

ASX Announcement/Press Release | 20 February 2024  
Spacetalk Limited (ASX:SPA)

## Spacetalk enters the mPERS and 24/7 safety monitoring market supplementary announcement

Additional information on Spacetalk's recently signed collaboration agreement with Victoria based Safety Link highlights key entry into growing seniors safety sector.

### Collaboration Agreement highlights

- Spacetalk recently signed a collaboration agreement with Safety Link a 24/7 monitoring provider and part of Grampians Health, Victoria
- The terms of the agreement are non-exclusive and ongoing with both parties able to provide 90 days' notice to terminate after an initial 12-month term
- The agreement has a 12-month extension period that will take effect automatically unless terminated by either party 90 days prior
- There are no conditions precedent to the collaboration agreement taking effect
- The agreement with Safety Link and move into the mPERS and 24/7 safety monitoring market significantly increases Spacetalk's total addressable market.

Spacetalk Limited (ASX:SPA) ("Spacetalk" or "the Company") is pleased to provide further information on the collaboration agreement it recently signed with Safety Link, part of Grampians Health, Victoria.

Spacetalk is not able to quantify the financial impact of the collaboration agreement with Safety Link at this time.

**About Spacetalk Limited (ASX:SPA)**

Spacetalk Limited (ASX:SPA) is a hardware enabled MVNO and software subscription services business focused on providing an ecosystem of interconnected family safety products. As a package, the company's technology platform provides a complete digital communication solution that supports safety and security for families across their life cycles and for employees working in remote settings. The company's unique proprietary ecosystem, which has continued to evolve over time, is today recognised as a leader in family safety and the connected wearables industry. The Spacetalk technology platform comprises both market-leading hardware and a trusted, client-controlled software platform that provides safety and security to users via the benefits of mobile technology.

The multi-functional Software-as-a-Service Spacetalk App can be customised, giving clients the ability to enable or disable individual features. Parents are empowered to block their child's access to the open internet, social media and inappropriate adult content while simultaneously blocking calls and messages from unknown senders. The app can also track the location of vulnerable family members, including children and seniors requiring constant monitoring.

Spacetalk's best-in-class software platform additionally supports children's development by facilitating engaging, confidence-building experiences that the whole family can participate in and enjoy. Spacetalk's core hardware, its smartphone-watch, is effectively a child's first mobile phone. It offers all the benefits of a smartphone, operating on a secure, private, and parent-controlled ecosystem that can be customised to reflect each family's needs and values.
