EXPLORERS

Newmont's Tanami vibe good news for associated ASX juniors

Analyst site visit further validation for tough exploration challenge

Michael Quinn

15 December 2023

If any encouragement were needed for the likes of [Hamelin Gold](#) and [Prodigy Gold](#) and the other lowly capitalised exploration juniors plying their trade out in the vast boondocks of the Tanami region stretching through Northern Territory and northern Western Australia, it was arguably received this week.

Encouragement is not really needed ... management and owners of these battling juniors know exactly why they are out there.
