### About PYC Therapeutics

PYC Therapeutics (ASX: PYC) is a clinical-stage biotechnology company creating a new generation of RNA therapies to change the lives of patients with genetic diseases. The Company utilises its proprietary drug delivery platform to enhance the potency of precision medicines within the rapidly growing RNA therapeutic class. PYC's drug development programs target monogenic diseases – **the indications with the highest likelihood of success in clinical development**<sup>1</sup>.

The Company has multiple ongoing clinical trials and is set to deliver human efficacy data for first-in-class drugs with disease modifying potential across multiple indications within the coming 12 months. The Company's existing drug development pipeline includes four programs addressing indications affecting 1 in every 1,000 people. PYC continues to conduct drug discovery activities to scale its platform technology into additional diseases of the eye, central nervous system, kidney and beyond.
