Notes to the financial statements

Note 1. Significant accounting policies

Basis of preparation

These general purpose financial statements for the interim half-year reporting period ended 31 December 2015 have been prepared in accordance with IAS 34 'Interim Financial Reporting'. They do not include all the information required in annual financial statements in accordance with IFRS, and should be read in conjunction with the annual report for the year ended 30 June 2015 and any public announcements made by the Company during the interim reporting period.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

Going concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business. The consolidated entity is a mineral exploration entity and as such does not currently generate operating revenue to support continued business activities. The consolidated entity is therefore dependent on maintaining cash reserves.

The directors believe that they will be able to realise the consolidated entity's assets and extinguish its liabilities in the normal course of business and at the amounts stated in these financial statements.

Note 2. Operating segments

Identification of reportable operating segments

The Company operated predominately as an explorer for base precious metals, with the emphasis on gold, silver, zinc and lead mineralisation within Australia.

IFRS 8 requires operating segments to be identified on the basis of internal reports about the components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance. The board reviews the Company as a whole in the business segment of mineral exploration within Australia.
