Entitlements to Shares and Attaching Options pursuant to the Entitlement Offer are non-renounceable and accordingly Eligible Shareholders may not dispose of or trade any part of their Entitlement.

4.6 Entitlement Offer period

The Entitlement Offer will open for receipt of acceptances on Friday, 14 March 2025 and will close at 5.00pm (AEDT) on Thursday, 3 April 2025, or such later date as the Directors, in their absolute discretion and subject to compliance with the Listing Rules, may determine and provided that the Company gives ASX notice of the change at least 3 Business Days prior to the Closing Date.

4.7 Entitlement and acceptance

The number of Shares and Attaching Options to which you are entitled is shown in the Entitlement and Acceptance Form. In determining Entitlements to Shares, fractional Entitlements will be rounded up to the nearest whole number of Shares.

Your acceptance of the Entitlement Offer must be made on the Entitlement and Acceptance Form accompanying this Prospectus.

You may participate in the Entitlement Offer as follows:

(a) **Payment by BPAY®**

For payment by BPAY®, please follow the instructions set out at www.computersharecas.com.au/KPO. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions.

Eligible Shareholders with a registered address in New Zealand may not have access to pay by BPAY® and make payment by electronic funds transfer (“**EFT**”). Payment details for EFT can be accessed at www.investorcentre.com/au (log in via ‘Single Holding’ button and follow the prompts) and access your personalised Entitlement and Acceptance Form and Electronic Funds Transfer Form (“**EFT Form**”) which contains instructions on how to pay via EFT using the relevant SWIFT Code, for your Entitlement for which you are applying. You must quote your reference number noted on your EFT Form when making payment or we may not be able to match your funds to your entitlement and your Application Monies may need to be refunded to you.

Please note that should you choose to pay by BPAY® or EFT:

- (i) you do not need to submit the personalised Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;

- (ii) if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of new Shares which are covered in full by your Application Monies; and
- (iii) if you do pay for more than your full Entitlement, you are deemed to have applied for as many Shares under the Shortfall Facility as your excess amount will pay for in full (subject to any scale-back determined by KPO in its absolute discretion).

It is your responsibility to ensure that your BPAY® or EFT payment is received by the share registry by no later than 5.00pm (AEST) on the Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment.

If you are paying by BPAY® or EFT, please make sure to use the unique Customer Reference Number on the back of your personalised Entitlement and Acceptance Form. If you receive more than one personalised Entitlement and Acceptance Form, please only use the Customer Reference Number specific to the Entitlement on that form. If you inadvertently use the same Customer Reference Number for more than one of your Entitlements, you will be deemed to have applied only for new Shares (and any Shares under the Shortfall Facility) on the Entitlement to which that Customer Reference Number applies. Please note that a limit may apply on the amount that can be transferred via BPAY® or EFT. It is your responsibility to check that the amount you wish to pay via BPAY® or EFT will not exceed that limit.

If you have multiple holdings, you will have multiple Customer Reference Numbers provided on each of your personalised Entitlement and Acceptance Forms. To ensure you successfully take up your Entitlement in respect of each holding, you must use the customer reference number shown on each personalised Entitlement and Acceptance Form when paying any new Shares that you wish to apply for in respect of those holdings.

(b) New Zealand holders

Eligible Shareholders who are resident in New Zealand and are unable to pay in accordance with the processes set out above by the Closing Date should contact KPO on +61 (03) 9236 2800 to make alternative arrangements.

The Entitlement Offer to Shareholders is non-renounceable. Accordingly, a Shareholder may not sell or transfer all or part of their Entitlement.

Non-acceptance of Entitlement

If you do not wish to take up any part of your Entitlement under the Entitlement Offer, you are not required to take any action.

If Eligible Shareholders do not take up their entitlement, their existing interest in the Company will be diluted. Please refer to section 5.3 for further details of the potential dilutionary impact of the Entitlement Offer.

Taxation Implications

Eligible participants should be aware that there may be taxation implications associated with applying for Securities.

The Directors do not consider it appropriate to give Shareholders advice regarding the taxation consequences of subscribing for Securities under this Prospectus.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Shareholders. As a result, Shareholders should consult their professional tax adviser in connection with subscribing for Securities under this Prospectus.

Further queries

If you have any queries regarding your Entitlement, please contact the Company Secretary by telephone on +61 (03) 9236 2800 or your stockbroker, financial or other professional adviser.

Please note if you do not accept your Entitlement in full in accordance with the instructions set out above, any part of an Entitlement not accepted in full will form part of the Shortfall Facility.

4.8 Shortfall Facility

Eligible Shareholders may also apply for additional Shares and Attaching Options in excess of their Entitlement at the same Offer Price of \$0.008 (0.8 cent) per Share under the Shortfall Facility.

Shares and Attaching Options issued under the Shortfall Facility will be drawn from Shares and Attaching Options that relate to Entitlements which have not been taken up under the Entitlement Offer.

There is no guarantee regarding the number of Shares and Attaching Options (if any) that will be available to Eligible Shareholders under the Shortfall Facility, in addition to their Entitlement under the Entitlement Offer. This will depend on how many Entitlements are taken up. If all Entitlements are taken up under the Entitlement Offer then there will be no Shares and Attaching Options under the Shortfall Facility available.

4.9 Scale back of Shortfall Facility

The Company reserves the right to scale back applications for the Shortfall Facility in its absolute discretion, notwithstanding the extent to which the Shortfall Facility is subscribed for.

When determining the amount (if any) by which to scale back an application, the Company may take into account a number of factors, including the size of an applicant's shareholding, the extent to which Eligible Shareholders have sold or bought additional shares after the date the Entitlement Offer was announced on 3 March 2025, or the Record Date, the date an application was made and any requirements of the Corporations Act and Listing Rules. Eligible Shareholders are therefore encouraged to submit their applications early. The Directors reserve the right to issue the Shares and Attaching Options under the Shortfall Facility at their absolute discretion.

4.10 Allotment of Shares and Attaching Options

The Shares and Attaching Options for the Entitlement Offer are expected to be allotted by no later than 12.00pm (AEST) on Thursday, 10 April 2025. Until issue and allotment of the Shares and Attaching Options under this Prospectus, the Application Monies will be held in trust in a separate bank account opened and maintained for that purpose only. Any interest earned on Application Monies will be for the benefit of the Company and will be retained by it irrespective of whether allotment of the Shares and Attaching Options takes place.

4.11 CHESS

KPO participates in the Clearing House Electronic Subregister System (**CHESS**).

CHESS is operated by ASX Settlement Pty Ltd ("**ASPL**"), a wholly owned subsidiary of ASX. Under CHESS, KPO does not issue certificates to investors. Instead, security holders will

receive a statement of their holdings in KPO, including the Securities issued under this Prospectus. If an investor is broker sponsored, ASPL will send a CHESS statement.

The CHESS statement will set out the number of Securities issued under this Prospectus, provide details of your holder identification number and give the participation identification number of the sponsor.

If you are registered on the issuer sponsored sub register, your statement will be dispatched by KPO's share registrar and will contain the number of Securities issued to you and your security holder reference number.

A CHESS statement or issuer sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

4.12 ASX listing

Shares

Application for Official Quotation of the Shares allotted pursuant to this Prospectus will be made within 7 days of the date of this Prospectus.

If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus within three months after the date of this Prospectus (or such period as varied by ASIC), the Company will not allot any Shares and will repay all Application Monies for the Shares within the time period prescribed under the Corporations Act, without interest.

A decision by ASX to grant Official Quotation of the Shares is not to be taken in any way as an indication of ASX's view as to the merits of the Company, or the Shares now offered for subscription.

Attaching Options

The Company will not apply for official quotation of the Attaching Options.

4.13 Overseas investors

The Company is of the view that it is unreasonable to make an offer under this Prospectus to Shareholders outside of Australia and New Zealand (**Ineligible Shareholders**) having regard to:

- (a) the number of Shareholders outside of Australia and New Zealand;
- (b) the number and value of the securities to be offered to Shareholders outside of Australia and New Zealand; and
- (c) the cost of complying with the legal requirements and requirements of regulatory authorities in the overseas jurisdictions.

Accordingly, the Company is not required to, and does not, make offers under the Prospectus to Shareholders outside of Australia and New Zealand.

The Entitlement Offer contained in this Prospectus to Eligible Shareholders with registered addresses in New Zealand is made in reliance on the *Financial Markets Conduct Act 2013* and the *Financial Markets Conduct (Incidental Offers) Exemption Notice 2016*.

Members of the public in New Zealand who are not existing Shareholders on the Record Date are not entitled to apply for any Shares.

All Entitlements that would have been offered to Ineligible Shareholders will be allowed to lapse and will form part of the Shortfall Facility.

This Prospectus and the Entitlement and Acceptance Form do not constitute an offer of, or any invitation to subscribe for, any of the Shares in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation. Where this Prospectus has been despatched to Shareholders resident outside Australia and New Zealand and where the relevant jurisdiction's laws prohibit or restrict in any way the making of the offer contemplated by this Prospectus, this Prospectus is provided for information purposes only.

Shareholders resident in Australia and New Zealand holding existing Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up their Entitlements does not breach the laws of the relevant overseas jurisdiction. The return of a duly completed Entitlement and Acceptance Form (or payment) will constitute a representation by the Applicant that there has been no breach of any such laws.

4.14 Dividend policy on increased capital

The Shares offered by this Prospectus will be entitled to any dividend declared on Shares in respect of the financial year in which the Shares are issued. The Directors do not anticipate declaring a dividend during the current financial year, being the financial year in which the Shares will be issued.

4.15 Speculative investment

There are risks associated with an investment in the Company and the Shares and Attaching Options offered by this Prospectus must be regarded as a speculative investment. The Shares offered under this Prospectus (including any issued on the exercise of Attaching Options) carry no guarantee in respect to the return on capital invested, payment of dividends, or future value of the Shares.

In making representations in this Prospectus, regard has been given to the fact that certain matters may reasonably be expected to be known to shareholders and the professional advisers whom shareholders or other potential investors may consult.

Please refer to section 7 of this Prospectus for certain risks associated with an investment in the Company.

4.16 Privacy Act

If you complete an Application, you will be providing personal information to the Company (directly or by the Share Registry). The Company collects, holds and will use that information to assess your application, service your needs as a security holder, facilitate distribution payments and corporate communications to you as a security holder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Share Registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company or its Share Registry if you wish to do so at the relevant contact numbers set out in the "Corporate Directory" of this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for securities, the Company may not be able to accept or process your application.

4.17 Major activities and financial information

A summary of the major activities and financial information relating to the Company for the financial year ended 30 June 2024 is in the Annual Report that was lodged with ASX on 30 September 2024 and is available on the Company's ASX announcements page at <https://www.kalinapower.com/investors/>.

4.18 Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and such other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

5. Effect of the Offer

5.1 Effect of the Offer

The principal effects of the Offer on the financial position of the Company, assuming all the Entitlement Offer and Placement are fully subscribed are as follows:

- (a) the Company will issue up to 317,975,894 Shares and the total number of Shares on issue will increase to 3,057,969,656;
- (b) the Company will issue up to 158,987,947 Attaching Options, such that the total Options on issue will increase to 592,587,822; and
- (c) the cash reserves of the Company will increase by approximately \$2.54 million (before expenses) immediately after completion of the Offer.

If all Attaching Options are exercised (but not any other Options), the Company will raise a further amount of approximately \$3,179,758.93 and the Company's issued Share capital will increase to 3,216,957,602 Shares. The Company anticipates that any funds raised as a result of the exercise of the Attaching Options will be allocated towards the Company's working capital.

5.2 Effect on capital structure

The effect of the Placement and Entitlement Offer on the capital structure of the Company, assuming all Entitlements are accepted and the Placement is fully subscribed is set out below.

Shares	Number
Shares currently on issue as at the date of this Prospectus	2,739,993,762
Shares to be issued pursuant to the Placement	187,500,000 ¹
Shares to be issued pursuant to the Entitlement Offer	130,475,894
Shares on issue after completion of the Placement and Entitlement Offer	3,057,969,656

Note:

1. Inclusive of 26,250,000 Shares which are to be issued to Directors participating in the Director Placement, assuming Shareholder approval is obtained.

Options	Number
<i>Existing Unquoted Options</i>	
<i>KPOAJ : OPTION EXPIRING 04-MAY-2025 EX \$0.05</i>	4,000,000
<i>KPOAE: OPTION EXPIRING VARIOUS DATES EX VARIOUS PRICES</i>	282,800,000
<i>KPOAO: OPTION EXPIRING 5 MAY 2026 EX \$0.02</i>	51,799,875
<i>KPOAP: OPTION EXPIRING 7 APRIL 2026 EX \$0.02</i>	95,000,000

Options	Number
Attaching Options to be issued pursuant to the Placement	93,750,000 ¹
Attaching Options to be issued pursuant to the Entitlement Offer	65,237,947
Options on issue after completion of the Placement and Entitlement Offer	592,587,822

Note:

1. Inclusive of 13,125,000 Attaching Options which are to be issued to Directors participating in the Director Placement, assuming Shareholder approval is obtained.

5.3 Potential dilutionary impact of Offer

Assuming that no existing Options are exercised prior to the Record Date, the maximum number of Shares which will be issued pursuant to the Entitlement Offer is 130,475,894 Shares. This equates to 4.27% of all the issued Shares in the Company following completion of the Offer. The 187.5 million Shares issued pursuant to the Placement equates to approximately 6.13% of the issued Shares of the Company following completion of the Offer.

Subject to the Placement, if all Eligible Shareholders take up their Entitlements under the Entitlement Offer, each Eligible Shareholder's percentage interest in the total issued shares of the Company will remain the same and will not be diluted.

However, Shareholders should note that if they do not participate in the Entitlement Offer, their holdings will be diluted (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).

The table below shows the dilutionary impact the Offer will have on an Eligible Shareholder if the Eligible Shareholder does not take up his or her Entitlement, assuming the Offer is otherwise fully subscribed.

Holding at Record Date	% at Record Date	Entitlements under the Entitlement Offer	Holding if Entitlement not taken up	% post Completion of the Entitlement Offer and Placement
20,000,000	0.73%	952,381	20,000,000	0.65%
10,000,000	0.36%	476,191	10,000,000	0.33%
5,000,000	0.18%	238,095	5,000,000	0.16%

Notes:

1. The table assumes that the Offer is fully subscribed and that no other Shares are issued.

Assuming all Attaching Options issued under the Placement and Entitlement Offer are exercised (and assuming no other Options are exercised), the maximum number of Shares that would be issued is 158,987,947 Shares.

5.4 Effect of the Offer on control of the Company

The potential effect of the Entitlement Offer on the control of the Company will depend on a number of factors, including the extent to which Eligible Shareholders participate in the entitlement Offer.

For example:

- Ineligible Shareholders and Eligible Shareholders who do not take up their Entitlements will have their percentage holding in the Company diluted as a result of the Entitlement Offer;
- Eligible Shareholders who take up their Entitlements in part will be diluted to the extent to which they do not take up their Entitlement as a result of the Entitlement Offer;
- Eligible Shareholders who take up all of their Entitlements in full will not be diluted as a result of the Entitlement Offer; and
- Eligible Shareholders who take up their Entitlement in full and who participate in the Shortfall Facility will increase their percentage holding in the Company as a result of the Entitlement Offer.

While it is not possible for the Directors to predict the outcome of the factors set out above, given the Entitlement Offer is structured as a pro-rata offer which is not underwritten, the Entitlement Offer itself is not expected to have a material effect on the control of the Company.

5.5 Effect on substantial Shareholders

As at the date of this Prospectus, persons (together with their associates) who have a relevant interest of 5% or more in the Shares of the Company on issue are as below:

Substantial Shareholder	Relevant interest as at Prospectus Date	Voting power as at Prospectus Date	Relevant interest after completion of Entitlement Offer ¹	Voting power after completion of Entitlement Offer ¹	Voting power after completion of Entitlement Offer and Placement ²
Sinalunga Pty Ltd	455,054,977	16.61%	476,724,262	16.61%	15.59%
Sassey Pty Ltd	146,720,163	5.35%	153,706,838	5.35%	5.03%

Notes:

1. Assuming all Shareholders take up their respective Entitlements and no Options are exercised.
2. Assuming all Shareholders take up their respective Entitlements, the Placement is fully subscribed, the substantial shareholder only subscribes for their Entitlement and no Options are exercised.

7. Risk factors

Sections 7.1 and 7.2 detail important factors and risks that could affect the financial and operating performance of the Company. You should consider these risk factors carefully in light of your personal circumstances, including financial and taxation issues, before making an investment decision in connection with the Entitlement Offer.

7.1 Specific investment risks

(a) Future capital requirements and solvency

The Group has currently established, or may in the future establish, subsidiaries or associates to further the business of the KALiNA Group. In particular the Group's Canadian subsidiary is developing projects which will require completion of Pre-FEED and FEED engineering studies as well as detailed and lengthy procurement, construction and operation phases. Each stage will need to attract significant levels of equity investment and/or debt in order to proceed.

Regulatory, commercial, environmental or political risks may impact on the ability of the Group to establish and/or continue to operate subsidiaries or associates in various global jurisdictions.

These factors may also impact on the ability of the subsidiary or associate companies to raise or generate capital on their own account. While the Group will seek to continue to operate existing subsidiaries or associates and to form new subsidiaries or associates, there is a risk that if those subsidiaries or associates fail to become self-funding or cannot secure the necessary capital which will still be required, the Group may not be able to implement its business plan.

The Group's development of projects requires substantive amounts of cash. If the Company is unable to meet cash requirements to maintain Group operations and to meet Group financial obligations as they fall due, there is a potential that the Company becomes insolvent.

(b) Dependence on Proprietary Technology

The Group's technology arm relies on a combination of patents, copyrights, trade secrets and non-disclosure agreements to protect commercial information and the KALiNA Cycle® technology. Not all of the Groups patents relating to the KALiNA Cycle® technology have been and are being maintained. The Group enters into confidentiality or licence agreements with its employees, licensees and others and limits access to its documentation, software and other proprietary information.

There can be no assurance that steps taken by the Group will be adequate to prevent misappropriation of its commercial information and the KALiNA Cycle® technology or that KALiNA's competitors will not independently develop technologies that are substantially equivalent or superior to KALiNA's technology. In addition, the laws of some foreign countries may not protect KALiNA's proprietary rights against others.

(c) Foreign Exchange

Foreign exchange risk is relatively high due to the global nature of the Group's core business. Foreign exchange risk arises as it is likely to receive payment for services in currencies other than the Group's functional currency. In addition the value of its investments, assets and liabilities in foreign jurisdictions will be affected by currency movements.

(d) **Potential for significant dilution**

Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted as a result of the Entitlement Offer. Please refer to section 5.3 for examples of how the potential dilutionary effect of the Entitlement Offer.

(e) **International Operations / Sovereign Risk**

The Company expects to derive its revenues from income earned from the development, operation and sale of power plants in Alberta. Power plant projects entail political and financial risks (including uncertainties associated with privatisation efforts in some countries, currency exchange rate fluctuations, currency repatriation restrictions, political instability, civil unrest and expropriation) and other structuring issues that have the potential to cause substantial delays in, or material impairment of, the value of the project being developed.

(f) **Government legislation and policy changes**

Changes in government legislation and policies from time to time are beyond the control of the Company and may affect profitability.

The development and operation of power plants requires numerous environmental and regulatory permits and is subject to extensive environmental laws and regulations. Violations of these requirements could result in liabilities that affect the operator's financial condition.

Regulatory and environmental issues may potentially delay or preclude development of a particular project. Environmental risks may also give rise to remediation obligations, civil claims and criminal penalties. Despite efforts to conduct activities in an environmentally responsible manner and in accordance with all applicable laws, there is a risk of an adverse environmental event occurring which could impact development or delay future development timetables and may subject the Company to substantial penalties including fines, damages, clean-up costs or other penalties. Any potential liability or penalty arising in respect of an environmental issue may have a material adverse impact on the Group's financial position.

Revenue and expenditure of the Company may be affected by changes in international, federal, state or local government laws, regulations or policies, or in taxation legislation.

(g) **Management – Reliance on key personnel**

The Company's success depends largely on the core competencies of its directors and management and their familiarisation with, and ability to operate in the renewable energy business, clean technology and power project development business such as is carried on by the Company and the ability to retain the key executives.

While there is stable senior management in the Company it is possible that personnel changes could impact on the business of the Company. If required, identification of suitable candidates with skills in power project development, technology development or other relevant areas may take longer than the Company would expect. This could place extra pressure on existing management to operate the Company effectively.

7.2 General investment risks

(a) **General economic climate**

Factors such as inflation, currency fluctuation, interest rates and supply and demand have an impact on operating costs, and stock market prices. The Company's future revenues and Securities price may be affected by these factors, which are beyond the Company's control.

(b) **Changes in legislation and government regulation**

Government legislation in Australia and Canada, or any other relevant jurisdiction, including changes to the taxation system, may affect future earnings and relative attractiveness of investing in the Company. Changes in government policy or statutory changes may affect the Company and the attractiveness of an investment in it.

(c) **Global credit and investment market**

Global credit, commodity and investment markets have recently experienced a high degree of uncertainty and volatility. The factors which have led to this situation have been outside the control of the Company and may continue for some time resulting in continued volatility and uncertainty in world stock markets (including the ASX). This may impact the price at which the Company's Shares trade regardless of operating performance and affect the Company's ability to raise additional equity and/or debt to achieve its objectives, if required.

(d) **Exchange rate risk**

If the Australian dollar falls in relation to the exchange rate where the product or service is sourced from, then since the Company's financial statements are prepared in Australian dollars, this may impact its performance and position.

(e) **Unforeseen risk**

There may be other risks which the Directors are unaware of at the time of issuing this Prospectus which may impact on the Company, its operations and/or the valuation and performance of the Company's Shares.

(f) **Combination of risks**

The Company may not be subject to a single risk. A combination of risks, including any of the risks outlines in this section could affect the performance valuation, financial performance and prospects of the Company.

(g) **Unforeseen expenditure risk**

Expenditure may need to be incurred that has not been taken into account in the preparation of this Prospectus. Although the Company is not aware of any additional expenditure requirements, if such expenditure is subsequently incurred, this may adversely affect the expenditure proposals of the Company.

(h) **Share market conditions**

The market price of the Company's Securities may be subject to varied and unpredictable influences on the market for equities.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

8.5 Transfer of Shares

8.6 Changes to capital structure

The Directors have the power to increase the number of shares that may be issued and the Company in general meeting may convert all or any of its shares into a larger or smaller number of shares, without altering the proportion between the amount paid and the amount (if any) unpaid on the shares concerned, subject to the Listing Rules.

8.7 Variation of rights

The rights and privileges attaching to a class of shares can be altered with the approval of a resolution passed at a separate general meeting of that class by a three quarters majority of the members of that class present and voting, or with the written consent of the holders of at least three quarters of the shares on issue in that class.
