PAPUA NEW GUINEA:
Woodlark Island Gold

The Board of Geopacific Resources (Geopacific) would like to make the market aware that there has been a significant movement in Geopacific's share price today, following the release of a research note on the Company's flagship Woodlark Gold Project (Woodlark) to the email subscription list.

The research note, entitled "**Breathing new life into Woodlark**", was prepared by Petra Capital and is available on Geopacific's website at www.geopacific.com.au.

Geopacific would also like to highlight that drilling at Woodlark is progressing well with three rigs drilling at the Busai and Kulumadau areas. Assay results from the first drill holes are expected in the near-term.
