

ASX Announcement

Investor Update & FAQ Webinar

Sydney, Australia, 10 April 2025: Imugene Limited (ASX: IMU), a clinical-stage immuno-oncology company, is pleased to announce that it will hold a webinar for shareholders, investors and other interested parties to discuss the latest updates on the business while answering frequently asked questions submitted by shareholders.

The webinar will be hosted by Executive Chairman Paul Hopper, and he will be joined by CEO & Managing Director Leslie Chong and Chief Operating Officer Bradley Glover.

The webinar will be held at 11:00am AEST on Wednesday 16 April 2025.

Shareholders, investors and interested parties can register to attend the webinar at the following link: https://us02web.zoom.us/webinar/register/WN_EH_SAZ5HRhSqakP_yDKHeA

Shareholders are encouraged to submit questions for the webinar in advance via email at: shareholderenquiries@imugene.com

A recording will be available at the above link shortly after the conclusion of the live session, and the replay will also be available via the Company's website and social media channels.

About Imugene (ASX:IMU)

Imugene is a clinical stage immuno-oncology company developing a range of new and novel immunotherapies that seek to activate the immune system of cancer patients to treat and eradicate tumours. Our unique platform technologies seek to harness the body's immune system against tumours, potentially achieving a similar or greater effect than synthetically manufactured monoclonal antibody and other immunotherapies.

Our pipeline includes an off-the-shelf (allogeneic) cell therapy CAR T drug azer-cel (azercabtagene zapreleucel) which targets CD19 to treat blood cancers. Our pipeline also includes multiple immunotherapy B-cell vaccine candidates and an oncolytic virotherapy (CF33) aimed at treating a variety of cancers in combination with standard of care drugs and emerging immunotherapies such as CAR T's for solid tumours. We are supported by a leading team of international cancer experts with extensive experience in developing novel cancer therapies that are currently marketed globally.

Our vision is to help transform and improve the treatment of cancer and the lives of the millions of patients who need effective treatments. This vision is backed by a growing body of clinical evidence and peer-reviewed research. Imugene is well funded and resourced, to deliver on its commercial and clinical milestones. Together with leading specialists and medical professionals, we believe Imugene's immuno-oncology therapies will become foundation treatments for cancer. Our goal is to ensure that Imugene and its shareholders are at the forefront of this rapidly growing global market.

Release authorised by the Managing Director and Chief Executive Officer Imugene Limited.
