It does not include all available information and should not be used in isolation as a basis to invest in HGV. This document does not constitute any part of any offer to sell, or the solicitation of an offer to buy, any securities in the United States or to, or for the account or benefit of any "US person" as defined in Regulation S under the US Securities Act of 1993 ("Securities Act"). HGV's shares have not been, and will not be, registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States, and may not be offered or sold in the United States or to any US person without being so registered or pursuant to an exemption from registration including an exemption for qualified institutional buyers. The investment returns shown are historical and no warranty can be given for future performance. Historical performance is not a reliable indicator of future performance. Due to the volatility in a Company's underlying assets and other risk factors associated with investing, investment returns can be negative, particularly in the short-term.

About Hygrovest

Hygrovest Limited ("Hygrovest", "HGV" or the "Company") (ASX: HGV) is an Australian-listed, specialist investment company that has traded on the ASX since 2015.

Hygrovest's investment manager is HD Capital Partners Pty Ltd ("HD"). HD was appointed to that role for a term of five years commencing 1 July 2023.

HD is a value-oriented, fundamental bottom-up stock picker focussing on opportunities in listed small cap equities markets including:

- undervalued, well-managed growth companies, often founder-led, that are off the radar of the broader investment community;
- undervalued securities where HD seeks to realise value; and
- situations that are dependent on a specific corporate action, such as mergers, liquidations, tender offers and divestments.

¹ Inception is 30 June 2018 being the date on which Hygrovest commenced accounting for investments as an investment entity.

² The quoted returns for 1 and 3 months and financial year to date are absolute, i.e., not annualised. The quoted returns for 12 months and since inception are annualised.

³ Excludes tax on unrealised gains on the investment portfolio. The financial information within this report is unaudited. The information contained in the HGV Investment Portfolio Report is subject to completion of independent statutory audit as at 30 June 2024

HYGROVEST NEWS**HGV Financial Results for June 2024**

During June 2024, HGV's Net Asset Value (before provision for deferred tax) decreased by 8% which was primarily due to a 24% decrease in the Enterprise Value to Net Revenue Multiple (EV/NRM) used by HGV when valuing its investment in Weed Me Inc ("Weed Me"). This multiple is derived from the end of month market valuations of various listed Canadian companies, each of which HGV considers to be broadly comparable to Weed Me.

Shareholders should always, including but not limited to this month, be mindful that HGV's reported month-end NTA is a point-in-time assessment only and that HGV's NTA is constantly fluid.

HGV also applies a 15% discount to the derived valuation multiple to account for the fact that Weed Me is unlisted.

HGV's NTA was positively impacted by its entry of a sale contract in relation to its investment in Valo. HGV's Investment Manager HD Capital has been working with Valo to seek to facilitate a sale of HGV's investment. During June 2024 that work resulted in HGV executing a contract to sell its investment at a 20% premium to its carrying value. HGV's net asset value as at 30 June 2024 reflects the sale value according to the contract price, which was then received in cash after the end of the month.

Investment Manager Update

The main driver of HGV's investment returns for FY24 continued to be investments in the cannabis industry. As a reminder, HGV uses a basket of comparable listed stocks (with a discount applied for private companies) to value these investments. Overall, these listed peers saw their stocks decline significantly in the back end of FY24, particularly for the Australian listed peers. However, we are pleased that our largest investments continue to see their businesses grow, which offset some of the decline (carrying valuation is equal to listed comparable peers x LTM operating performance of our investments x private market discount).

Further, we managed to continue to realise proceeds from the legacy portfolio in FY24. As previously communicated, we entered a sale agreement for our investment in Sequoya. In June, we signed a sale agreement for our investment in Valo Therapeutics at a price 20% above our carrying value.

In FY25 we will continue to support our investee companies where needed and seek to realise value if the right opportunities present. The manager's confidence in the underlying value of HGV's investment portfolio is reflected in our continuing on-market purchases of HGV shares.

HD Capital Partners

Appendix One

1. The year-to-date performance of Hygrovest is detailed below:

Table One

HGV Historical Performance - financial year to date										
		30-Jun-18	30-Jun-19	30-Jun-20	30-Jun-21	30-Jun-22	30-Jun-23	31-Dec-23	31-May-24	30-Jun-24
Share price \$	AUD	0.335	0.245	0.096	0.077	0.064	0.042	0.051	0.046	0.046
Net Asset Value	AUD	0.2879	0.3721	0.1924	0.1750	0.1059	0.0922	0.0883	0.0982	0.0914

Valo Therapeutics		0.6	0.6	3%	0.5	2%
Medio Labs		0.0	0.0	0%	2.0	8%
Portfolio of unlisted debt securities		0.8	0.8	4%	0.0	0%
Total Unlisted Investments	13.2	1.4	14.5	67%	16.6	65%
	15.3	5.1	20.4	95%	17.4	68%
Cash		0.2	0.2	1%	3.7	15%
AAA ETF		0.9	0.9	4%	3.7	15%
Company tax refund receivable		0.0	0.0	0%	0.6	2%
Total Portfolio	15.3	6.2	21.5	100%	25.5	100%

Note:

The reference to Cash Equivalents refers to the investment in higher yielding cash on call deposits via an investment in ASX:AAA.

The company tax refund receivable as at 30 June 2023 was received in October 2023.

HGV's investment in Medio Labs was written off in December 2023 following confirmation from Medio in December 2023 that the company was insolvent and was no longer operating.

3. Significant investments held by HGV⁴

(a) Weed Me Inc. ("Weed Me")

HGV was a foundation investor in Weed Me in December 2017. Its investment in Weed Me comprises:

- 4.24m shares representing approximately 13% of Weed Me's issued capital (as at month end, HGV had ascribed to these shares a valuation of CAD1.94 per share); and
- 460,830 warrants each convertible at CAD2.17 with an expiry date of 29 October 2024.

(b) Southern Cannabis Holdings ("SCH")

HGV became an investor in SCH in April 2018. Its investment in SCH currently comprises 21m shares representing approximately 18% of SCH's issued capital (at month end, HGV had ascribed to these shares a valuation of AUD19 cents per share).

⁴ Information current at the month of this report.

(c) Delivra Health Brands Inc. ("DHB")

HGV was a foundation investor in DHB. Its investment in DHB currently comprises 55,557,994 common shares of DHB representing an approximately 18% shareholding.

4. Valuation of Assets

HGV values its investments by applying the following principles:

- (a) Listed securities – the book value is based on the closing share prices for public companies at period end converted into Australian dollars at the relevant prevailing foreign exchange rates at month-end.
- (b) Unlisted equity securities – Generally, HGV's preference is to value its unlisted investments by applying an Enterprise Value to Net⁵ Revenue Multiple (EV/NRM) provided these valuations are materially consistent with any recent capital raises by the given investee. The Canadian multiple of 1.6 (prior month of 2.1) is derived from the end of month market valuations of various listed Canadian companies, each of which HGV considers to be broadly comparable to Weed Me. The applied multiple represents the average of these multiples which range between 0.7 and 3.8. The Australian multiple of 0.9 (prior month of 1.1) is derived from the end of month market valuations of various listed Australian cannabis companies each of which HGV considers to be broadly comparable to SCH. The applied multiple represents the average of these multiples which range between 0.5 and 1.2. HGV also applies a liquidity discount of 15% to the EV/NRM valuation, to account for these investments' unlisted status. In the absence of material historical revenue, the book value is generally based on the most recent material funding round share prices for private companies (converted into Australian dollars at the relevant prevailing foreign exchange rates as necessary). In the absence of a recent capital raise or arm's length transaction, or if intervening events or information suggest that applying one of those valuation metrics is inappropriate, management considers all available information, including benchmarking of instruments to market movements indicated by relevant indices. HGV also considers the recommendations of its investment manager.
- (c) Convertible debentures and loan instruments – the book value is based on HGV's assessment of the capacity of the investee to repay principal and interest.
- (d) Unlisted warrants and note conversion options ("Convertible Securities") - the book values also include the unrealised gain arising from valuation of unlisted Convertible Securities using the Black-Scholes pricing model. Black-Scholes attributes a value to Convertible Securities which may be "out of the money" at month end. The Black Scholes model is commonly used to determine the fair price or theoretical value for a call option or a put option based on six variables: volatility, type of option, underlying stock price, time to expiry, strike price, and the risk-free rate. The Convertible Securities valuation ascribed through Black Scholes assumes that the Convertible Security is exercised on the expiry date of the Convertible Securities which may not be the actual outcome e.g., HGV may decide to exercise the Convertible Securities prior to expiry.

The Net Asset Value or NAV is calculated after deducting a provision for company tax on any net unrealised gains that may arise on such theoretical disposal. HGV does not hedge the carrying value of existing investments denominated in non-AUD currencies. HGV's financial statements are subject to statutory audit or review by our independent auditor at 31 December and 30 June each year.

Note:

- a) All information within this release is unaudited unless stated otherwise.
- b) The book value includes shares, convertible notes, options, loans, warrants and accrued interest.

5. Dividend Policy

On 7 June 2019, HGV announced its intention to distribute 20% of its annual profit after tax, after excluding unrealised gains and losses on investments (Annual Profit). The policy was first applied in respect of the Annual Profit for the year ended 30 June 2020. The dividend would be payable within three months of each half year after the completion of the half year and annual financial statements. It is HGV's intention that any dividend would benefit from any available franking credits held by HGV. Currently, HGV does not have a material franking credit balance.

⁵ Gross sales less government excise taxes and sales discounts

Glossary

ABBREVIATION	Definition
AUD	<i>means Australian dollars.</i>
ASX	<i>means ASX Limited (ACN 008 624 691) or the financial market operated by ASX Limited, as the context requires.</i>
