## 2. Chair's Letter

---

Dear Shareholder,

The Board is pleased to offer all Eligible Shareholders the opportunity to acquire one (1) New Share for every one (1) Share held by Eligible Shareholders as at the Record Date, being 7:00pm (Sydney time) on 18 June 2025, at an issue price of \$0.002 per New Share, to raise up to approximately \$6.35 million (before expenses) (**Entitlement Offer**).

The Entitlement Offer is partially underwritten by Plutus Prospecting Pty Ltd ACN 682 005 769 (**Plutus Prospecting**). Plutus Prospecting's underwriting commitment is capped at 19.90% of the shares on issue on completion of the Entitlement Offer.

In addition, a binding commitment and underwriting deed has been received from existing substantial shareholder, APAC Resources Limited (**APAC**), to subscribe for its full Entitlement and such number of Shortfall Shares as it is permitted to in accordance with exception 9 of section 611 of the Corporations Act (i.e., the "3% creep" exception).

Accordingly, while these arrangements mean that the Entitlement Offer is only partially underwritten, they do provide certainty of funding for at least approximately \$3,058,000.

Eligible Shareholders are also entitled to subscribe for any New Shares not subscribed for by other Eligible Shareholders in accordance with the Entitlement Offer (**Shortfall Offer**) and the Company intends to place any Shares not taken up in accordance with the Shortfall Offer within three months of the Closing Date.

The funds raised pursuant to the Entitlement Offer (after expenses) are planned to be used to fund:

- exploration work on the Company's key projects, including:
  - the Tanami North Project (which includes the Tregony and Hyperion gold deposits), specifically to determine the next steps towards future development of the recently updated mineral resources in this project area;
  - the Tanami West Project (which includes the Old Pirate and Buccaneer gold deposits), reviewing possible development opportunities for the Old Pirate high-grade deposit and assessing other potential material sources around the project areas;
  - advance several brownfield targets around the Tanami North project, such as the Brokenwood, Boco and Mark's Rise prospects, and the Tanami West project, such as Vampire, Casa and Blackcat;
- continuing to progress the Hyperion Mineral Lease application to grant, including environmental studies and the review of the mining options for the project from heap leach to conventional CIL processing with additional metallurgical testwork;
- assessing the available options to recommence mining at the Old Pirate deposit, including obtaining a Mining Licence;
- on-going project development, project divestment, purchase of field capital equipment, project acquisition costs and tenement maintenance costs; and
- general working capital expenses.

As the Entitlement Offer is non-renounceable, your Entitlements will not be tradeable on the ASX or otherwise transferable. Eligible Shareholders who do not take up their Entitlements in full will not receive any value for those Entitlements that they do not take up.

Applicants for New Shares pursuant to this Offer Booklet should be aware that there are various risks associated with an investment in New Shares and the Company, including those risks summarised in section 4 of this Offer Booklet. Accordingly, any potential investors should consult with their professional advisers before deciding whether to apply for any New Shares pursuant to this Offer Booklet.

The Board thanks all Shareholders for their continuing support of the Company and recommends the Entitlement Offer.

Yours sincerely,

**Gerard McMahon**

Chairman

Prodigy Gold NL

### 3. Investment Overview

---

#### 3.1 Entitlement Offer

The Entitlement Offer is being undertaken as a non-renounceable entitlement offer of one (1) New Share for every one (1) Share held by Eligible Shareholders registered as at the Record Date, being 7.00pm (Sydney time) on 18 June 2025, at an issue price of \$0.002 per New Share.

Eligible Shareholders who wish to accept the Entitlement Offer can do so in accordance with the instructions contained in section 5.1 of this Offer Booklet.

Eligible Shareholders will receive, or will be able to access, a personalised Application Form setting out their Entitlement together with a copy of this Offer Booklet. Ineligible Shareholders will not be entitled to participate in the Entitlement Offer or subscribe for New Shares.

There is no minimum subscription for the Entitlement Offer or Shortfall Offer. Eligible Shareholders may subscribe for all or part of their Entitlement.

Fractional Entitlements to New Shares will be rounded up to the nearest whole number.

The Entitlement Offer is non-renounceable. Accordingly, Entitlements do not trade on the ASX nor can they be sold, transferred or otherwise disposed of.

Shares issued pursuant to this Offer Booklet will have the same rights and liabilities as the existing Shares on issue as at the date of this Offer Booklet.

Based on the capital structure of the Company as at the date of this Offer Booklet, up to approximately 3,175,055,551 New Shares will be issued pursuant to this Offer Booklet to raise up to approximately \$6.35 million (before expenses).

#### 3.2 Shortfall Offer

In addition to the Entitlement Offer, Eligible Shareholders may apply to receive any New Shares not taken up in accordance with the Entitlement Offer (**Shortfall Shares**) by participating in the Shortfall Offer.

The issue price of Shortfall Shares offered in accordance with the Shortfall Offer is the same as the Entitlement Offer, being \$0.002 per Shortfall Share.

Eligible Shareholders who wish to apply for Shortfall Shares can do so in accordance with the instructions contained in section 5.2 of this Offer Booklet.

Shortfall Shares will only be offered if the Entitlement Offer is undersubscribed and will only be issued to the extent necessary to make up any shortfall in subscriptions received in accordance with the Entitlement Offer.

It is possible that, depending on the extent to which Eligible Shareholders participate in the Entitlement Offer or Shortfall Offer, one or more Eligible Shareholders could increase their Shareholding significantly by participating in the Entitlement Offer or Shortfall Offer.

However, no Eligible Shareholder who currently holds 20% or less than 20% Voting Power may increase their Voting Power to more than 20% Voting Power and the Company reserves the discretion to refuse to accept applications (in whole or in part) in such circumstances as set out in section 5.3 of this Offer Booklet.

The control effect of the Entitlement Offer and Shortfall Offer is set out in section 3.9 of this Offer Booklet.

### 3.3 Purpose of the Entitlement Offer

The purpose of the Entitlement Offer is to raise up to approximately \$6.35 million (before expenses).

As noted in section 2 of this Offer Booklet, the funds raised pursuant to the Entitlement Offer (after expenses) are planned to be used to fund:

- exploration work on the Company's key projects, including:
  - the Tanami North Project (which includes the Tregony and Hyperion gold deposits), specifically to determine the next steps towards future development of the recently updated mineral resources in this project area;
  - the Tanami West Project (which includes the Old Pirate and Buccaneer gold deposits), reviewing possible development opportunities for the Old Pirate high-grade deposit and assessing other potential material sources around the project areas;
  - advance several brownfield targets around the Tanami North project, such as the Brokenwood, Boco and Mark's Rise prospects, and the Tanami West project, such as Vampire, Casa and Blackcat;
- continuing to progress the Hyperion Mineral Lease application to grant, including environmental studies and the review of the mining options for the project from heap leach to conventional CIL processing with additional metallurgical testwork;
- assessing the available options to recommence mining at the Old Pirate deposit, including obtaining a Mining Licence;
- on-going project development, project divestment, purchase of field capital equipment, project acquisition costs and tenement maintenance costs; and
- general working capital expenses.

Please refer to section 3.11 for further details relating to the estimated expenses of the Entitlement Offer.

The above is a statement of current intentions as at the date of this Offer Booklet. As with any budget, the allocation of funds set out in the above may change depending on a number of factors including intervening events (including additional requirements arising from exploration and other activities), regulatory developments, market and general economic conditions and other new circumstances. In light of this the Board reserves the right to alter the way funds are ultimately applied.

### 3.4 Underwriting Arrangements

The Company has entered into:

- (a) a binding commitment and underwriting deed with existing substantial Shareholder, APAC, pursuant to which it has agreed to:
  - (1) subscribe for its full Entitlement under the Entitlement Offer, being an entitlement to 938,348,574 New Shares; and
  - (2) subscribe, or procure subscriptions, for any New Shares offered under the Entitlement Offer not subscribed for by other Eligible Shareholders under the Entitlement Offer,to the extent that it is permitted to do so in accordance with exception 9 of section 611 of the Corporations Act (i.e., the “3% creep” exception); and
- (b) an underwriting agreement with Plutus Prospecting (**Underwriting Agreement**), pursuant to which Plutus Prospecting has agreed to subscribe, or procure subscriptions, for any New Shares not subscribed for by other Eligible Shareholders under the Entitlement Offer or the Shortfall Offer, provided that Plutus Prospecting does not acquire a Voting Power of more than 19.90%.

Accordingly, the extent that these underwriting arrangements are called upon and the level of funds received is dependent upon the level that other Shareholders subscribe for their Entitlements, as well as the extent of applications received under the Shortfall Offer.

These arrangements do, however, provide certainty of funding for at least \$3,058,000.

#### **Plutus Prospecting – Partial Underwriting**

Plutus Prospecting is a private Australian company focused on identifying and supporting opportunities in the gold exploration and mining sector. The sole director and shareholder of Plutus Prospecting is Liang Zhen (Jally) Lin, who is a senior property executive and business entrepreneur with more than 15 years of experience in the Australian and Chinese property development industries. He was previously CEO of ASX Listed Tian An Australia Limited (ASX: TIA) and, before that, a senior manager of Sezone, a Sydney-based construction company, where he managed a number of core residential development projects across the greater Sydney region and along the Queensland coast. Mr Lin is currently chairman of the LFD Group, a privately owned residential and mixed-use property developer in NSW.

As at the date of this Offer Booklet, Plutus Prospecting does not have a relevant interest in any Shares and section 3.9 of this Offer Booklet outlines the potential effect of the Entitlement Offer on Plutus Prospecting’s Voting Power in the Company.

Plutus Prospecting has advised the Company that, as at the date of the Underwriting Agreement, it:

- (a) has cash in the bank of at least \$5 million, which is sufficient to meet its obligations under the Underwriting Agreement;
- (b) intends to support the current management and board of Directors of the Company on its continued exploration activity; and

- (c) does not have any intention to redeploy the Company's assets or, otherwise, change the Company's current business or any arrangement with the Company's directors or employees.

It is noted that, in the event that Plutus Prospecting does not obtain Voting Power of at least 19.90% via its underwriting of the Entitlement Offer, the Company has agreed to issue Plutus Prospecting such number of Shares as to result in Plutus Prospecting having Voting Power in the Company of 19.90% via a private placement, as follows:

- (a) an unconditional placement of up to 476,258,333 New Shares using the Company's existing placement capacities under the ASX Listing Rules; and
- (b) a conditional placement of such number of New Shares to enable Plutus Prospecting to acquire a 19.90% Voting Power in the Company, subject to Shareholder approval.

Whether the unconditional placement and conditional placement proceed or not is dependent on the level of subscriptions received under the Entitlement Offer.

No fees are payable to Plutus Prospecting in providing the underwriting commitment under the Underwriting Agreement.

Please refer to section 3.12 of this Offer Booklet for further details regarding the Underwriting Agreement.

#### **APAC – Binding Commitment and Underwriting**

No fees are payable to APAC in consideration for providing its binding commitment and agreeing to partially underwrite the Entitlement Offer.

APAC's obligations to subscribe for its Entitlement and to underwrite the Entitlement Offer will cease and the Binding Commitment and Underwriting Deed will terminate automatically in the event that the Company does not dispatch offers under the Entitlement Offer to Eligible Shareholders by the 20<sup>th</sup> business day after the date of the Offer Booklet.

As at the date of this Offer Booklet, APAC has a Voting Power in the Company of 29.55% and section 3.9 of this Offer Booklet outlines the potential effect of the Entitlement Offer on APAC's Voting Power.

Please refer to section 3.13 of this Offer Booklet for further details regarding the Binding Commitment and Underwriting Deed.

### **3.5 Effect of the Entitlement Offer**

The principal effect of the Entitlement Offer, assuming that the Entitlement Offer is fully subscribed and that no Options are exercised prior to the Record Date, will be to:

- (a) increase the Company's cash position by up to approximately \$6.35 million (before expenses) immediately after completion of the Entitlement Offer; and
- (b) increase the number of Shares on issue from 3,175,055,551 at the date of this Offer Booklet to up to 6,350,111,102 Shares.

### 3.6 Effect on capital structure

The effect of the Entitlement Offer on the Company's capital structure, assuming that all Entitlements are accepted and that no Options are exercised prior to the Record Date, is set out below:

Shares	
Description	Number
<b>Shares on issue as at the date of this Offer Booklet:</b>	3,175,055,551

### 3.7 Dilution of Eligible Shareholders that do not accept their Entitlement

The dilutionary effect of the Entitlement Offer on the shareholding of existing Shareholders will depend on whether they are an Eligible Shareholder and, if so, whether they elect to subscribe for some or all of their Entitlements. If Eligible Shareholders take up all of their Entitlements pursuant to the Entitlement Offer, Eligible Shareholders will hold the same percentage interest in the Company as they did immediately prior to the Record Date for the Offer. However, to the extent that any Eligible Shareholder fails to take up their full Entitlement pursuant to the Entitlement Offer, and ineligible Shareholders are unable to participate in the Entitlement Offer, that Shareholder's percentage holding in the Company will be diluted.

As the Entitlement Offer is an offer of one (1) New Share for every one (1) Share held by Eligible Shareholders, the maximum amount that any Shareholder will be diluted is approximately 50%.

Eligible Shareholders should note that if they do not accept their Entitlements in full, their Shareholdings are likely to be diluted as follows:

Example Shareholder	Total Share Holding as at the date of this Offer Booklet	% as at the date of this Offer Booklet	Entitlement	Holding if Entitlement not taken up	% following allotment of New Shares
Shareholder 1	1,000,000	0.03%	1,000,000	1,000,000	0.02%
Shareholder 2	2,500,000	0.08%	2,500,000	2,500,000	0.04%
Shareholder 3	5,000,000	0.16%	5,000,000	5,000,000	0.08%
Shareholder 4	10,000,000	0.31%	10,000,000	10,000,000	0.16%

### 3.8 Effect on relevant interest of substantial security holders

As at the date of this Offer Booklet, the following persons were believed to have a relevant interest of 5% or more of the Shares in the Company:

Shareholder	Shares	%
BNP Paribas Noms Pty Ltd, APAC Resources Limited (and its Related Bodies Corporate) and Allied Properties Investments (1) Company Limited ( <b>APAC Group</b> )	938,348,574	29.55%
Jetosea Pty Ltd ACN 003 784 441	516,762,040	16.28%

As noted elsewhere in this Offer Booklet, a binding commitment and underwriting deed has been received from APAC under which it has agreed to partially underwrite the Entitlement Offer by committing to subscribe for, or procure subscriptions for:

- (a) its full Entitlement under the Entitlement Offer; and
- (b) such number of additional Shares under the Shortfall Offer,

to the extent that it is permitted to do so in accordance with exception 9 of section 611 of the Corporations Act (i.e. the “3% creep” exception).

Accordingly, APAC may acquire Voting Power in the Company of up to 32.55% depending on the level that other Shareholders subscribe for their Entitlements, as well as the extent of applications received under the Shortfall Offer.

As at the date of this Offer Booklet, the Company has not received any binding commitments from other major Shareholders that they will subscribe for their Entitlement.

If the Entitlement Offer is fully subscribed and the above parties subscribe for all of their Entitlements pursuant to the Entitlement Offer, there will be no change to their relevant interests in Shares.

If the Entitlement Offer is not fully subscribed, the above Shareholders may increase their Voting Power in the Company. The extent to which any of the above Shareholders may increase their respective Voting Power in the Company is dependent upon the level that other Shareholders subscribe for their Entitlements, as well as the extent of applications received under the Shortfall Offer and limits on the above Shareholders increasing their Voting Power imposed by the Corporations Act.

### 3.9 Effect of Entitlement Offer on Voting Power in the Company

As the Entitlement Offer and the Shortfall Offer do not satisfy the requirements of exception 10 of section 611 of the Corporations Act, no person shall be entitled to acquire Shares pursuant to the Entitlement Offer or Shortfall Offer if to do so would result in their, or another person's, Voting Power in the Company increasing from 20% or below to more than 20%, or from a starting point above 20% to below 90%, unless a separate exception to the restrictions contained in section 606 of the Corporations Act applies.

The only such exception that may apply is exception 9 of section 611 of the Corporations Act (i.e. the "3% creep" exception).

Accordingly, applications for New Shares will be rejected (in whole or in part) where the effect of issuing New Shares to the Applicant will result in the Applicant's, or another person's, Voting Power in the Company increasing from 20% or below to more than 20%, or from a starting point above 20% to below 90%, other than as permitted by the "3% creep" exception.

As at the date of this Offer Booklet, Plutus Prospecting does not have any Voting Power in the Company and, accordingly, Plutus Prospecting may only acquire Voting Power the Company of up to 20%.

As APAC held Voting Power in the Company of 29.55% six months before the date of the Offer, it may acquire Voting Power in the Company of up to 3%, taking it to 32.55%.

However, for illustrative purposes, the table below sets out the number of Shares and potential Voting Power in the Company that APAC Group or Plutus Prospecting could obtain in the Company based on the following scenarios:

- (a) APAC Group participates for its full Entitlement to the extent it is able to do in reliance on the "3% creep" exception and applications are received for 0% of all other Shareholders' Entitlements pursuant to the Entitlement Offer or Shortfall Offer;
- (b) APAC Group participates for its full Entitlement and the Shortfall Offer to the extent it is able to do in reliance on the "3% creep" exception and applications are received for 25% of all other Shareholders' Entitlements pursuant to the Entitlement Offer or Shortfall Offer;
- (c) APAC Group participates for its full Entitlement and the Shortfall Offer to the extent it is able to do in reliance on the "3% creep" exception and applications are received for 50% of all other Shareholders' Entitlements pursuant to the Entitlement Offer or Shortfall Offer; and
- (d) APAC Group participates for its full Entitlement and the Shortfall Offer to the extent it is able to do in reliance on the "3% creep" exception and applications are received for 75% of all other Shareholders' Entitlements pursuant to the Entitlement Offer or Shortfall Offer.

APAC Group and Plutus Prospecting Potential Voting Power				
Shareholder Outcomes	Level of Acceptance by Eligible Shareholders (other than APAC)			
	0%	25%	50%	75%
New Shares subscribed for by Eligible Shareholders (excluding APAC)	0	559,176,744	1,118,353,489	1,677,530,233
Total Shares on Issue after Entitlement Offer	4,704,301,049	5,880,376,311	6,350,111,102	6,350,111,102
Total Shares held by APAC Group after the Entitlement Offer	1,531,438,163	1,914,297,704	1,876,697,148	1,876,697,148
Voting Power of APAC Group after the Entitlement Offer (%)	32.55%	32.55%	29.55%	29.55%
Total Shares held by Plutus Prospecting after the Entitlement Offer	936,155,909	1,170,194,886	1,118,353,488	559,176,744
Voting Power of Plutus Prospecting after the Entitlement Offer (%)	19.90%	19.90%	17.61%	8.81%

For completeness, it is noted that, in the event that Plutus Prospecting does not obtain Voting Power of at least 19.90% via its underwriting of the Entitlement, the Company has agreed to issue Plutus Prospecting such number of New Shares as to result in Plutus Prospecting having Voting Power in the Company of 19.90% via a private placement (a portion of which may be subject to Shareholder approval).

Whether this placement proceeds or not is dependent on the level of subscriptions received under the Entitlement Offer.

### 3.10 Interests of Directors

As at the date of this Offer Booklet, the Relevant Interest of each Director in Shares, together with their respective Entitlements in accordance with the Entitlement Offer, is set out in the table below:

Director	Shares	Entitlement
<b>Gerard McMahon</b> Chairman	Nil	Nil
<b>Mark Edwards</b> Managing Director	12,650,501	12,650,501

Director	Shares	Entitlement
<b>Brett Smith</b> Non-Executive Chairman	1,982,142	1,982,142
<b>Neale Edwards</b> Non-Executive Director	3,500,000	3,500,000

Brett Smith and Neale Edwards have confirmed to the Company that they intend to subscribe for their full entitlement under the Entitlement Offer and Mark Edwards has confirmed that he will subscribe for \$10,000 worth of Shares under the Entitlement Offer.

### 3.11 Expenses of the offers

The total expenses of the Entitlement Offer and Shortfall Offer are estimated to be approximately \$150,000 which are expected to be applied towards the items set out in the table below:

Expense	Amount (\$)

### 3.14 Overseas shareholders

The offer of New Shares pursuant to this Offer Booklet does not, and is not intended to, constitute an offer or invitation in any place or jurisdiction in which, or to any person to whom, it would be unlawful to make such an offer or to issue this Offer Booklet.

It is not reasonable for the Company to comply with the securities laws of all overseas jurisdictions in which Shareholders are resident having regard to the number of overseas Shareholders and the number and value of Shares these Shareholders would be offered and the cost of complying with the regulatory requirements in each relevant jurisdiction.

The Entitlement Offer is not being extended to Shareholders that are recorded in the Company's share register as having an address that is outside Australia or New Zealand.

This Offer Booklet is prepared under Australian law and is not a product disclosure statement prepared under New Zealand law. New Zealand law normally requires people who offer financial products to give information to investors before they invest. This requires those offering financial products to have disclosed information that is important for investors to make an informed decision.

No New Zealand product disclosure statement is being prepared and the offer of New Shares is being extended to Eligible Shareholders that were recorded in the Company's share register as having an address in New Zealand in reliance on the *Financial Markets Conduct (Incidental Offers) Exemption Notice 2021* (New Zealand).

As a result, Eligible Shareholders that were recorded in the Company's share register as having an address in New Zealand may not be given all the information usually required under New Zealand law and will also have fewer other legal protections for this investment.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser. The Entitlement Offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

Any amounts paid on the financial products will be in Australian dollars and not New Zealand dollars. You may incur significant fees in having any such Australian dollar funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. The financial products are not currently traded on any financial product market in New Zealand. The way in which any financial product trading market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from the financial product trading markets that operate in New Zealand.

Eligible Shareholders that are resident in Australia or New Zealand that hold Shares on behalf of persons who are resident in jurisdictions other than Australia and New Zealand are responsible for ensuring that taking up any Entitlement pursuant to the Entitlement Offer does not breach regulations in the relevant overseas jurisdiction. The return of a duly completed Application will be taken by the Company to constitute a representation that there has been no breach of those regulations.

### **3.15 Taxation**

The taxation consequences arising from an investment in any New Shares will depend on the particular circumstances of each Applicant and it is the responsibility of all Applicants to satisfy themselves of the taxation treatment that applies to them by consulting their own professional tax advisers.

## **4. Risks**

---

### **4.1 Introduction**

The New Shares offered in accordance with this Offer Booklet are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend that potential investors consider the risk factors described below, together with information contained elsewhere in this Offer Booklet and otherwise disclosed to the ASX, and consult their professional advisers before deciding whether to apply for New Shares pursuant to this Offer Booklet.

In addition to the specific risks that relate directly to the Company, there are also other general risks, many of which are largely beyond the control of the Company and the Directors, that investors should consider. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of any New Shares issued pursuant to this Offer Booklet.

### **4.2 Business specific and industry risks**

#### **(a) Key sensitivities of the Company's Projects**

The future success of the Company is primarily dependent on the success of the mineral exploration activities and development study outcomes as well as approvals and permits to enable the Company's existing or future projects to advance.

The Projects, together with any other project that the Company may in the future acquire, are subject to the following key sensitivities:

- (1) the identification and exploration of a mineral deposit with sufficient potential to be economically and commercially viable;
- (2) the delineation of sufficient gold reserves so as to result in the viable extraction and processing of gold from the Projects;
- (3) metal commodity prices and, in particular the gold price;
- (4) the permits and approvals to enable the exploration for and extraction of minerals from regulators, local authorities and stakeholders;
- (5) mining, processing and other related expenses (such as royalty payments) for the extraction of gold ores being less than the revenue receivable; and
- (6) the capital cost to construct any required processing plant and associated facilities being such that financing for the project is capable of being received.

Whilst the Company believes and is optimistic that it is possible, there is also no guarantee that the Company will be able to obtain all the necessary approvals, permits, licences or consents required to develop the projects or any other project that it may, in the future, acquire.

**(b) Current funding risk**

The Entitlement Offer is partially underwritten and there are restrictions in the Corporations Act that limit the extent that the Company's existing substantial Shareholders can participate in the Entitlement Offer and the Shortfall Offer.

Therefore, the Entitlement Offer may not be fully subscribed, leaving a shortfall from the full amount that could be raised.

Accordingly, if the proceeds of the Entitlement Offer reach less than the full subscription level, the Directors intend to place the shortfall of any Shares not subscribed for pursuant to the Entitlement Offer or Shortfall Offer, within three months following the Closing Date, and to carry out additional capital raising activities if necessary.

However, there is no certainty that the Company will be able to raise additional capital, or that it will be able to do so on favourable terms.

**(c) Future funding requirements**

The Company's capital requirements depend on numerous factors, including the success of its planned exploration programs, the future exploration programs for its Projects, the Company's ability to generate income from its operations and possible acquisitions or other corporate opportunities. The Company may require further capital to achieve its objective of transitioning from explorer to producer. If the Company acquires any new project it may need to raise further capital to fund the acquisition or the project once acquired.

For the foreseeable future, it is expected that this funding will be obtained from equity financing. Any equity financing undertaken will dilute existing Shareholders.

There is no guarantee that the Company will be able to secure any additional funding or will be able to secure funding on terms that are favourable or acceptable to the Company.

This may require that the Company reduce the scope of its operations or, if necessary, surrender or dispose of some of its interest in one or more of its Projects to a third party.

There is a risk that the Company will not be able to meet the work commitments or satisfy the required licence fees, which may result in one or more of its Tenements being forfeited.

Similarly, while debt financing is unlikely to be available to the Company for the foreseeable future, any debt financing, if available, may involve restrictions on financing and operating activities.

If the Company is not able to raise additional future funding in a timely manner through either the issue of additional Shares or the disposal of assets, it could have a significant detrimental effect on the financial position and viability of the Company.

**(d) Grant and renewal of permits**

The Company's mineral exploration activities are dependent upon the granting and maintenance (including renewal) of the Tenements or other tenements in which the Company acquires an interest.

Maintenance of the Tenements is dependent on, among other things, the Company's ability to meet the licence conditions imposed by relevant authorities including minimum annual expenditure requirements which, in turn, is dependent on the Company being sufficiently funded to meet those expenditure requirements.

The extent of work performed on each Tenement may vary depending upon the results of the exploration programme which will determine the prospectivity of the relevant area of interest. There is a risk that if the Company fails to satisfy these minimum expenditure requirements at the time of expiry of the granted Tenements, the Company may be required to relinquish part or all its interests in these granted Tenements. As at the date of this Offer Booklet, the Company is not in breach of its minimum expenditure commitments.

**(e) Operational and exploration risk**

The business of mineral exploration, development and production, by its nature, involves significant risks. The Tenements are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings. There can be no assurance that exploration of the Tenements, or any other tenements that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

The business depends on, amongst other things, successful exploration and identification of mineral reserves, geological conditions, security of tenure, the availability of adequate funding, satisfactory performance of mining operations, limitations on activities due to inclement weather or seasonal weather patterns, availability and cost of consumables and plant and equipment (including drilling rigs and other necessary machinery to undertake exploration, development and production) and skilled labour when required, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.

### **4.3 Industry Specific Risks**

There are a number of industry specific risks associated with the Company which have a reasonable likelihood of occurring, are difficult to mitigate, and if they do eventuate, would have a significant effect on the Company's financial position, prospects or the price of its Shares and are, therefore, key risks. These risks include:

**(a) Commodity price fluctuations**

It is anticipated that any future revenues derived from mining will primarily be derived from the sale of minerals, and in particular, gold. Consequently, any future earnings are likely to be closely related to the price of precious metals such as gold.

The prices of minerals are influenced by numerous variable factors beyond the control of the Company, including laws and regulations, economic conditions and trading demand and supply. Fluctuations in mineral prices may, positively or negatively,

influence the operating and financial performance of projects and businesses in which the Company has an interest or proposes to have an interest.

Even if this is not the case, general sentiment towards one or more minerals may have a significant adverse affect on the price of Shares.

**(b) Land access**

The Company will be required to negotiate access arrangements and pay compensation to land owners, local authorities, traditional land users and others who may have an interest in the area covered by the Tenements. The Company's ability to resolve access and compensation issues will have an impact on the future success and financial performance of the Company's operations.

The effect of present laws in respect of native title that apply in Australia is that mining tenements (including applications for mining tenements) may be affected by native title claims or procedures, which may prevent or delay the granting of tenements, or affect the ability of the Company to explore and develop the Tenements.

In addition, where the relevant part of the Tenements is not accessible without crossing land which is not owned by the Company, the Company may be required to obtain the consent of owners and occupiers of land within the Tenements to carry out its planned activities on such land or otherwise pass through such land. Compensation may be required to be paid to the owners and occupiers of land in order for exploration and development activities to be carried out.

Negotiations with land owners, local authorities, traditional land users and others may therefore be required before the Company can access land for exploration or mining activities. Inability to access, or delays experienced in accessing, the land may impact on the Company's activities. Special conditions may also attach to exploration (if permitted) in special locations within the Tenements, including those of environmental or heritage significance. There may be delays experienced in negotiating these conditions, and there is a risk that the parties cannot reach agreement and the matter could result in the Company not being able to conduct the exploration or production activities on terms acceptable to the Company (or at all).

Agreements with traditional land owners include that any exploration programs are approved and the underlying land the subject to exploration is cleared by traditional owners via the Central Land Council to protect any sacred and sensitive sites. The timing of such clearances is outside the Company's control and subject to Central Land Council and traditional owner availability.

Access is critical for exploration and development to succeed and the ability to be able to negotiate satisfactory commercial arrangements with land owners, local authorities, traditional land users and occupiers is often essential.

**(c) Exploration costs**

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

**(d) Potential acquisitions, divestments and investments**

The Company may pursue and assess other new business opportunities in the resource sector in order to realise benefits including complementary revenue streams and future platforms for growth and may seek to divest certain assets no longer considered essential to the Company's operations.

Divestments under current agreements or negotiation may not be able to be completed and the identification, evaluation and negotiation of divestments and other opportunities may require significant time and effort from key management and employees, and may result in disruptions to the business.

These new business opportunities may take the form of direct project acquisitions, investments, joint ventures, farm-ins, acquisition of tenements and permits, and/or direct equity participation. Such transactions (whether completed or not) may require the payment of monies (as a deposit and/or exclusivity fee) after only limited due diligence or prior to the completion of comprehensive due diligence. There can be no guarantee that any proposed acquisition will be completed or be successful. If the proposed acquisition is not completed, monies advanced may not be recoverable, which may have a material adverse effect on the Company.

If an acquisition is undertaken, the Directors will need to reassess at that time, the funding allocated to current projects and new projects, which may result in the Company reallocating funds from other projects and/or raising additional capital (if available). There is also a risk that the Company is unsuccessful in integrating new businesses or assets into its existing operations in a timely manner, or that the new businesses or assets do not result in the benefits anticipated. The Company cannot guarantee that every acquisition or partnership that it makes or enters into will result in favourable outcomes for the business. In addition, the process of integrating new businesses or assets may require significantly more financial and management resources, or time to complete, than originally planned.

**(e) Mineral Resource estimates**

Mineral resource estimates are expressions of judgement and are estimates based on knowledge, experience and industry practice. While these estimates may be appropriate when made, they may change significantly when new information or techniques become available.

Estimates are a necessary practice and may change significantly or cease to be accurate when new information or techniques become available through additional fieldwork and analysis. Mineral Resource estimates are, by their nature, imprecise and, to an extent, depend on interpretation, which may result in inaccuracies. Should the Company encounter mineralisation or formations different from those predicted by past drilling, sampling and similar examinations, resource estimates may have to be adjusted and mining plans may have to be altered in a way which could adversely affect the Company's operations. New information, practices or techniques may result in the Company revising any initial estimates of its Mineral Resources or Ore Reserves, which may could adversely affect the Company's operations.

**(f) Native Title risk**

Access to land for exploration purposes can be adversely affected by land ownership, including private (freehold) land, pastoral lease and native title land or claims under the *Native Title Act 1993* (Cth) (**NTA**) (or similar legislation in the jurisdiction where the Company operates). The effect of the NTA is that existing and new Tenements held by the Company may be affected by native title claims and procedures.

There is a risk that a determination could be made that native title exists in relation to land the subject of a tenement held or to be held by the Company which may affect the operation of the Company's business and development activities. In the event that it is determined that native title does exist or a native title claim has been registered, the Company may need to comply with procedures under the NTA in order to carry out its operations or to be granted any additional rights required. Such procedures may take considerable time, involve the negotiation of significant agreements, may involve access rights, and require the payment of compensation to those persons holding or claiming native title in the land the subject of a Tenement. The involvement in the administration and determination of native title issues may have a material adverse impact on the position of the Company in terms of cash flows, financial performance, business development, and the Share price.

**(g) Joint venture parties, agents and contractors**

There is a risk of financial failure or default by a participant in any joint venture to which the Company is, or may in the future become, a party, or the insolvency or managerial failure by any service provider used by the Company for any activity.

Any failure by any of the Company's existing or future joint venture partners could result in the Company being required to expend significant time and monetary resources, for which it may not have made provision, requiring it to raise additional funds and direct its energies and/ or reallocate budgeted expenditure.

**(h) Environmental**

The operations and proposed activities of the Company are subject to laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences and hamper access to Tenements and delay exploration activities. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by current, future or previous operations or non-compliance with environmental laws or regulations.

It is the Company's intention to conduct its activities to the highest standard of its environmental obligations, including by complying with all environmental laws and regulations.

**(i) Metallurgy**

Metal and/or mineral recoveries are dependent upon metallurgical processes and, by their nature, contain elements of significant risk such as:

- (1) identifying a metallurgical process through test work to produce a saleable metal and/or concentrate;
- (2) developing an economic process route to produce a metal and/or concentrate; and
- (3) changes in the mineralogy of the ore deposit can result in inconsistent metal recovery, affecting the economic viability of the Projects.

**(j) Competition risk**

The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's Projects and business.

In particular, the Company's ability to undertake exploration and mining activities is dependent upon its ability to source and acquire appropriate mining equipment and personnel. Equipment and personnel are not always readily available and the market for mining equipment and personnel experiences fluctuations in supply and demand. Increases in worldwide mining activities may create cost pressures for services and skilled personnel in the resources industry, which may affect the ability to purchase or hire equipment, supplies, and services and to recruit skilled personnel in relation to the Projects. In addition, the availability of drilling rigs and other equipment and services is affected by the level and location of drilling activity around the world. An increase in drilling activity in Australia may reduce the availability of equipment and services to the Company. In addition, an increased demand for mineral commodities may significantly increase the demand for many mining and processing inputs, which has resulted in shortages, as well as longer lead times for delivery and increases in pricing, of mining equipment and metallurgical plant, strategic spares and critical consumables. The reduced availability of equipment, services and skilled personnel may delay the planned exploration, development, and production activities at the projects. A shortage of skilled labour in the Australian mining industry could result in the Company having insufficient employees or contractors to operate its business, which could adversely affect the Company's business, results of operations and financial condition.

**4.4 General Investment Risks**

**(a) Regulatory risks and Government Policy changes**

The Company's exploration and development activities are subject to extensive laws and regulations relating to numerous matters including resource licence consents, conditions including environmental compliance and rehabilitation, taxation, employee relations, health and worker safety, waste disposal, protection of the environment, native title and heritage matters, protection of endangered and protected species and other matters. Changes in government policies or legislation may affect ownership of

mineral interests, taxation, royalties, land access, labour relations, and mining and exploration activities of the Company.

The Company requires permits from regulatory authorities to authorise the Company's operations. These permits relate to exploration, development, production, and rehabilitation activities. Obtaining necessary permits can be a time consuming process and there is a risk that the Company may not obtain these permits on acceptable terms, in a timely manner, or at all. Any costs or delays associated with obtaining necessary permits and complying with these permits and applicable laws and regulations could materially delay or restrict the Company from proceeding with the development of a Project or the operation or development of a mine. Any failure to comply with applicable laws and regulations or permits, even if inadvertent, could result in material fines, penalties or other liabilities. In extreme cases, failure could result in suspension of the Company's activities or forfeiture of one or more of the Company's Tenements.

**(b) Economic and market conditions**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's ability to fund its operations. Share market conditions may affect the value of the Company's Equity Securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (1) general economic outlook;
- (2) commodity prices;
- (3) interest rates and inflation rates;
- (4) changes in investor sentiment toward particular market sectors and commodity types;
- (5) the demand for, and supply of, capital; and
- (6) terrorism or other hostilities.

The market price of Equity Securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for securities in general. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

**(c) Foreign exchange rate risk**

The Company's revenue and expenditure will be taken into account in Australian dollars (**AUD**). The Company's operating and exploration expenses are largely incurred in AUD. Gold is sold throughout the world based principally on a USD price. Therefore, the Company is exposed to fluctuations and volatility in the USD and AUD exchange rates. Movements in these exchange rates may adversely or beneficially affect the Company's results or operations and cash flows.

**(d) Taxation**

The acquisition and disposal of Equity Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential

investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Equity Securities from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Equity Securities in accordance with this Offer Booklet.

**(e) Liquidity risk**

An application will be made to ASX for Quotation of the New Shares offered pursuant to this Offer Booklet within 7 days of the date of this Offer Booklet.

However, no assurance can be given of the price at which New Shares will trade or that they will trade at all. Potential Applicants should, therefore, be prepared to hold their New Shares for extended periods pending the development of the Projects and potential opportunities emerging in the future. The market price of Equity Securities can fall, as well as rise, and may be subject to varied and unpredictable influences on the market for equities and, in particular, resources entities. Neither the Company nor the Directors provide any warranty as to the future performance of the Company or any return on an investment in the Company.

This may affect the liquidity of trading in the Company's Shares, which may result in a lower volume of Shares being traded than would otherwise have been the case, potentially making it difficult to realise any return on your investment.

**(f) Reliance on key personnel**

The Directors are primarily responsible for overseeing the operations and the strategic management of the Company. The day-to-day operations of the Company are the responsibility of the Managing Director. There can be no assurance that there will be no detrimental impact on the Company if one or more of the Directors, particularly the Managing Director, no longer act as Directors of the Company.

**(g) Information technology/privacy**

The Company relies heavily on its own computer systems and those of third party service providers to store and manage private and confidential information. A malicious attack on the Company's systems, processes or people from external or internal sources could put the integrity and privacy of the Company's data at risk. If the Company's efforts to combat any malicious attack are unsuccessful or the Company has actual or perceived vulnerabilities, the Company's business reputation and brand name may be harmed, potentially having a material adverse effect on the Company's operations and financial position.

**(h) Insurance**

The Company insures its operations in accordance with industry practice. However, in certain circumstances the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

Insurance of all risks associated with mineral exploration and production is not always available and where available the costs can be prohibitive.

**(i) Climate change**

There are a number of climate-related factors that may affect the operations and proposed activities of the Company.

Climate change may be said to cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. These risks said to be associated with climate change may have a direct impact on Company's ability to perform its mining operations, and may significantly change the industry in which the Company operates.

In addition, changing investor sentiment towards climate change, including a view that all mining should be avoided due to its contribution to greenhouse gas emissions (despite the reliance on the various metals by the renewables sector) and, thus, cause investors to cease investing in mining and exploration entities, may have a significant adverse effect on the Company's ability to secure additional funding and other ancillary products and services (including, for example, appropriate insurance at affordable prices).

**4.5 Speculative investment**

The above risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares offered under this Offer Booklet.

Therefore, the New Shares to be issued pursuant to this Offer Booklet carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for any New Shares pursuant to this Offer Booklet.

### **5.1 Acceptance of Entitlement Offer**

Your acceptance of the Entitlement Offer must be made in accordance with the instructions contained in your personalised Application Form accompanying this Offer Booklet. Your acceptance must not exceed your Entitlement as shown on that form. If it does, your acceptance will be deemed to be for your maximum Entitlement.

You may participate in the Entitlement Offer as follows:

- (a) if you wish to accept your full Entitlement, you must pay your application monies via BPAY® or EFT (if you are unable to pay via BPAY®, for example, because you are a New Zealand Shareholder who does not have an Australian bank account) in accordance with the instructions, and for the amount indicated, on the Application Form. Please refer to section 5.5 for further information regarding payment via BPAY® or EFT. Your application monies must be received by the Share Registry by no later than 5:00pm (Sydney time) on the Closing Date; or
- (b) if you only wish to accept part of your Entitlement, you must pay the appropriate application monies for the relevant part via BPAY® or EFT (if you are unable to pay via BPAY®, for example, because you are a New Zealand shareholder who does not have an Australian bank account) in accordance with the instructions, and for the amount indicated, on the Application Form. Please refer to section 5.5 for further information regarding payment via BPAY® or EFT. Your application monies must be received by the Share Registry by no later than 5:00pm (Sydney time) on the Closing Date; or
- (c) if you do not wish to accept any part of your Entitlement, you are not obliged to do anything.

Eligible Shareholders who do not take up their Entitlement in full will not receive any payment or value for any part of their Entitlement that they do not take up and their Shareholding in the Company will be diluted.

The Directors retain the discretion to refuse to accept applications for New Shares (in whole or in part) where the effect of issuing New Shares to the Applicant will result in the Applicant's, or another person's, Voting Power in the Company increasing from 20% or below to more than 20%, or from a starting point above 20% to below 90%.

### **5.2 Application for Shortfall Shares**

If you wish to apply for Shortfall Shares in excess of your Entitlement under the Shortfall Offer, you may do so in accordance with the instructions referred to in the Application Form. Please read the instructions carefully. Any Shortfall Shares applied for in excess of your Entitlement will be issued from the excess of any New Shares not applied for in accordance with the Entitlement Offer (if any) and there is no guarantee that you will receive all, or any, of the amount of the Shortfall Shares applied for pursuant to the Shortfall Offer.

Application monies received by the Company in excess of the amount in respect of your Entitlement will be treated as an application to apply for as many New Shares as that excess amount will pay for, in full, at the issue price of \$0.002 per New Share (up to the maximum number of New Shares available as per the discretion in 5.1 above).

For payment methods, please refer to section 5.4.

### **5.3 Allocation of Shortfall Shares**

Subject to the Directors retaining discretion to refuse to accept applications (in whole or in part) for Shortfall Shares under the Shortfall Offer where the effect of issuing Shortfall Shares to the Applicant will result in the Company breaching the ASX Listing Rules or the Applicant's, or another person's, Voting Power in the Company increasing from 20% or below to more than 20%, or from a starting point above 20% to below 90%, applicants under the Shortfall Offer will be allocated the lesser of:

- (a) the number of Shortfall Shares applied for by the Applicant; and
- (b) if the number of Shortfall Shares available for subscription is less than the aggregate number of Shortfall Shares applied for by all unsatisfied Applicants, the number of Shortfall Shares applied for, scaled on a pro rata basis according to all unsatisfied Applicant's respective Shareholdings in the Company as at the Closing Date for the Entitlement Offer.

If, following the allocation process referred to in paragraphs (a) and (b) immediately above, there are any remaining Shortfall Shares, that allocation process will be repeated continuously until all applications for Shortfall Shares have been satisfied in full or there are no further Shortfall Shares.

The Directors intend to place the shortfall of any Shares not subscribed for pursuant to the Entitlement Offer or Shortfall Offer, within three months following the Closing Date, and to carry out additional capital raising activities if necessary. The Directors reserve the right to pay a commission of up to 6% (exclusive of GST) of any amounts subscribed under any such placement through any licensed securities dealers or Australian financial services licensee in respect of any Applications lodged and accepted by the Company.

### **5.4 Payment Methods**

Eligible Shareholders may make payment of your application monies in the following ways:

- (a) by BPAY®; or
- (b) if you are unable to pay via BPAY® (for example, because you are a New Zealand Shareholder who does not have an Australian bank account), by EFT.

Cash or cheque payments will not be accepted. Receipts for payment will not be issued. Any application monies received for more than your final allocation of New Shares (only where the amount is \$1.00 or greater) will be refunded as soon as practicable. No interest will be paid on any application monies received or refunded.

### **5.5 Payment by BPAY® or EFT**

For Eligible Shareholders wishing to pay via BPAY® or EFT, please follow the instructions on the Application Form. You can only make a payment via BPAY® if you are an Eligible Shareholder and the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (a) you do not need to submit the Application Form but are taken to have made the declarations on that Application Form; and

- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your application monies.

**It is your responsibility to ensure that your BPAY® or EFT payment is received by the Share Registry by no later than 5.00pm (Sydney time) on the Closing Date. You should be aware that your financial institution may implement cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment.**

Any application monies received for more than your final allocation of New Shares (only where the amount is \$1.00 or greater) will be refunded. No interest will be paid on any application monies received or refunded.

The Entitlement Offer is non-renounceable. Accordingly, Shareholders may not sell or transfer all or part of their Entitlement.

## **5.6 Representations you will be taken to make by acceptance**

- (g) agreed to apply for and be issued up to the number of New Shares specified in the Application Form, or for which you have submitted payment of any application monies via BPAY® or EFT at the issue price of \$0.002 per New Share;

  - (1) determination of eligibility of investors for the purpose of the Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of the Company; and
  - (2) the Company, and each of its Affiliates, disclaim any duty or liability (including for negligence) in respect of that determination and the exercise or otherwise of that discretion, to the maximum extent permitted by law;
- (j) acknowledged that the information contained in this Offer Booklet and your Application Form is not investment advice nor a recommendation that the New Shares are suitable for you given your investment objectives, financial situation or particular needs;

Cooling-off rights do not apply to an investment in New Shares. You cannot, in most circumstances, withdraw your application once it has been accepted.

## **6. Additional information**

---

### **6.1 Not financial product or investment advice**

This Offer Booklet and the accompanying Application Form is for information purposes only and is not financial product or investment advice or a recommendation to acquire New Shares and has been prepared without taking into account your objectives, financial circumstances or particular needs. This Offer Booklet should not be considered to be comprehensive and does not purport to contain all the information that you may require to make a decision about whether to apply for any New Shares. This Offer Booklet should be read in conjunction with the Company's other periodic statements and continuous disclosure announcements lodged with ASX and available at [www.prodigygold.com.au](http://www.prodigygold.com.au).

Before making an investment decision, you should consider the appropriateness of the information in this Offer Booklet having regard to your own objectives, financial situation and needs and seek legal and taxation advice appropriate to your jurisdiction. If you have any questions about whether you should participate in any of the offers under this Offer Booklet, you should seek professional advice before making any investment decision. The Company is not licensed to provide financial product advice in respect of the New Shares.

### **6.2 Allotment**

New Shares issued pursuant to the Entitlement Offer and Shortfall Offer will be allotted in accordance with ASX Listing Rules and the timetable set out in this Offer Booklet.

Where the number of New Shares issued is less than the number applied for, or where no allotment is made, any surplus application money received by the Company will be refunded to the Applicant in full as soon as practicable after the Closing Date of the Entitlement Offer. No interest will be paid on any application money refunded to Applicants.

Pending the allotment and issue of New Shares or payment of refunds pursuant to this Offer Booklet, all application money will be held by the Company on trust for the Applicants in a separate bank account as required by the Corporations Act. The Company will, however, be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for New Shares issued pursuant to the Entitlement Offer and Shortfall Offer will be mailed to Applicants in accordance with the ASX Listing Rules and timetable set out at the commencement of this Offer Booklet.

### **6.3 Brokerage and Stamp Duty**

No brokerage fee is payable by Eligible Shareholders who accept their Entitlement. No stamp duty is payable for applying for New Shares pursuant to the Entitlement Offer.

### **6.4 ASX listing**

An application has been made for Quotation of the New Shares offered pursuant to this Offer Booklet. If ASX does not grant Quotation of the New Shares offered pursuant to this Offer Booklet, the Company will not issue any New Shares and will repay all application money for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Quotation of the Shares offered pursuant to this Offer Booklet is not to be taken in any way as an indication of the merits of the Company or the Shares offered for subscription.

## **6.5 Continuous disclosure obligations**

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all ASX listed companies, the Company is required to immediately disclose to the market any information that a reasonable person would expect to have a material effect on the price or the value of the Company’s securities.

As such, this Offer Booklet should be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus prepared in accordance with the Corporations Act. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision as to whether or not to invest. Information that is already in the public domain has not been reported in this Offer Booklet.

ASX maintains files containing publicly available information for all listed companies. The Company’s file is available for inspection at ASX during normal office hours.

The Company’s announcements are also available at [www.prodigygold.com.au](http://www.prodigygold.com.au).

## **6.6 Clearing House Electronic Sub Register System (CHES) and Issuer Sponsorship**

The Company will not be issuing share certificates. The Company is a participant in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company. Because the sub registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Shares allotted to them in accordance with this Offer Booklet. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures pursuant to CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

## **6.7 Governing Law**

This Offer Booklet and the contracts formed on acceptance of an Application are governed by the laws of the Northern Territory, Australia. Each Applicant submits to the non-exclusive jurisdiction of the courts of the Northern Territory, Australia.

Except as required by law, and only to the extent so required, none of the Company, nor any other person, warrants or guarantees the future performance of the Company or any return on any investment made pursuant to this Offer Booklet or its contents.

#### **6.10 Withdrawal of Entitlement Offer**

The Company reserves the right to withdraw all or part of the Entitlement Offer at any time, subject to applicable laws, in which case the Company will refund application monies in relation to New Shares not already issued in accordance with the Corporations Act and without payment of interest.
