About Entyr Limited

Entyr Limited (Entyr) (ASX: ETR) is a revolutionary tyre processing company that applies unique, next-generation thermal desorption technology to cleanly convert tyres into valuable sustainable products including waste to energy opportunities. Entyr holds Australia's first environmental approvals for thermal treatment of rubber and is in commercial production at its facility in Stapylton, Queensland.

Entyr's technology is a significant advancement on other methods of processing waste tyres due to low emissions, no hazardous by-products and requires no chemical intervention. It is the only process that meets the standard emissions criteria set by the Australian regulators for this type of technology.
