During the June 2025 quarter, FUM for Regal Partners Limited (ASX:RPL, "Regal" or the "Company") rose to \$17.7 billion, a 7.0% increase on the \$16.5 billion of FUM at 31 March 2025. When considering additional non-fee-earning commitments ("Commitments"), total FUM and Commitments rose 5.5% from \$17.9 billion to \$18.9 billion over the quarter.

The increase in FUM was driven by a combination of continued net client inflows and positive investment performance across a wide range of investment strategies.

Net FUM inflows in the quarter were approximately +\$0.6 billion, driven by a wide range of funds and asset classes, including the PM Capital global long/short and enhanced yield strategies, Taurus Funds Management's mining finance fund*, Merricks Capital credit strategies and co-investments and the unlisted multi-strategy Regal Partners Private Fund.

Positive investment performance of almost +\$1.0 billion contributed +5.8% to FUM growth, reflecting favourable returns across a wide range of strategies, but particularly strong performance in the Long/Short Equities and Multi-strategy asset classes.

Note: Past performance is not a reliable indicator of future performance.

* Credit and royalties net flows included approximately \$150 million of non-fee-earning commitments for Taurus Funds Management that became fee-earning.

** Commitments comprise non-fee-earning commitments only.

The change within “Other” includes \$0.2 billion of distribution payments (net of reinvestments) as well as other factors such as buy-backs and adverse foreign exchange movements for Taurus Funds Management from a stronger Australian dollar.

The acquisition of 50% of Ark Capital Partners in June has not contributed to June 2025 FUM or net flows in the June 2025 quarter, but funds that are raised through this partnership will be included in future net flows.

1H25 RESULTS UPDATE AND UPGRADE TO PERFORMANCE FEE ESTIMATE

As announced previously, RPL is scheduled to release its 1H25 results (for the six months to 30 June 2025) on Monday, 25 August 2025.

In respect of the 1H25 result, the Company has upgraded its estimate for performance fee revenue for the 1H25 period to at least \$40 million (pre-tax and on a normalised basis)⁴ from its previous estimate of “at least \$35 million” announced on 3 July 2025.

In addition, the Company advises it currently expects that 1H25 Normalised NPAT will be at least \$40 million⁵.

Performance fees have been driven primarily by the Company’s global long/short equity strategies, including PM Capital’s global equities strategy and the recently launched Regal Global Small Companies Fund, as well as Regal Resources Royalties Fund, Regal Private Credit Opportunities Fund and Regal Emerging Companies Fund III. There were also contributions from the partly owned Attunga Capital and Taurus Funds Management businesses.

It is emphasised that the above performance fee and NPAT estimates are approximate and subject to auditor review. Performance fees are variable and may fluctuate significantly from period to period, even over short periods of time.

Average FUM for 1H25 is estimated to be \$17.5 billion.
