About Netlinkz Limited (ASX:NET)

Netlinkz Limited (ASX:NET) is a networking vendor with a vision to create secure personalised connections for every user. The Netlinkz Virtual Secure Network (VSN) solution is a Network-as-a-Service (NaaS) proposition that is user-centric, creating a per-user private network that is available, secure and performance optimised, for authorised users regardless of their location.

Netlinkz VSN allows enterprises to embrace their new-normal by allowing IT departments to consistently enforce employee connectivity policies (compliance), simplifying operations (cost), improving security (business continuity), while directly correlating technology investment to user productivity (value).

The company offers a range of products across three broad categories:

- Secure Internet, with Netlinkz VSN transforming Starlink technology into a business grade service providing secure high-speed internet and an invisible cloud network
- Network Security, which future proofs clients' business with Netlinkz's high-speed, secure cloud first private work solutions
- Secure CCTV and IoT, with Netlinkz VSN ensuring that all clients' video feeds and data from their CCTV and IoT systems are securely transferred, integrity checked and securely stored.
