

ASX ANNOUNCEMENT

3 March 2025

Loss of Government contract with Australian Electoral Commission

AUCyber Limited (ASX: CYB) (“AUCyber” or “the Company”) advises that it has been notified by the Australian Electoral Commission (AEC) of their decision to terminate its agreement for cybersecurity monitoring operations (Agreement) with CYB.

Initially entered into in 2022, the Agreement was extended in June 2024 when the AEC exercised a 12-month option, extending the engagement through to 30 June 2025. However, under the terms of the Agreement, the AEC retains the right to terminate the Agreement before the expiration of the extension period.

Monthly revenue will decrease by \$60,000 as a result of the termination. The termination will take effect as of 28 February 2025.

AUCyber remains committed to delivering high-quality cybersecurity services and will continue pursuing new opportunities across both government and private sector engagements.

This announcement has been authorised for release by the Board of Directors

About AUCyber Limited (ASX: CYB)

AUCyber Limited encompasses award-winning brands AUCyber and AUCloud, Australian sovereign providers of comprehensive cyber security, secure private cloud and managed technology services. A publicly listed company, AUCyber Limited specialises in delivering highly secure cloud infrastructure alongside managed cyber security and consulting services for prominent enterprise and government customers.

With national operations, AUCyber leverages the latest sovereign cloud infrastructure and employs Australian security-cleared engineers, security analysts, IT professionals, and holds the highest security accreditations. AUCyber is recognised as one of the top 10 "Most Innovative Technology Companies" by the Australian Financial Review and has also been named "Employer of Choice" in the Australian Business Awards, leveraging a team of over 100 experts.

Our solutions are backed by key certifications, including the Digital Transformation Agency's Hosting Certification Framework and compliance with the Australian Signals Directorate's Information Security Manual. These certifications provide customers with confidence in the security and quality of our services.

Should we mention the backing/ownership of 5G Networks ?

5GN is an Australian owned digital services company who empower more than 2,500 corporate clients to grow and thrive online. Our portfolio of digital services is extensive, with market leading offers across Cloud, Data networks, Data centre, managed IT services and digital marketing. 5GN currently owns and operates its own Nationwide and Internationally highspeed Data Network with points of presence in all major Australian capital cities, Singapore, USA, Hong Kong and New Zealand. In addition, the Company offers managed cloud solutions through its Cloud and Data Centre capabilities as well as managed services to optimise customers' IT and network environments. Supporting this is the Company's combined rack capacity of over 1,200 racks through its owned and operated Data Centres across Melbourne, Sydney, Brisbane and Adelaide
