1. INTRODUCTION

1.1 Background

Aurora Funds Management Limited ("the Company") is the responsible entity of a number of registered managed investment schemes ("Funds") listed on the Australian Securities Exchange ("ASX"). Trading of the Funds securities is governed by, amongst other things, the *Corporations Act 2001* ("Corporations Act") and the ASX Listing Rules.

The provisions regulating the trading of securities on the ASX are intended to ensure that the stock market is kept fully informed of relevant information for all listed entities so that all investors are able to make informed investment decisions when acquiring or disposing of securities. The provisions also provide that people in possession of "inside information" about their own company or listed trust (or about another entity) must not use that information to trade in the relevant securities or to communicate that information to others.

It is therefore important that employees exercise due care in the timing of any dealings in securities and ensure that at all times they comply with the law in connection with trading in securities on behalf of themselves or the Funds.

1.2 Purpose

This Policy establishes when, and under what circumstances, persons associated to the Company may buy or sell units in the Funds. The purpose of this policy is:

- To assist directors and employees avoid conduct known as "insider trading";
- To protect the Company against potentially damaging adverse inferences being drawn that its directors or employees may have engaged in unlawful activity, or acted for their personal benefit or for the benefit of the Funds, using information not available to the public;
- To enable the Company to comply with its obligations under securities legislation and ASX Listing Rules.

1.3 Scope

This Policy applies only on market trading in the Funds, and also in any financial products/derivatives that are issued or created over the Funds by third parties, or securities noted on the "Restricted Securities List" (collectively the "Restricted Securities"), and trading in associated products.

2. INSIDER TRADING

2.1 What is "Insider Trading"?

The Corporations Act contains three distinct, but related, offences of insider trading. The offences prevent a person in possession of "inside information" from the following actions:

- trading in the relevant securities;
- procuring another person to trade in the relevant securities; and/or
- communicating the inside information to another person who is likely to trade in the securities or procure someone else to trade.

2.2 What is "Inside Information"?

Inside information is regarded as being information:

- that a person possesses which is not generally available to the public and which the person knows or reasonably ought to know is not generally available; and
- a reasonable person would expect that if generally available to the public, the information might have a material effect on the price or value of the securities.
