

# Strongly Supported Placement for Growth Acceleration

---

## Highlights

- Auric is issuing 37 million fully paid ordinary shares at \$0.18 per share, raising \$6.66 million in new capital before costs.
  - The Placement has been strongly supported by existing and new shareholders as well as three new funds. We appreciate their support and welcome them.
  - The Placement was well supported providing a ringing endorsement of the Company's strategy to accelerate gold production and to become an integrated explorer, miner and processor.
  - Proceeds from the Placement allows Auric to complete its purchase of the Burbanks Gold Facility and to finalise the acquisition of the Lindsay's Project, which includes the Parrot Feathers Gold Mine.
- 

## Management Comment

Managing Director, Mark English, said: *"The Placement provides a springboard for Auric to accelerate gold production in 2025 and beyond. It also provides us with a foot into the world of processing and starting the process to control our own destiny.*

*"It allows us to settle on the Burbanks Gold Facility and the Lindsay's Project where we have the intention to mine for gold as early as Q1/2026. In addition, we have plenty of cash on hand to fund our activities at the Munda Gold Mine where a Starter Pit is underway, as well as increase our exploration activities.*

*"During an elevated period of record gold prices our intention is to maximise cash flows into the Company. Since we started mining Jeffreys Find in mid-2023 the gold price has increased substantially. Our timing was perfect then but now it's phenomenal with gold around A\$5,200 an ounce as we start to mine at Munda and*

*process our remaining ore through the mill from Jeffreys Find, which will produce more cash for us.*

*We have first-class projects and cash in the bank. We will continue with our strategy to further our gold production and become an emerging force in the district," said Mr English.*
