# Notes to the Consolidated Financial Statements

## Domain Holdings Australia Limited and Controlled Entities for the half year ended 31 December 2021

### 1. About this Report

#### A. Basis of preparation

This half year financial report is for the 6 months from 1 July 2021 to 31 December 2021 (2020: 6 months from 1 July 2020 to 31 December 2020).

The half year financial report is a general purpose financial report and has been prepared:

- In accordance with the requirements of the *Corporations Act 2001* (Cth), Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board (AASB);
- In compliance with International Accounting Standard 34 *Interim Financial Reporting*;
- In accordance with the going concern basis of accounting; and
- On a historical cost convention except for contingent considerations that are measured at fair value.

The half year financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated statements as at 30 June 2021.

#### i. New accounting standards, interpretations and amendments adopted by the Group

With the exception of interpretations on Software as a Service (SaaS) arrangements (refer to Note 1(A)(vi)), there were no new accounting standards, interpretations and amendments significantly impacting the Group in the half year ended 31 December 2021.

#### ii. Standards issued but not yet effective

Certain new accounting standards, amendments and interpretations have been issued that are not yet effective for the half year period ended 31 December 2021. However, the Group intends to adopt the following new or amended standards and interpretations, if applicable, when they become effective with no significant impact being expected on the Consolidated Financial Statements of the Group:

- Amendments to AASB 101 *Classification of Liabilities as Current or Non-current*
- Amendments to AASB 3 *Reference to Conceptual Framework*

#### iii. Functional and presentational currency

All amounts are expressed in Australian dollars, which is the Group's presentation currency. Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency).

#### iv. Rounding of amounts

The amounts contained in the financial report have been rounded to the nearest \$1,000 (where rounding is applicable) where noted (\$'000) under the option available to the Company under ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191. The Company is an entity to which this legislative instrument applies.

#### v. Prior year comparatives

The financial report presents reclassified comparative information where necessary to conform to changes in presentation in the current half year.

#### vi. Changes to significant accounting policy

##### SaaS arrangements

In April 2021, the IFRS Interpretations Committee (IFRIC) published an agenda decision for configuration and customisation costs incurred related to a SaaS arrangement. The Group has changed its accounting policy in relation to configuration and customisation costs incurred in implementing SaaS arrangements. The nature and effect of the changes as a result of changing this policy is described below.

The Group's accounting policy has historically been to capitalise costs related to the configuration of SaaS arrangements as intangible assets in the Consolidated Balance Sheet, where they meet the relevant definition. The adoption of the above IFRIC agenda decision resulted in a reclassification of these intangible assets to recognition as an expense in the Consolidated Statement of Profit or Loss and Other Comprehensive Income, impacting both the current and prior periods presented.

In the process of applying the Group accounting policy, management has made following judgements:

##### (i) Determining whether cloud computing arrangements contain a software licence intangible asset

The Group evaluates cloud computing arrangements to determine if it provides a resource that the Group can control. The Group determines that a software licence intangible asset exists in a cloud computing arrangement when both of the following are met at the inception of the arrangement:

- The Group has the contractual right to take possession of the software during the hosting period without significant penalty.
- It is feasible for the Group to run the software on its own hardware or contract with another party unrelated to the supplier to host the software.

<b>Net cash outflow on acquisition</b>	<b>\$'000</b>
Cash paid	(54,720)
Cash acquired	622
<b>Net cash outflow</b>	<b>(54,098)</b>

Goodwill of \$83.6 million was recognised at the time of acquisition. The goodwill comprises expected synergies arising from the acquisition. Goodwill is allocated entirely to the Core Digital segment. None of the goodwill recognised is expected to be deductible for income tax purposes.

### **Purchase Consideration**

The consideration of the acquisition is to be paid in an upfront cash consideration and multiple tranches that are being contingent on the future financial and commercial performance of the IDS Group, relating to securing and delivering services under new government contracts over the performance period ending in June 2027.

The first tranche cash payment of \$54.7 million was settled on 15 October 2021. Other tranches are due to be settled during the performance period between completion and June 2027.

The on target and maximum consideration for the transaction including the undiscounted contingent consideration is \$134.7 and \$153.7 million. The expectation at acquisition is that it will be cash settled, however, the purchase agreement allows for a portion to be settled in equity at the Board of Directors' discretion.

As at the acquisition date, the discounted fair value of the contingent consideration was estimated to be \$26.9 million. The fair value of the contingent consideration determined at the date of acquisition reflects the probabilities of securing certain new government contracts and achieving budgeted financial targets. As at 31 December 2021, no remeasurement charge has been recognised through profit or loss since there were no significant changes in the assumptions used from the date of acquisition.

The contingent consideration is recognised as a financial liability on the balance sheet and is measured at fair value through the profit and loss. The contingent consideration is accounted for in accordance with AASB 9 *Financial Instruments* and disclosed as a financial liability (contingent consideration) as the amount to be paid is variable, based upon the post-acquisition financial and commercial performance of the IDS Group.

AASB 3 *Business Combinations* allows a measurement period after a business combination to provide the acquirer a reasonable time to obtain the information necessary to identify and measure all of the various components of the business combination as of the acquisition date. The period cannot exceed one year from the acquisition date.

Costs incurred in relation to the acquisition amounted to \$1.6 million as disclosed in Note 3A and Note 4.

### **Significant judgements, estimates and assumptions**

Contingent consideration from business combinations is valued at fair value on the acquisition date as part of the business combination. When the contingent consideration meets the definition of a financial liability, it is remeasured to fair value at each reporting date with revaluations recognised within the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

The determination of the fair value is based on discounted cashflows. The key assumptions include the probability and timing of meeting commercial and financial performance targets and the discount factor. Management has obtained external expert advice for these key assumptions and continues to seek further advice (where applicable) on these throughout the measurement period.

No remeasurement was required at the reporting date. Future developments with the business performance of the IDS Group will require revisions to this estimate. The maximum potential contingent consideration to be paid is \$99.0 million based on the IDS Group securing and delivering specified government contracts over the earn out period ending in June 2027.

The contingent consideration is classified as an 'other payable' and is disclosed as part of 'Trade and other payables' on the Consolidated Balance Sheet.

## **Independent auditor's review report to the members of Domain Holdings Australia Limited**

### **Conclusion**

We have reviewed the accompanying half-year financial report of Domain Holdings Australia Limited (the Company) and its subsidiaries (collectively the Group), which comprises the condensed statement of financial position as at 31 December 2021, the condensed statement of comprehensive income, condensed statement of changes in equity and condensed statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 31 December 2021 and of its consolidated financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

### **Basis for conclusion**

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

### **Directors' responsibilities for the half-year financial report**

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

### **Auditor's responsibilities for the review of the half-year financial report**

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

**Building a better  
working world**

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
