

ASX ANNOUNCEMENT 3 SEPTEMBER 2018

## BOARD CHANGES

333D Limited (ASX: T3D or “Company”) is pleased to announce the appointment of Dr Nigel Finch as a Non-Executive Director of the Company.

Dr Nigel Finch is a company director and adviser with experience working with early-stage and emerging ASX-listed companies. He is Managing Director of Saki Partners, which assists clients with strategy execution and financial performance. Nigel has significant experience working across Asian markets including assisting Australian firms with international expansion and securing offshore partnerships.

He was formerly an Associate Dean at The University of Sydney Business School and holds degrees in accounting, business and law and PhD in business law. He is a Chartered Accountant, a Chartered Tax Adviser and a Fellow of the Taxation Institute of Australia, CPA Australia and the Australian Institute of Company Directors.

The Board has also accepted the resignation of Mr Frank Pertile who was appointed as the Company’s Managing Director during August 2016 and subsequently moved into a non-executive director position in August 2017. Frank was a co-founder and Managing Director of 333D and the Board would like to thank him for his contributions to the Company.

## About 333D Limited

333D Limited (ASX: T3D) has been established with a clear strategy to become Australia’s leading integrated multi-platform 3D technology company. Our goal is to make 3D technology accessible to everyone – which means creating a seamless, more intuitive process for converting ideas, designs, and real-life images into 3D printable objects. Our leading-edge approach unites the latest in next-generation digital and manufacturing technology to make 3D printing frictionless for businesses, industries, and schools. We are proud to offer Australia’s broadest range of 3D printers for on-demand contract print services, as well as exclusive access to leading 3D digital technologies that make it easy to capture, enhance, and convert real-life images into touchable 3D objects.
