

ASX ANNOUNCEMENT

30 November 2021

Camel Creek Diamond Drilling Update

Great Northern Minerals Limited (“**Great Northern Minerals**” or the “**Company**”) (ASX: **GNM**) is pleased to advise that the diamond drilling program at Camel Creek has been completed.

A total of 484 metres of HQ diamond drilling was completed with 508 metres of precollars. See Table One.

Table One: HQ Diamond Collars

	MGA 94 Z 55					RC Precollar		HQ Diamond		Total Diamond Metres
Hole No	Easting	Northing	RL	Dip	Azim	From	To	From	To	Total
CCRCD55A	348077	7917943	502	-75	315	0	104	104	218	114
CCRCD81	348146	7917852	498	-60	313	0	95	95	280	185
CCRCD91	348178	7917901	502	-70	315	0	187	187	286	99
CCRCD92	348149	7917962	511	-65	310	0	122	122	208	86

All of the diamond holes intersected favourable lithologies and potential mineralisation as defined by anomalous sulphide accumulations and have been geotechnically and geologically logged. Over the next few days all diamond core for analysis will be transported to Townsville, the core will be cut and submitted to the laboratory for multielement analysis. The laboratory has advised that due to unprecedented sample numbers and back logs, results are likely to be available by the end of January 2022. The Company will continue to keep its shareholders informed in respect of this matter.

Once all results have been analysed by the laboratory and the results received by the Company, the initial JORC resource for Camel Creek will be completed.

About Great Northern Minerals Limited

Great Northern Minerals Limited is an ASX-listed gold focused explorer. The Company's key North Queensland Gold Projects include the Golden Cup, Camel Creek and Big Rush Gold Mines in North Queensland. The historic mines ceased operation in the 1990's after production of over 150,000 oz at an average grade of 1.91g/t Au. Great Northern Minerals aims to extend known mineralisation and develop a new gold camp in North Queensland.

Competent Persons Statement

The information in this report that relates to Exploration Results is based on information compiled under the supervision of Simon Coxhell, the Technical Director of Great Northern Minerals Limited. Mr Coxhell is a member of the Australasian Institute of Mining and Metallurgy and has sufficient experience of relevance to the styles of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves." Mr Coxhell consents to the inclusion in this report of the matters based on his information in the form and context in which they appear.
