Sales

The **Callisto Food Safety & Compliance System (FSC)** has continued to achieve significant rollout success with multiple new installations during the quarter at FIFO mining villages across the Pilbara in Western Australia operated by **Compass Group Australia**.

These installations supported a 16% increase in cashflows from sales activities over the previous quarter to \$508k. This rollout in the Pilbara will continue into the December sales quarter, highlighting Callisto's effectiveness in meeting the demanding compliance requirements and safety needs of remote catering operations, where consistency and reliability are paramount.

Over the quarter, the Company introduced several new features to the Callisto FSC system, including **enhanced traceability functions, advanced scanning capabilities for incoming goods, and digital labelling**. These enhancements further streamline compliance management and improved traceability and inventory accuracy across various operational environments.

The Company continues to attract strong interest in the FSC system across multiple verticals as the product matures and gains a reputation for delivering dependable safety and compliance solutions. In line with this demand, installations of the FSC system are set to commence at prominent aged care facilities across Australia during the December sales quarter, signalling Callisto's entry into another key compliance-focused industry with significant growth potential.
