

Company Announcement
ASX: HPC

DATE: 31/10/2024

Q3 FY24 Quarterly Report and Appendix 4C: First positive operating cash flow quarter underpinned by strong financial and operational performance

KEY HIGHLIGHTS

- **Positive net operating cash flows of US\$0.6m – marks maiden positive operating cashflow quarter and validation of Company's push to profitability**
- **Revenue for the period of US\$2.4m – underpinned by US\$1.21m in ecommerce sales, aligned with the Company's revised strategy of driving online sales**
- **54% reduction in adjusted EBITDA loss on PCP to -\$0.6m (Q3 FY23: -\$1.3m) – second consecutive record low since IPO**
- **Gross margin up 7% on last quarter to 61% and +3% on PCP**
- **Marketing costs as a percentage of net revenue were 24%, down 30% in the PCP**
- **Divesture of non-US assets to Prestige Consumer Healthcare Inc and associated subsidiaries completed post quarter end**
- **Total proceeds of ~US\$9.5m (A\$13.7m) included US\$8.3m for all non-US territories plus US\$1.2m for stock and inventory (subject to final adjustments).**
- **Company retains full ownership of US-based operations, which are achieving annualised revenue of US\$3.5m (unaudited, based on Q3 FY24 annualised)**
- **US assets have considerable scope to grow with recently introduced cost efficiencies – Ongoing focus on achieving cashflow breakeven**
- **Divesture allows for repayment of debt with objective to fund the Company on a reduced size and expense base for a minimum of twelve months**
- **Near-term growth strategy will focus on scaling ecommerce channels and products - follows recent momentum on Amazon USA, which has generated five consecutive months of positive net contribution margin**

US-focused Hydration solutions company, **The Hydration Pharmaceuticals Company Limited (ASX: HPC) (“Hydralyte USA” or “the Company”)** is pleased to provide the following update on its operational and financial performance for the three-month period ended 30 September 2024 (the “quarter”).

Financial overview:

During the quarter, the Company continued to deliver on its stated strategy of maintaining sales, while delivering a material reduction in operating expenses.

The focus on profitability and cash preservation resulted in HPC’s maiden quarter of positive net cash from operating activities of \$0.6m, compared to a loss of US\$0.8m in the previous quarter, and a loss of US\$1.5m in Q3 FY23. The significant improvement was a result of the continued reduction in expenses, as well as more favourable payment terms negotiated with suppliers.

Revenue for the quarter remained relatively consistent at US\$2.4m underpinned by sales across North America and a reduction in marketing and advertising expenses and unprofitable SKUs in order to prioritise cash preservation and profitability. This led to improvements to net margin, cash flow, and EBITDA.

EBITDA loss decreased 54% on PCP (Q3 FY23: US\$1.3m) to a record low of US\$0.6m. A result of the continued strong gross profit combined with reduced expenses.

In preparation for the sale of the non-US assets and territories, the Company focused on Canadian sales growth. This resulted in Canadian ecommerce operations underpinning the Company's performance in the quarter. Ecommerce sales in Canada increased 33% on PCP (Q3 FY2023: US\$0.49m) to US\$0.59m. Canada bricks and mortar sales increased 2% on PCP to US\$1.08m.

US sales for the quarter were US\$0.72m. This was driven primarily by the focus to prioritise Amazon net profitability over growth including a SKU rationalization project. The focus on profitability via Amazon led to a slight decrease on the PCP, while the Company also dealt with impacts associated by the Rite Aid bankruptcy. Following the divestiture of non-US assets, the Company anticipates sales improvements over the coming months.

US sales included US\$0.56m via ecommerce channels and \$0.16m through traditional retail channels. Following the recent divestiture of non-core US assets, the Company remains focused on driving US sales growth.

The following table summarises change in revenues and gross margins into Q3 FY24:

	Q3 FY23	Q2 FY24	Q3 FY24	QoQ change	YoY change
Total net revenue	2,603	2,750	2,446	-11%	-6%
<i>E-commerce sales</i>	1,248	1,304	1,210	-7%	-3%
<i>Traditional retail sales</i>	1,355	1,446	1,236	-15%	-9%
Gross Margins	1,510	1,492	1,494	0%	-1%
Gross Margin %	58%	54%	61%	7 ppt	3 ppt
EBITDA	(1,281)	(966)	(593)	-39%	-54%

The Company continued to decrease its marketing spend, which totalled US\$0.6m for the quarter.

This marketing investment marked a 24% reduction on the PCP (Q3 FY23: US\$0.8m) and is in line with the Company's capital preservation initiatives. Marketing costs as a percentage of sales decreased to 24% down 6ppt from PCP (Q3 FY24: 30%), highlighting the Company's strong brand recognition in key markets.

The following chart reflects the continued success of the company's initiatives to conserve capital and focus on sustainable growth:

Gross margin dollars remained flat at US\$1.5m. Gross margin as a percentage of net sales increased 3ppt on the PCP to 61% (Q3 FY2023: 58%), and 7ppt on the prior quarter.

Drivers of gross margin improvement are a result of continued realisation of supply chain restructuring, optimisation of product mix, new Amazon pricing and revising product packaging for the channel.

Commentary on cash flows:

The Company achieved its first cash flow positive quarter since IPO with a positive US\$0.6m net cash from operating activities. This was partially a result of the strategy to reduce expense and increase profitability in order to execute the sale of the non-US assets.

The positive cash flow result was helped by a reduction in non-cash working capital of US\$1.4m during the period. The reduction in non-cash working capital includes a US\$0.3m decrease in receivables, a US\$0.2m decrease in inventory and prepaid deposits, and a US\$1.0m increase in payables and accrued expenses.

The following chart shows continued reduction in cash used in operating activities consecutively over the past eight quarters:

Available funds:

Cash and cash equivalents at the end of the quarter were US\$1.2m. Subsequent to quarter end, the Company completed the divestiture of non-US assets resulting in total proceeds of approximately USD \$9.5m (A\$13.7m).

Funds from this transaction will be used to extinguish its debt facility of AUD \$8.2m and fund the US business on a leaner platform and reduced expense scale. The objective is for the remaining funds to last a minimum of twelve months, driving the US business towards profitability.

Operational overview:**Divestiture of Non-US Assets:**

Subsequent to the end of the period, the Company has entered into and completed an Intellectual Property Sales Agreement (the 'Agreement') with Prestige Consumer Healthcare Inc. and associated subsidiaries (together, 'Prestige') (refer ASX announcement 1 October 2024). Pursuant to the Agreement and associated arrangements, the Company has assigned and transferred the exclusive right to sell HydraLyte products, and associated intellectual property rights, to Prestige in all relevant jurisdictions other than the United States of America.¹

Under the terms of the Agreement, HydraLyte USA has received consideration of US\$8.25m plus the value of stock and prepaid inventory in the relevant jurisdictions, valued at approximately US\$1.2m (subject to post-completion adjustments). The final cash consideration, including stock and prepaid inventory, is expected to total ~US\$9.5m (A\$13.7m).

The Company also entered into a Transition Services Agreement with Prestige, which covers the period of operational transition, and certain other related agreements.

With the funds received from the sale, the Company is repaying its existing A\$8.2m debt facility owed to Pure Asset Management (refer ASX announcement: 27 March 2024), with the remaining cash at bank to be used towards closing and restructure costs and advancing operations in the US market. The Company is focussed on achieving scale and cashflow breakeven in the US, targeting profitability in the future.

Streamlined operations:

HydraLyte USA will focus on driving growth and unlocking value from its US-based assets. At present, the Company's operations are annualising net revenues of approximately US\$3.5m on an unaudited basis (based on Q3FY24).

The Company will maintain a presence with American bricks and mortar retail outlets, with a more targeted growth strategy and focus on ecommerce channels, where it already has an established footprint.

¹ The historical arrangements between the Company and Prestige are described at section 9.5.2 of the Company's initial public offering prospectus dated 3 November 2021 (available at www.asx.com.au).

Most recently, the Company has achieved considerable net margin growth since Q1 CY23. Further, Amazon USA has achieved five consecutive months of positive net contributions and margin growth. The following chart illustrates the significant improvement in Amazon USA net margin after advertising spend over the past two years (net margin is defined as gross product margin less cost of fulfillment and delivery, including direct Amazon advertising costs):

The Company will continue to streamline its focus on specific stockkeeping units (SKUs) which have demonstrated high growth and margin in recent quarters. This includes an ongoing focus on the Company's liver support product, which has demonstrated 128% growth in monthly sales since August 2023 to over US\$120,000 per month.

Hydralyte USA has moved its Amazon packaging to a new format which has led to better product presentation and a higher margin with a reduced fulfillment costs. The liver support range has also been expanded to include three different flavours. Management is confident this can be replicated across other SKUs in the Company's product suite, which will serve to underpin future sales growth in the US.

The Company believes that it has an opportunity to leverage its existing footprint in the US market to grow the business. With no debt and an expected cash balance of approximately US\$3.6m (~A\$5.1m) after paying down debt, Hydralyte USA will be in a position to pursue its pathway to cashflow breakeven from continuing US operations, targeting profitability in the future.

Management has also identified several opportunities to reduce working capital and operating costs (reflecting the reduced size of the business), which will be implemented in the near term.

Management commentary:

Hydralyte USA CEO Oliver Baker said: *"The quarterly results show that the Company is well-positioned to drive growth from its streamlined US business, following the successful divestiture of the group's Canadian assets at an attractive market price. Our first quarter of net positive operating cashflows is a reflection of the Company's ongoing commitment to drive sales from a lower cost base, with a strategic focus on high-margin channels. With an established presence in the US market, we look forward to providing further updates on the execution of our stated growth strategy heading into 2025."*

ENDS

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
- * The company has gone into a trading halt on 31 July 2023 to release the news of a capital raise. As part of the raise, The Hydration Pharmaceuticals Company has conditionally agreed with the debt provider, Pure Asset Management, to release the obligation of providing the second tranche of the debt facility as it is listed in this document with the intention that the capital raise will replace additional debt. The Hydration Pharmaceuticals Company Limited has the right under ASX rule 7.1 to access the second tranche, but the right to access will expire on August 5th without further shareholder approval.
