

ASX Announcement

11 April 2025

## DELOREAN SA1 SALISBURY PROJECT – AUSTRALIAN GAS INFRASTRUCTURE GROUP (AGIG) RENEWABLE GAS NETWORK CONNECTION AGREEMENT ADDITIONAL INFORMATION

---

Delorean Corporation Limited (ASX: DEL) (“Delorean” or “the Company”) advises that regarding the Company’s announcement yesterday updating on its SA1 bioenergy project biomethane connection agreement with Australian Gas Infrastructure Group (AGIG), the following additional information is provided:

- There are no direct revenue implications associated with the announcement, such announcement being an agreement with AGIG to permit Delorean for the first time to connect into the gas network for the export of biomethane to third party customers via AGIG’s gas network. AGIG are providing the gas connection and are not a party to any offtake agreement.
- Delorean’s capital budget for the SA1 project (including the biomethane upgrade infrastructure the subject of the ARENA grant announced on 6 March 2025, and the biomethane connection) remains unchanged. The budgeted cost of the gas connection was immaterial to the overall budget.
- The agreement contains standard termination clauses that if either party breaches the terms of the agreement the counterparty has the right to terminate the agreement should they choose to do so.

This announcement has been authorised for release to the ASX by the Delorean Corporation Board of Directors.

## About Delorean Corporation Limited

**Delorean Corporation is a leading Australian bioenergy company. Delorean specialises in the design, build, ownership, and management of bioenergy infrastructure.** In addition to bioenergy power and renewable gas generation, Delorean also operates in the energy retail market. Delorean Corporation is a vertically integrated company positioned in two high growth industries; renewable energy and waste management.

Delorean Corporation comprises an Engineering Division, Infrastructure Division, and Energy Retail Division. Through these divisions Delorean Corporation has the inhouse capability to deliver bioenergy projects across the full lifecycle, from project conception to completion, processing organic waste, generating renewable energy, and monetising the sale of green electricity, heat, and gas.

DEL's projects produce renewable energy whilst reducing the volume of organic waste going to landfill, utilising a model that generates multiple revenue streams.
