

## WAM Microcap exceeds \$16.5m minimum investment

16 May 2017  
ASX announcement  
& media release

WAM Microcap Limited has exceeded the \$16.5 million minimum investment in its \$154 million capital raising, which opened yesterday.

Wilson Asset Management Chairman Geoff Wilson said investors were excited to access a portfolio of micro-cap companies identified using Wilson Asset Management's proven investment methodology.

"Our investment team has a strong record of investing in micro-cap companies, delivered over almost 20 years," he said.

"WAM Microcap will provide investors with risk-adjusted returns derived from a portfolio of undervalued micro-cap companies with significant upside potential.

"We expected strong demand from shareholders in our existing listed investment companies. This is why the priority allocation represents almost 80% of the total offer," Mr Wilson said.

### \$121m priority allocation for Wilson Asset Management entity shareholders

WAM Microcap is issuing up to 140 million new shares at an application price of \$1.10 per share. The capacity restraints on a product focused on micro-cap companies requires the capital raising to be limited in size. As a result, the capital raising will not include options. To ensure the capital raising meets demand from WAM Capital, WAM Leaders, WAM Research and WAM Active shareholders, the priority allocation is \$121 million, representing almost 80% of the capital raising.

#### Important dates

WAM priority allocation expected to close	5 June 2017
Broker firm offer expected to close	9 June 2017
General offer expected to close	14 June 2017
