Commenting on the acquisition update, Barton Managing Director Alexander Scanlon said:

"We are honoured to receive such a strong early commitment of support from Cobra's largest shareholders, and note the overwhelmingly positive feedback from Barton's shareholders, for this mutually beneficial transaction."

"During the past five years Barton has carefully and diligently assembled a strategic long-term South Australian gold development platform focused on the central Gawler Craton, including the region's only gold mill. As we move to leverage this key infrastructure for a lower-risk, -cost and -dilution transition to 'producer', we also remain focused on future production growth plans. Wudinna offers significant optionality to our regional strategies, and we will be pleased to welcome Cobra to our register as steadily build value across our platform."
