

QUARTERLY ACTIVITIES AND CASHFLOW REPORT

For the period ended 31 December 2022

Quarter Highlights

- + Ongoing six hole, 1,800m Phase 2 diamond drilling program at the Lei Prospect successfully intersected high grade spodumene mineralisation
- + Impressive assay results returned from diamond hole BYLDD003 included:
 - 28.3m @ 1.60% Li₂O from 264.7m
- + Results demonstrated extension of Lei's mineralised system approximately 50m deeper than previous intersections
- + Lei system remains open at depth, indicating a potentially considerable volume of mineralised pegmatite down-dip
- + An initial eight hole, 1,137m RC drilling program completed at the Perseverance Prospect returned significant pegmatite intervals
- + Further assay results from the completed Phase 2 diamond drill program at Lei and RC drill program at Perseverance are expected in coming days
- + Mapping and surveying activities identified additional pegmatite systems at the Lei, Perseverance, Jenny's, Jewellers and Wingate Prospects
- + Cash balance at quarter end of A\$6.3 million

Lithium Plus Minerals Limited (**ASX: LPM**) ('Lithium Plus' or the 'Company') is pleased to provide the following update on its activities for the quarter ended 31 December 2022.

Bynoe Lithium Project

During the quarter, Lithium Plus announced results from the Phase 2 diamond drilling program completed at the Lei Prospect (refer LPM ASX release dated 24 November 2022).

Lei Prospect

Initial assay results received confirmed spodumene mineralisation from hole BYLDD003 (refer LPM ASX release dated 18 October 2022). The diamond hole was positioned to target 50m below BYLDD001 which intersected thick zones of spodumene mineralisation (refer LPM ASX release dated 18 October 2022).

Assay results for BYLDD003 have confirmed visual logging of significant spodumene mineralisation in the core with high-grade intersections returning:

- **28.3m @ 1.60% Li₂O** from 265m, including:
 - 7m @ 2.23% Li₂O from 265m; and
 - 4m @ 2.00% Li₂O from 282m.

Results returned from hole BYLDD003 are the first received from the second phase, six diamond hole (for 1,800m) program that follows, and builds upon, previously reported high grade spodumene intersections (refer LPM ASX release dated 18 October 2022), which included:

- BYLDD001 **28.7m @ 1.43% Li₂O** from 196m (*two main intervals over 38.5m*);
- BYLRC023 **24.0m @ 1.18% Li₂O** from 173m (*two main intervals over 32.0m*); and
- BYLRC022 **14m @ 1.21% Li₂O** from 151m.

BYLDD003 extends the primary spodumene-bearing pegmatite body at Lei vertically to a depth of approximately 250m. The high-grade mineralised pegmatite remains open at depth.

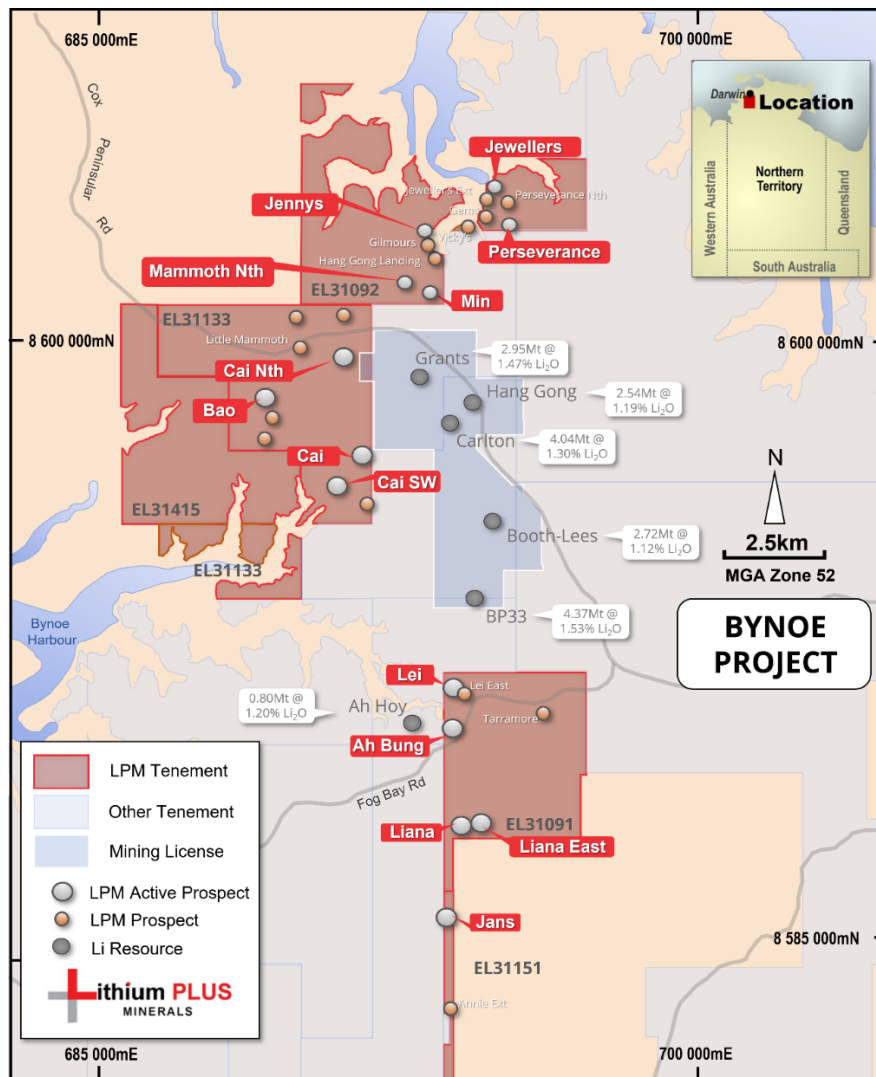

Figure 1: Bynoe Project Location map

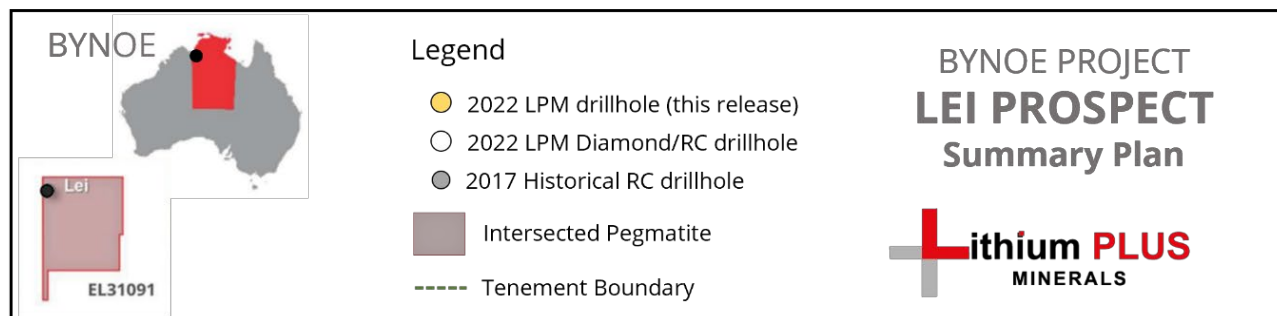

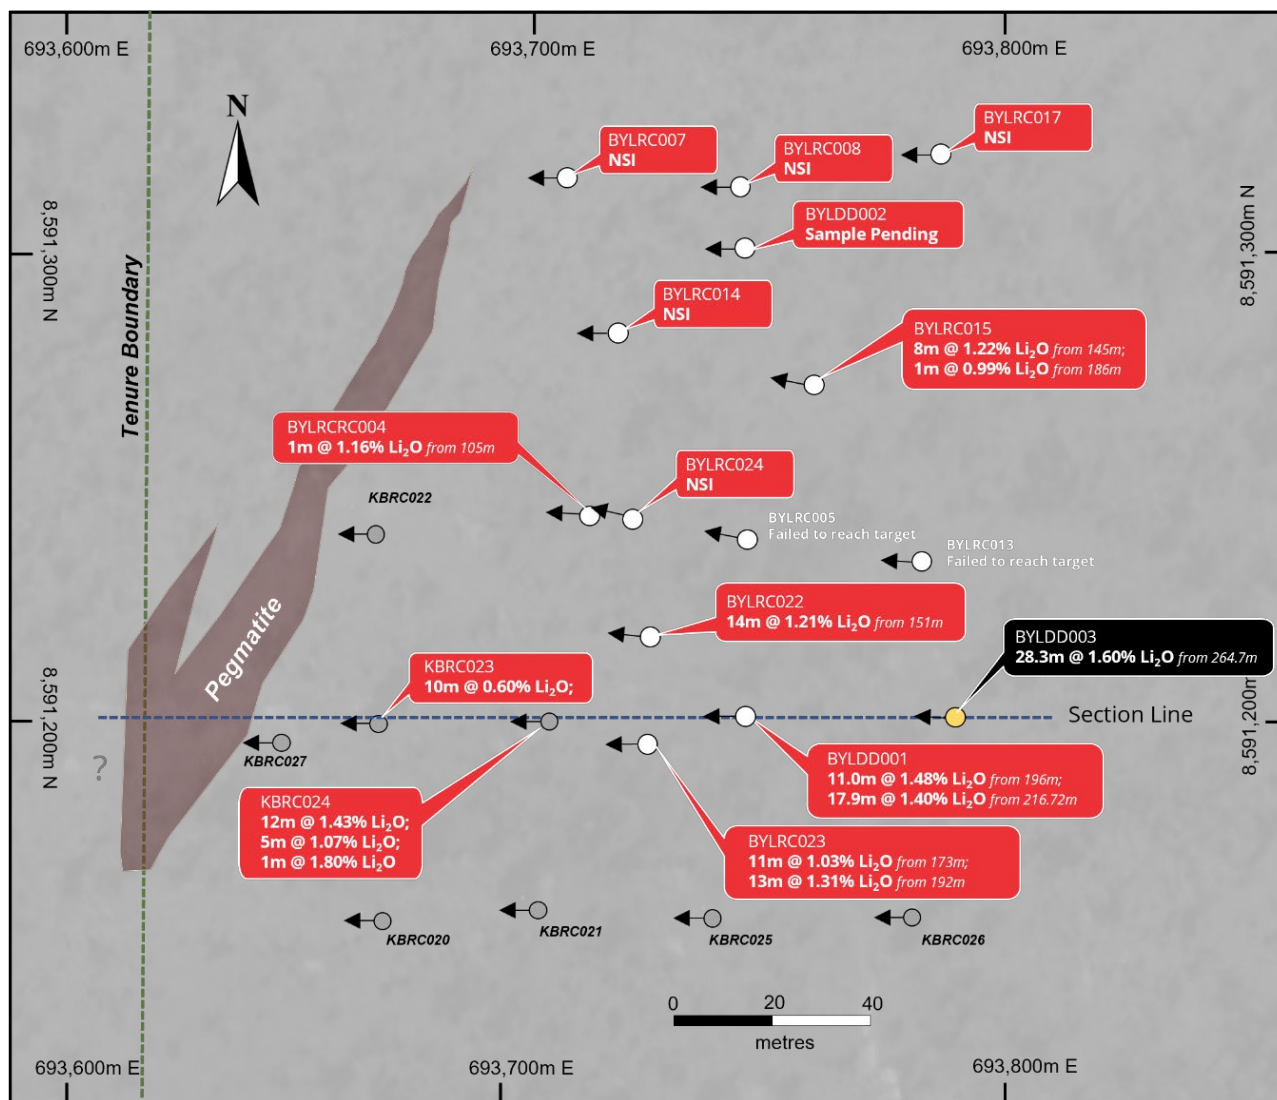

Figure 2: Drillhole locations at Lei Prospect, Bynoe

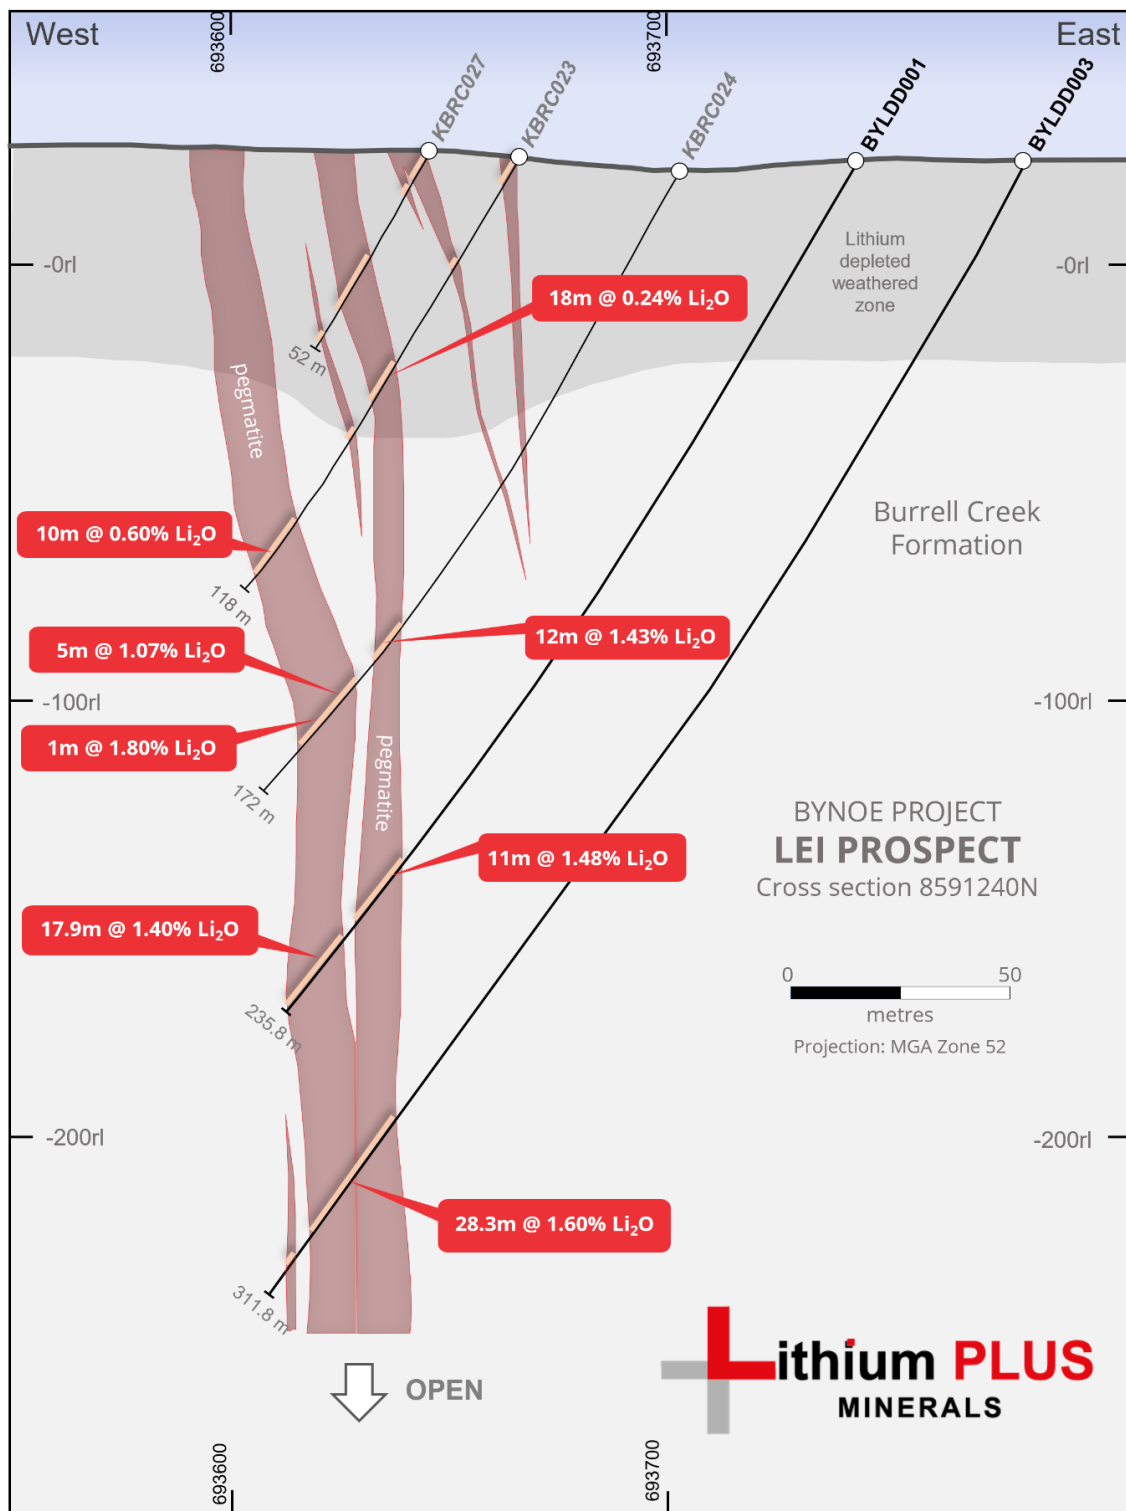

Figure 3: Cross section showing the Diamond drilling assay results for BYLDD003

Perseverance Prospect

An initial RC drilling program was completed at the Perseverance Prospect comprising eight RC holes (for 1,137m) to test beneath the outcropping pegmatite body. These holes, which are the first to be drilled into Perseverance, returned significant downhole pegmatite intervals (both weathered and fresh) suggesting an east-dipping (~60 degrees) series of stacked shallow pegmatite bodies from 1m to 20m thickness.

Spodumene mineralisation is associated with the fresh pegmatite intersections in holes BYPRC008 and BYPRC011 confirming a spodumene-type pegmatite system. Residual spodumene was characteristically absent from the weathered zones.

Assay results from the completed drilling program are expected during February 2023

Competent Person Statement

The information in this release that relates to Exploration Results for the Bynoe Lithium Project is based on, and fairly represents, information and supporting documentation prepared by Dr Bryce Healy, Exploration Manager of Lithium Plus Minerals Ltd. Dr Healy is a Member of the Australasian Institute of Mining and Metallurgy and he has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activity which has been undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Dr Healy consents to the inclusion in this release of the matters based on the information in the form and context in which they appear.

Tenements

No tenement movements during the period.

Table 1: Lithium Plus Minerals tenement list

Tenement	Project	Area	Working interest (% - beginning of period)	Working interest (% - end of period)	Area (km ²)
EL31091	Bynoe	Charlotte	100%	100%	15.3
EL31092	Bynoe	West Arm	100%	100%	17.88

Corporate

Lithium Plus had a cash balance of A\$6.337 million at 31 December 2022 and no debt (excluding typical trade creditors). Exploration and evaluation expenditure incurred during the quarter was A\$1,313,000.

Related party transactions

Payments to related parties of the entity and their associates (refer section 6 of Appendix 5B):

- Included at section 6.1 - Comprises: Remuneration of directors (A\$103,000)
- Included at section 6.2 - Nil

Listing Rule 5.3.1 and 5.2.3

In accordance with ASX Listing Rule 5.3.1, the Company confirms that there have been no material developments or changes to its exploration activities, and provides the following information:

- Approximately A\$1,313,000 was incurred by the Company in respect of exploration activity for the quarter ended 31 December 2022, primarily on:
 - Diamond and RC drilling program at Bynoe Lithium Project; and
 - Detailed geological mapping and reconnaissance field work
- A summary of the specific exploration activities undertaken is included this activity report.

In accordance with ASX Listing Rule 5.3.2, the Company advises that no Mining Development or Production activities were conducted during the quarter.

Listing Rule 5.3.4

The Company provides the following disclosures required by ASX regarding a comparison of actual expenditure to date since listing on 26 April 2022 against the use of funds statement in the Prospectus dated 15 March 2022.

Table 2: Use of Funds: Comparison between actual expenditure to 31 December 2022 and Prospectus dated 15 March 2022

Use of funds	Use of funds statement (A\$'000)	Actual to 31 Dec 2022 (A\$'000)	Variance (A\$'000)
Exploration program & expenditures	6,850	2,695	4,155
Administration expenses	1,600	1,078	522
Costs of offer	1,031	1,046	(15)
Working Capital	859	-	859
Total	10,340	4,819	5,521

The use of funds table is a statement of the Company's current plans at the date of the Prospectus. As with any budget, intervening events (including exploration success or failure) and new circumstances have the potential to affect the manner in which the funds are applied. The Board reserves the right to alter the way funds are applied on this basis.

This announcement has been authorised for release by the Board of Lithium Plus.

About Lithium Plus Minerals

Lithium Plus Minerals Limited (ASX: LPM) is an Australian Lithium exploration company with 21 tenements in the Northern Territory grouped into the following projects:

Bynoe Lithium Project

Situated on the Cox Peninsula, 45 km south of Darwin, on the northern end of the Litchfield Pegmatite Belt, with 11 granted tenements covering 297 km². Geologically centred around the Bynoe Pegmatite Field, the tenements share a border with Core Lithium's Finiss mine development. Significant lithium mineralisation was discovered at Lei in 2017 within the north-northeast trending spodumene bearing pegmatites. Current drill ready targets are Lei, SW Cai, Cai and Perseverance.

Wingate Lithium Project

Located 150km south of Darwin, this single tenement (EL31132) covers the Wingate Mountains Pegmatite District, the southern part of the Litchfield Pegmatite Belt. It contains the known presence of pegmatites with little exploration and minor historical production of tin. Historical gold workings (Fletcher's Gully) are present.

Arunta Lithium Projects

Barrow Creek

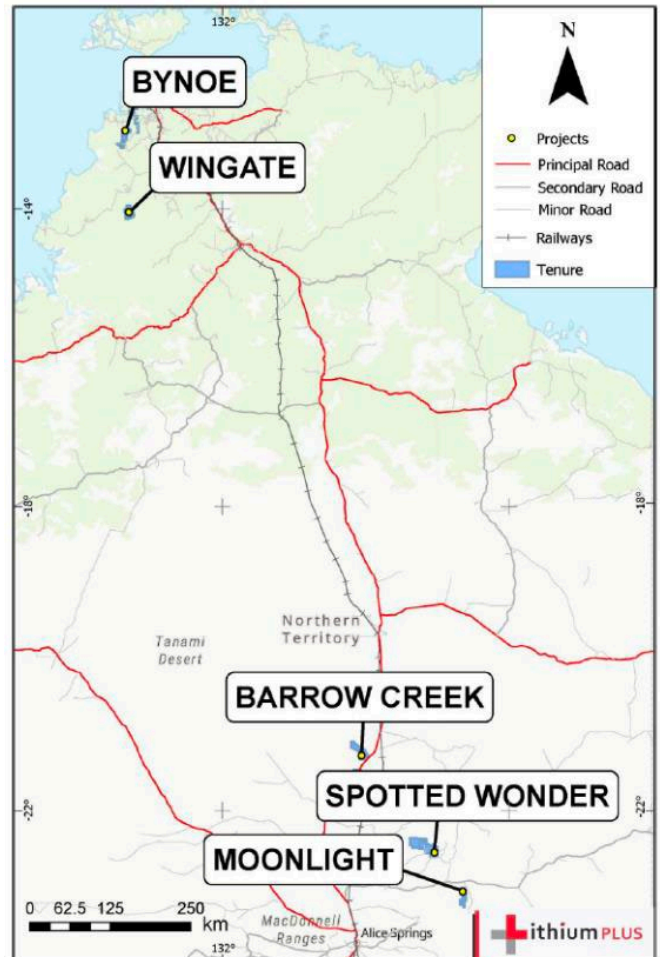

Located in the Northern Arunta pegmatite province, 300km north of Alice Springs. Historic tin and tantalum production and the presence of spodumene in nearby Anningie Pegmatite field suggest lithium potential.

Spotted Wonder

Located approx. 200km north-north-east of Alice Springs with proven lithium mineralisation, with amblygonite present in the Delmore Pegmatite.

Moonlight

Located within the Harts Range Pegmatite Field, approx. 200km north-east of Alice Springs. Presence of pegmatites containing elbaite, indicative of lithium enrichment.

Directors

4.	Net increase / (decrease) in cash and cash equivalents for the period		
4.1	Cash and cash equivalents at beginning of period	7,984	9,118
4.2	Net cash from / (used in) operating activities (item 1.9 above)	(303)	(595)
4.3	Net cash from / (used in) investing activities (item 2.6 above)	(1,345)	(2,186)
4.4	Net cash from / (used in) financing activities (item 3.10 above)	-	-

Consolidated statement of cash flows		Current quarter \$A'000	Year to date (6 months) \$A'000
4.5	Effect of movement in exchange rates on cash held	-	-
4.6	Cash and cash equivalents at end of period	6,337	6,337

5.	Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$A'000	Previous quarter \$A'000
5.1	Bank balances	6,337	7,984
5.2	Call deposits		
5.3	Bank overdrafts		
5.4	Other (provide details)		
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	6,337	7,984

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	(103)
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-
<i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i>		

7.	Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i> <i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	-	-
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(303)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(1,313)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(1,616)
8.4	Cash and cash equivalents at quarter end (item 4.6)	6,337
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	6,337
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	3.92
	<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
	8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: N/A	
	8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer: N/A	

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 31 January 2023.....

Authorised by: .By the Board.....
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
