

New 3 Year (1+2) Contract for ITL's Highly Innovative IV Starter Kit

ITL Limited, a diversified healthcare company and owner of ITL Healthcare that produces quality customised procedure packs and surgical apparel, is pleased to announce a new one-year contract with two one-year extensions with Metro South Hospital and Health Service ("Metro South Health"), a major provider of tertiary health services and professional education in South Queensland.

The contract is to supply ITL Healthcare's highly innovative Class 3 IV Starter Kit that reduces the risk of acquiring a blood stream infection and is estimated to be worth in excess of \$1m per year.

This product provides unique benefits to the clinician by reducing blood stream infection risk during cannulation. This kit has been mandated in the WA Public system in recent years and will now be implemented across Metro South Health Queensland.

Metro South Health is the major provider of public health services in the Brisbane south side, Logan, Redlands and Scenic Rim regions. They employ more than 13,000 staff who provide specialist health care to a population of more than 1 million people.

The Metro South Health contract follows ITL Healthcare's recently announced \$1.5m contract gain with *Austin Health in Melbourne to supply its innovative AirTech drapes and gowns range*.

Bill Mobbs, Executive Chairman commented "This new contract for ITL's highly innovative IV Starter Kit is a great achievement by ITL Healthcare. The division's products are attracting attention across the country and we look forward to being able to announce further contract wins as their hard work continues to bear fruit."

Bill Mobbs
Executive Chairman

ITL Limited ABN 16 088 212 088
