

ASX ANNOUNCEMENT
Quarterly update and cashflow

Highlights:

- **Strong increase in quarterly cash receipts**
- **Further sales in China as business momentum builds**
- **New sales activities in Australia**
- **Strong balance sheet with \$3.77M cash**

30 October 2020 – IoT solutions company, Constellations Technologies Limited (ASX: CT1) (the “Company” or “Group”) is pleased to provide a summary update on its activities for the quarter ended 30 September 2020.

Notable points to assist in reading the Appendix 4C

Cash receipts for the quarter were \$526k, an increase of 85% on the previous quarter and 383% increase on the prior year.

Sep-19	Dec-19	Mar-20	Jun-20	Sep-20	Q o Q Change	YoY Change
\$109,000	\$ 167,000	\$147,000	\$285,000	\$526,000	85%	383%

As flagged in the June quarterly commentary, sales are expected to continue to materially increase over the following quarters as the business builds across China and Australia with potential contributions from other territories including India and the USA where there are promising early stage sales activities in motion.

The Q1 increase in revenue was primarily driven by the Group’s China operations, with the commencement of three new projects. The sales pipeline in China continue to develop and grow.

Consistent with the Group’s strategy, the development and commercialisation of new industrial IoT solutions in the China market is helping to foster interest and potential projects in Australia. As the sales pipeline for the Australian operations increased substantially during the quarter, the Company appointed a dedicated sales manager with extensive IoT and software sales experience in Australia.

The increase in operating costs for the quarter were primarily direct project-related hardware costs (approx. \$330k) to support the cash revenue received during the current and future quarters as project milestones are complete. Around \$150k of corporate payments were made during the quarter that will not be carried over into Q2 including one-off and periodic payments associated with listing costs, insurances and advisor fees.

Net of the items noted above the run-rate overhead spend for the September quarter was consistent with the previous quarter.

Shareholders continued to exercise their options during the quarter with the Company receiving \$126k from the proceed of option conversions. A total of 512m options remain on issue with varying exercise prices expiring up to 18 June 2023 and are considered “in-the-money” and capable of being exercised to raise up to \$7.47m for the Company. Approximately 41% of these options are held by the board and management.

Related party cash payments for the quarter of \$100k include directors fees to non-executive and executive director’s (including the CEO) as well as rental and legal fees paid to entities associated with the Chairman.

The board thanks all shareholders for their continued support and interest in the Company.
