Group's performance.
<b>Long term incentives (LTI)</b>	Shares issued under Management Incentive Plan (MIP).	Rewards executives for their contribution to the creation of shareholder value over the longer term.	Shares issued under the MIP to executives who are key management personnel have been issued with vesting prices in excess of market value such that executives are remunerated only when the Company's share price exceeds the vesting price.	Executives and other key employees.

See section 7 of the Remuneration Report for further details of the Management Incentive Plan.

**Company performance:** A key underlying principle of the Group's executive remuneration framework is that remuneration levels should be linked to Group performance. Due to the early-stage nature of the Group's business, it is not appropriate at this stage to assess the Group's performance on the basis of profitability.

The Group's key financial measures of performance are summarised in the table below:

	30 June 2018	30 June 2017
<b>Annualised Recurring Revenue<sup>1</sup></b>	\$15.0m	\$4.0m
<b>Cash balance</b>	\$17.8m	3.5m
<b>Share price</b>	\$0.48	\$0.23
<b>Loss before income tax expense and non-recurring and non-cash items</b>	\$(20.8)m	\$(6.2)m
<b>Dividends</b>	nil	nil

1. Annualised Recurring Revenue represents committed, recurring revenue on an annualised basis

The Group's key financial measure of performance over the longer term is the increase in annualised recurring revenue and share price appreciation. Annualised recurring revenue has increased to \$15.0 million at 30 June 2018 from \$4.0 million at 30 June 2017. Since re-listing on the ASX on 17 September 2015, the Company's share price has appreciated from the re-listing price of \$0.15 to \$0.48 as at 30 June 2018. Share price appreciation drives value for executives through the increase in the value of shares issued under the Management Incentive Plan (refer to section 7 of the Remuneration Report).

During the 2018 financial year, LiveTiles engaged Farient Advisors to conduct an independent review of Director remuneration having regard to comparable Software-as-a-Service companies. The benchmarking analysis conducted by Farient Advisors was taken into account by the Remuneration Committee in determining Director remuneration. The Board confirms that Farient Advisors' review was conducted without influence from the Directors. Farient Advisors' fee for the review was US\$17,500.

#### 4. Executive contracts

Remuneration arrangements for executives are formalised in employment agreements. The table below sets out the key terms and conditions of the employment contracts of the CEO and senior executives. All contracts are for unlimited duration.

	Base salary	Superannuation	Bonus	Notice period
<b>Karl Redenbach, CEO and Executive Director</b>	US\$350,000 plus US\$150,000 cost of living adjustment	N/A	Discretionary bonus subject to meeting performance targets. Capped at 67% of base salary.	6 months
<b>Peter Nguyen-Brown, CXO and Executive Director</b>	\$400,000	Statutory minimum	Discretionary bonus subject to meeting performance targets.	4 weeks
<b>Matthew Brown, CFO and Executive Director</b>	\$380,000	Statutory minimum	Discretionary bonus subject to meeting performance targets. Capped at 67% of base salary.	6 months

Deferred salaries have been accrued in the statement of financial position as at 30 June 2018. Any deferred salaries accrued by Directors in the 2018 financial year are included in salaries and fee remuneration where applicable.

In the case of each of the executives above, the Company may terminate the employment agreement without notice for misconduct or material breach of contract.

1. Represents shares issued under the Management Incentive Plan, as approved by the Company's shareholders on 3 July 2015 (refer to section 7 of the Remuneration Report and note 19 of the financial statements).

2. Cash bonuses for KMP were approved at Board meetings on 19 January 2018 and 6 March 2018.

## 6. Non-executive director fee arrangements

The Board seeks to set the fees for non-executive directors at a level which provides the Company with the ability to attract and retain directors of a high calibre, whilst incurring a cost which is acceptable to shareholders.

Under the Company's constitution and the ASX listing rules, the maximum aggregate amount of fees that can be paid to non-executive directors shall be determined from time to time by a general meeting of shareholders. The current aggregate fee pool for the non-executive directors is \$500,000.

Each non-executive director receives a fee for being a director of the Company. In addition, a non-executive director may be paid fees or other amounts as the Board determines where a non-executive director performs special duties or otherwise performs services outside the scope of the ordinary duties of a director. Non-executive directors are also entitled to be reimbursed for reasonable expenses incurred in performing their duties as directors.

Non-executive letters of appointment are in place with Cassandra Kelly and Andrew McKeon.

For the period from 1 July 2017 to 5 September 2017, Mr Hill was entitled to remuneration of \$80,000 per annum (including superannuation). Upon resignation, Mr Hill was paid an amount equal to his directors' fee for three months in recognition of Mr Hill's service as a director of the Company together with accrued directors fees owing.

For the period from 1 July 2017 to 22 November 2017, Mr Gray was entitled to remuneration of \$100,000 per annum (including superannuation). On resignation, Mr Gray was paid an amount equal to his directors' fee for three months in recognition of Mr Gray's service as a director of the Company together with accrued directors fees owing.

For the year ended 30 June 2018, Mr McKeon was entitled to remuneration of \$80,000 per annum (including superannuation). Mr McKeon has agreed to receive only 50% of his remuneration in cash (being \$40,000) until such time as the Board resolves to pay the remuneration in full.

For the period from 5 September 2017 to 30 November 2017, Ms Kelly was entitled to remuneration of \$80,000 per annum (including superannuation). Ms Kelly has agreed to receive only 50% of her remuneration in cash (being \$40,000) until such time as the Board resolves to pay the remuneration in full.

For the period from 1 December 2017 to 30 June 2018, Ms Kelly was entitled to remuneration of \$100,000 per annum (including superannuation). Ms Kelly has agreed to receive only 40% of her remuneration in cash (being \$40,000) until such time as the Board resolves to pay the remuneration in full.

Deferred directors' fees have been accrued in the statement of financial position as at 30 June 2018. Deferred directors' fees accrued by Directors in the 2018 financial year are included as fee remuneration.

The table below outlines remuneration paid to non-executive directors for the year.

## Management Incentive Plan

The purpose of the Management Incentive Plan (**MIP**) is to assist in the reward, retention and motivation of eligible directors and management and to align the interests of these persons more closely with the interests of the Company's shareholders.

The issue price of shares issued under the MIP is funded by an interest free loan from the Company. Vesting of shares issued under the MIP is subject to the satisfaction or waiver of vesting conditions determined by the Board. Subject to the MIP rules, any unvested shares lapse immediately and are forfeited if the relevant vesting conditions are not satisfied within the applicable vesting period. Once vested, shares issued under the MIP are treated in the same way as all other ordinary shares, subject to the full repayment of any outstanding loan.

The Board has the sole discretion to determine the directors and employees who are eligible to participate in the MIP and the terms upon which shares are issued under the MIP, including the issue price, loan amount and vesting conditions.

No shares were issued to key management personnel under the MIP in the 2018 financial year. The following tranches of shares have been issued to key management personnel under the MIP:

	Tranche A	Tranche B	Tranche C
Number of shares	15,000,000	10,000,000	10,000,000

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2018

These consolidated financial statements and notes represent LiveTiles Limited and its Controlled Entities (the “Consolidated Group” or “Group”).

The financial statements were authorised for issue on 27 August 2018 by the Directors of the Company.

### Note 01: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Preparation

These general purpose financial statements have been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

#### a. Principles of consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of the parent entity (LiveTiles Limited) and all of the subsidiaries. Subsidiaries are entities the parent controls. The parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. A list of the subsidiaries is provided in Note 10.

The assets, liabilities and results of all subsidiaries are consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between group entities are eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

#### b. Fair value of assets and liabilities

The Group measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the Group would receive to sell an asset or would have to pay to transfer a liability in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

## Note 01: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities and the entity's own equity instruments (excluding those related to share-based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of such financial instruments, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

### c. Finance costs

Finance costs are expensed in the period in which they are incurred except if they relate to a qualifying asset.

### d. Lease

Operating lease payments, net of any incentives received from the lessor, are charged to profit or loss on a straight-line basis over the term of the lease.

### e. Impairment of assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Impairment testing is performed annually for intangible assets with indefinite lives and intangible assets not yet available for use.

### f. Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

## Note 01: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

LiveTiles Limited (the 'head entity') and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime. The head entity and each subsidiary in the tax consolidated group continue to account for their own current and deferred tax amounts. The tax consolidated group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, the head entity also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from each subsidiary in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax consolidated group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity.

### g. Business combinations

Business combinations occur where an acquirer obtains control over one or more businesses.

A business combination will be accounted for from the date that control is attained whereby fair value of the identifiable assets acquired and liabilities assumed is recognised (with limited exceptions).

The consideration transferred for the acquisition including any contingent consideration is generally measured at fair value. Where the fair value of the consideration is greater than the fair value of the identifiable assets and liabilities, goodwill is recognised. Goodwill is tested annually for impairment. Where fair value of the consideration is less than fair value of the identifiable assets and liabilities, a gain on a bargain purchase is recognised in the Income Statement.

Transaction costs are expensed as incurred unless except if they relate to the issue of debt or equity securities.

Contingent consideration is classified as a financial liability. Subsequent changes in the fair value of the contingent consideration are recognised in the Income Statement.

### h. Research and development

Research costs are expensed in the period in which they are incurred.

## Note 01: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Development costs are only capitalised when it is probable that the project will be a success, the Group will use or sell the asset, the Group has sufficient resources and intent to complete the asset and the development costs can be measured reliably.

If one or more of these criteria are not met, development costs are expensed in the period in which they are incurred. Capitalised development costs are amortised on a straight-line basis over the period of their expected pattern of consumption, up to 5 years.

### i. Foreign currency transactions and balances

#### *Functional and presentation currency*

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars, which is the parent entity's functional currency.

#### *Transactions and balances*

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in profit or loss.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the underlying gain or loss is recognised in other comprehensive income; otherwise the exchange difference is recognised in profit or loss.

#### *Group companies*

The financial results and position of foreign operations, whose functional currency is different from the Group's presentation currency, are translated as follows:

- assets and liabilities are translated at exchange rates prevailing at the end of the reporting period;
- income and expenses are translated at average exchange rates for the period; and
- retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations with functional currencies other than Australian dollars are recognised in other comprehensive income and included in the foreign currency translation reserve in the statement of financial position. The cumulative amount of these differences is reclassified into profit or loss in the period in which the operation is disposed of.

### j. Employment benefits

#### *Short-term employee benefits*

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

#### *Other long-term employee benefits*

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service.

## Note 01: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Expected future payments are discounted using market yields at the reporting date on corporate bond rates with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

### *Defined contribution superannuation benefits*

All employees of the Group who are based in Australia receive defined contribution superannuation entitlements, for which the Group pays the fixed superannuation guarantee contribution (currently 9.5% of the employee's average ordinary salary) to the employee's superannuation fund of choice. All contributions in respect of employees' defined contribution entitlements are recognised as an expense in the period in which they are incurred.

### **k. Share-based payments**

Equity-settled share-based compensation benefits are provided to employees and related parties. Equity-settled transactions are awards of shares, or options over shares, that are provided to employees and suppliers in exchange for the rendering of services.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using the Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the Group receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made.

An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the Group or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the Group or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

### **l. Provisions**

Provisions are recognised when the Group has a present (legal or constructive) obligation as a result of a past event, it is probable the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation.

### **m. Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**Note 01: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****n. Revenue and other income**

Revenue is recognised when it is probable that the economic benefit will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

***Software subscription revenue***

Software is sold on a subscription basis and revenue is recognised over the term of the subscription once the users can use the system on a fully functional basis.

***Research and development grant income***

Research and development grant income is recognised when the Group is entitled to the research and development grant. The amount is treated as other income in the period in which the research and development costs were incurred.

***Grant revenue***

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs it is compensating. Grants relating to assets are credited to deferred income at fair value and are credited to income over the expected useful life of the asset on a straight-line basis.

***Interest income***

Interest income is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

**o. Trade and other receivables**

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. A provision for impairment of trade receivables is raised when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 60 days overdue) are considered indicators that the trade receivable may be impaired.

The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

Other receivables are recognised at amortised cost, less any provision for impairment.

**p. Trade and other payables**

These amounts represent liabilities for goods and services provided to the Group prior to the reporting dates and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

## Note 01: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### q. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

### r. Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

### s. Intangible assets

#### *Goodwill*

Goodwill arising on the acquisition of subsidiaries is measured at cost less accumulated impairment losses. The Group tests goodwill annually or more frequently if events or changes in circumstances indicate that goodwill may be impaired.

#### *Intellectual property*

Intellectual property acquired as part of a business combination is recognised separately from goodwill. The intellectual property assets are carried at fair value at the date of acquisition less accumulated amortisation and impairment losses.

#### *Customer contracts and relationships*

Customer contracts and relationships acquired as part of a business combination is recognised separately from goodwill. The customer contracts and relationships are carried at fair value at the date of acquisition less accumulated amortisation and impairment losses.

### t. Earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to the owners of LiveTiles Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial period, adjusted for bonus elements in ordinary shares issued during the financial period.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

## Note 01: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### u. Critical accounting estimates and judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

### v. Key estimates

#### i. Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using the Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

#### ii. Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences only if the Group considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

#### iii. Research and development grant receivable

The Group measures the research and development grant income and receivable taking into account the time spent by employees on eligible research and development activities. The research and development grant receivable is recognised as the Group considers it probable that the amount will be recovered in full through a future claim.

#### iv. Government grant income

The Group measures government grant income over the period necessary to match the income with the costs that they are intended to compensate. The accounting estimates and assumptions relating to the recognition of government grant income include the project duration, value and forecast expenditure over the life of the project.

### w. New Accounting Standards not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the annual reporting period ended 30 June 2018. The new or amended Accounting Standards and Interpretations, most relevant to the Group, are set out below.

#### AASB 9 Financial Instruments

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard replaces all previous versions of AASB 9 and completes the project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. AASB 9 introduces new classification and measurement models for financial assets. The standard introduces additional new disclosures.

## Note 01: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The directors anticipate that the adoption of AASB 9 will not significantly impact the Group's financial statements.

### **AASB 15 Revenue from Contracts with Customers**

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard provides a single standard for revenue recognition. The core principle of the standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Credit risk will be presented separately as an expense rather than adjusted to revenue. For performance obligations satisfied over time, an entity would select an appropriate measure of progress to determine how much revenue should be recognised as the performance obligation is satisfied.

In assessing the impact of this standard on the Group's financial statements, the following revenue categories have been identified:

- Annual licence fees
- Perpetual licence fees

The Group has performed an initial review of each revenue category, including a combination of revenue categories, and, based on the preliminary assessment performed, the Directors anticipate that the adoption of AASB 15 will not significantly impact the Group's financial statements.

### **AASB 16 Leases**

This standard is applicable to annual reporting periods beginning on or after 1 January 2019. When effective, this Standard will replace the current accounting requirements applicable to leases in AASB 117 Leases and related Interpretations. AASB 16 introduces a single lessee accounting model that eliminates the requirement for leases to be classified as operating or finance leases.

The directors anticipate that the adoption of AASB 16 will not significantly impact the Group's financial statements.

### **x. Going concern**

For the year ended 30 June 2018, the Group made a loss of \$22,058,984 (2017: \$7,394,511) and had net cash flows used in operating activities of \$18,143,630 (2017: \$4,496,274). At 30 June 2018, the Group had a cash balance of \$17,848,223.

The Directors are of the opinion that the Group will be able to continue as a going concern, supported by the \$25,000,000 share placement announced by the Group on 9 August 2018. Net proceeds from the share placement of \$23,625,000 were received (net of costs) on 13 August 2018.

**Research and development grant**

The Group is entitled to a research and development grant on eligible research and development expenditure. The Group submitted an application to AusIndustry in order to claim eligible research and development expenditure incurred overseas incurred in the 2017 and 2018 financial years (Overseas Finding Application).

At 30 June 2018, the Group has accrued grant income related to eligible Australian research and development expenditure only.

In the prior financial year, the Group accrued grant income related to overseas research and development expenditure with the expectation that the Overseas Finding Application would be processed promptly. At 30 June 2018, the Overseas Finding Application is still being processed by AusIndustry. As a result of this extended processing time, management have taken a prudent view and reversed the accrued grant income relating to overseas research and development expenditure for the 2017 financial year. The Group has not accrued any grant income related to overseas research and development expenditure for the 2018 financial year.

A breakdown of research and development grant income is as follows:

	2018 \$	2017 \$
Current year research and development grant income	1,384,359	3,058,195
Reversal of research and development grant income related to overseas expenditure previously recognised	(1,701,870)	-

## Note 09: TRADE AND OTHER RECEIVABLES

### Credit risk

The Group has no significant concentration of credit risk with respect to any single counterparty or group of counterparties. The class of assets described as “trade and other receivables” is considered to be the main source of credit risk related to the Group.

On a geographical basis, the Group has credit risk exposures in Australia, Asia, North America, Europe and the Middle East. The Group’s exposure to credit risk for trade receivables at the end of the reporting period in those regions is as follows:

	2018 \$	2017 \$
Asia Pacific	1,114,756	438,768
North America	913,523	327,956
Europe	850,644	163,528
Middle East & Africa	49,990	72,217
<b>Total receivables exposed to credit risk</b>	<b>2,928,913</b>	<b>1,002,469</b>

The following table details the Group’s trade and other receivables exposed to credit with ageing analysis and impairment provided for thereon. Amounts are considered as “past due” when the debt has not been settled, with the terms and conditions agreed between the Group and the customer or counterparty to the transaction. Receivables that are past due are assessed for impairment by ascertaining solvency of the debtors and are provided for where there are specific circumstances indicating that the debt may not be fully repaid to the Group.

The balances of receivables that remain within initial trade terms (as detailed in the table) are considered to be of high credit quality.

The estimated useful life of capitalised development costs is determined to be in line with the frequency at which our software is updated and replaced. During the 2018 financial year, development costs were fully amortised in the same financial year given the iterative nature and frequency of updates in the Group's product life cycle.

Other intangible assets have a finite life and are amortised on a straight line basis over their useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period. The useful life software intellectual property is 10 years. The useful life of customer contracts and relationships is 2 years. Goodwill is carried at cost less any accumulated impairment losses

**Provision for employee benefits**

Provision for employee benefits represents amounts accrued for annual leave and long service leave.

The current portion for this provision includes the total amount accrued for annual leave entitlements and the amounts accrued for long service leave entitlements that have vested due to employees having completed the required period of service. Based on past experience, the Group does not expect the full amount of annual leave or long service leave balances classified as current liabilities to be settled within the next 12 months. However, these amounts must be classified as current liabilities since the Group does not have an unconditional right to defer the settlement of these amounts in the event employees wish to use their leave entitlement. It is expected that \$139,100 will not be taken in the next 12 months.

The non-current portion for this provision includes amounts accrued for long service leave entitlements that have not yet vested in relation to those employees who have not yet completed the required period of service.

In calculating the present value of future cash flows in respect of long service leave, the probability of long service leave being taken is based on historical data. The measurement and recognition criteria relating to employee benefits have been discussed in Note 1.

**Note 18: ACQUISITION OF HYPERFISH, INC**

On 8 June 2018, LiveTiles acquired 100% of the shares on issue in Hyperfish, Inc (Hyperfish) from Orange Fish Holdings LLC (Acquisition). Hyperfish is a recognised leader in next generation employee profile and directory management software based in Seattle, USA.

The acquisition of Hyperfish will enable LiveTiles to achieve its strategic product vision more quickly, by combining the highly complementary products of two of the fastest growing software companies in the Microsoft ecosystem.

The addition of Hyperfish's artificial intelligence (AI) capabilities to LiveTiles' broadens the Company's AI-powered solution that will be jointly promoted to Microsoft customers and is expected to further enhance the Company's collaborative partnership with Microsoft.

Under the Share Purchase Agreement, the total amount payable for the Acquisition comprises the following three components:

- Base consideration of 8,633,548 shares in LiveTiles Limited;
- An earn-out payment contingent upon performance hurdles being met as at 31 December 2018 and the continued employment of key Hyperfish staff; and
- An earn-out payment contingent upon performance hurdles being met as at 30 June 2019 and the continued employment of key Hyperfish staff.

The acquisition meets the requirements of AASB 3 Business Combinations therefore Hyperfish has been consolidated into the financial statements of the Group from the date of the acquisition, being 8 June 2018.

The fair value of the consideration has been determined using the market price of LiveTiles shares at the date of the Acquisition, probability of contingencies being met and an appropriate discount rate to reflect payment periods. The Group has assumed that the earn-out payments are paid in full. The portion of the earn-out payments that are not contingent on the continued employment of key Hyperfish employees is recognised as contingent consideration.

A valuation was undertaken in relation to acquired intangibles with respect to intellectual property and customer contracts. The relief from royalty method was used to value the intellectual property. This method considers the discounted estimated royalty payments that are expected to be avoided as a result of the intellectual property. The multi-period excess earnings method (MEEM) was used to derive the value of customer contracts. The MEEM considers the present value of net cash flows expected to be generated by the customer contracts.

Goodwill has been measured as the excess of consideration over the identifiable net assets of Hyperfish.

**Note 18: ACQUISITION OF HYPERFISH, INC (CONTINUED)**

The statement of financial position of the acquired entity, Hyperfish, Inc, upon completion of the Acquisition was as follows:

	Note	Fair value at acquisition date \$
Cash and equivalents		193,296

<b>Goodwill recognised on acquisition of Hyperfish, Inc</b>		<b>3,034,717</b>

From the date of the Acquisition, Hyperfish contributed revenue of \$34,054 and a net loss after tax of \$122,136. If the acquisition had occurred on 1 July 2017, the Group's consolidated revenue and loss for the year ended 30 June 2018 would have been \$5,950,360 and \$24,411,801 respectively.

Expenses related to the acquisition of Hyperfish, Inc	2018 \$
Share based payment expense for post combination services	(a) 500,214
Transaction costs	(b) 63,103

- a. Part of the total amount payable to Orange Fish Holdings LLC is contingent on the continued employment of key Hyperfish staff and is therefore deemed to be a share based payment for post combination services. The fair value of the share based payment has been determined using the market price of LiveTiles shares at the date of the Acquisition, probability of contingencies being met and an appropriate discount rate to reflect payment periods.
- b. The Group incurred costs of \$74,838 in relation to the acquisition of Hyperfish, of which \$11,375 related to the issue of equity securities and has therefore been recorded against contributed equity. The remainder of costs incurred, totalling \$63,103, have been expensed in the Statement of Profit or Loss and Other Comprehensive Income as professional fees.

The Group has 12 months from the date of acquisition to finalise the accounting to reflect any new information.

**a. Management Incentive Plan shares**

On 25 August 2015, LiveTiles Limited issued 35,000,000 shares to certain Directors via a limited recourse loan under the Management Incentive Plan. The effect of this arrangement is equivalent to granting the Directors an option to purchase the shares at \$0.15. These shares were issued in Tranches A, B and C.

On 5 April 2016, LiveTiles Limited issued 1,200,000 shares to senior employees of the Company via a limited recourse loan under the Management Incentive Plan. The effect of this arrangement is equivalent to granting the employees an option to purchase the shares at \$0.285. These shares were issued in Tranches D, E and F.

On 2 June 2017, LiveTiles Limited issued 300,000 shares to a senior employee of the Company via a limited recourse loan under the Management Incentive Plan. The effect of this arrangement is equivalent to granting the employee an option to purchase the shares at \$0.245. These shares were issued in Tranches G, H and I.

On 20 November 2017, LiveTiles Limited issued 600,000 shares to a senior employee of the Company via a limited recourse loan under the Management Incentive Plan. The effect of this arrangement is equivalent to granting the employee an option to purchase the shares at \$0.25. These shares were issued in Tranches J, K and L.

**Note 19: SHARE BASED PAYMENTS EXPENSE (CONTINUED)**

Fair value is independently determined using a Black-Scholes option pricing model that takes into account the effective exercise price, the term of the non-recourse loans, the share price at grant date and expected price volatility of the underlying share.

An adjustment has also been made to the valuation to reflect the time and price based vesting conditions. The volatility is based on the volatility in the Company's share price since the date of the reverse acquisition.

The assumptions used to value the Management Incentive Plan shares are set out below:

Tranche	A, B and C	D, E and F	G, H and I	J, K and L
Share price	\$0.15	\$0.25	\$0.235	\$0.27
Effective exercise price	\$0.15	\$0.285	\$0.245	\$0.25

Discount to reflect vesting conditions	40%	40%	40%	40%
Discounted value per share	\$0.06	\$0.10	\$0.09	\$0.11

The value of the loan shares issued under the Management Incentive Plan has been expensed as a share based payment for the period ended 30 June 2018 as follows:

	Number of shares	Date issued	Vesting date	Vesting price	Expense for 12 months ended 30 June 2018

**Note 19: SHARE BASED PAYMENTS EXPENSE (CONTINUED)****b. Contingent payment on acquisition of Hyperfish, Inc**

On 8 June 2018, LiveTiles acquired Hyperfish, Inc from Orange Fish Holdings LLC (refer to note 18). Because part of the total amount payable to Orange Fish Holdings LLC is contingent on the continued employment of key Hyperfish staff, such amount is deemed to be a share based payment for post combination services. The fair value has been determined using the market price of LiveTiles shares, probability of contingencies being met and an appropriate discount rate to reflect payment periods.

**Note 21: RELATED PARTY TRANSACTIONS (CONTINUED)****Transactions with other related parties**

rhipe Limited and its subsidiaries (rhipe) are considered to be related parties for the period from 1 July 2017 to 5 September 2017 due to Michael Hill being an executive director of rhipe and a director of the Company until 5 September 2017. During the 2017 financial year the Group paid rhipe for the temporary use of shared resources following the sale of the nSynergy Group to rhipe.

rhipe is also a reseller and distributor of LiveTiles software. For the period from 1 July 2017 to 5 September 2017 the Group received revenue from rhipe representing the pass through of subscription licence fees (net of reseller margin) payable by end users of LiveTiles software sold by rhipe.

**Note 22: FINANCIAL RISK MANAGEMENT**

The Group's principal financial instruments comprise receivables, payables and cash.

The Group manages its exposure to key financial risks, including interest rate, foreign currency, credit risk and liquidity risk, with the objective of providing support to the delivery of the Group's financial target while protecting financial security.

The main risks arising from the Group's financial instruments are credit risk, liquidity risk, interest rate risk and foreign currency risk. The Group uses different methods to measure and manage different types of risk to which it is exposed. These include analysis of aging reports to monitor and manage credit risk, analysis of future rolling cash flow forecasts to monitor and manage liquidity risk, monitoring levels of exposure to interest rate and foreign currency risk, and assessments of market forecasts for interest rate and foreign currency exchange rate movement.

The Board reviews and agrees risk management strategies for managing each of the risk identified above. Primary responsibility for identification and control of financial risks rests with Management under authority of the Board.

**Note 22: FINANCIAL RISK MANAGEMENT (CONTINUED)****Risks exposures and responses****i. Interest rate risk**

The Group's exposure to interest rate risk is minimal given the Group has no borrowings. The Group does not enter into any interest rate swaps, interest rate options or similar derivatives.

At the balance date, the Group had the following mix of financial assets and liabilities exposed to Australian variable interest rate risk that are not designated in cash flow hedges:

Financial assets	2018 \$	2017 \$
Cash and cash equivalents	17,848,223	3,500,473
Net exposure	17,848,223	3,500,473

Judgements of reasonable possible movements	(Loss) / profit – Higher / (lower)		Equity – Higher / (lower)	
	2018 \$	2017 \$	2018 \$	2017 \$
+0.50%	89,241	17,502	89,241	17,502
-0.50%	(89,241)	(17,502)	(89,241)	(17,502)

**ii. Foreign currency risk**

The Group's functional currency is Australian dollars (AUD) and the Group is exposed to transactional currency exposures. Such exposures arise primarily as a result of sales and expenses of LiveTiles Corporation being made in USD in addition to bank accounts being held in US dollars (USD). Foreign currency risk is managed by holding the Group's cash in a combination of USD and AUD. Management also reviews the USD denominated product pricing structure on a quarterly basis.

At balance date, the Group had the following exposure to USD foreign currency that is not designated in cash flow hedges:

AUD	2018 \$	2017 \$
Cash and cash equivalents	1,949,166	2,149,020
Trade and other receivables	1,962,174	488,322
Trade and other payables	(1,838,466)	(464,142)
Net exposure	2,072,874	2,173,200

**Note 22: FINANCIAL RISK MANAGEMENT (CONTINUED)**

The following sensitivity analysis is based on the foreign exchange rate exposures in existence at the balance sheet date.

At 30 June 2018, had the Australian dollar moved, with all other variables held constant, the loss for the year and equity would have been affected as follows:

Judgements of reasonable possible movements	(Loss) / profit – Higher / (lower)		Equity – Higher / (lower)	
	2018 \$	2017 \$	2018 \$	2017 \$
AUD/USD +10%	207,287	217,320	207,287	217,320
AUD/USD -10%	(207,287)	(217,320)	(207,287)	(217,320)

The judgement of reasonable possible rate movement is based upon management's current assessment of the possible change in foreign currency exchange rates. This is based on regular review of current trends and forecasts. There has been no change in assumptions and sensitivities from the previous year.

**iii. Liquidity risk**

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments.

	Less than 6 months	6 to 12 months	1 to 5 years	Total
<b>2018</b>				
Trade and other payables	3,535,969	-	-	3,535,969
Income tax payable	257,999	-	-	257,999
<b>Total</b>	<b>3,793,968</b>	<b>-</b>	<b>-</b>	<b>3,793,968</b>
<b>2017</b>				
Trade and other payables	2,414,089	-	-	2,414,089
Income tax payable	48,000	-	-	48,000
<b>Total</b>	<b>2,462,089</b>	<b>-</b>	<b>-</b>	<b>2,462,089</b>

**iv. Credit risk**

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group assesses the credit worthiness of the counterparty before entering into a sales contract. Further mitigating this risk is the ability to turn off the customer's software if a customer begins to default on their contractual obligations. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment to those assets, as disclosed in the statement of financial position and notes to the financial statements.

**Note 22: FINANCIAL RISK MANAGEMENT (CONTINUED)****v. Fair value of financial instruments**

Unless otherwise stated, the carrying value of financial instruments reflect their fair value.

The carrying amounts of trade receivables and trade payables are assumed to approximate their fair values due to their short-term nature. The fair value of financial liabilities is estimated by discounting the remaining contractual maturities at their current market interest rate that is available for similar financial instruments.

**Note 23: OPERATING SEGMENTS**

The business reports results for the whole operation and does not report operating segments due to the size of the business. The information in this report is presented on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

**Note 24: EVENTS AFTER THE REPORTING PERIOD**

On 9 August 2018 LiveTiles Limited announced that it had raised \$25,000,000 via a share placement to sophisticated and professional investors. Under the placement, \$25,000,000 was raised (before costs) via the issue of 42,372,882 fully paid ordinary shares at \$0.59 per share.

In conjunction with the share placement, LiveTiles launched a share purchase plan, providing existing eligible shareholders an opportunity to increase their holding by up to \$15,000. The share purchase plan is capped at \$2,000,000 and the offer period closes on 10 September 2018.

No other matter or circumstance has arisen since 30 June 2018 that has significantly, or may significantly affect, the Group's operations, results or state of affairs.

## INDEPENDENT AUDITOR'S REPORT

To the members of LiveTiles Limited

### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of LiveTiles Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2018 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

#### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Revenue recognition

<i>Key audit matter</i>	<i>How the matter was addressed in our audit</i>
As disclosed in Note 3, the Group recognised software subscription revenue of \$5,684,565 for the year ended 30 June 2018. Revenue was identified as a key audit matter as it is a key performance indicator to the users of the financials and because of the level of judgement involved in the recognition of revenue over the period the services were provided.	<p>Our procedures, amongst others, included:</p> <ul style="list-style-type: none"> <li>• Considering whether the revenue recognition policies are in accordance with Australian Accounting Standards and the Group's accounting policies described in Note 1;</li> <li>• analysing the revenue trends for the year ended 30 June 2018 against our expectations;</li> <li>• selecting a sample of revenue transactions throughout the financial year and traced to supporting documentation, cash receipts and considered the deferral of revenues for the year ended 30 June 2018;</li> <li>• obtaining and inspecting the deferred revenue schedules in order to ensure that correct adjustments were recorded to recognise the revenue in the appropriate reporting period; and</li> <li>• reviewed management's reconciliation of Annualised Recurring Revenue (ARR) listing to the reported revenue per the financial statements.</li> </ul>

### Research and development (R&D) tax incentive

<i>Key audit matter</i>	<i>How the matter was addressed in our audit</i>
As disclosed in Note 9, the Group recognised an R&D grant receivable of \$1,384,359. The R&D grant receivable was identified as a key audit matter because of the extent of judgement involved in considering the recoverability of the receivable as at the reporting date and the complexities involved in the computation.	<p>Our procedures, amongst others included:</p> <ul style="list-style-type: none"> <li>• obtaining and analysing the evidence provided by management to support the carrying value of the R&amp;D tax incentive receivable;</li> <li>• evaluating the competence and objectivity of the independent expert used by management. This included understanding the independent expert's calculations, reviewing their correspondence with management and evaluating the accuracy of the underlying information used.</li> <li>• evaluating the underlying assumptions applied; and</li> <li>• discussing and analysing management's assessment of the recoverability of the R&amp;D tax incentive receivable with reference to the tax legislation, discussions with internal tax specialists, management's historical accuracy in estimating these claims in prior periods and historical findings obtained.</li> </ul>

### Accounting for the acquisition of Hyperfish, Inc.

<i>Key audit matter</i>	<i>How the matter was addressed in our audit</i>
As disclosed in Note 18 of the financial report, LiveTiles Limited acquired Hyperfish, Inc. (an entity incorporated in USA).  The audit of the accounting for this acquisition is a key audit matter due to the significant judgment and complexity involved in assessing the determination of the fair value of identifiable intangible assets and the final purchase price which included contingent deferred consideration.	<p>Our procedures, amongst others included:</p> <ul style="list-style-type: none"> <li>• Reviewing the acquisition agreement to understand the key terms and conditions, and confirming our understanding of the transaction with management;</li> <li>• Assessing the estimation of the contingent consideration by challenging the key assumptions including probability of achievement of future ARR;</li> <li>• Comparing the assets and liabilities recognised on acquisition against the historical financial information of the acquired businesses;</li> <li>• Evaluating the assumptions and methodology in management's determination of the fair value assets and liabilities acquired;</li> <li>• Obtaining a copy of the external valuation report to critically assess the determination of the fair values of the identifiable intangible assets associated with the acquisition; and</li> <li>• Assessing the adequacy of the disclosures of the acquisition.</li> </ul>

### Other information

The directors are responsible for the other information. The other information comprises the information contained in the Group's annual report for the year ended 30 June 2018, but does not include the financial report and our auditor's report thereon (which we obtained prior to the date of this auditor's report) and the Letter from the Chairman and CEO and FY18 Financial and Business Highlights, which is expected to be made available to us after that date.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Letter from the Chairman and CEO, FY18 Financial and Business Highlights, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and will request that it is corrected. If it is not corrected, we will seek to have the matter appropriately brought to the attention of users for whom our report is prepared.

### Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:

[http://www.auasb.gov.au/auditors\\_responsibilities/ar1.pdf](http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf)

This description forms part of our auditor's report.

## Report on the Remuneration Report

### Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2018.

In our opinion, the Remuneration Report of LiveTiles Limited, for the year ended 30 June 2018, complies with section 300A of the *Corporations Act 2001*.

### Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
