### **FSA Group increases debt agreement market share**

The Australian Financial Security Authority has released the provisional Personal Insolvency Statistics for financial year 2015. These statistics confirm the number of debtors who rely upon a debt agreement, or a personal insolvency agreement or bankruptcy to address their unmanageable debt.

Based on the data released, FSA Group maintained its position as the market leader for debt agreements increasing its market share from 45% in financial year 2014 to 48% in financial year 2015.
