

28 February 2025

**Notice pursuant to Section 708A(5)(e) of the Corporations Act**

---

This notice is provided by Brainchip Holdings Ltd (**BRN**) for the purposes of Section 708A(5)(e) of the Corporations Act 2001 (**Corporations Act**).

BRN today issued 40,000,000 fully paid ordinary shares (**Shares**) in accordance with the provisions of the Fourth Amendment of the Put Option Agreement with LDA Group as announcement to ASX on 07 January 2025.

For the purposes of Section 708A(5)(e) of the Corporations Act, the Company gives notice of the following in respect of Shares:

1. The Shares were issued without disclosure to investors in accordance with Part 6D of the Corporations Act.
2. The Company, as at the date of this notice, has complied with:
  - (a) the provisions of Chapter 2M of the Corporations Act as they apply to it; and
  - (b) Section 674 and 674A of the Corporations Act.
3. There is no excluded information, as defined in sections 708A(7) and 708A(8) of the Corporations Act, as at the date of this notice.

This notice is authorized for release by the BRN Board of Directors.

**About BrainChip**

BrainChip is the worldwide leader in edge AI on-chip processing and learning. The company's first-to-market, fully digital, event-based AI processor, Akida™, uses neuromorphic principles to mimic the human brain, analysing only essential sensor inputs at the point of acquisition, processing data with unparalleled efficiency, precision, and economy of energy. Akida uniquely enables edge learning local to the chip, independent of the cloud, dramatically reducing latency while improving privacy and data security. Akida Neural processor IP, which can be integrated into SoCs on any process technology, has shown substantial benefits on today's workloads and networks, and offers a platform for

developers to create, tune and run their models using standard AI workflows like TensorFlow/Keras. In enabling effective edge compute to be universally deployable across real world applications such as connected cars, consumer electronics, and industrial IoT, BrainChip is proving that on-chip AI, close to the sensor, is the future, for its customers' products, as well as the planet.
