The Board has established a framework for managing SRG Global, including adopting corporate governance practices, internal controls and risk management processes that it considers appropriate for its business as summarised in this Statement.

Except as otherwise stated, the Company has followed the ASX Principles and Recommendations during the reporting period.

This Statement was approved by the Board of SRG Global and is current as at 22 August 2023. It should be read in conjunction with information on SRG Global's website (<https://srgglobal.com.au>) including the 2023 Annual Report.

Board Composition

Board composition is determined in accordance with SRG Global's Constitution, the Board Charter and the Remuneration and Nomination Committee Charter.

The composition of the Board is set out below.

Position	Director	Initial Appointment Date
Non-executive Chairman	Mr Peter McMorro	11 September 2018
Managing Director	Mr David Macgeorge	11 September 2018
Non-executive Director	Mr Michael Atkins	11 September 2018
Non-executive Director	Amber Banfield	25 October 2021

The qualifications and experience of the members of each Board Committee can be found in the 2023 Annual Report.

Details of the number of Board and Committee meetings held, and attendance at those Board and Committee meetings during the reporting period can be found in the 2023 Annual Report.

Board Independence

The independence of a Director is considered by the Board as 'independent of management and free of any business or other relationship that could materially interfere with, or could reasonably be perceived to interfere with, the exercise of their unfettered and independent judgment'.

Guidelines remain as previously adopted by the Board, set out in the Board Charter, which are used to guide independence assessments and are based on the definition of independence set out in the ASX Principles and Recommendations.

The Board generally considers, in accordance with the guidelines, a director to be independent if they are not members of management and they:

- Are not employed in an executive capacity by the Company or another group member, and where they were previously employed in such a capacity, there has been a period of at least three years between ceasing such employment and serving on the Board;
- Have not within the last three years been a partner, director or senior employee of a provider of material professional services to the Company or another group member;
- Have not within the last three years been in a material business relationship (eg as a supplier or customer) with the Company or other group member or an officer of or otherwise associated directly or indirectly someone with such a relationship;
- Are not a substantial shareholder of the Company, or officer of, or otherwise associated directly or indirectly with, a substantial shareholder of the Company;
- Have no material contractual relationship with the Company or another group member, other than as a director of the Company;
- Do not have close family ties with any person who falls within any of the categories described above;
- Have not been a director of the Company for such a period that his or her independence may have been compromised; and
- Are free from any interest, business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act in the best interests of the Company.

The materiality of a director's interests, position, association or relationship is considered by the Board on a case by case basis.

Having regard to these criteria, the Board considers that three of its four members of the Board are independent, as set out below.

Director	Independent
Mr Peter McMorrow	Yes
Mr David Macgeorge	No
Mr Michael Atkins	Yes
Ms Amber Banfield	Yes

The Board considers that Mr David Macgeorge (Managing Director) is not independent on the basis that he holds an executive position with the Company. The Board assesses the status of each Director annually to determine if they remain independent.

Tenure

In accordance with SRG Global's Constitution, and as required by ASX Listing Rules, a director must not hold office (without re-election) past the third Annual General Meeting following the meeting at which the director was last elected or re-elected.

Directors who retire by rotation are eligible for re-election. When a vacancy is filled by the Board during a year, the new director must stand for election at the next Annual General Meeting.

The requirements relating to retirement from office do not apply to the MD.

Each director's suitability for re-election will be considered on a case-by-case basis, having regard to individual performance.

Director Selection & Succession Planning

Board succession planning is based on the objective that the Board comprise directors with a broad range of skills, expertise and experience from a range of backgrounds.

A brief overview of the process for the selection and appointment of new directors is set out below.

Policy in relation to selection and appointment of new directors

Factors to be considered when reviewing a potential director candidate include the skills, experience, expertise and personal qualities that will best complement Board effectiveness, the existing composition of the Board, the capability of the candidate to devote the necessary time and commitment to the role and potential conflicts of interest.

The identification of potential director candidates may be assisted by the use of external search organisations as appropriate. Appropriate background checks are conducted before appointing a director or putting forward to shareholders a candidate.

Remuneration and Nomination Committee Recommendation

The Remuneration and Nomination Committee has responsibility for making recommendations to the Board on matters such as succession plans for the Board and suitable candidates for appointment to the Board.

Appointment

An offer of a Board appointment must be made by the Chairman only after having consulted all directors, with any recommendations from the Remuneration, and Nomination Committee having been circulated to all directors.

At the time of appointment of a new Non-executive Director, the key terms and conditions relevant to that person's appointment are set out in a letter of appointment. All current Non-executive Directors have been provided with a letter setting out the terms of their appointment.

Shareholder Communications

When candidates are submitted to shareholders for election or re-election, SRG Global includes in the notice of meeting all information in its possession that is material to the decision whether to elect or re-elect the candidate.

Induction & Ongoing Professional Development Opportunities

Under its Charter, the Remuneration and Nomination Committee is responsible for ensuring that an effective director induction process is in place, and for regularly reviewing its effectiveness. An induction program is currently in place.

The Company also offers appropriate professional development opportunities for directors to ensure that they are kept up to date with developments in the industry both locally and at an international level. Management also briefs the Board on relevant industry, regulatory and legal developments.

SRG Global recognises the importance of directors receiving the information and support that they require to effectively discharge their role and responsibilities as directors.

In addition to updates from management on issues affecting the SRG Global business and the industries and markets within which it operates, SRG Global is supportive of directors attending external training and information sessions to supplement the education they receive internally and appointing specialist advisors where required.

Conflicts of interest

Directors are required, in accordance with the Corporations Act, to declare the nature of any interest they have in business to be dealt with by the Board. Except as permitted by the Corporations Act, directors with a material personal interest in a matter being considered by the Board may not be present when the matter is being considered and may not vote on the matter.

Access to Information & Independent Advice

Each director individually as well as the Board collectively, has the right to seek independent professional advice, subject to written approval of the Chairman, at SRG Global's expense.

The Company Secretary, who is accountable to the Board through the Chairman, provides advice and support to the Board and is responsible for all matters to do with the proper functioning of the Board.

Board Committees

Committees are established from time to time by the Board to streamline the discharge of its responsibilities.

The permanent standing Committees of the Board, and their key responsibilities, are set out below. All standing Committees have a formal Charter which sets out their role and responsibilities, membership requirements and administrative matters.

SRG Global's external auditor is BDO. The Audit Committee provides a link between the external auditors, the Board and management. It also has the responsibility (subject to Corporations Act requirements) for the appointment and remuneration of the external auditor, as well as for evaluating its effectiveness and independence.

Where a periodic corporate report is not required to be audited or reviewed by an external auditor, Management conducts the same comprehensive internal verification processes as followed for an external audited report up to receiving final auditor signoff/approval.

This process includes layers of peer review, subject matter expert, and board approval where appropriate, to ensure the report is materially accurate, balanced and provides investors with appropriate information to make informed investment decisions.

- Assess remuneration policy

- Executive directors and senior executive remuneration

The Committee makes recommendations to the full Board on the size and composition of the Board and the criteria for Board membership, assists the Board as required in relation to the performance evaluation of the Board, its committees and individual directors and is responsible for oversight of the Diversity and Inclusion Policy and reviewing diversity metrics.

The Committee also reviews key aspects of SRG Global's remuneration structure and arrangements and make recommendations to the Board.

Performance Evaluation

The Company has established performance evaluation processes for the Board, Committees, individual directors and senior executives. These are summarised below.

Board, Committees and Directors

On at least an annual basis, directors provide feedback in relation to the performance of the Board and its Committees.

The MD will also provide feedback from senior management in connection with any relevant issues. Feedback will be discussed by the Board, and consideration given as to whether any steps should be taken to improve performance. Where appropriate, assistance may be obtained from third party advisers.

MD and senior executives

The performance of the MD and senior executives is monitored against the Group's consolidated business plan and relevant divisional business plans throughout the year and a performance evaluation of all senior executives is undertaken annually with their respective manager and, in the case of the MD, the Board.

The performance of the MD is reviewed at the non-executive session of each Board meeting and then feedback is provided to the MD via the Chairman post the conclusion of the Board meeting.

The terms of the employment of SRG Global's senior executives are set out in an employment contract. The performance evaluation process is conducted having regard the expectations and responsibilities associated with the executive's role, as well as any relevant contractual provisions.

Performance evaluations took place during the reporting period in accordance with the processes described above.

Remuneration

Non-executive Director Remuneration

Non-executive Directors receive a fixed amount of fees for their services, determined having regard to:

- The level of fees paid to non-executive directors of other comparable companies;
- The size and complexity of SRG Global's operations; and
- The responsibilities and work requirements of Board members.

Senior Executive Remuneration

The Board has adopted a policy that senior executive remuneration will:

- Encourage executives to improve SRG Global's overall performance and to enhance shareholder value;
- Motivate executives by providing the opportunity to be rewarded for the achievement of financial performance and safety outcomes;
- Reward superior performance; and
- Ensure remuneration is competitive by market standards.

The intention of the Board is to align executive reward to the performance of the Company. To achieve this, the "at risk" element is linked directly to achieving business results.

Under SRG Global's Securities Trading Policy (discussed in further detail below), senior executives are not permitted to hedge their exposure in respect of unvested equity-based rewards they receive as part of their remuneration.

Further information relating to the remuneration of the Non-executive Directors and senior executives is set out in the Remuneration Report included in the 2023 Annual Report, available on the Company's website.

Risk Identification & Management

Role of the Board

The Board is responsible for satisfying itself that a sound system of risk management exists and that internal controls are effective.

The Board has reaffirmed its position to not establish a separate risk committee at this time. While the Audit Committee's role extends to the identification and management of financial risk, the full Board retains responsibility for setting SRG's risk framework and

overseeing the identification and management of risk across the business as a whole.

The Board believes this is appropriate in SRG Global's circumstances having regard to the size of the Company and the Board. This will be reassessed in 12 months to determine whether this approach remains suitable.

In fulfilling its risk-related functions, the Board will monitor whether:

- SRG Global's ongoing risk management program effectively identifies areas of potential risk;
- Adequate policies and procedures have been designed and implemented to manage identified risks;
- A regular program of audits is undertaken to test the adequacy of and compliance with prescribed policies; and
- Proper remedial action is undertaken to redress areas of weakness.

In line with the ASX Principles and Recommendations, SRG Global's risk management framework will be reviewed annually by the Board.

Role of Management

Responsibility for the implementation of the risk management framework rests with the MD, who delegates responsibility for day-to-day risk management activities to the appropriate level of management within the Group.

Risk management and internal control processes that have been put in place by management include:

- Company-wide Risk Register process that is used both as an effective tool in identifying and mitigating key risks to the business;
- Standards on effective contract risk management;
- Targeted employee training covering the code of conduct and key contract risk areas;
- Annual budgeting and monthly reporting systems for all business units, which enable progress against the strategy and annual plan to be monitored, trends to be evaluated and variances to be acted upon;
- Tendering and new business procedures and limits of authority;
- Procedures relating to capital expenditure, asset and liability management;

- Appropriate due diligence procedures for corporate acquisitions and disposals;
- Safety, quality and environment policies;
- Reports by the Chairman of the Audit Committee to the Board of the minutes of each meeting held by this committee; and
- A comprehensive Group-wide insurance program.

SRG does not currently have a dedicated internal audit function at this time, although it will re-assess whether it is appropriate to establish a dedicated function as the size and scale of the organisation increases.

In the absence of an internal audit function, the Board and management are both conscious of the need to evaluate and continually improve the effectiveness of SRG Global's risk management and internal control processes.

The Executive Committee provides additional resources in order to ensure that the risks associated with its operational sites and domestic and international locations are effectively managed. The Committee focuses on key operational issues and the development of strategy for the Company. This Executive Committee meets monthly.

Business and Sustainability Risks

SRG Global's management of material risks and the systems SRG Global has in place to manage these risks include the following.

Occupational Health Safety and Environment

This risk is categorised as environmental, social and economic risk and is managed through the critical risk registry and the establishment of Zero Harm leadership team.

The loss of life, injury or impact on health to person or effect on the environment is not only a key risk but a core value of SRG Global to prevent these risks.

The establishment of critical risks registry, the national zero harm leadership team and clear company objectives and procedures to reduce the number of incidents, mitigate critical risks and take proactive measures to drive zero harm are all company initiatives that have been implemented to mitigate this risk.

Project Risk

This risk is categorised as environmental, social and economic risk and is managed through monthly project reporting and reviews, introduction and adherence to corporate governance policies and processes, a global insurance program, contracting standard, SRG Global's Code of Conduct and contract risk training.

A rigorous and structured approach to the selection, the execution and the close out of a project is critical to ensure its success.

Policies, processes and procedures assist to identify the risks from bid stage through contract negotiation and contract administration.

The assessment and evaluation of the risks includes, amongst other things, the right selection of project, client, partners, suppliers and people.

Ongoing assessment and if necessary, treatment of the risk involves tender reviews and monthly/quarterly reviews.

Financial Risk

This risk is categorised as economic risk and is managed through detailed budgeting and forecasting, monthly reporting systems, delegation of authority matrix with limits of authority and a global insurance program.

Financial risk including internal cost overruns, increasing debtors, external market conditions and the existence of legacy matters are all risks to the objectives of delivering sustainable returns for shareholders and securing growth.

Comprehensive budgeting, monthly reporting and authority matrix are some of the many risk management tools which ensure the highest level of due diligence in assessing and managing financial risk to SRG Global as a company.

Country Risk

This risk is categorised as social and economic risk and is managed through corporate services review of international operations and engagement of external (internationally experienced) advisors for audit, advice and assistance.

SRG Global has both the benefit and the risk of operating globally. With operations in other countries SRG Global must ensure both local regulatory and customary requirements are complied with.

SRG Global has sourced and engaged local experts, is conducting reviews and ensuring the management of risk is dealt with through a number of processes, policies, procedures, audits and other systems which serve to identify, evaluate and treat the risk.

Cyber Risk

This risk is categorised as a business risk and is managed by undertaking regular risk and mitigation assessments of its exposure to disruption events and the impact of an event on its ability to operate.

SRG Global has a high focus on prevention and also continues to invest in disaster recovery measures, robust processes of detection and Employee education and awareness campaigns to ensure the integrity of its cyber operating environment.

Board Reviews

The Board reviews operational and key financial risks at regular Board meetings including presentations from the senior management.

¹ "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.
