

ASX ANNOUNCEMENT

Second quarter update and cashflow

Highlights:

31st January 2025 – IoT solutions company, Constellation Technologies Limited (ASX: CT1) (the “Company” or “Group”) is pleased to provide a summary update on its activities for the quarter ending 31 December 2024.

Sales & Market Expansion

The **Callisto Food Safety & Compliance (FSC) System** continued its strong rollout momentum throughout the December quarter, reinforcing its market adoption and operational success.

During the quarter, the Company:

- Successfully completed multiple FIFO mining village installations in Western Australia as reported in the previous quarter.
- Expanded operations with new installations in Queensland and New South Wales.
- Achieved a significant milestone by deploying the FSC system into the Aged Care sector for the first time, demonstrating the system’s versatility and growing demand across industries.

These installations contributed to cash receipts from sales totalling \$484K - a minor decrease from the previous quarter due to temporary delays in planned rollouts.

Looking ahead, Constellation will continue developing and enhancing the Callisto FSC system to address customer needs and expand into new industry verticals.

Strategic Expansion into Aged Care – A Critical Market for Food Safety

The Aged Care sector is an essential market for food safety, where stringent regulatory requirements, resident health risks and operational efficiency are paramount. Australia’s aged care industry supports over 250,000 elderly residents across more than 2,700 facilities, all of which must comply with strict food safety and hygiene standards.

With current Aged Care Quality Standards (ACQ Standards) being strengthened as part of the new Aged Care Act coming into force from 1 July 2025, Aged Care providers are facing increased scrutiny and compliance requirements to deliver services to the sector. The new ACQ Standards have reinforced focus on food

quality, safety and meal service transparency, driving the need for Aged Care providers to seek automated digitised solutions like Callisto FSC.

Callisto FSC is uniquely positioned to support Aged Care providers by offering:

- Real-time temperature monitoring to ensure compliance.
- Automated reporting for streamlined audit readiness.
- Proactive risk mitigation to prevent foodborne illnesses.

With additional Aged Care and hospital installations planned for the March 2025 quarter, the Company aims to solidify its presence in this highly regulated sector while expanding its footprint in other industry verticals.

Expenditure & other activities

The Company continues to operate on a cost efficiency basis, with a net cash deficit from operating activities of \$103k for the quarter.

Product manufacturing costs increased significantly during the quarter as the Group incurred costs associated with future sales activities.

Related party cash payments for the quarter were \$76k and consist of salary related payments for CEO, Kartheek Munigoti; director's fees to two of the Company's three non-executive directors and office rental and legal fees paid to entities associated with Mr Nicholson. No cash payments have been made to Mr Malone for his directors fees to date.

The board thanks all shareholders for their continued support and interest in the Company.

Authorised for release by the Board of Constellation Technologies Limited.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
